This is a digital copy of a book that was preserved for generations on library shelves before it was carefully scanned by Google as part of a project to make the world's books discoverable online.

It has survived long enough for the copyright to expire and the book to enter the public domain. A public domain book is one that was never subject to copyright or whose legal copyright term has expired. Whether a book is in the public domain may vary country to country. Public domain books are our gateways to the past, representing a wealth of history, culture and knowledge that's often difficult to discover.

Marks, notations and other marginalia present in the original volume will appear in this file - a reminder of this book's long journey from the publisher to a library and finally to you.

Usage guidelines

Google is proud to partner with libraries to digitize public domain materials and make them widely accessible. Public domain books belong to the public and we are merely their custodians. Nevertheless, this work is expensive, so in order to keep providing this resource, we have taken steps to prevent abuse by commercial parties, including placing technical restrictions on automated querying.

We also ask that you:

+ *Make non-commercial use of the files* We designed Google Book Search for use by individuals, and we request that you use these files for personal, non-commercial purposes.

+ *Refrain from automated querying* Do not send automated queries of any sort to Google's system: If you are conducting research on machine translation, optical character recognition or other areas where access to a large amount of text is helpful, please contact us. We encourage the use of public domain materials for these purposes and may be able to help.

+ *Maintain attribution* The Google "watermark" you see on each file is essential for informing people about this project and helping them find additional materials through Google Book Search. Please do not remove it.

+ *Keep it legal* Whatever your use, remember that you are responsible for ensuring that what you are doing is legal. Do not assume that just because we believe a book is in the public domain for users in the United States, that the work is also in the public domain for users in other countries. Whether a book is still in copyright varies from country to country, and we can't offer guidance on whether any specific use of any specific book is allowed. Please do not assume that a book's appearance in Google Book Search means it can be used in any manner anywhere in the world. Copyright infringement liability can be quite severe.

The Street Commissioner presented a return of property which had been advertised on the 1st March inst. for nonpayment of Assessments thereon. He stated that the Sale of certain lots therein mentioned had been postponed at the request of Colonel Rutgers, he undertaking the payment of the same. The Letter from Colonel Rutgers dated March 1. 1820 to that effect was presented with the report. Whereupon the said postponement was approved and the report was directed to be filed.

[117] He also presented a return of certain property which had been assessed for opening Canal Street and the Assessment not paid; which being peculiarly circumstanced he recommended to be referred for consideration to some Committee. Whereupon it was referred to the Finance Committee.

He also presented Assessments for a Well and Pump in Green near Broome Street and for a Well & Pump in Thompson Street near Spring Street—which were confirmed and John G. Betts appointed Collector.

He also presented an ordinance for building by the owners of the Water lots on West St. between Courtland & Duane Sts. a bulkhead in West St. from Courtland to Duane Street—which was passed.

He also presented a communication respecting certain lots which were advertised for Sale on 1st March inst. for nonpayment [118] of Assessments but which were not sold and recommending a reference of the subject. Whereupon it was referred to the Finance Committee with power to act in the premises.

He also presented the following returns of Delinquents on Assessments and Warrants were ordered to issue to the collectors thereon for collecting the same—viz. For regulating & paving Sullivan Street from Grand to Watts St: For regulating & paving Elm St. from Grand to Broome Street, John G. Betts Collector.

For regulating and paving Orange Street: For regulating & paving Ludlow St: For regulating and paving the Bowery from North to

Jones St. and for a Well & Pump in Lombardy Street, Morris De Camp—Collector.

The Attorney presented report of the following complaints made to him, which were referred to the Committee on Public [119] Offices, Viz. Against Adam Pettreey for acting as Sweepmaster without a licence, and against George Rodney for selling liquor without licence.

The Committee on applications to the Legislature, on the Memorials of Thomas Fessenden & Joshua L. Pell, reported:

That they have considered the several matters referred to them with as much deliberation as the necessity of a speedy determination would permit. With respect to the projected law, it appears that an Act of similar import with the two first Sections thereof is now before the Legislature, and as to the other sections it was not deemed expedient to take any measure.

It is a matter of much regret to your Committee that differences should have arisen between public officers, whose duty it undoubtedly is, and whose pride your Committee had hoped it would be, to facilitate the transaction of public business by all proper and equitable means within their power [120] and the more especially as the present is a new system adopted by the Honorable the Legislature at the instance of and with liberal salaries to be paid by this Board, with a view and in the laudable hope of rescuing the Courts of the Assistant Justices not merely from the reproach which had been too often and probably unjustly thrown upon them, but also in the pleasing expectation of raising those tribunals to a full and just participation of public confidence and respect.

In this view of the subject your Committee cannot but think that some respect was due from the Assistant Justice to the recommendation (of which he admitted he had some knowledge) contained in the resolution of this Board, as to the time they would expect the Clerks to be in their office.

It is proper that these offices should be kept open for the issuing of process from [121] nine in the morning until sunset: but it is manifest that the remaining so great a length of time in the Office without intermission would be too severe a duty for any man to perform, and it must be admitted that the time from 1 to 3 o'clock in the afternoon for refreshment, being that recommended by the Board, is no more than reasonable and ought to be allowed. But it is not intended that any thing herein contained should be construed to involve any suggestion or pretence that this Board has a right to prescribe to

the Assistant Justices the times during which their Courts should be kept open. The existence of such a right is frankly disclaimed.

But these remarks are intended to convey a respectful suggestion to this Board that it ought not, so far as it is interested, to require of the said Clerks to remain in their offices at any time between 1 and 3 o'clock in the afternoon, and that there is not any good reason for disturbing the [122] former resolution of this Board on the subject.

As to the other matter referred to, your Committee, they are decidedly of opinion that its determination involves questions the decision of which is neither within the jurisdiction of this Board nor subject to the application of its authority. It is not within the province of this Board to exercise judicial powers in the legal exposition of Statutes or to attempt to direct the Courts of law as to what course of practice they either should or ought to adopt in any case, and if this Board were to assume itself such an authority it is perfectly manifest that it could not enforce the observance of its directions.

Your Committee, therefore, have not attempted to make any exposition of the Statute in their report, being well assured that it is the duty and the right of the Justices to determine in the first instance [123] every question of law and of practice arising in their respective courts, and if any person be aggrieved by such decision the remedy rests in the right of appeal to some higher judicial tribunal. Your Committee do not however perceive that the present case is one calling for the exercise of any appellate right, but they are decidedly of opinion that it is perfectly competent to the courts in question to determine what the several duties of their respective Clerks are under the existing Statutes and that it is the duty of the respective Clerks to submit cheerfully to such decision, and that the manner of the appointment of such Clerks cannot in any degree affect this question. Your Committee therefore recommend the following resolution:

Resolved that it is the duty of the Clerks of the several and respective Assistant Justices' Courts to perform such duties as the said Assistant Justices shall severally and respectively from time to time reasonably [124] require of such clerks: and farther that this Board, so far as it is interested, will not require or expect the said Clerks to remain in their offices at any time between 1 & 3 o'clock in the afternoon.

which was approved & the resolution adopted.

The Road Committee, on petition of Andrew Backus that his house at the intersection of 6th Avenue may remain, reported the following resolution:

Resolved, that Andrew Backus be authorized to delay the removal of his house at intersection of 6th Avenue & Cornelia Street until further orders from the proper officer of this Board.

[125] The Street Committee and Chairman of the Finance Committee, on the subject of contracting for cleaning the Streets, reported:

That in considering this subject your Committee have naturally been led to bring to mind the incessant complaints which have been made by the citizens against the present method of sweeping the streets and the inefficient manner in which the contractors have performed their duty, and on the other hand they have not been unmindful of the representations made by the Contractors of the ruinous consequences flowing from the losses sustained by the fall in the price of manure and the inability of the farmers to purchase it, and also their petitions to the Board for relief from the numerous suits brought against them in consequence of their inability from these causes to perform the requirements of the law.

Your Committee would feel much gratification were they able to propose a plan that would remedy the evils so mutually [126] complained of, but they doubt whether any measure can be devised for cleaning the Streets of this City which shall be free from objections or that will not be more or less, a subject of complaint. The Committee are therefore compelled to confess that they are unable to recommend any plans better calculated to answer the purposes intended than those heretofore adopted and put into practice, and they have therefore confined their enquiries to the two plans alluded to.

There appear to your Committee to be two objects, both of paramount importance, to be obtained in deciding this subject: first, the convenience of our citizens, and second the revenue from the manure collected in our streets. The Committee are of opinion that the method pursued for the last two years, though liable to many objections, is far the most preferable as respects the convenience of our citizens; but they have reason to fear [127] from the information they have

received that little or no revenue can in future be expected should that plan be continued; but on the other hand should the plan of sweeping by the inhabitants be again adopted, and to which there are also objections, the revenues will at least be equal, if not much greater than at present.

The Committee have therefore concluded to recommend to the Board that proposals be received for both methods of sweeping & that on the receipt of such proposals the Board decide on the plan they will adopt.

In the further consideration of this subject the Committee were of opinion that if the contract was made to commence on the 1st day of February in each year, instead of the 1st day of May, the streets would be kept in a much better condition than they now are, as an inducement would be held out to the contractors to take advantage of any mild weather which might occur in the months of December and January to [128] remove the manure then remaining, which otherwise would revert to the benefit of their successors; and the Committee have concluded to frame the resolutions conformably to this opinion and propose the following accordingly:

Resolved that the Comptroller give notice thro' the papers employed by the Corporation that sealed proposals will be received at his Office until the 27th day of March instant for the street manure to be collected in the eastern and western districts of this City respectively; that such proposals specify the amount offered for the said manure from the 1st day of May next to the 1st day of February 1821 and also the amount offered for said manure from the 1st day of May next to the 1st day of February 1822: the streets to be swept by the inhabitants in conformity with a former ordinance of the Common Council passed the 5th day of May 1817.

[129] Resolved that he also give notice in like manner that sealed proposals will be received for the Street Manure, for the same terms of time as above; on the condition that the Contractors shall sweep the streets and remove the manure at their own cost and expence, agreeably to an ordinance of the Common Council entitled 'A Law to amend a Law to regulate the removal of the filth and dirt from the Streets in the City of New York, passed the 4th day of May 1818, and also of the 6th, 8th, 10th, 11th, 12th, 13th, 14th, 15th, 16th, & 17th Sections of the Ordinance amended—and farther that the proposals contain

the names of the person or persons offered as sureties for the performance of such proposition.

which was approved & the resolution adopted.

[130] The Finance Committee, on the report of the Comptroller relative to property belonging to the Corporation which might be disposed of, reported the following Resolutions:

Resolved that the Comptroller be instructed to give notice thro' the papers employed by this Board that on the 6th day of April next the following property will be leased at auction at the City Hall to the highest bidder for the term of years as hereafter designated:

The Cellar under Duane Market for one year

The Cellar under Greenwich Market for one year.

The school room over the Engine house in Beaver Street for One year.

The easterly part of lots Nos. 31. 32 Common Lands near the Powder House containing acres for 5 years.

The School room over the Engine house in Rose Street for one year.

[131] Lots No. 84 five acres, No. 110—5¼ acres, No. 163—6¼ acres—No. 188. 4 acres or thereabout, common Lands to be leased separately for 3 years.

The House and Lot at Brooklyn, at present occupied by John Gildersleeve near the Old Ferry for 7 years.

The Dock & Wharf at Brooklyn near the Old Ferry, now in the occupation of William Cutting for 3 years.

The leases of all the above mentioned property to commence on the 1st of May next.

The Committee beg leave farther to state that there are several lots of ground at Brooklyn, the leases of which will expire and are to be renewed for a term of years from May next at a rent to be determined by appraisers chosen by the parties for that purpose; and as it is necessary a proper person should be selected on the part of this Board, they propose the following resolution:

Resolved that John Targee be and he is hereby appointed to act in behalf of this Board as appraiser to fix & agree upon [132] the rents

of certain lots of ground at Brooklyn, the leases of which will expire on the 1st of May next and are to be renewed for a term of years— provided for by said sales.

(signed) S. Allen
J. Hammond
B. Crane
J. Hone
S. P. Brittain

which was approved & the resolutions adopted.

The Committee of Public Lands and Places, on the Memorial of the Trustees of Brooklyn, reported:

That the Memorialists are desirous of straightening Water Street in that Village so as to make a direct course between the two ferries. To effect this it will be necessary to remove the Ferry House No. 13 now occupied by John Gildersleeve at an annual rent of $230 and the House No. 12 occupied by Bedell & [133] Sammis at $120 rent; both the property of the Corporation of this City. The lease of both those lots will expire on the 1st of May next, but Bedell & Sammis have a right to 14 years extension of the term at such rent as may be fixed by appraisement.

Under these circumstances your Committee cannot think the Common Council ought to direct the removal of the buildings in question, altho' they are convinced that the contemplated improvement would be very advantageous to the Village of Brooklyn and of course a benefit to the City property in that village. The Committee have concluded to offer the following resolutions:

Resolved that this Common Council deem it inexpedient at present to order the removal of any house or houses belonging to them in the village of Brooklyn.

Resolved that this Common Council will not object to the exercise of any power the Trustees of the Village of Brooklyn may possess for the improvement of said [134] village, provided such improvement is made under a fair Assessment for injury and benefit to the respective proprietors.

(Signed) J. Hone
R. McQueen
W. A. Davis
J. B. Taylor

which was approved & the resolution adopted.

whereupon said certificates were directed to be duly executed.

The Counsel, agreeably to order, presented a Law entitled a Law regulating the salaries and compensations of the Officers of the Corporation of the City of New York—which was read by paragraphs and passed.

[146] The report presented on 21st February by the Committee of Public Lands and Places, on the memorial of Robert Macomb respecting a project for supplying this City with water, was called up & read as follows: That the Committee have had several conferences with Mr. Macomb, from which they understand that he has associates who can & are willing to furnish ample means to enable him to convey an abundant supply of pure water for public and private uses from Rye Pond in Westchester County to this City in the course of two years, and that he will not ask any pecuniary aid from the Common Council. All he prays is the privilege of laying down the necessary pipes.

The Committee, after due reflection can discover no reasonable objection to granting this privilege, so far as it can be done without prejudice to the rights of any incorporation or individuals, unless it should be thought that the Com- [147] mon Council ought to undertake a work so important to the comfort and interest of our citizens and not confide it to individual enterprise. The Committee have concluded to offer the following resolutions:

Resolved that Robert Macomb and his associates be permitted to lay down pipes in the roads & Streets of this City, whenever it appears to the Common Council that a sufficient quantity is collected in a reservoir at Harlaem River—provided that in so doing they do not interfere with the rights of others.

Resolved that Robert Macomb and his associates shall bind themselves and their successors in a Contract with the Common Council to transfer at any time when required, after the expiration of Forty years from the completion of the water works all right and interest therein to the Mayor, Aldermen & Commonalty of this City for which they shall receive the cost of constructing the said water works after deducting a proper allowance for use & wear.

[148] Resolved that the Committee on Public Lands & Places, together with the Counsel of this Board be instructed to prepare a contract and make arrangements with Robert Macomb and his Associates in conformity with the preceding resolution and report the same to this Board and that no rights or privileges be conveyed by

these resolutions but only by the contract contemplated to be entered into.

The Minutes of last Meeting were read & approved.

A petition of William Butler for time for payment of an Assessment laid on him for repaving Chapel Street, was read and referred to the Finance Committee with power to grant the prayer of petitioner.

[153] A petition of Lemuel Richardson for appointment to the Office and of Robert Ogilby for appointment to Office of City Weigher, were read and referred to the Committee on Applications.

A Memorial from Stephen Brown, stating that for one year, including part of the years 1816 & 1817 he discharged the duties of both House Physician and Surgeon to the Alms House and Penitentiary for which no compensation has been made to him and soliciting some compensation for those services: which being read was referred to the Commissioners of the Alms House.

A Remonstrance in favor of Gillet and a petition from Henry Southard for appointment to the Office of Overseer of the convicts at the Penitentiary, were read and referred to the Commissioners of the Alms House.

A petition of Alexander Kerr, Edward [154] Hazleton & of Mary M^cAndrew, for relief from fine incurred by selling liquor without licence and a petition of Ezekiel Miles for relief from a suit instituted against him, were severally referred to the Police Committee with authority, if in their opinion proper, to grant the prayers of the several petitioners.

A petition for a Well & Pump in Lawrence near Bleecker Street, was referred to the Alderman & Assistant of the Eighth Ward & Street Commissioner to report an Ordinance therefor.

A remonstrance of the Hay Cartmen against granting the prayer of the petition presented at the last meeting requesting that the price for carting Hay might be lowered, was referred to the Committee on Retrenchment.

A remonstrance from sundry owners and [155] inhabitants against the report of the Commissioners of Assessment for enlarging and improving those parts of Washington Street between Courtland and Liberty Streets and between Warren & Chamber Streets was read and referred to the Counsel of the Board.

A petition of Robert P. Deneke for Stall No. 8 Spring Street Market, was read and referred to the Market Committee.

A petition of John Swartscope, stating he had invented a Machine for cleaning chimnies and praying the countenance of the Board, was read and referred to the Committee on Arts & Sciences.

The Street Commissioner presented an Ordinance for a Well and Pump in Elizabeth Street near Prince Street—which was passed and Abraham Bloodgood, James Barron and Benjamin Prince were appointed Assessors therein.

[156] He also presented an Assessment for a Well and Pump in Mott Street near Grand Street, which was confirmed and Noah Jarvis appointed Collector.

He also presented the following notice and stated that after 3 months advertisement no claimants had appeared.

'Corporation Notice.'

Public notice is hereby given, in pursuance of the provisions of the Act of the Legislature of the people of the State of New York entitled 'An Act authorizing the Mayor, Aldermen & Commonalty of the City

of New York to take possession of certain unclaimed lands' passed March 26. 1819, to the owners of the following property in the said City which have been heretofore sold by order of the Mayor, Aldermen & Commonalty of the City of New York for the payment of sundry taxes and Assessments, in pursuance of the Acts of the Legislature of the people of the [157] State of New York, in such cases made and provided, that the terms for which the said lots, pieces or parcels of land have been sold have expired and the owners of the same are hereby notified to appear and take possession of the said premises— Viz.

whereupon it was referred to the Finance Committee to take such measures thereon as they should judge expedient.

He also represented that on the 23d August last an Ordinance was passed directing a culvert to be built in Amity Street to communicate with the Sewer intended to be built in the 6th Avenue so as to carry off the Minetta water; but in consequence of the proprietors of property between Amity and 4th Streets filling up their low grounds the Committee [159] on that subject have directed the culvert to be built in 4th Street. He would therefore suggest the propriety of repealing the former ordinance and of confirming the one enclosed.

(signed) John McComb. St. Comr

Whereupon an Ordinance repealing the former ordinance of the 23d August was presented and passed and the Ordinance now presented was also passed and Jonathan Thompson, Ezekiel Bishop and John Targee were appointed Assessors therein.

An account for the fees of a Jury in the case of John Mercer & the heirs of Franklin was presented & referred to the Counsel to report thereon.

The Street Committee on the petition for regulating Green Street, reported the following resolution:

Resolved that Green Street be regulated from Spring Street to the Southerly side of Grand Street and that the St. Commissioner [160] prepare an Ordinance for the same.

(Signed) J. B. Taylor

The Committee on Wharves, Piers & Slips, to whom was referred the subject of renting [164] the Public Docks & Slips for the ensuing year, Reported: the following resolution:

Resolved that the Comptroller be instructed to give notice in the papers employed by this Board that proposals will be received at his office till the 3d day of April at 2 o'clock for one year's Lease from the first day of May next of the Wharves, Piers and Slips belonging to the Corporation, subject to the Ordinances on that subject—such proposals to contain the names of the sureties offered for the due performance of the proposition.

(Signed) Stephen Allen
Samuel Stevens
Asa Mann
Robert McQueen
Hermanus Tallman

which was approved & the resolution adopted.

The Committee of Charity, on the application from the Society for Promotion of Industry soliciting a larger donation [165] than heretofore allowed—reported:

That they have had the subject under consideration and have had an interview with one of the directresses and were informed that unless the Corporation would grant a large sum they could not open their House, having expended all their funds the last season.

Your Committee have also learned that the Board of Directresses have finally closed their Institution without any expectation of again re-opening it.

(Signed) Shivers Parker
Thomas Bolton
David Board

whereupon the same was directed to be filed.

The Committee on Public Offices, on the Communication from the City Sealer of Weights & Measures, reported:

That they have had this subject under consideration and they agree in opinion with him that many inconve- [166] niences arise to the City

from having two Sealers of Weights and Measures, but that this is an evil which can be avoided by the Board in no other way than by abolishing their own office of Weighmaster which the Committee presume the Board would not agree to do. In relation to so much of the communication as recommends the appointment of a new Officer, to be called the Inspector of Weights and Measures, your Committee believe that we have offices enough already.

In relation to so much of the Communication as relates to the diameters of the dry measures your Committee observe that the Board have not the power to remedy the evil.

And in relation to the recommendation of not permitting any measures to be sold unless first sealed, your Committee do not know that the Corporation have power; and if they have, your Committee think it would not be expedient [167] to use it, even tho' it appears that the people of Philadelphia do so.

In relation to examining the Scales, as well as the Balances, your Committee think it would be proper in the revision of the Laws to insert a clause on this subject making a penalty for having the scales as well as the balances incorrect.

In relation to the not allowing of lead weights to be used, your Committee think that the Board ought to prohibit the use of them, altho' the Sealer thinks there would be a saving to the grocers in the expences of sealing by so doing.

In relation to the last subject of the City Sealer's communication, which is John Edwards' Scale Beams, your Committee believe it is not necessary for the Board to interfere, but that they (the said Edwards and the City Sealer) both be left to exercise their rights and to perform their duties.

The Committee hope that they have expressed an opinion & given consideration [168] to all the subjects which can grow out of the Office of the City Sealer, and conclude their report by offering the following resolution:

Resolved that the Counsel, in revising the Laws, insert a clause, making it penal to have the Scales out of order or incorrect or which do not of themselves balance.

(Signed) Samuel Stevens
John Morss
Benj[a] Crane

which was approved & the resolution adopted.

The Committee of Retrenchments, on the subject of abolishing the Office of Superintendant of Wharves & Piers, reported:

That they have had the subject of said resolution under consideration and are satisfied that the said Office may be done away without any inconvenience, as the Superintendant of repairs is willing to attend to the duties thereof. They therefore recommend the [169] adoption of the following resolution:

Resolved that the Office of Superintendant of Wharves, Piers & Slips be and the same is hereby abolished.

(Signed) John Morss
Wm A. Davis
John Hone
Samuel Stevens

which was approved & the resolution adopted.

The Street Committee, on the petition for extending Lispenard Street, reported:

That Lispenard Street is already opened to within about 200 feet of Broadway: That it is about 50 feet wide and is built on both sides with good substantial houses, most of which are of brick and many of them valuable. That by extending it to Broadway the Street will be much improved and the property materially advanced in value: That most of the proprietors of the property fronting on the Street are very desirous of having the Street extended, and that all the [170] proprietors of the premises required for extending the Street to within 200 feet of Broadway, except Messrs. Isaac Lawrence and Elbert Anderson, have agreed to vest in the Corporation all the premises required for that purpose & that they own but two lots which front on Canal Street. The Committee are of opinion that the value conferred upon the property benefitted would so far exceed the damages that the Commissioners could not with propriety and therefore would not assess any sum upon the Corporation on account of the Buildings. The Committee therefore recommend the adoption of the following resolution:

Resolved that Lispenard Street be extended to Broadway, provided all the proprietors of the property required for that purpose to within 200 feet of Broadway, with the exception of Isaac Lawrence & Elbert Anderson vest the same in the Corporation for a public street.

Resolved that the Counsel of the Board take the necessary measures for [171] carrying the resolution into effect.

(signed) Jacob B. Taylor
John Morss
Shivers Parker
Steph. P. Brittain
Asa Mann

which was approved & the resolution adopted.

Resolved that the Street Committee, to whom on the 31st of January last had been referred the petition of William Paulding and others praying that the Sewer now building in Chapel Street be extended to Duane Street, be discharged from the further consideration thereof and that it be referred to the Canal Committee.

Resolved that the Aldermen and Assistants of the 5th and 8th Wards be authorized to hire for one year from the 1st of May next Rooms for the accommodation of the District Court for those Wards.

He also stated that a Lot on Rhynder Street had been sold on the 1st inst. for non payment of an Assessment, but that the purchaser had not appeared to pay for the same; that it was in a state of Nuisance, and recommended the Nuisance to be abated at public expence, the cost thereof [183] to remain a lien on the land—which was referred to the Street Committee.

The Committee of Wharves, Piers and Slips, on the petition of Stephen D. Beekman & others, reported:

That altho' the law requires the proprietors of ground fronting on West & South Streets to make such parts of those Streets as lie in front of their premises, when required so to do by the Corporation, yet that it has not provided any mode of compelling them so to do, and that all the grants under which those persons hold who have failed to comply do not require them to make South Street.

Under these circumstances the Committee are of opinion that it is expedient that application should be made to the Legislature to amend the law. They have therefore procured a Law to be drafted remedying the defects of the existing law and also a Memorial to the Legislature [184] explaining the necessity of its being passed and also praying that it may receive their sanction.

The Law and Memorial are herewith submitted and the Committee recommend to the Board that they should be forthwith submitted to the Legislature.

Samuel Stevens

which was approved & the Memorial directed to be duly executed & together with the Bill accompanying the same to be transmitted to the Legislature now in Session at Albany.

The Committee, to whom was referred the subject of renting a room for the Assistant Justice's Court in the 7th and 10th Wards, reported:

That they have procured the Room mentioned in the annexed memorandum, [185] being the 2d Story of the House known as Nos. 120 & 122 Division Street and that the rent of the same is $125. for the said year, payable quarterly and they recommend the following resolution:

Resolved that the Counsel be instructed to prepare the counterpart of a Lease in conformity to the said Memorandum.

(Signed) Asa Mann
S. P. Brittain
S. Allen
J. Hammond

which was approved & the resolution adopted.

The Committee of Wharves, Piers and Slips, to whom had been referred the draught of a Law reported by the Counsel, entitled "A Law to amend a Law entitled 'A Law to regulate the lying of vessels at the public Wharves and in the Slips and to establish the rates of Wharfage," reported the same amended in the words following:

Be it Ordained by the Mayor, [186] Aldermen and Commonalty of the City of New York, in Common Council convened—That if the master, owner or person having charge of any vessel or small craft whatever, excepting such as belong to the States of New York, New Jersey and Connecticut or any or either shall after the 1st day of May next come into or lie at or within Coenties Slip, the owner, master or person having charge of any such vessel or small craft shall forfeit and pay for every such offence the sum of $25. and the further sum of $10 for every 24 hours such vessel shall lie at or within the said Slip."

Upon the question of passing the same, it was carried in the Affirmative. The ayes and nays, having been called by Alderman Mann, were as follow:

Affirmative. Mr. Recorder. Aldermen Hone: King: Anthony: Morss: McQueen: Thorp: Allen. Messrs. Bolton: Tallman: Crane: Westervelt: [187] Parker: Brittain: Board: Davis: Hammond.

Negative. Alderman Mann: Mr. Stevens.

The Committee on Applications to the Legislature, to whom was referred a report of a Committee on subject of the accounts of the District Attorney and Clerk of the Sessions &c. reported:

That having examined the subject it appears to them that the various statutes heretofore made, and now in force on this subject, are so constructed that considerable embarrassment is likely to exist for some time to come in this practice under them, inasmuch as these Statutes are loose and the interfering interests arising under them will, it is apprehended, require more time & labor for settling and composing than would be requisite for the introduction of a new and simple provision which might at once preclude the practicability of

conflicting claims arising between the different officers of these [188] courts on these subjects, and which should also at the same time provide against any large and unexpected drafts upon the Treasury for services performed in the criminal courts. It is undoubtedly an object of considerable importance that these courts, as far as may be practicable consistently with the due administration of this department of our jurisprudence should not become a public burthen. As the laws now stand, however, it is not practicable to determine beforehand the amount which the Board may be called upon to pay annually out of the Treasury; and conceiving it desirable not merely to reduce what is now uncertain to a known standard but also to diminish the amount to be paid out of the Treasury, your Committee have become satisfied that the public will be benefitted by making these two officers a reasonable compensation for their services by means of a fixed salary [189] to be paid to them respectively in lieu of all fees for services rendered by them in relation to any proceedings in the said Courts.

In pursuance whereof, it is the opinion of your Committee that there ought to be allowed and paid to the District Attorney an annual salary in lieu of all fees for services to be performed by him in the criminal courts above mentioned and for services to be performed in reference to proceedings in those courts, not exceeding $3000 nor less than $2000. and that he be permitted to have and take to his own use the taxable costs which shall be collected by him in all such civil suits and proceedings as shall be carried on by him by virtue of his office aforesaid in any of the Common Law Courts other than the criminal courts above mentioned, and that nothing herein contained be construed to enable the District Attorney in any event to call upon this Board for the payment of any other or greater sum than such salary as aforesaid [190] and that there should not be any allowance made to him for disbursements, clerk hire or for stationary: That there be allowed and paid to the said Clerk in lieu of all fees heretofore allowed him for services to be performed by him as such clerk an annual salary not exceeding $2000 nor less than $1500. and that a further annual allowance, not exceeding $500 for under clerk hire & Stationary be paid to the said Clerk.

Your Committee are of opinion that this would be a liberal & sufficient allowance to those officers respectively & that they should once in every month render their accounts verified by oath & pay over to the City Treasury all the monies collected by them in virtue of

their said Offices. The following resolution is therefore respectfully submitted:

Resolved that the Counsel of the Board be instructed to prepare the draught of a law in conformity with [191] the foregoing report and the usual petition to the Legislature.

(Signed) J. Hammond
S. Allen
J. P. Anthony
E. W. King

which was approved & the resolution adopted.

The Street Committee, on petition of Abraham Stagg, reported:

That the facts as stated are true and that in their opinion the Contractor ought to complete the work before any more money is paid. They therefore beg leave to offer the following resolution:

Resolved that Abraham Stagg complete his contract for regulating and paving Grand Street, to the satisfaction of the Inspector on or before the 15th day of April next.

Resolved that if said Stagg neglect or refuses to complete his contract as aforesaid the Street Commissioner be authorized to employ a suitable person to complete [192] the same agreeably to the tenor of the Contract and to deduct the cost from the amount due and to allow said Stagg the balance.

(Signed) A. Mann
S. P. Brittain
S. Parker
J. Morss

which was approved & the resolutions adopted.

The same Committee, on petition of John Sloan, reported:

That they have had the subject under their deliberate consideration after having had surveys & calculations made of the earth remaining in the several streets embraced in the contract made by John Sloan with this Board, from all which your Committee are of opinion that this Board do pay the said Sloan $40. for 1000 loads of earth deposited in Green Street at 4 cents per load, the price mentioned in his contract, & that said Sloan be permitted to remove all [193] the surplus earth remaining in the said Streets for his own use, excepting 1757 loads which is the balance after fulfilling his said Contract. Your Committee therefore recommend the adoption of the following resolution:

Resolved that John Sloan be paid $40. for 1000 loads of earth deposited by him in Green Street.

Resolved that John Sloan be permitted to remove all the surplus earth remaining in Thompson Street and Laurens Street, excepting 1757 loads which shall be retained to be disposed of by this Corporation.

(signed) J. B. Taylor
Asa Mann
S. P. Brittain
S. Parker
J. Morss

which was approved & the resolutions adopted.

The same Committee, on the petition for filling in Lewis & Stanton Streets, reported the following resolution: Resolved [194] that Stanton Street be regulated from Pitt Street to the easterly side of the bulk-head.

(Signed) J. B. Taylor
S. Parker
J. Morss

which was approved & the resolution adopted.

The same Committee, on the petition of Simon Fleet, presented a report—which was read and referred to the Committee on Public Offices.

The same Committee, on the petition of Robert Latimer, reported (in respect to the exhibition of a Camera Obscura in the streets), the following resolution:

Resolved that it would be inexpedient to grant the prayer of the petitioner.

(signed) J. B. Taylor
S. Parker
J. Morss

which was approved & the resolution adopted.

[195] The same Committee, on the petition of the President & Directors of the Manhattan Company, reported:

That on examination they find that altho' it would be proper to have those Streets and lanes spoken of regulated immediately, it is found to be private property except Bleecker Street. They therefore recommend the adoption of the following resolutions:

Resolved that Bleecker Street be regulated from Broadway to

Wooster Street and that the Street Commissioner prepare an Ordinance for the same.

(Signed) J. B. Taylor
S. P. Brittain
A. Mann
J. Morss
S. Parker

which was approved & the resolutions adopted.

The Finance Committee, on the communication of the Street Commissioner respecting [196] property assessed for opening Canal Street, which assessment is still due, reported:

That they have examined the list alluded to and have selected such of the property described, which they have designated by the Letter A, as in their opinion is liable for the payment of the Assessments still due, and they propose the following resolution on the subject:

Resolved that the Street Commissioner be instructed to take the necessary legal measures to enforce the payment of the amounts due on the property designated by the Letter A in the accompanying list of property assessed for *Capening* [opening] Canal Street.

(Signed) S. Allen
J. Hone
J. Hammond
B. Crane
S. P. Brittain

which was approved & the resolution adopted.

The Counsel, to whom was referred the account of Jury fees in the case of John Mason [198] and the Heirs of Franklin, reported:

That there is no law which regulates the fees of Jurors in cases under the Act by virtue of which the property above mentioned was taken: That the Law regulating the fees of Jurors in the Mayor's Court only extends to cases in which they are sworn in actions pending therein. The compensation which the Jury are entitled to receive in the present case is what is reasonable. The Counsel has made enquiry as to what it has been customary to allow jurors for like services and is informed that it was $3. a day to each Juror which is the sum charged in the Bill referred to him.

respectfully submitted,
(Signed) Ogden Edwards

Whereupon the Comptroller was directed to report a Warrant for $..... in the name of the Counsel for the payment of the same.

The Counsel reported that the plaintiffs in the case of Herman Le Roy & others [199] against the Corporation, praying an injunction to restrain the collection of the Assessment for making a common Sewer in Canal Street have appealed from the decision of the Chancellor to the Court of Errors. Whereupon it was resolved that the Counsel be authorized to employ additional counsel to aid him in the prosecution of said suit.

He also presented a deed to Peter Embury for Lot No. 19 near Washington Market sold to him by the Corporation under the direction of the Comptroller—which deed was directed to be duly executed.

The Minutes of last meeting were read & approved.

A petition of James Hume, praying that the drain across the 2d Avenue between 18th & 20th Streets may be laid lower as the streets are overflowed in consequence of its being laid too high—was referred to the Road Committee.

[202] A Letter from George Janeway, complaining of the permission given to the Society of United Christian Friends to construct vaults under the Street in front of their church in Augustus Street, was read & referred to the Committee on Laws.

A petition of Benjamin Armitage, stating that in June 1817 he paid to Morris De Camp, Collector appointed by the Corporation, $42. for an Assessment laid upon Lot No. 3494 in the 10th Ward owned by him for regulating Rivington Street; that he finds said Lot was in Nov. 1818 sold for the term of 14 years under the orders of the Corporation for non-payment, as was alleged, of the above Assessment; & praying relief—was referred to the Committee on Assessments.

A petition of a number of inhabitants concerned in vessels that

pay Wharfage by the year for lying in the public docks [203] and Slips, complaining of the extra charge of 20 cents per day to which they are by law subject after being in the Slip 21 days and praying a repeal or modification of said Law—was read & referred to the Committee on Wharves, Piers & Slips.

A petition from the Rev. Alexander McLeod, praying relief from taxes assessed on his dwelling-house, being informed that as a Clergyman he is exempted by law therefrom, was read & referred to the Finance Committee.

A petition of John Farmer, for permission to construct a vault in front of his House No. 161 William Street, was referred to the St. Commissioner to grant on the usual terms.

A representation from the Assessors of the 9th Ward in the year 1818, stating that in that year in making an Assessment of the tax upon the property of Thomas Pringle a mistake was made, and they recommended [204] that the sum of $14 25/100 should be refunded to him—was referred to the Committee of Assessments.

A petition from the Butchers of the upper Fly Market, stating that from particular circumstances but little business is done in that part of the market, and praying to be permitted to remove to some part of the lower or country market, was read and referred to the Market Committee.

A petition of Burnell Brown, stating that he is owner of several lots fronting on the Bowery, upon which an assessment has been laid for paving said street: that he has been assessed for 25 feet more on the easterly side of said Street than he owns and praying relief—was referred to the Committee on Assessments.

A petition of William Ferguson, stating that he has been prosecuted for firing a [205] gun in the Street; that not knowing of the Ordinance of the Corporation on that subject he had on the 22d February last in honor of the Anniversary of the birth-day of George Washington fired a gun several times as he had been accustomed to do on the return of that day, and praying that the fine may be remitted, was read. Whereupon Resolved that the prayer of petitioner be granted.

A petition of John Winship, Thomas Winship and Nathaniel Mott, Butchers in Grand Street Market, praying remission of fine for selling meat on Sunday, was referred to the Police Committee.

The Annual report from the Trustees of the City Dispensary of persons vaccinated by that Institution from 16th March 1819 to 16th March 1820 was received & directed to be filed. By this report it

appeared that 582 persons had been vaccinated; 220 at the Dispensary and 362 at their own residences.

[206] A petition of Joseph T. Jacobs for permission to construct a Stone Cistern in the Street in front of his house corner of Robinson & Washington Streets, was read & referred to the Street Commissioner to grant, if he judged proper, on the usual terms.

A petition of Charles Byrnes, to continue to sell goods at auction in the Street at Chatham Square, was presented and laid on the Table, to be taken up when the Report of the Committee on that subject shall be taken up.

A petition of Stephen Sammers, stating that he has been blind for 14 years past; that his occupation has been opening oysters and praying to be permitted to continue to sell oysters on the sidewalk near Coffee house Slip—was read & referred to the Alderman and Assistant of the 1st Ward, with authority to grant the prayer of the petitioner.

The Counsel presented for execution the counterpart of a lease from Geo. McLaughlin [216] to the Corporation for rooms in Nos 120 & 122 Division St. for accommodation of the Assistant Justice's Court for the 7th & 10th Wards—which was directed to be duly executed.

He also presented the draught of a Memorial to the Legislature and a corresponding Bill entitled "An Act providing for the compensation of the District Attorney & Clerk of the Courts of Oyer & Terminer & General Gaol Delivery & General Sessions of the Peace in the City of New York—which was directed to be duly authenticated & forwarded to the Legislature now in Session at Albany.

The Finance Committee, authorized to examine and audit the accounts of the late Treasurer, W. Fish Esqr. reported:

That the investigation of this subject has consumed much more time than your Committee could reasonably have anticipated at its commencement; but [217] they can assure the Board that every exertion has been made within the reach of practicability to facilitate the examination and bring the subject to a final close. Mr. Fish was appointed City Chamberlain in August 1809, more than 10 years since, and during the whole of this period, as your Committee have reason to believe, no examination of his books, or comparison of them with those kept by the Comptroller had taken place.

The errors which have been discovered, both in the books of the Treasurer & Comptroller, are numerous and considerable in amount, and the labor which has been bestowed on the subject by Mr. Fleming, the present Treasurer, the young men employed in the investigation

and your Committee, has been great and arduous. The Committee are happy, however, in now being able to lay before the Board the result of this investigation and to state that the precise balance due the Corporation by the late Treasurer or his sureties is $27,391 and 63 cents, [218] which balance can be substantiated by *by* the entries made in his own books and the Committee hereunto annex for the examination of the Board, a specification of the numerous errors discovered in the course of this investigation, together with the balance against him, as above stated.

In stating the balance due from Mr. Fish or his sureties, it is proper to mention that there was standing to his credit at the Mechanics' Bank at the time of his resignation $14.292 & 28 cents, and that there was due to him at the same time for Salary as Chamberlain $359 & 71 cents and from the State as receiver of the State tax about 700 dollars, making in the whole $15,391 and 99 cents, leaving the amount to be provided by the sureties at $12,039 & 64 cents.

The Committee were under the necessity of employing young men of competent talents to assist in this arduous investigation and they beg leave to recom- [219] mend that Warrants pass for the amount due them for the services they have rendered.

Your Committee wish to be distinctly understood, while pointing out the numerous errors which have been discovered in the books of the former Treasurer & Comptroller that they do not attribute to either of these Officers improper intentions in making the errors alluded to. They no doubt occurred thro' inattention, or a press of business at the moment; and as there was no law which made it their duty to compare accounts at stated times and report the result to the Board, an error once made continued until a new Treasurer was appointed and a comparison of his books with those of the Comptroller was had. Your Committee have it in contemplation to recommend some amendment in the arrangement of the Books kept by the Comptroller, so as to simplify and lessen the number of accounts to be opened with a view to a more regular & perfect system than the present, and which [220] they intend shall be the subject of a future report. They beg leave now to offer the following resolutions:

Resolved that the Treasurer be authorized to receive from the sureties of Whitehead Fish deceased, late City Treasurer, or his legal representatives, the balance due the Corporation at the time of his resignation, amounting to $27.391 $^{63}/_{100}$—agreeably to the specification hereunto annexed.

Resolved that he be farther authorized to receive as a part of said

balance the amount standing to the credit of Mr. Fish at the Mechanics' Bank as Treasurer, and to allow such sum as may appear to be due him by the Corporation for Salary and by the State as Receiver of the State Tax.

Resolved that the Treasurer, on receipt of the balance as aforesaid, be authorized to cancel the bond executed by the sureties of W. Fish Esqr. late Treasurer.

Resolved that in the event of a [221] refusal on the part of said sureties to pay the balance due the Corporation as aforesaid the Counsel be instructed, under direction of the Treasurer, to commence suits against them on their said bond for the recovery of the amount due.

Resolved that a Warrant pass in favor of Mr. Furman for 250 dollars and in favor of Mr. Munn for 100, being the amount due them for services rendered in examining the books of the late Treasurer.

The same Committee, on the communication from the Street Commissioner respecting unclaimed lands, reported:

That in the opinion of your Committee, the Mayor, Aldermen & Commonalty [222] of the City of New York, under and in virtue of the statute in such case made and provided, may make leases of the unclaimed lands mentioned in the said Notice to be holden by the lessees rendering rent to the said Mayor, Aldermen & Commonalty until the rightful owner shall claim the possession and shall pay all sums due thereon for taxes, assessments and also the value of the improvements which may be made or erected on the same by the said Mayor, Aldermen and Commonalty or under their authority, over and above all the rents, issues and profits thereof which may be received by the said Mayor, Aldermen & Commonalty or under their authority, provided such owners shall not be compelled for any such improvements [to pay] a sum exceeding ⅔s. of the value of their said lots of land; and provided also that the term so to be granted shall be so limited that it shall not be construed to continue or be in force for any [223] longer or greater term than .... years from and after the date of such lease. They therefore recommend the following resolution:

Resolved that the Comptroller be authorized to lease the said lots

on terms and conditions in conformity with the foregoing report for a term not exceeding 14 years, at public Auction.

which was approved & the resolution adopted.

The Street Committee, on the petition of the Inhabitants of Hamersley and Houston Streets, reported:

That they have caused public notice to be given requesting all persons interested in the property that might be affected by carrying the object of the petitioners into effect to submit their objections (if any [224] they had) to this Board on or before this day; and as no objections have been made thereto your Committee recommend the adoption of the following resolution:

Resolved that the prayer of the petitioners be granted and that the Street Commissioner prepare an Ordinance to carry the same into effect.

which was approved & the resolution adopted.

The same Committee—on the petition that Beach Street be regulated & paved from Varick to Chapel St. reported:

That they have examined the situation of Beach Street & Walker Street as connected with it and are of opinion that the prayer of the petitioners ought to be granted, and therefore beg leave to [225] offer the following resolutions:

Resolved that Beach Street between Hudson & Chapel Streets be regulated & paved.

Resolved that Walker Street between Beach & Chapel Streets be regulated & paved.

Resolved that the Street Commissioner be instructed to prepare Ordinances for the above purpose.

(Signed) J. B. Taylor
Asa Mann

which was approved & the resolution adopted.

The Special Committee, consisting of the Aldermen & Assistants of the 5th & 8th Wards, to whom it was referred to hire for the ensuing year rooms for the accommodation of the District Court for those Wards, reported:

That they have agreed with Mr. J. Russel for 3 rooms in the second floor of the house on the corners of Beach, Walker and Chapel Streets. This property is held by Mr. Russel under lease from [226] this Board, ... years of which are unexpired. The Committee have agreed with Mr. Russel for One year certain, with the privilege of continuing from year to year until the expiration of his term—the rent to be 75 dollars per annum, and Mr. Russell to be at the expence of the alterations and repairs for the accommodation of the Court; but in case the Corporation should not keep the premises more than one year then they are to allow Mr. Russel 25 dollars in addition to the one year's rent to indemnify him for the alterations and repairs.

Resolved that the Comptroller be directed to enter into an agreement in pursuance of the above report.

respectfully submitted

which was approved & the resolution adopted.

[227] The Committee on Public Offices, on the remonstrance against sales at Auction in Chatham Square, presented a report. The petition of Charles Byrne was called up and read. The report of the Committee was as follows:

That having had said remonstance under consideration, together with a petition from Simon Fleet for permission to sell at auction in said Square, and having patiently investigated the same are of opinion that the prayer of the petitioner ought not to be granted and that Mr. Byrnes & others who have heretofore been permitted do cease to sell goods by auction in the public Square as aforesaid, on & after the 1st day of May next. The Committee would therefore beg leave to offer the following resolutions:

Resolved that it is inexpedient to grant permission to any person or persons to sell goods by Auction in Chatham Square, whereby the Street or sidewalks shall be encumbered.

Resolved that from & after the [228] 1st day of May next, all per-

mits which may have been heretofore granted to persons to sell by Auction in Chatham Square be annulled.

(Signed) B. Crane
J. Morss
T. Bolton

Mr. Stevens moved to insert in the first resolution a proviso in favor of Charles Byrne—which was agreed to. The question was taken on the resolution as amended—which passed in the negative. The question was then taken on the 2d resolution and agreed to.

The Market Committee, on the petition of John Fisher for Stall No. 12 Catharine Market reported the following:

Resolved that the prayer of the petitioner be granted.

(Signed) H. Tallman
S. Allen

which was approved & the resolution adopted.

[230] The Ferry Committee, on the Memorial of the inhabitants of Brooklyn, complaining of the conduct of the lessees of that Ferry, presented a report. A Remonstrance from a Committee in behalf of the New York & Brooklyn Steam Ferry Boat Company was also

presented. The Report & Remonstrance were read & after some discussion the consideration of both was postponed.

The Committee on Applications to the Legislature, to whom was referred the Letter of John T. Irving Esqr. reported:

That it appears to them that the 2d Section of the proposed Act communicated by Mr. Irving is calculated to be extremely injurious to this City by opening a door to all vagrant poor to acquire a settlement therein. Your Committee are therefore of opinion that immediate steps ought to be taken by this Board to remonstrate against the passing of the 2d Section [231] of the said Act: and farther that the 2d Section of the Act of 1813 mentioned by Mr. Irving in his note ought neither to be repealed or altered. They therefore recommend the following resolution:

Resolved that the Counsel of this Board be instructed to prepare with all convenient speed a remonstrance in conformity with this report and that his Honor the Mayor be authorized & requested to cause the Seal of the Common Council to be affixed thereto in the recess of the Board and that the same be forwarded to the Legislature with all convenient speed.

(Signed) J. Hammond
S. Allen
J. B. Taylor
J. P. Anthony

which was approved & the resolution adopted and his Honor the Mayor was requested in the recess of the Board to cause the same to be duly authenticated & transmitted to the Legislature.

[232] The Committee of Public Offices, on the petition of J. C. Segoine, owner of Schooner Native, reported:

That Captain Cole had the permission of an Alderman of this Board to lay his vessel in Fly Market Slip, for which a penalty was afterward exacted by the Attorney of the Board. The Committee think that this is a case in which the petitioner is clearly entitled to relief. They therefore offer the following resolution:

Resolved that the Attorney of the Board refund the five dollars being the penalty recovered from Captain Cole.

which was approved & the resolution adopted.

Resolved that the subject of the expences to be charged for working the 3d Avenue be referred to the Finance Committee.

[233] Mr. Davis presented the following—which was adopted

Resolved that the Commissioners of the Alms house, Bridewell & Penitentiary allow the Keeper of the Penitentiary such additional compensation as they may deem just in consideration of the duties required of him as Superintendant of Convicts while forming & repairing Roads.

A resolution directing the Superintendant of Repairs to procure lamps for the Sessions Court & to repair the roof of the Old Alms' house, was referred to the Committee of Repairs with powers to act.

The Comptroller laid before the Board the proposals he had received for leasing the Street Manure—whereupon the Gallery was cleared and

The Doors Closed.

The several proposals were opened & considered. Whereupon it was resolved that the proposal of Walter Furman & Charles Dobbs for the lease of the Street Manure [234] for 9 months from 1st May next, offering therefore $3,410. be accepted on condition that they give such sureties for the performance of the same as shall be approved by the Finance Committee's Chairman.

Alderman Allen communicated to the Board that as Chairman of the Finance Committee he had called on Wm H. Bunn who had been employed by the former Finance Commee to cancel the small Bills of credit issued by the Corporation for a statement of his account in relation to that transaction and upon examining the same, he found there was a considerable balance due from Mr Bunn to the Corporation and he was afraid there would be some difficulty in obtaining payment of the Balance

Whereupon Resolved that it be refered to the Finance Committee; with authority to settle the same on the best terms they can procure

The Street Commissioner represented that in the case of opening & improving Roosevelt Street the sum of $192 $^{5}/_{100}$ was awarded to Richard Conkling, Henry Conkling, Buel Conkling, Enoch Conkling [243] and Elizabeth Conkling for property taken to improve Roosevelt Street (in equal proportions) the warrants for which were passed at the last meeting of the Board.

The parties are desirous of obtaining the money, it having been due

since Sept. 17, 1818. Two of the parties are infants—Viz. Richard Conkling & Henry Conkling. As the amount is only $38 $^{5}/_{100}$ to each and it will be expensive to obtain it when paid into Court, the undersigned requests permission to pay it over to the guardian who appears to have been duly appointed.

(Signed) Jno. M^{c}Comb, St. Comm^{r}

whereupon it was resolved that the Street Commissioner be authorized to pay over the same, agreeably to his recommendation, he taking the proper vouchers for such payment.

He also presented returns of delinquents on the Assessments for repaving Market St. and for regulating & paving Washington St. from Fulton to Dey Street. Whereupon Warrants [244] were ordered to issue to the respective Collectors for collecting the same.

He also presented an Assessment for a Well and Pump in Mott between Grand & Broome Sts. which was confirmed and Noah Jarvis appointed Collector.

He also presented an Ordinance directing the owners and occupants of the Water Lots fronting on South Street between Dover and Roosevelt Sts. on the southerly line of South St. to build a bulkhead —which was passed.

He also presented an Ordinance for regulating & paving Hubert Street from Chapel Street to St. John's Lane—which was passed and Abraham Baudouine, Abraham Russell & John Brown[er] were appointed Assessors.

The Counsel submitted for execution a lease to John DeClew for the Flagstaff: a lease to David Munson for house cor- [245] ner of Chatham & Catharine Sts. also the counterpart of a Lease from Isaac Russel of rooms for accommodation of the Justices Court for the 5th & 8th Wards. which were severally directed to be executed.

The Finance Committee, to whom was referred the resolution on the subject of expences of working Avenue 3, reported:

That they have examined said Estimate and believe it to be a moderate and equitable calculation, & that [247] as only one third of the expence for completing this important Street is to be born by the owners of the property fronting on it, and the other two thirds are to be, or have been paid from the City Treasury, they cannot conceive how any reasonable objections can be urged against a measure so liberal on the part of the Corporation and so beneficial to that part of our City; and they therefore propose the following resolution:

Resolved that the Street Commissioner instruct the Assessors to proceed in the Assessment of the expences for working and regulat-

ing the 3d Avenue in conformity to the principal resolutions already passed by the Common Council on the subject of working the Avenues.

[248] The same Committee, on petition of Rev. Alexander McLeod, reported:

That the 28th Section of the Act for the Assessment & Collection of taxes provides " that no personal property belonging to any Minister of the gospel nor any real estate of such minister not exceeding in value $1500 shall be taxed by any law of this State "—This Act appears to your Committee to be perfectly plain and intelligible and they are at a loss to conceive how the petitioner's informant could arrive at the conclusion that the uniform interpretation given by the Corporation to the Law of the State had been to secure from taxation the minister's dwelling house, when that dwelling house with the lot on which it was erected might be valued at $15,000 instead of $1500. Your Committee are of opinion, therefore, that the law means what it expresses—that the real estate of a minister of the gospel [249] shall be taxed for $1500 less than its valuation and not that his dwelling, be its value what it may, shall be exempt from taxation.

It appears from an examination of the Assessment Books that the property of Dr. McLeod alluded to was valued by the Assessors in the years 1815 &—*15*[16] at $3700 and in the years 1816 &—17 at $4000, and that the House & Lot adjoining his property, & which is said to be of equal worth, was valued for the two first mentioned years at $3600 and for the two last at $4000; from which your Committee conclude that the Assessors have not deducted the $1500 from the valuation of the petitioner's property agreeably to law; and what confirms them in this opinion is that for the year 1818, the taxes of which have been paid by the petitioner, his house is valued at $3000 while the house adjoining it already alluded to is valued at $4500, and the amount at which the [250] two houses are valued for 1819 are the same as for 1818; evidently shewing that for 3 years the legal deduction of $1500 was made by the Assessors, and as conclusively shewing, in the opinion of your Committee, that the deduction was not made in the years 1814-15-16 & -17. The Committee therefore propose the following Resolution:

Resolved that the Collector of Arrears of Taxes be instructed to deduct $1500 from the amount at which the house & Lot belonging to the Rev. Alexander McLeod stands assessed for the years 1814-15-16 &-17 respectively and to receive the taxes due on said property for those years in proportion to said deduction and remit the remainder.

which was approved & the resolution adopted.

[251] The Commissioners of the Alms House, to whom had been referred the petition of Stephen Brown, presented a report which was referred to the Finance Committee.

The Committee on Public Offices, to whom was referred the subject of making Application to the Legislature for relief in defraying the expence incurred in making a General Index to the records in the Register's Office, reported:

That the law requiring the Register to make a general Index passed in 1812; that the Registers for this City have kept a general Index of all mortgages since that time excepting for about 2 years, but that they have not made any general Index of the conveyances. The Committee, under these circumstances, deem it inexpedient to make any application to the Legislature for relief, as the expence of making an Index for the time during which the Registers have failed to comply with the law will [252] be too inconsiderable to make it an object for legislative intervention.

The Minutes of last Meeting were read & approved.

A petition from the N Y. & Brooklyn Steam Ferry Boat Company, stating the necessity of having an additional Wharf at Brooklyn for the accommodation of their Boats, was read & referred to the Finance Committee.

[258] A representation from sundry Inhabitants that the Main Drain in Broad Street was nearly filled up, and requesting the same may be ordered to be cleansed, was referred to the Committee on Wharves, Piers & Slips.

A proposal of John D. Walsh to rent the room over the Fire Engine house corner of Rose & Frankfort Streets—was referred to the Finance Committee.

A petition of Thomas Brooks for permission to construct a Vault opposite No. 52 Barclay Street and to erect a Lime House in the Street, was referred to the Street Commissioner to grant on the usual terms.

A petition of Cornelius Hinchman, to be relieved from an Assessment laid by mistake upon him, was referred to the Committee on Assessments.

A Memorial of the Fishermen attending [259] at Catharine Market, complaining that the privilege of fastening their Fish-Cars to the Float at the Ferry at said Slip formerly enjoyed by them, has lately been refused to them by the present lessee of the Ferry, and praying some relief—was read and referred to the Market Committee.

A petition for regulating & paving Desbrosses Street from Sullivan to Varick Street, and Sullivan Street from Watts Street to the Canal was referred to the Street Committee.

A petition of Thomas & Gulian Ludlow remonstrating against the Assessment laid on them for building a Sewer in Clarkson & Carmine Streets—was referred to the Committee on Assessments.

A petition of Thomas Cooper to be appointed a Measurer of Grain &c. was referred to the Committee on Applications.

[260] A petition of Benjamin Hide to be permitted to build a cistern under the Street in Canal Street, was referred to the Alderman & Assistant of the Ward and Street Commissioner with authority to grant the prayer of the petition.

The Comptroller reported that in conformity with a resolution of the Board on 6th March last he advertised several portions of public property to be disposed of at auction on the 6th inst. The following were leased:

The Dock & Wharfage near the Old Ferry at Brooklyn, now occupied by William Cutting, leased to Daniel Wright for 3 years from 1st May next at an annual rent of $60.

The House and lot of ground at No. 13 near the Old Ferry at Brooklyn, at present in possession of John Gildersleeve, leased to John R. Bedell for 7 years from 1st May next at $400 per annum.

[261] The residue of the property advertised was not disposed of, as there did not appear bidders sufficient to create a competition and it was deemed best for the public interest to postpone the sale.

Should the Board think proper to empower the Comptroller, under direction of the Finance Committee, to lease such part of the property, either at public or private Sale, as they shall judge to be most advantageous, it is apprehended that some favorable disposition may be made prior to the 1st of May next.

(Signed) G. N. Bleecker—Comptroller.

Alderman Allen presented the following resolution, which was adopted:

Resolved that the Comptroller, under direction of the Finance Committee be authorized to rent such of the Corporation property advertised to be rented at public auction for which no bidder appeared on the day fixed for renting the same.

[262] A petition for a lamp in Essex Street between Grand and Broome Streets, was referred to the Lamp Committee with authority to grant the prayer of the petition.

A petition of Ford & Stansberry for remission of fine incurred by selling liquor without licence, was referred to the Police Committee.

A petition of Robert Stoddart, stating that in consequence of his house No. 120 Leonard St. (which has a Brick front) settling, he was under the necessity of rebuilding it and had carried it up to appear as a three story house, which is said to be an infringement of the law respecting fires and praying relief—was referred to the Committee on the Fire Department.

The Street Commissioner presented the Assessment for the Sewer constructed to carry off the Minetta Water—which was referred to the Committee on Assessments.

[263] He also presented a return of delinquents on the following Assessments—Viz.

For repaving Grand Street from Broadway to the Bowery

For regulating Grand Street from Forsyth to Suffolk Street—and

For a Well & Pump in Ludlow near Grand St.

Whereupon Warrants were ordered to issue to the Collector to collect the same.

He also presented a report recommending an amendment to the Law relative to Drains and Sewers—which was referred to the Street Committee.

He also presented an Assessment for regulating Canal St. from Washington to Collect Street, which was confirmed & Noah Jarvis appointed Collector.

He also reported that Mr. Joshua Jones having expressed a wish to have the old pier at the foot of Vesey Street valued in [264] conformity to the resolution of the Common Council, passed on 14th June last, the undersigned would respectfully recommend Mr. George Lovett as a suitable person to be appointed on the part of the Corporation for that purpose.

(Signed) Jno. McComb—St. Commr

whereupon George Lovett was appointed Appraiser on the part of the Corporation.

He also, on petition of Joseph Willoughby [reported]

That he is satisfied by the Affidavits accompanying Mr. Willoughby's account that the quantity of earth, as charged by him, is correct and has been deposited on the Corporation property. He would therefore recommend that Mr. Willoughby be allowed the sum of $39. as payment for the same.

(Signed) Jno. McComb. St. Comr

whereupon a warrant was directed to be reported for payment thereof.

[265] The Counsel presented the draught of a lease to Samuel W. Reed for the public Docks & Slips and a Lease to Furman & dobbs for the Street Manure—which were ordered to lie on the Table.

The City Inspector presented Ordinances for correction of sundry nuisances, which were passed.

A petition from a number of inhabitants residing in the vicinity of Greenwich and Vesey Streets, complaining of auctioneers being permitted to encumber the streets with goods for sale at auction and also complaining of petty chapmen without licence as pedlars being permitted to dispose of articles of merchandize in the Markets—was read & referred to the Committee on Public Offices.

A petition of Evert Duyckink, stating that he had been appointed a Fireman on the 2d July 1787, but from some mistake of the then Clerk his appointment was not entered on the Minutes & therefore the present Clerk does not consider himself authorized to give the Certificate which the law requires of the time which he has served as a Fireman to entitle him to the [276] discharge given by the Statute in

that case made & provided, and praying that the Common Council will authorize the present Clerk to give such certificate—was referred to the Committee on the Fire Department.

A petition from Fire Engine Company No. 13, praying that a new Engine may be granted to them, their present one being very old & almost useless—was referred to the Fire Department Committee with the Chief Engineer.

His Honor the Mayor laid before the Board a presentment which the Grand Jury of the April General Sessions of the Peace requested might be laid before the Corporation. The Grand Jury presented as a nuisance the setting of Fish Poles in the Stream of Hudson River and also the running at large of dogs in the City—which being read was referred to the Police Committee.

[277] A petition of Ebenezer Burling to be appointed a Measurer of Lumber—was read & granted & he was accordingly appointed.

The Council presented a lease to John R. Bedell for the house & lot of land at Brooklyn, known as Lot No. 13, for 7 years from 1[st] May next, which was directed to be duly executed.

The Contract for leasing the Street Manure to Messrs. Dobbs & Furman, which was presented by the Counsel at the last meeting and laid on the Table, was called up and directed to be duly executed.

The Street Commissioner presented a return of delinquents on sundry Assessments, which he recommended should be advertised & sold according to law—which was approved & he was directed to advertise & sell the same accordingly.

[281] He also presented an Ordinance for paving the sidewalk in front of the lot corner of Bowling Green & State Streets—which was passed & Abraham Baudouine, John Brower & Abraham Bloodgood were appointed Assessors:

Also an Ordinance for extending the Sewer in Chapel St. to the southerly side of Thomas St. which was passed & John Targee, Peter Hawes & Roger Strong were appointed Assessors:

Also an ordinance for regulating Hamersley St. from Varick to Houston St. & for regulating Downing St. from Varick to Herring St. which were passed & Abraham Bloodgood, James Barrow & Benj[a] Prince were appointed Assessors.

The Comptroller presented a report on the City Finances; which was directed to be printed for the use of the Members & laid for consideration.

The Committee of Assessments, on the petition of Peter Allaire, reported:

That they have enquired into the matter submitted to them & are satisfied [282] that the facts set forth in the said petition are true and that the petitioner has been compelled to pay $12^{5}/_{00}$ more than his just proportion, but as a part of that tax was imposed by authority of this State and has been collected and paid over, your Committee are of opinion it would be improper to grant any relief as to that part, but with respect to the residue your Committee think the petitioner is entitled to relief and they respectfully recommend that the sum of $12\ ^{5}/_{00}$, being the excess of the tax imposed on and paid by the petitioner be refunded to him and they recommend the adoption of the following resolution:

Resolved that the Comptroller report a Warrant at the next meeting of this Board in favor of Peter Allaire, for $12\ ^{5}/_{00}$ being the sum remitted to him as an excess of tax imposed in the year 1817.

(Signed) J. J. Westervelt
E. W. King
J. Morss

which [283] was approved & the resolution adopted.

The Canal Committee, on the petition for extending the Sewer in Chapel Street to Duane Street, reported:

That they have had the subject under consideration & are of opinion that the extending of the said Sewer to the southerly side of Thomas Street would be of great advantage to the property on & near that part of the Street thro' which it would be continued; that that part of Chapel Street is narrow, very flat & with but a small descent; that it is flooded by almost every rain and which leaves it in a very

muddy and filthy state; that most of the cellars have either been filled up with earth or are occasionally filled with water. By extending the Sewer it is calculated that these evils will be effectually remedied.

If the Board should deem it advisable to extend the Sewer, the Committee are of opinion, that as the Assessors have [284] not as yet proceeded in laying the Assessment for the section built last season in that street, it would enable them to lay it more just & equitable and at a considerably less expence to make out the Assessments for the 2 sections at the same time. The Contractor for the part completed, who is to be paid as the Assessment is collected, will accede thereto, provided an interest is allowed for the delay, which is to be determined by the assessors and added to the expence. In conformity with the directions of the Committee, the Street Commission has advertised for 2 weeks for any objections to continuing the Sewer and none having been made, the Committee recommend the adoption of the following resolutions:

Resolved that the Street Commissioner, under direction of the Canal Committee, take the necessary measures for building by contract a sewer in Chapel Street from the southerly extremity of [285] the one built therein last season to the southerly side of Thomas Street, the same to be paid for as the Assessment to be laid therefore is collected.

Resolved that it be recommended to the Assessors to postpone the making out of the Assessment for the sewer now built in Chapel Street until the Assessment for the part intended to be built by the foregoing resolution can be made at the same time, and that the Assessors allow the contractor such interest for the delay as is just, the same to be charged in the Assessment.

(Signed) John Morss
J. B. Taylor
S. Parker
H. Tallman

which was approved & the resolutions adopted.

The same Committee, on the petition for the sewer in Laurens St., reported:

That they have had the subject under consideration; that the proprietors [286] of the lots of ground fronting on that part of the Street thro' which the sewer will run have signed the petition; that by extending this Sewer to Broome Street Laurens Street may be regulated so as to take the water from Spring Street, thereby

dividing the immense body of water which was intended to be carried thro' the Sewer in Thompson Street.

The Committee directed the Street Commissioner to advertise 2 weeks for objections. None having been made the Committee think that a Sewer in this Street would be of great benefit in regulating the streets in the vicinity and save many feet of filling in. It becomes necessary to determine in relation to this sewer, that the Street in the vicinity may be regulated conformably thereto. Perhaps the sewer will not be required to be built in some time. The Committee recommend the adoption of the following:

Resolved that Laurens Street, [287] when regulated, be regulated with a common sewer to extend from the sewer in Canal Street to Broome Street.

(Signed) John Morss
J. B. Taylor
S. Parker

Which was approved & the resolution adopted.

The Attorney reported the following complaints made to him, which were referred to the Committee on Public Offices: Viz. against Messrs. Hitchcocks, contractors, for not sweeping sundry streets: against Duncan Graham for not complying with an ordinance respecting a nuisance: against Joseph Antonio, an Innkeeper, for permitting gambling in his house: against John B. Fiora for a similar offence: against Hugh Gorragher & Felix Crone for encumbering the side walks with baskets of oranges for the purpose of vending the same.

He also made a representation of the case of the demand against the surety [288] of Nathan Eisenhart, deceased, late Clerk of Catharine Market—which was referred to the same Committee.

The Committee of Charity, on petition of Sarah Denny, reported:

That they have had the subject under consideration and also made enquiry into the facts respecting the above mentioned improvement, and from the best judgment of your Committee they believe it to be a great saving to the City.

The superintendant of repairs, by permission of said Denny, has adopted the same in every instance where a new pump has been sunk for the 3 years last past. Your Committee therefore recommend the adoption of the following:

Resolved that the Comptroller present a Warrant at the next meeting of the Board for $200. in favor of the superintendant of

repairs, to be paid by him to Sarah Denny, widow of [289] the late William Denny, block & pump maker, for the benefit the public have & may hereafter receive from the improvement invented in pumps by her late husband.

(Signed) S. Parker
D. Board

Which was approved & the resolution adopted.

The Committee of Wharves, Piers & Slips, on the petition for regulating & filling in Roosevelt St. reported:

That an Ordinance has lately passed this Board enjoining it on the owners of property between Roosevelt & Dover Sts. to have the Bulkhead forming the line of South Street made & completed by the 1st day of August next, and in the opinion of your Committee the nuisance complained of by the petitioners cannot be corrected until said Ordinance is carried into effect. The Committee in a former report have expressed their opinion of the necessity of this measure; and in order to facilitate the object of the [290] petitioners, they propose the following:

Resolved that the St. Commissioner be instructed to inform the owners of property fronting on South Street between Dover & Roosevelt Streets that the Corporation are ready to proceed with that part of the Bulkhead to be completed at the public expence, and that any information required on this subject or assistance in making the Contract for completing the whole line will be cheerfully afforded at his Office.

(Signed) S. Allen
A. Mann
S. Stevens
H. Tallman

Which was approved & the resolution adopted.

The same Committee, on petition for repeal of law respecting wharfage at Public Slips, reported:

That the Common Council, on petition of certain captains & owners of coasting vessels modified the law alluded to [291] so as to make it unopperative during the winter months, and the Committee are of opinion that the law, as it now exists, is salutary & useful and ought not to be repealed, especially as the offers lately made for a contract of the public slips was predicated on the existence of this law & the advantages to be derived therefrom will be expected by the lessee. They therefore propose the following resolution:

Resolved that it is inexpedient to grant the prayer of the Petitioners.

(Signed) S. Allen
A. Mann
S. Stevens
H. Tallman

Which was approved & the resolution adopted.

The same Committee, on petition of Samuel Evans, reported:

That the Memorialist holds a lease from the Corporation of a Ferry from Walnut Street near Corlaer's Hook to Little St. [292] on Long Island: that the said ferry is at present conducted by Row & Sail Boats, but that the Memorialist has made arrangements to have built & put in operation in a few weeks a Horse or Teamboat on said ferry. He finds, however, on examination that the shoalness of the water in Walnut Slip and the rapidity of the tides in the vicinity make this place very unsuitable for running said Boat & therefore requests the privilege above stated.

Your Committee have duly considered this subject and are of opinion that the request of the Memorialist cannot be granted for the following reasons:

The lease to Rodman Bowne for the ferry from Catharine Slip contains a clause which makes it very doubtful to the Committee whether the privilege secured him would not be infringed by permitting the ferry at Walnut St. to be removed farther west, and on exa- [293] mining the Slip at the foot of Gouverneur Street it appears that the Corporation only possess the uncontested right to the centre pier and that said pier is now occupied, and has been for some time past, by the boats bringing hay to this City & cannot be dispensed with, and that therefore the ferry could not be accommodated in this slip without extreme inconvenience to that part of the City or an infringement of the rights of others guaranteed by the Common Council. The Committee therefore propose the following resolution:

Resolved that it is inexpedient to grant the prayer of the Memorialist.

(Signed) S. Allen
A. Mann
S. Stevens
H. Tallman

Which was approved & the resolution adopted.

The same Committee, on the petition respecting the Sewer in Broad St. reported:

[294] That an ordinance having passed the Board for filling in Exchange Slip, it became necessary to extend the sewer in Broad St. to the river; and as the owners of property, for whose benefit the said sewer was constructed, will have to be assessed for said extension, the Committee are of opinion that the sewer ought to be cleansed & the expence included in the Assessment for extending the same, & they accordingly recommend the following resolution:

Resolved that the Street Commissioner be instructed to direct the Sewer in Broad Street to be cleansed, and that the expence for cleansing said Sewer be included in the assessment for extending the Sewer to E. River.

(Signed) S. Allen
A. Mann
S. Stevens
H. Tallman

which was approved & the resolution adopted.

The Finance Committee, on petition of [295] P. Charles L'Enfant, reported:

That it appears Mr. L'Enfant, at the request of the citizens, furnished a plan for altering & improving the old City Hall, so as to render it suitable for the reception of the Congress of the United States, and at the same time performed the superintendance of the work until completed. The Committee have discovered nothing on the Minutes of the Common Council relative to any stipulation for compensating Mr. L'Enfant for this undertaking, and they are led to infer that it was altogether voluntary on his part & that his object was the honor of the performance rather than pecuniary reward.

On the 12th October 1789 the Common Council, after reciting the generous services of Mr. L'Enfant, resolved that the thanks of the Board, together with the freedom of the City be presented to him, and also that a lot of Common Lands, containing the quantity of 10 acres, be conveyed to him in fee simple. The location of this land [296] was decided by the Board on 30th December 1789, and on 6th April 1790 the Clerk, presented a Survey & Map of said land, and on the 16th he laid before the Board the draft of a grant to P. C. L'Enfant. On the 30th of April the Board was informed that Mr. L'Enfant declined accepting the proffer of the Corporation: whereupon it was ordered that the Clerk communicate to him this information and in

the mean time that the execution of the grant be suspended. The Clerk reported on the 14th May 1790 that he had written to Mr. L'Enfant and received an answer stating "that it was perfectly agreeable with his sentiments & disposition to refuse the gift."

On the 26th January 1801 a Memorial from P. Charles L'Enfant claiming compensation for his services &c. was presented to the Common Council & the Board determined to allow him $750. in full discharge of all further claims [297] against the Corporation for, or on account of his said services and on the 16th of February following Elias Kane, in behalf of L'Enfant, communicated to the Board the unwillingness of him, the said L'Enfant, to accept the $750—& requested the Common Council to reconsider the subject and to make him a greater allowance; whereupon it was determined not to reconsider the same.

The foregoing comprises a brief statement of all the facts that have come to the knowledge of your Committee on this subject, and they are such as plainly evince on the part of Mr. L'Enfant a disposition to value his services far above what they were deemed to be worth by the gentlemen composing the Common Council at the time they were rendered. The Committee do not pretend to judge of the value of these services, nor are they willing to decide as to the justice of Mr. L'Enfant's claim farther than what may be inferred from the entries in the Minutes of the Common [298] Council, and from these it is concluded that, whatever his services were, they were rendered voluntarily & without any stipulation for or expectation of a reward. It is a question for the Board to decide, therefore, whether, after the repeated rejection by Mr. L'Enfant of the liberal offers made him by the Common Council, he has still any claim on this Board. The Committee think not & they therefore offer the following resolution:

Resolved that it is inexpedient to grant the request of P. C. L'Enfant.

The same Committee, on the petition of Stephen Brown, reported:

That the Salary allowed the House [299] Physician & Surgeon of the Alms House is $250 per annum: that the Board on a former

occasion refused to increase this Salary from a conviction that respectable young men in abundance might be obtained, ever[n] if no salary was allowed, and that the situation is desirable for young practitioners on account of the information to be obtained in the line of their professions. The Committee are informed, however, that during the prevalence of the fever in this City Dr. Brown rendered essential services at the Hospital. established by the Board of Health near the Alms' house, and that for one year of the time he has been in that establishment he had to perform the duty both of physician & Surgeon, which duties were very arduous. Under these considerations the Committee deem it their duty to recommend that a small compensation be allowed Dr. Brown for extra services and they propose the following resolution accordingly: Resolved that [300] the Comptroller report a Warrant in favor of Stephen Brown for $150. for extra services rendered at the Alms' house Hospital during the prevalence of the late fever in this City.

which was agreed to & a Warrant directed to be reported agreeably thereto.

The same Committee, on the petition of the Committee in behalf of the N. Y. Brooklyn Steam Boat Ferry Company, reported: That the Memorialists claim by their lease the use of a small Slip at Brooklyn, on the east of that used for landing the passengers, which they state to be absolutely necessary for laying up the boats at night and when out of repair and also for the storing [301] of the wood for the use of the Steam Boat.

Your Committee beg leave to state that, in their opinion, if the memorialists have any just claim to the Slip alluded to they have unaccountably neglected their interest in not calling the attention of the Board to the subject before this late period. In 1817 this Slip, together with other property, was reported to the Board by the Comptroller from which, in his opinion a revenue might be derived & was referred to the Finance Committee. It was afterward advertised & sold at auction on a lease of 3 years. During the advertising no remonstrance was heard by the Common Council, altho' it is stated to the Committee that to members of the Corporation remonstrance was made. On the day of March last the Comptroller again re-

ported this Slip as one the lease of which would expire on the 1st day of May. The report was referred to the Finance Committee who recommended that it be leased at auction for a term [302] of 3 years. The intention to lease was published in the papers employed by the Corporation for several weeks, but no remonstrance was made to the Board against the measure, only, as the Committee are informed, one of the parties spoke to the Comptroller on the subject. On the day appointed for leasing the public property, neither of the gentlemen appeared to object to the sale or to offer a bid for it and it was accordingly struck off to Mr. Daniel Wright, the only person present who made any offer at $60. per year.

The Committee have deemed it necessary to make this brief statement of facts, in order that it may appear that if the lessees are deprived of any privilege which they may of right claim from this Board it has arisen from negligence on their part in not enforcing such claim in due season.

The Committee have had a conference [303] with the Memorialists, and, to make a final settlement of this question, they propose "that if the Corporation will execute a lease to them of the Slip alluded to, together with a gore lot of ground now held by them in its vicinity for the whole term unexpired of the lease for the Ferry they will quiet the claim of Mr. Wright and pay to the Corporation $60. per annum for the Slip & such equitable price for the gore lot as may be agreed on." Your Committee are of opinion that the above proposition ought to be acceded to and recommend that the Board adopt the following resolution:

Resolved that the Comptroller be authorized to accede to the above stated proposition from the Committee for managing the concerns of the N. York & Brooklyn Steam Ferry Boat Company and, on their quieting the claim of Daniel Wright, the Counsel be instructed to prepare the necessary leases & present them to the Board for execution

The same Committee, on petition of Abijah Hammond, reported:

That Mr. Hammond proposes to cede to the Corporation a piece

of ground to be appropriated for a Market, adjoining the State Prison wall, nearly half of which is under water and to receive as an equivalent a grant for a line on West Street of about 150 feet, free from quit rent. The Committee have duly considered this subject and cannot see the advantages to be derived by the public, attempted to be shown by Mr. Hammond. The Market already erected in the vicinity of this place is very commodious and has lately been improved at [305] a considerable expence and will probably be sufficient to accommodate the population of that place for 50 years to come. The yearly quit rent of the line of property owned by Mr. Hammond will be about $300. and the expence to be incurred by the Board in making the bulkhead in front of the premises offered to be ceded and filling in that part which is now water will probably cost not less than $7000. The result of acceding to Mr. Hammond's proposition, therefore, would be that an interest of $790. per annum would be sacrificed for a property that may be useful to the public some 30 or 40 years hence when its cost would be enhanced to at least 4 times more than its value. The Committee therefore propose the following resolution:

Resolved that it is inexpedient to accede to the terms proposed by A. Hammond and that the Clerk be instructed to return him the Map hereunto annexed.

Whereupon it was resolved that the Comptroller [308] be directed to advertise in the papers employed by the Board for proposals for leasing the public docks & Slips.

Alderman Allen stated that William H. Bunn had neglected to comply with the terms proposed by the Finance Committee for the settlement of the demand which the Corporation had against him. Whereupon, on Motion of Alderman Allen,

Resolved that the Counsel be instructed immediately to commence a prosecution against the said William H. Bunn for the amount due from him to the Corporation; and it was resolved that the injunction of secrecy heretofore imposed in relation to this subject be taken off.

Alderman Allen stated that in consequence of the short time that the lessee of the public Docks & Slips would have to make the necessary arrangements for executing his contract it was deemed advisable by a number of the members of the Board to direct that the receipt of proposals should be limited to this day & his Honor the Mayor had therefore been requested to summon a special meeting [312] of the Board to receive & take into consideration the said proposals.

A resignation was received from Nevinson Greenard of his appointment as Inspector of the ensuing election, which was accepted & John Van Sicklen appointed in his place.

The report of the Comptroller, presented at the last meeting, was called up & read in the words following:

The Comptroller respectfully presents to the Common Council the following report:

City Stock issued in 1812		$700,000.
Deduct amount redeemed from 1st September 1813 to 13th May 1816		46,100.
		653,900.
Bonds		178,117.66
Debt 13th May 1816		832,017.66
City Stock April 1820		900,000.
Deduct amount redeemed		151,500.
		748,500.
Cash in Treasury & U. States 6 pct. stock [313] in favor of the Commissioners of the Sinking Fund for redeeming the debt		28,888.75
		719,611.25
Bonds		266,023.17
		985,634.42
Amount to be collected for Canal St. Sewer, included in above Bonds	67,629.82	
Expended for Battery & expected to be repaid to Treasury by Special Tax	17,330.80	84,960.62
Amt of debt Apr. 17. 1820 after deducting the above sum		900,673.80
Debt 13th May 1816		832,017.66
Increase in four years		$68,656.14

A.

It will appear that a difference exists between the above amount of debt & that published by the Finance Committee Dec. 27, 1819: but it should be observed that since that report a considerable reduction has been made of the bonds by payment and the Committee did not notice the City Stock which was redeemed.

The heavy appropriations required to [314] discharge debts incurred and to fulfil contracts & plans of improvement entered into prior to May 1816, amounting to more than $440,000, (B) have obliged the Corporation to dispose of some portions of property at auction. This was done at seasons peculiarly favorable & enabled them to discharge every demand made and also to reduce the funded debt by an appropriation of 25 per cent on the sales. Should the Bill before the Legislature of the State, authorizing the Corporation to increase the City Stock, become a law, they will be enabled on advantageous

terms to dispose of part thereof and apply it to the payment of their bonds.

No increase of the debt necessarily arises from having the same power which was granted by an Act passed on the 8th of June 1812.

The balance in the Treasury, to the credit of the Sinking Fund, remained, as other public money, till January last, [315] when interest at 5 per cent per annum on the amount remaining for 30 days was allowed.

However beneficial it may appear to vary the plan adopted at the time of creating the sinking fund, in order to authorize the Sale of Stock which may be purchased by the Commissioners when above par, or to invest the funds appropriated for the reduction of the debt in other kinds than those above specified, it is conceived that greater confidence in the diminution of the debt will be produced in the public mind by a faithful & persevering adherence to the present system than by any innovation, however specious it may seem at first view.

The resources of the Corporation have been materially impaired during the last 4 years by a reduction of the sum annually received from the State for Vendue Sales.

From 1812 to May 1816 amt received	$201,824.90
From May 1816 to April 1820	93,345.72
Diminution in 4 years	108,479.18
The Annual amount at present is	$10,000.00

[316] The Board have a weekly return of their cash account, and an annual report is made of all monies received and paid, and for what purpose. They are also in possession of a Schedule of the real estate belonging to the Corporation, which was presented to them on the 11th May 1818 and also in May 1819, revised.

Should the present system of retrenchment of expences and a rigid plan of economy be strictly adhered to, it is anticipated that the revenue from public property and the balance of tax remaining uncollected will be sufficient to defray the ordinary demands on the Treasury. This brief exposition of the State of the City Finances is respectfully submitted.

(Signed) G. N. Bleecker
Comptroller.

APPENDIX.

A

The valuable improvements made in the City within 4 years past amount [317] to more than $100,000. They are comprised in the following particulars:

Ground purchased for extending the New Alms house Establishment		17,395.
Two public Slips on the East river at the foot of Roosevelt & Oliver Sts. Cash paid, exclusive of bonds issued which are included in the above		14,306.31

The Minutes of last meeting were read & approved.

The following resignations were received from persons appointed Inspectors of the ensuing Election, were received & the following persons appointed in their places: Isaac Pierson of 1st Ward and John L. [321] Lawrence appointed:

John Swartwout of 9th Ward and Thomas Morris appointed:

John Van Sicklen of 7th Ward and James P. Allaire appointed.

A Letter was received from the Chamberlain stating that, agreeably to the directions of the Board he had made a communication of the resolution respecting the accounts of the late Chamberlain, W. Fish Esqr. to one of the Sureties, William W. Gilbert Esqr. that he had replied that on account of the absence of one of the executors of Mr. Fish, Dr. Hunt, they could not yet act but would immediately on his return to the City and that no further communication had been received from the Surety on the subject.

Whereupon resolved that it be referred to the Finance Committee with authority to act in the premises as they shall judge advisable.

A petition of Jacob Morton praying relief from [322] an excessive Assessment of personal tax laid on him in the 3d Ward, was referred to the Committee on Assessments with authority to give the relief required.

A petition of Caleb C. Conklin for Stall No. 16 Catharine Market was read and referred to the Market Committee.

A petition of Lewis Smith for appointment to office of a Measurer of Grain was read & referred to the Committee on Applications.

A petition of Abraham L. Smith for remission of tax assessed on him was referred to the Committee of Charity with authority to grant the prayer of petitioner.

A petition of Rodman Bowne, lessee of Catharine Slip Ferry, was received stating that the Common Council on 5th January 1818 resolved that on petitioner's [323] placing another Horse-Boat of at least eight horses power on said ferry that they would extend his lease on said Ferry to the same term with that of the New York & Brooklyn Steam Ferry Boat Company: that such Boat is placed on said Ferry and praying a Committee may be appointed to examine said boat in order that the grant may issue to petitioner agreeably to said resolution. Whereupon it was referred to the Ferry Committee.

A petition of Philip Hone was received stating that he had been solicited by a number of Inhabitants of the 8th Ward to establish a ferry to Hoboken from the foot of Spring Street: that he is willing to agree to the same and therefore requests the Board to extend the North boundary line of the grant of right of ferriage from the City of New York to Hoboken heretofore made to petitioner from the North Battery to Christopher Street and [324] to grant him the right of ferriage for 15 years, and that he will bind himself thereupon to place on said Ferry two good sail boats and two barges for the term of two years and after said two years to place thereon one horse-boat, and farther requesting an extension of his present lease for the term of five years longer: which being read was referred to the Ferry Committee.

A remonstrance against filling in and regulating Stanton Street, signed by Noah Brown and Peter Ogilvie, was referred to the Street Committee.

A petition of Isaac Lawrence to construct a vault in Duane Street corner of Broadway was granted on the usual terms under direction of the Street Commissioner.

The Counsel presented a lease to Edward Hitchcock for the public Wharves & Slips [325] for one year from the 1st of May next; also a lease to Elbert Anderson for parts of lots of ground corner of Chamber & Chatham Streets on which he remarked as follows: The lots were heretofore leased to Elbert Anderson & Theodorus Bailey by the Corporation, but, a question arising between them & the Corporation relative to the rent which they ought to pay, the greater part of the lots being taken from them for the purpose of extending Chamber Street, it was submitted to the Arbitrament of John Wells Esqr. and the lease is now reported in pursuance of his award.

[327] The Street Commissioner presented the following communication respecting an Ordinance for making South Street.

The Street Commissioner herewith covers the Draft of an Ordinance for making South Street as drawn up by the Council to the Corporation in conformity with the law on that subject as amended by the last Session of the Legislature, in order that it may be passed—and as this is a substitute for the Ordinance passed the 3d Inst. the Street Commissioner would suggest the propriety of rescinding the former one.

All which is respectfully submitted

(signed) Jno. McComb St Commissr

Alderman Allen also presented the following resolution,

Resolved, that the Common Seal of the Mayor Alderman and Commonalty of the City of New York, be affixed to copies of the Ordinance for making South Street from Dover Street, to Roosevelt Street, and that the Mayor and Clerk sign them, and that they be served [328] personally upon the proprietors of the lots of Land adjoining to, and fronting on South Street aforesaid, and that the same be published in News papers employed by this Corporation.

Whereupon the Ordinance presented was passed, the former Ordinance rescinded and the resolution agreed to.

He also presented an Ordinance for a Well and Pump in Allen near North Street, and for a Well and Pump in Roosevelt Street between Cherry and Batavia Street which were passed, and Abraham Bloodgood, Abraham Baudouine and John Brower were appointed Assessors in the first and Abraham Bloodgood James Barrow and Benjamin Prince in the latter. Also an Ordinance for regulating and paving Chapel Street from the Sewer to Thomas Street, and Abraham Bloodgood, James Barrow and Abraham Baudouine were appointed Assessors.

He also presented an Assessment for a Well and Pump in First Street near the first Avenue [329] and for curbing and Flagging Washington Street from Carlisle to Rector Street which were confirmed and Morris De'Camp appointed Collector in the former and John G. Betts in the latter.

The Alderman and Assistant of the 4th Ward and Street Commissioner to whom was referred the Petition for removal of a Pump in Roosevelt Street reported:

That they have examined the situation of the said Pump, and are satisfied that it is very inconvenient for persons who pass on that side

of the Street, and will be, extremely so, to the Congregation who shall attend at said Church—They are also informed, that when the Common Sewer is overcharged, that the water flows into the well.

Your Committee are of opinion that those inconveniences cannot be obviated but by sinking a new Well on the opposite side of the Street.

For which purpose they present the following resolutions,

Resolved, that a Well be sunk and a Pump be placed therein—on the Easterly side of Roose- [330] velt Street, between Cherry and Batavia Street, opposite the centre line of Peter Bartine's houses, that the old Well on the opposite side of the Street be filled up.

Also, Resolved, that the Street Commissioner be instructed to prepare, an Ordinance for that purpose.

The Finance Committee on the Petition of William Alburtis reported:

That the Lot alluded to was originally leased to Patrick M^cKay for the term of twenty one years from the 1^st day of May 1805, conditioned to be renewed for twenty one years after the expiration of the first term, at an apprised rent. That M^r AlBurtis purchased said lease of M^cKay for a valuable consideration, and that on the 22^d day of April 1816, the Common Council assented to the assignment of said Lease; but that the [331] said M^cKay was Insolvent at the time of his making the said sale, and had previously assigned the said lot for the benefit of his Creditors, and the Petitioner was prevented from obtaining a good and sufficient title from the said M^cKay. That the Petitioner to effect his title, has lately made an arrangement with the Comptroler and Council to permit a peacable re-entry by the Corporation on the premises, the proceedings whereof has terminated, and the Corporation is now in complete possession of the Lot. That the Petitioner proposes to pay all the expense of the proceedings necessary to effect the re-entry, together with the back rent now due; and prays that a Lease may be granted for the remainder of the term being six years unexpired from the 1^st day of May next, or that he may have the said Lease extended for twenty one years from the said day.

Your Committee are of opinion, that the prayer of the Petitioner is reasonable, and that he is entitled to a Lease of the premises for the

unexpired term aforesaid, on the same conditions as those granted Patrick McKay; but they cannot see [332] the expediency of extending the term beyond that provided for in the original Lease; and they therefore offer the following resolution.

Resolved, that a Lease for the Lot N° 18 Duane Street, for the term of six years from the first day of May next, at the annual rent of One hundred Dollars, with a condition for one renewal for twenty one years at an apprised rent, be granted to William Al Burtis;—Provided he pay the expense of re-entry by the Corporation on said Lot, and all the rent, together with the interest on the same, which shall be due and unpaid at the time of his receiving said Lease; and also all back taxes and assessments that may be due on said Lot.

[333] The Committee on Assessments on the Petition of Thomas Pringle reported:

That they are satisfied that the mistake was made by the Assessors not having any knowledge of the division of the property as they set forth in the annexed certificate. They say that they have Assessed Thomas Pringle in said Ward for two houses and lots, the sum of $28 5/100 Dolls. and as there is only one house and lot belonging to said Pringle, Your Committee are of opinion that it is but just and right that said Thomas Pringle pay but one half of the above sum which is $14 25/100 Dollars: Your Committee therefore take the liberty to offer the following resolution.

Resolved, that $14 25/100 Dollars be remitted, and that the remainder which is $14 25/100 Dollars be collected.

[334] The same Committee on the petition of Jane Gibson, reported;

That they have enquired in the subject as far as it was in their power, and it appears to them a large sum of money to fill up two lots

of ground, but greivous as it may be, they see no good ground to give her any relief. Your Committee therefore beg leave to offer the following resolution:

Resolved, that it is inexpedient to remit any part of said Assessment.

The same Committee on the Petition of Benjamin Armitage reported:

That on examination of the subject, they find the facts as stated by Mr Armitage are true, That the mistake took place by Mr Armitage paying his Assessment on the wrong lot, not being able at that time to say with certainty which was his, as [335] there were five vacant lots charged in the assessment, each with a like sum: One of these five lots were returned to the Street Commissioner as delinquent, and was duly advertized, and Sold on the 3d of November 1818. for Fourteen Years, and which now proves to be the one belonging to Mr Armitage, and that the one that is really delinquent is said to belong to Stephen Gorham, and who, it is probable, will pay the Assessment when called on.

Your Committee are therefore of opinion that as the Sale of said Lot was made through mistake—That the Street Commissioner be instructed to return the purchaser of said Lot, his money with lawful interest from the day of Sale, agreeably to the terms made known on the day of the Sale. For which purpose they beg leave to offer the following resolution:

Resolved, that the Comptroller report a warrant at the next meeting of this Board for the Sum of $70 $^{87}/_{100}$ Dollars in favor of Mr Henry Abel, in full for the purchase money of said Lot with the interest thereon.

J. J. Westervelt
[336] Signed John Morss
John P. Anthony

Which was approved, the resolution adopted, and a warrant directed to be reported agreeably thereto.

The same Committee on the Petition of Joseph Brewster, reported:

That by the annexed receipt it appears that the petitioner has as stated in his Petition paid a personal tax of $8 $^{6}/_{00}$ Dollars. rated

to him in the first Ward; he is also rated at $12 $^{6}/_{100}$ Dolls. in the fifth Ward for his personal tax and where his residence is; the tax rated to him in the fifth Ward being the one which he ought to have paid his Domicil being in that Ward, and the other an error or mistake: The Committee are of opinion that M^{r} Brewster ought to pay $4. of the tax charged to him in the fifth Ward, and that the residue $8 $^{6}/_{100}$ ought to be remitted. They therefore recommend the following Resolution:

Resolved, That the Collector of the fifth Ward receive of Joseph Brewster $4. in full for [337] the personal tax charged to him in that Ward.

Signed J. J. Westervelt
John Morss
John P. Anthony

Which was approved, and the resolution adopted.

The Committee appointed to procure accommodation for the Justices Court of the first district, reported:

That in their opinion the most convenient place they can procure is a large room with the use of Jury rooms in the house N^{o} 44 Nassau Street at the annual rent of Eighty Dollars. They therefore offer the following resolution:

Resolved, That the Justices Court Committee of the first district be authorized to hire rooms for the accommodation of the said Court at a rent not exceeding Eighty Dollars p^{r} Annum.

Signed. John Hone
Samuel Stevens
Harmanus Tallman
E. W. King.

Which was approved and the resolution adopted.

[338] The Committee on the Fire Department on the Petition of Fire Engine Company N^{o} 13 presented a report, which was read, and the consideration postponed.

The same Committee on the Petition of Evert Duyckinck, reported:

That it appears to the satisfaction of the Committee from the Certificate of Robert Benson the former Clerk of this Board, that Evert Duyckinck was appointed a Fireman on the 2^{d} July 1787, and it also appears by the Certificate of the Foreman of Engine Company N^{o} 13 that the said Duyckinck has served as a Fireman the full time required by the law passed the 12th April 1816. in Fire Company N^{o} 13, and therefore are of opinion that relief ought to be granted.

Respectfully offer the following Resolution:

Resolved, That the Clerk of this Common Council be and he is hereby authorized to give to Evert Duyckinck a Certificate of his services as Fireman.

Signed. John P. Anthony
Harmanus Tallman

[339] Which was approved and the Resolution adopted.

The Special Committee to whom were referred certain Resolutions respecting Oliver Street, and also a petition of Sundry Inhabitants praying the said Street may be laid out agreeably to the Report of the Assessors, presented the following Report:

That about two years since upon the application of persons owning property fronting on Oliver and Fayette Streets, the Board ordered, that Fayette Street should be closed and Oliver Street should be extended to Chatham Square.

That this was accordingly done, and at an expense over and above the value of the ground which was formerly Fayette Street, of about Thirty five Thousand Dollars. That Five Thousand three hundred and Eighty three Dollars, of the expense was assessed upon the Corporation on account of the buildings which it became necessary to remove. That after the proceeding were completed and the buildings were removed, it was discovered that Oliver Street was not straight, but that there was a warp in it at the upper [340] end of Fourteen feet Eight Inches, which materially injured the appearance of the Street, Thereupon the Inhabitants of that Street applied to the Corporation to make another application to the Supreme Court for the appointment of Commissioners for the purpose of making the Street straight.

Application was accordingly made at the last August term and Commissioners were appointed: But that in consequence of the Trustees of the Baptist Church and William L. Simers and Peter Parks not entering into the same arrangements for relinquishing the damages which they might sustain by closing those parts of Oliver Street which lie in front of their premises and taking those parts of the Streets which lie in front of their premises at the appraisement of the Commissioners which was done upon a former occasion, the Commissioners have Suspended their proceedings.

The consequence of their executing the order of the Supreme Court as it now stands would be, that those persons would be entitled to large damages for being deprived of their fronts.

[341] The difficulty might however be obviated by adopting the

Resolutions referred to your Committee which provide among other things for applying to the Supreme Court to amend their order by leaving out of it, so much as relates to closing any part of the Street which lies in front of the premises belonging to those persons.

The expence of making the Street straight would then be inconsiderable, as the ground taken on our side of the Street would go far towards paying for what is required on the other, and there is but one building that would be destroyed and that of small value.

Some of the persons however who signed the petition referred to the Committee, have appeared before them in behalf of the inhabitants of Oliver Street and represented to the Committee that it was now the general wish of the Inhabitants of that Street, that it should not be straightened, as they are unwilling to be subject to any further expence respecting it. The expences are now incurred, for the proceedings in the Supreme Court will not [342] exceed Thirty five Dollars, and the expences for the Surveys and maps will probably not exceed twenty five Dollars, and these are all the expences which have been incurred.

Under these circumstances the Committee are of opinion that it is inexpedient that the Street should be straightened.

The [Committee] therefore recommend the adoption of the following Resolution.

Resolved, that the Counsel be instructed to suspend any further proceedings relative to the straightening of Oliver Street.

John P. Anthony

The Question being taken thereon, and the Ayes and Noes having been called by Alderman King, the members voted as follows:

Affirmative. Alderman Anthony Morss Mann Mr Parker [343] Tallman Britian Board Davis Hammond 9

Negative. Mr Recorder Alderman Hone King McQueen Taylor Thorp Allen Mr Stephens Crane 9

The Board being equally divided, his Honor the Mayor gave his vote in the negative—so it passed in the negative.

The Resolutions which were presented on the 3d Instant by Alderman Mann and which had been referred to the said Committee, were then read and were in the words following,

1st Resolved, that the Counsel be instructed to take the necessary measures for vacating so much of the rule of the Supreme Court relative to Oliver Street, as authorizes the closing of parts of that

Street in front of the property belonging to the Baptist Church, William L. Simers and Peter Parks; unless they enter into the same arrangements relative to those parts of the Street, which lie in front of their premises, and which [344] it is contemplated to close, as have been entered into by Robert Dodge and Henry Rutgers.

2d Resolved, That the Commissioners of Estimate and Assessment who may be appointed in pursuance of the foregoing resolution, be authorised to assess so much of the expence of straightening Oliver Street upon the Corporation as the strips of land which lie in front of the Baptist Church and the property of William L. Simers and Peter Parks, and which it was contemplated to close in the manner stated in the Petition of the Corporation to the Supreme Court, will be worth to the Baptist Church and said Parks and Simers.

The Question being taken on the first resolution, it was agreed to —The Question being taken on the second resolution, it was also agreed to, the Ayes and Noes having been called by Mr Hammond, were as follows:

Affirmative. Mr Recorder Alderman Hone King [345] McQueen Mann Taylor Thorp Allen Mr Stevens Crane Britian Board 12

Negative. Alderman Anthony Morss Mr Tallman Westervelt Parker Davis Hammond 7

The final Question was then taken, on agreeing to the resolutions and was carried in the Affirmative—The Ayes and Noes having been called by Mr Hammond were as follows.

Affirmative. Mr Recorder Alderman Hone King McQueen Mann Taylor Thorp Allen Mr Stephens [346] Crane Brittian Board 12

Negative. Alderman Anthony Morss Mr Tallman Westervelt Parker Davis Hammond 7

Alderman Hone presented the following resolution:

Whereas the Pump on the Battery has been useless for several years last past, and the well is now in a dangerous situation, Therefore

Resolved, That the Superintendant of repairs have the said Pump removed and the well filled up without delay.

Which was adopted.

Alderman Allen presented a resolution referring it to the Committee on Laws to report an amendment to the law respecting Pawn Brokers, so that they be confined to exercising their business at one place only, which resolution was referred accordingly.

On motion of Alderman Thorp it was referred to the Committee of Repairs, to direct the [347] Superintendant of Repairs to erect the

Corporations proportion of a legal fence between the Corporation ground and that of George Warner in fourth Street.

of the City and County of New York

[355] Thereupon it was Resolved that the Clerk of the Common Council be directed to give notice to the persons mentioned in said return to attend on Monday next, being the second Monday in May Instant, in the Common Council Chamber at 12 oClock of said day, to take the Oaths prescribed by law.

His Honor the Mayor stated that he had been served with a Subpœna issuing out of Chancery at the suit of Oliver Vanderbilt: Whereupon it was ordered that the Counsel be directed to enter an appearance in behalf of this Corporation to said suit and to defend the same.

A Petition in behalf of James Davidson praying redress for an assessment of Tax in 1819. on his property, was read and referred to the Committee on Assessments.

A Petition of Thomas Patrick requesting permission to exhibit Fire-works in the Park on the 4th of July next in aid of some Benevolent Society [356] was read and referred to the Committee on Public Lands and Places.

A resignation from Stephen Brown as Resident Surgeon of the Alms-House was read and accepted.

A Petition of William Hitchcock & Co. praying a remission of a fine incurred on certain Barrels of Flour, which were of less weight on being inspected than the law directs, which was read and referred to the Finance Committee.

A Petition of Nehemiah U. Tompkins Druggist praying remission of a fine said to be incurred by selling liquor without License, but which he avers arose from selling a pint of wine to a person who had bought from Petitioner some Jesuits Bark, and bought the same to take said Bark in, which was read and referred to the Police Committee.

A Petition of David B. Scudder for permission to construct a Vault in Lispenard Street, and a similar petition from John T. Irving for one in [357] Nassau Street were severally granted on the usual terms under direction of the Street Commissioner.

A Petition for a Well corner of Bleecker and Sullivan [Streets] was presented and referred to the Alderman and Assistant of the Ward and Street Commissioner to report an Ordinance therefor.

A complaint against the situation of a Lot on the corner of State Street and Market-field Street was read and directed to be laid on the table.

A Petition from Maria Whaites praying further time for paying an Assessment on her property in the Bowery; was read and referred to the Finance Committee, with authority to grant the prayer of the Petitioner.

A Petition of George Rapelye praying relief from an undue Assessment on land owned by him in the 8th Ward, was read and referred to the Committee on Assessments.

[358] A Petition of William De Graw for Stall N° 1 Grand Street Market, was presented and referred to the Market Committee with authority to grant the Petition.

A petition of certain Owners of Houses and Lots in Oliver Street, Remonstrating against the Ordinance passed at the last meeting of the Board in relation to said Street, was presented and ordered to be laid on the table: It was then moved to reconsider the vote which was agreed to. It was then moved by Alderman Morss that the prayer of the Petition be granted, which passed in the Negative. It was then resolved that the Petitioners have leave to withdraw their Petition.

The City Inspector presented Ordinances for correction of sundry nuisances which were passed. Viz[t]

Alderman Allen presented a Law entitled a Law concerning Dogs, which being amended was as follows,

A Law concerning Dogs.

Sect^{n} 1st Be it Ordained, &c., That no Dog shall hereafter be suffered to go at large in the City and County of New York under the penalty of Ten Dollars upon the Owner or possessor thereof for each offence, and if it shall be alledged that such Dog is not owned by the person on whose premises the same shall be found, and that the Owner thereof is [367] unknown; it shall be lawful for the Register and Collector, herein after mentioned, to cause such Dog to be taken away and killed, and to have the carcase thereof removed and buried.

2^{d} And be it further ordained, That for every Dog which shall be owned or kept in the said City, the owner thereof shall annually, on or before the first Monday in June, pay to the Register and Collector aforesaid, the sum of Three Dollars, and for every Dog more than one, the sum of Five Dollars; and the owner or possessor of every such Dog or Dogs shall, on or before that day in every year, make report, in writing, to the said Register and Collector, of the number of Dogs by him or her owned or kept in the said City; and shall, at the same time, pay the said Register and Collector the Tax imposed by this Ordinance, under the penalty of Ten Dollars; and the said Register and Collector shall keep an alphabetical list of the names of all persons, who shall have paid such tax, of the number of Dogs reported, and of the sum received from each person.

3^{d} [368] And be it further ordained, That the said Register and

Collector shall be entitled to Thirty per Cent upon all monies by him collected; and shall on the first Monday in September, December, March and June in every year, account, under oath, with the Chamberlain, for the residue of such tax which shall have been by him received; and shall in each and every year hereafter, at least three weeks before the first Monday in June, open his said Office for the purpose aforesaid, giving at least six days previous notice in the News-papers employed by the Common Council of the time and place at which his said Office will be so opened, and shall keep the same opened for the purpose aforesaid, every day, Sundays excepted, during such time, for three weeks previous to the first Monday in June in each year.

4th And be it further ordained, That every Dog found at large within the City and County of New York, shall be liable to be seized and killed by the said Register and Collector, or such other person or persons as he shall for that purpose, from time to time appoint; which said Register and Collector or such other person or persons to be appointed, shall cause the carcasses of all Dogs by him or them seized [369] and killed, to be forthwith removed and buried; and for every Dog so killed, removed, and buried, shall be entitled to receive the sum of Fifty Cents from the Treasury, on producing proof thereof to the satisfaction of the Comptroller, who shall thereupon certify the same. And further, that it shall be lawful for any person to kill any Dog going at large in any part of the City, which shall bite, or attempt to bite any person or animal.

5th And be it further ordained, That any person who shall hinder or molest the said Register and Collector, or other person or persons to be appointed as aforesaid, in carrying into effect the provisions of this Ordinance, shall forfeit and pay the sum of One hundred Dollars for each offence.

Upon the question of agreeing to the same, it was carried in the Affirmative. The Ayes and Noes having been called by Mr Davis were as follows:

Affirmative. Mr Recorder, Aldn Hone, Ald. King, Ald. Morss [370] Aldn McQueen, Aldn Mann, Aldn Allen, Mr Bolton, Mr Stevens, Mr Crane, Mr Westervelt, Mr Parker, Mr Brittain, Mr Board. 14

Negative. Aldn Anthony, Aldn Thorp, Aldn Taylor, Mr Tallman, Mr Davis, Mr Hammond. 6

Whereupon the same was ordered to be published in the papers employed by the Board.

The Counsel stated that as the Petitions to the Supreme Court for improving certain streets are not yet prepared, he recommended that they be authenticated in the Recess of the Board, which was agreed to.

The Counsel and Street Commissioner to whom was referred the Petition of the Manhattan Company, Reported:

That the matters stated in their Petition, are in the opinion of the undersigned, correct. That the sum of Three hundred and sixty seven Dollars and Twenty four Cents paid by the Petition- [371] ers on account of the Assessments for opening the Eighth, Ninth and Tenth Avenues, was paid under an erroneous impression, that they had purchased in at a public sale the property upon which the sum was assessed: when in fact, they had only purchased other property, which had been assessed for opening Twenty Eighth Street.

The undersigned are therefore of opinion, that the sum together with the interest thereon should be repaid the Petitioners, that the property upon which that sum of money was Assessed, should be advertized for sale in pursuance of the Act.

Respectfully Submitted

signed Ogden Edwards
Jno. M^{c}Comb, S^{t} Commiss^{r}

Which was approved, and the property directed to be advertized for sale as recommended.

The Ferry Committee on the Petition of Rodman Bowne, Reported in the words following,

The Committee on Ferries to whom was referred the Petition of Rodman Bowne Lessee of Catherine [372] Slip Ferry, setting forth, that the Common Council on the fifth day of January 1818. passed a Resolution to extend the Lease of the said Ferry to him for the same Term as the Fulton-Slip Ferry had been granted for the New-York and Brooklyn Steam Boat Ferry Company on condition that the Petitioner should place on his Ferry, another good and sufficient Horse Boat, to be propelled by at least Eight horses, within one year from the first day of May then next; And that the Petitioner had complied with the condition of the said Resolution and praying that the Common Council would appoint a Committee to examine the said Boat, to the end, that he might receive the grant according to the terms of the said Resolution, Report:

That the facts set forth in the said Petition are true, and that your Committee have examined the Boat built by the Petitioner, and

find her to be such an one as was contemplated by the Resolution referred to in the said Petition; in addition to which Your Committee beg leave to state, that your Petitioner has within a [373] few days launched another new and elegant Team Boat intended for the use of his Ferry.

Your Committee are therefore of opinion, That the Petitioner is entitled to an extension of his grant, according to the true intent of the said Resolution, and they respectfully submit for the consideration of the Board the following Resolution:

Resolved, That this Common Council do approve the Team Boat built by Rodman Bowne Lessee of Catherine-Slip Ferry, pursuant to a Resolution of the fifth January 1818, and that the said Rodman Bowne is entitled to an extension of his grant of that Ferry, according to the provisions of said Resolution: and that the Counsel of the Board prepare such grant and report the same at the next meeting of this Board.

All which is respectfully submitted

signed E. W. King
Asa Mann

Which was approved and the Resolution adopted.

[374] The Committee on Public Offices to whom was referred the petition of the Inhabitants of Vesey Street in relation to Auctions, Reported:

That the practise and custom of occupying the streets of the City by the Sales at Public Auction, of goods and merchandize by retail is improper, in as much as it uses public property to the exclusive benefit of the Auctioneers. Your Committee think that there should be an exception of furniture on account of its great bulk, particularly where the same is second-handed, or has been used.

Your Committee offer the following Resolution:

Resolved, That the Counsel of the Board prepare an Ordinance and present the same to the Board, prohibiting the Sale at Auction of all goods and articles of Merchandize, excepting second-hand furniture, in any part of Vesey Street, from and after the first of June next.

All which is Submitted

Which was approved and the resolution adopted.

The Committee on Assessments to whom was referred the Assessment for the Sewer in Clarkson, Carmine Street and the sixth Avenue, and the remonstrance of Thomas and Gulian Ludlow Reported:

That they have examined the Assessment and heard the Assessors in explanation of the principles by which they were governed *it* [in] making it out, they have also heard the objections of the M[r] Ludlows, as to the amount assessed on their [376] property. One of their objections is, that they are charged on two acres of ground more than they own; in the Map furnished the Assessors, their ground is represented at $19^{27}/_{100}$ Acres, and for which they are assessed upwards of Six Thousand Dollars, by a certificate exhibited by the M[r] P. Ludlows and furnished by one of the Surveyors who made the Map, the same ground is represented as containing only $17^{16}/_{100}$ Acres, being more than two Acres less; here it appears is an error, the Committee therefore recommend the adoption of the following Resolution:

Resolved, that the Assessment for the Sewer in Clarkson and Carmine Street and the Sixth Avenue, together with the Petition of Thomas and Gulian Ludlow and the Surveyors Certificate be referred back to the Assessors.

[377] The report of the Committee on the Fire Department on the Petition of Fire Engine Company N° 13 was called up, and being read was as follows:

The Committee on the Fire Department to whom was referred the Petition of Fire Engine Company N° 13 stating that their Engine was imported from England in the Year 1740. and that from some defect in the machinery owing to age and long service cannot be made from her suctions to draw a sufficient quantity of water to supply any other

Engine. That the chambers are smaller than a great majority of the Engines, whereby much water is lost in playing in line to extinguish a fire; that the Box and Machinery of said Engine are heavy and unwieldy, and runs very hard, whereby the other Engines have a decided advantage in repairing to a fire, notwithstanding the spirited exertions of the Company to arrive at the place in time to be serviceable, which it is the ambition of the Company to be; Report, That your Committee have had the said Petition under consideration, and made [378] the necessary enquiry, and find the statement of the Petitioners true; they further state, that they have been offered four hundred Dollars for Engine N° 13 and have taken the opinion of Messrs Hardenbrook & Smith as to the value of said Engine, and they state that the above sum is a fair price. The Committee are of opinion that the public interest requires that the spirit of emulation among the Firemen should be encouraged as far as a due regard to a judicious economy will permit.

Respectfully Submitted

Resolved, That the Chief Engineer is hereby empowered to dispose of Engine N° 13 for the sum of not less than Four hundred Dollars.

Resolved, that after the Sale of Engine N° 13, the Chief Engineer is hereby directed to procure a New Engine of the usual size for Engine Company N° 13.

[379] The Report of the Committee on Public Offices to whom had been referred the petition of Messrs Hitchcock's which was presented on the 17th Ultimo and laid for consideration, was now called up and being read was as follows.

The Committee on Public Offices to whom was referred the accompanying petition of Messrs Edward & D. M. Hitchcock, praying that the Corporation make them some allowance or abatement on their contract for sweeping the Streets for the Years 1818. and 1819. and on their contract for the Slips for the Year 1818. Beg leave to Report:

That they have had this application of the Messrs Hitchcock's under consideration for a considerable length of time and have paid to it that attention which its importance both in a pecuniary pomt of view, and as involving nice principles for the present and future government of the Board appeared to require. Your Committee do not hesitate to say that when they first considered this application, that it was their opinion that the parties must abide by their contracts, whether the same

proved a gaining or a losing [380] concern. This must and ought to be the case under all common and usual circumstances, and should only be deviated from in most unusual and extraordinary cases; unusual and extraordinary circumstances exist in relation to these contracts, and they are of such a nature as have led your Committee to the conclusion that the petitioners are entitled to relief.

The leading circumstances which have governed your Committee, they detail to the Board. The most prominent of these circumstances is what is usually termed the alteration of times.

These contracts were entered into in March 1818; a period when our Citizens were carrying on business on an extensive scale and as they presumed in a lucrative manner: the Corporation about that time taking the advantage of the favorable aspect of trade, increased their rates of slipage fifty p^{r} Cent, and these Contractors influenced also by the same cause, not only gave a sum which was fifty p^{r} Cent more than the year preceding but added to it the sum of 3000 Dollars, on account of a further supposed increase of business.

[381] The Amount of their contract being 42,750 Dollars, when that of the preceding year was but 26,500 Dollars; the Board will remember that instead of business increasing, that from that time their came on a rapid decline, the Tonnage of our Vessels greatly diminished and Insolvencies prevented the collection of a considerable part of every description of debts. In this embarrassed state of affairs money became more valuable, which circumstance, together with the increased rate of Slipage led the Owners of some Vessels to make private bargains for the use of individual property, instead of frequenting with their Vessels the public Slips; this operated seriously on the petitioners in diminishing their Receipts.

That money is at least twenty-five p^{r} Cent more valuable than at the period that these contracts were entered into cannot be doubted.

The petitioners have been obliged to reduce the price of Street manure from five to three shillings a load, and the farmers appear unable to buy even at that price; Your Committee conceive that the increased value [382] of the money which the Petitioners pay into the Board is a strong circumstance in favor of relieving them on both contracts. The Board can and ought to make this money go much further than money would go in 1817. There are some circumstances in relation to each of these contracts, that entitle the Petitioners to some allowance even on strict principles of Justice. Many of the members of the Board will remember that in the winter of 1817. & 18 the Board agreed to take the extensive Basin at the foot of Roosevelt

Street previous to the receipt of the proposals for leasing the Slips, which proposals were made up, no doubt, by the Petitioners and others under a full conviction that they would be in the receipts of the Wharfage of that Slip for the whole of the ensuing year, but questions of Law delayed the acquisition of this property until after their contract had expired, so, that they received from it no income whatever. The Petitioners have valued the annual receipts of this Slip in their accompanying statement at 3000 Dollars.

[383] Under the Street contracts the Petitioners supplied, at the request of the Board of Health a Cart for each ward for several weeks during the Yellow Fever of the last summer, for which there has been no charge made.

The existence of the fever depopulated a considerable portion of the lower part of the City, which of course prevented the collection of the manure there, and the same calamity prevented to a considerable extent the Boats from taking manure on board in any part of the City, from the fear of taking the infection.

But these and other causes occasioning loss under these contracts are more fully detailed in the Contractors statement to the Committee. By the statement referred to, which is duly sworn to by the Contractors, it appears that they have suffered from the various causes mentioned, under their Slip contracts for the Year 1818. the sum of 4,250 Dollars—That is, they will be so much out of pocket if they are held to pay the amount of that Contract, and no allowance made for their not having the Slip [384] at the foot of Roosevelt Street, but your Committee think they are entitled under all the circumstances to an abatement on this Contract to the amount of the 3000 Dollars, the supposed value of that Slip.

The price which the Contractors gave for the Street Contract, was much larger than the Board anticipated, and far beyond the offer of any other individuals and under all the circumstances which have been mentioned, the Committee have concluded to recommend to the Board to divide the loss with the Contractors under this Contract. This loss appears satisfactorily to your Committee to amount to the sum of $7{,}793^{75}/_{100}$ Dollars for the two Years; the one half of which is $3.896^{88}/_{100}$ Dollars.

Your Committee offer the following Resolutions, Resolved, That the Comptroller on the final settlement of the Slip contract for the Year 1818. credit the Contractors the sum of 3,000 Dollars as an abatement made by the Board for the reasons above mentioned.

Resolved, That the Comptroller on the [385] final settlement of

the Street Contracts for the Years 1818 & 19 credit the Contractors the sum of 3,896$^{88}/_{100}$ as an abatement made by the Board on this Contract.

All which is Submitted.

The Report of the Watch Committee which was presented on the 13th of March last, and laid for consideration was now called up, and being read was in the words following;

The Watch Committee to whom was referred the subject of reducing the pay of the City Watchmen on a Petition of the Inhabitants praying to have the present pay of the Watchmen continued, Report:

That they have had the subject under their consideration and are of opinion that the arduous duties of the Watchmen if they are faithful in their duties give them a claim on the City for the Amount they receive for their services, which compensation, we believe is not more than they ought to receive; but we are of opinion that one of the Assistants to each of the Cap- [387] tains in the first Watch District may be dispensed with; They therefore offer the following Resolution;

Resolved, that one of the Assistants to each of the Captains of the Watch in the first District be dispensed with.

Signed. Asa Mann
J. J. Westervelt
Jacob B. Taylor
D. Board.

Which was approved.

Signed { Cadwallader D. Colden, Stephen Allen, Ch. Finance Com. John Fleming, City Treasurer. G. N. Bleecker, Comptroller. } Commissioners of the Sinking Fund

[422] Whereupon it was ordered that the said Account be referred to the Finance Committee, to cause the same to be printed for the use of the Members and, to have the same published in the papers employed by the Board.

The Finance Committee to whom was referred the Petition of William R. Hitchcock & Co. Reported:

That the due execution of the Act for the Inspection of Flour and Meal, is, in the opinion of your Committee, of much importance to the Commercial interests of this City; and although they believe the penalty incurred by the Petitioners was owing to their ignorance of the Law, and their belief that the Barrels was correctly branded, they nevertheless are of opinion, that the remission of so much of the penalty as the Act appropriate to the use of the poor, would be setting a precedent by this Board neither Salutary or useful, and they therefore recommend the following Resolution,

Resolved, that it is inexpedient to grant the prayer of the petitioners.

Respectfully Submitted

Stephen Allen
[423] (Signed) John Hone
B. Crane
J. Hammond

Which was approved and the Resolution adopted.

The Committee of Assessments to whom was referred the Petition of James Riker, Reported:

"The Committee of Assessments to whom was referred the Petition of James Riker complaining of the Assessment on his two Lots of ground corner of Chapel and Reed Street for the opening and regulating of Hudson Street from Duane to Chamber Street, Report;

That Mr Riker is Assessed $2,250. for the opening of Hudson from Duane to Chamber Street and $102 5/100 for the paving and regulating of the Streets in consequence of the said opening; of this he complains as disproportionate and oppressive, as to the benefits he derives from the said improvement, the Committee have had the subject for a considerable time [424] under their consideration, they feel satisfied that the Assessment is a very hard one, and if in the power of the Board, that the Petitioner ought to be relieved; but the Committee are at a loss in determining what measure to recommend to the Board on the subject, as the interfereing with an Assessment made by Commissioners and confirmed by the Court, would be a precedent of very dangerous tendency: under all the circumstances of the case, the Committee do recommend the adoption of the following Resolution:

Resolved, that the Collector of the Assessment for the opening and improving Hudson Street from Duane to Chamber Street, and for paving and regulating the said Street, be hereby authorised to receive from James Riker, the amount of his Assessments without Interest, provided he pay the same on or before the first of August next.

John Morss
(Signed) Thomas Bolton
E. W. King
John P. Anthony

[425] Which was approved and the Resolution adopted.

The same Committee on the petition of Peter G. Stuyvesant, Reported:

That from the examination of the Books in the Comptrollers Office and a Certificate of Thomas Miller one of the Assessors of the ninth Ward, it appears that there is an error in calculation on one item amounting to $107 $^{8}/_{100}$ they therefore recommend that the following resolution be adopted.

Resolved, that the Collector of the ninth Ward, be authorised to remit the sum of $107 $^{8}/_{100}$ on a tax of real property valued at $81,000 Dollars charged to Peter G. Stuyvesant.

(Signed) J. J. Westervelt
John P. Anthony
E. W. King
John Morss

Which was approved and the resolution adopted.

[426] The Street Committee on the Petition respecting paving Desbrosses Street and Sullivan Street Reported: that they have duly considered the subject committed to them and are of opinion that the Improvements required are proper and that the prayer of the petitioners should be granted—they therefore recommend the adoption of the following Resolutions.

Resolved that Sullivan Street be regulated & paved from Watts St to Canal St and the Street Commissioner be directed to report an ordinance for the same

Resolved that Desbrosses Street be regulated & paved from Varick St to Sullivan St & the Street Commissioner be directed to report an ordinance therefor—which were approved and the Resolutions adopted

[427] The Market Committee on the Petition of William De Graw for Stall N° 1 Grand Street Market reported & beg leave to offer the following Resolution:

Resolved, that the prayer of the Petitioner be granted.

Signed. Harm^{s} Tallman
John Hone
J. J. Westervelt
Stephen Allen

Which was approved and the Resolution adopted.

On Motion of Alderman Allen, Resolved, that all references made by this Board be handed by the Clerk to the Chairman of the Committees of the next Board, and that the respective new Committees, be requested to report on all matters referred to the former Commitees respectively.

Resolved that the Market Committee to whom was referred the petition of the Fishermen frequenting Catherine Slip, be discharged from the [428] further consideration of the same, and that said Petition be referred to the Ferry Committee.

The following Rules and Orders for the government of the Proceedings of the Common Council were read and adopted. Viz[t]

1[st] Upon the appearance of five Alderman and five Assistants, the Mayor, or in his absence the Recorder, shall take the Chair as President, and the Members be called to order.

2[d] Immediately after the President shall have taken the Chair, the minutes of the preceeding meeting shall be read by the Clerk, to the end, that any mistakes therein may be corrected by the Board.

3[d] The President shall preserve order and decorum, and shall decide questions of order, subject to an appeal to the Board.

4[th] [434] The President shall in all cases be entitled to one vote, and no more.

5[th] Every member, previous to his speaking, shall rise from his seat, and address himself to the President.

6[th] When two or more members shall rise at once, the President shall name the member who is first to speak.

7[th] No person shall speak more than twice to the same question without leave of the Board, nor more than once, until every member choosing to speak, shall have spoken.

8[th] No question on a motion shall be debated or put unless the same be seconded. When a motion is seconded it shall be stated by the President before debate, and every such motion shall be reduced to writing, if any member desire it.

9[th] After a motion is stated by the President, it shall be deemed to be in possession of the Board, but may be withdrawn at any time before decision or amendment.

10th When a question is under debate, no mo- [435] tion shall be received, unless

1. To amend it,
2. To commit it,
3. To postpone it,
4. To the previous question, or
5. To adjourn.

11th A Motion to adjourn shall be always in order, and shall be decided without debate.

12th The previous question, until it is decided, shall preclude all amendments and debate of the main question, and shall be in this form—" Shall the main question now be put?"

13th Every member who shall be present when a question is put, shall vote for or against the same, unless the Board shall excuse him, or unless he be immediately interested in the question, in which case, he shall not vote.

14th A member called to order shall immediately sit down, unless permitted to explain, and the Board, if appealed to, shall decide on the case, but without debate: if there be no appeal, the decision of the Chair shall be sub- [436] mitted to.

15th All questions shall be put in the order they are moved, except that in filling up blanks the largest sum and the longest time shall be first put.

16th Upon a division in the Board, the names of those who vote for, and of those who vote against the question, shall be entered upon the minutes, if any two members require it.

17th In all divisions taken by the Board, it shall be the duty of the Clerk to enter on the minutes the name of the member calling for the division.

18th No motion for reconsideration shall be in order, unless made at the same meeting, or in pursuance of notice then given for the next meeting after that on which the decision proposed to be reconsidered took place, except by unanimous consent.

19th All appointments of Officers shall be made by Ballot, unless dispensed with by the unanimous consent of the Board.

20th No member shall absent himself without [437] permission from the President.

21st All Committees shall be appointed by the President unless otherwise ordered by the Board. Committees appointed to report on

any subject referred to them by the Board, shall report a state of facts, and also their opinion thereon in writing; and no report shall be received unless the same be signed by a majority of the Committee.

22d Whenever the doors are directed to be closed, all persons, excepting the Members and the Clerk of the Common Council, shall retire.

23d A motion for the order of the day shall take precedence of all other motions, and is to be considered immediately after the reading of petitions and original communications.

24th The Standing Committees shall be as follows:

1. Applications,
2. Assessments,
3. Arts & Sciences,
4. Canal,
5. Charity,
[438] 6. Ferries,
7. Finance,
8. Fire Department,
9. Lamps,
10. Laws,
11. Markets,
12. Police,
13. Public Lands & Places,
14. Public Offices,
15. Repairs,
16. Roads,
17. Streets,
18. Watch,
19. Wharves, Piers & Slips.

Those on Applications, Arts & Sciences, Ferries, Fire Department, Lamps, Laws, Repairs, and Charity, shall consist of three, and the others of five.

By the Common Council

(Signed) Jacob Morton Clk.

On motion of Alderman Allen, Resolved that the Superintendant of the Alms House and Bridewell and Penitentiary lay before the [439] Board an Estimate of the articles necessary to be purchased for the yearly consumption of those establishments both for food and clothing, and the materials for manufacturing the articles usually made in the House; such estimates to designate seperately the quantity and quality of each and every article required, for one year's consumption, and the particular periods of the year in which it will be necessary to have the same or any part thereof delivered.

Board adjourned to Monday next at 5 oClock.

In Common Council. May 15th 1820.

The Minutes of last meeting were read and approved.

A Petition from sundry Inhabitants of Harman Street, praying that the houses which are to be removed on the opening of the Street may be immediately taken down and the rubbish removed, was read and laid on the table.

A Petition of Moses Jarvis Proprietor of the [2] House corner of Chatham Street and Catherine Street intended to be removed on the extending of Chatham Street, praying that said House may be permitted to remain until the first of May next, was read and laid on the table.

A Petition for an additional number of Lamps in Cheapside Street was referred to the Lamp Committee, with authority to grant the prayer of the Petitioners.

A Petition from Charles Wilkes to be relieved from a personal tax assessed upon him in the 8th Ward for 1819. having already paid a personal Tax in the First Ward; was referred to the Committee on Assessments.

A Petition from Messrs Dobbs & Furman Contractors for Street Manure, praying that a place may be assigned them for the Deposit of the Street Manure previous to the sale thereof, was read and referred to the Street Committee with authority to assign to them a suitable place for said purpose.

A Memorial of Samuel Evans was received, stating that in the Lease of Catherine [3] Ferry to Rodman Bowne, the grant is for a Ferry to Brooklyn generally, reserving a right to the Corporation to

grant a Ferry from the foot of Walnut Street to the Wallabought; that the grant of the Ferry to the Petitioner from Walnut Street is to Little Street on Long Island that the grants are by some thought conflicting; should there be doubts respecting it as there is an application on the part of Mr. Bowne for an extension of his lease. Petitioner prays that in the renewal the clause of reservation may be withdrawn from the Lease; Whereupon the same was referred to the Ferry Committee.

A Petition of Henry Barclay complaining of a Nuisance existing between Broad and Moore Street, was read and referred to the Street Committee.

A Petition of John Lace for an appointment under the Board, was referred to the Committee on Applications.

A Petition of Noah Brown and others complaining that the ground on North Street is at present regulated too high, and requesting the subject to be referred to a Committee [4] for examination; was referred to the Street Committee.

A further Petition of Charles Langley was received, stating that the Committee on his former petition, had remitted the penalty incurred on his paying the Costs, but that he was unable to pay those Costs, and praying further relief, was referred to the Committee of Charity with authority to grant relief.

A further Petition from Daniel Salters for relief from fine incurred, was referred to the same Committee with like powers.

A Petition from certain dealers in Hay and Hay Cartmen, praying further accommodation for Hay Boats at Duane Market Slip, was read and referred to the Committee on Wharves, Piers, and Slips.

A Petition from David S. Jones for himself and brothers and Robert Benson, praying that a Sewer may be constructed through their grounds through Minetto Street to the main Sewer, was read and referred to the Canal Committee [5] with authority to grant the request, Provided, the Corporation are at no expense for the said improvement.

A Petition from sundry Inhabitants owners of Lots in Canal Street, praying that the Curb Stones and pavement be laid and the side walks regulated on the Northerly and Southerly side of said Street, between Broadway and Chapel Street, was read and referred to the Street Committee.

A Petition from Jonathan I. Coddington and others calling the attention of the Common Council to the situation of the grounds between Fulton and Peck Slip and South of Front Street which was

represented as in a state of Nuisance. A Representation was also made by the Street Commissioner of the state of those grounds, and recommending that they be regulated: And a Resolution was presented by Alderman Townsend recommending the same measure, which severally were read and referred to the Street Committee.

The Street Commissioner to whom was referred the Petition of Charles Loss, Reported in the words following,

"The Street Commissioner to whom was referred the application of Charles Loss for a renewal of his appointment as City Surveyor,

Respectfully Reports, that in his opinion Mr. Loss must have acquired considerable information and experience as a City Surveyor, having held that appointment for several years, and no doubt he will be useful in that line if reappointed. But a strict attention to accuracy is very essential in Surveyors, as no buildings can be erected on a line with the Street but under their direction, and many public improvements depend much on their skill and accuracy, and if any mistakes are made they are not held responsible, but the loss falls on the employer, it is therefore of great consequence to the public, that [9] men of competent ability, integrity, and attention to the business should be appointed, on whom the greatest reliance can be placed.

As several errors of a serious nature were attributed to Mr. Loss while he was in that Office, The Street Commissioner would suggest the propriety of the appointment being made under the impression that a greater attention to accuracy will be expected.

Respectfully Submitted
(signed) John McComb
St. Commr

Which was approved, and he was appointed accordingly.

He also presented an Ordinance for a Well and Pump in Willet Street near Rivington Street which was passed, and Abraham Bloodgood, James Barrow and Abraham Baudouine were appointed Assessors.

He also presented an Ordinance for building a Bulkhead and compleating West Street, between Courtlandt and Duane Street, which was passed.

The Attorney reported, that a complaint had been made to him against Mr Daniels Auctioneer, [10] for selling Articles in Vesey Street, which was referred to the Committee on Public Offices.

The Counsel presented a Lease to William Cutting for the Slip and adjoining premises at Brooklyn, which was referred to the Finance Committee.

The City Inspector presented Ordinances for correction of sundry nuisances, which were passed Vizt

[15] The Finance Committee on the Petition of James Wallace, Reported as follows;

"The Finance Committee, to whom was referred the Petition of J. Wallace, soliciting an advance of Ten or Fifteen Thousand Dollars on his Contract for building the Sewer in Clarkson and Carmine Street and the Sixth Avenue,

Report; That the Petitioner contracted to build said Sewer agreeably to a printed description of the same, issued for the guide of the Contractors, and among other particulars containing the following condition.

"The Corporation to pay for the work as the money is collected on the Assessment which is to be laid for that purpose."

That the written Contract entered into with the Petitioner is founded on the foregoing condition; and the Committee are informed that verbal explanations were made by the Street Commissioner to the Estimators of the said work, to the same effect; and they distinctly recollect, that the understanding of the Board was, in authorizing the Contract, that it should be taken on the same conditions as those for paving and regulating Streets, the [16] payment for which is uniformly made from the money collected in the Assessment.

Your Committee cannot perceive therefore, by what authority the Petitioner construes the "contract to be such, that the payment to him for said work was to be made from time to time in proportion as the work progressed" whether "collected on the Assessment to be laid for the purpose" or not.

The Committee are of opinion however, that every facility within the power of the Corporation, ought to be given to the collection of the Assessment for building said Sewer, and they recommend the following Resolutions accordingly.

Resolved, that the Commissioners appointed to lay the Assessment for building the Sewer in Clarkson and Carmine Streets and the Sixth Avenue, be requested to report the same to the Board for confirmation with all convenient speed.

Resolved, that the Collector, who shall be appointed for the purpose, be directed to press the collection of said Assessments with all due diligence.

Resolved, that an Interest of 7 Per Cent [17] be charged on all sums which shall remain unpaid on said Assessment 60 days after the said Assessment shall be confirmed; and that such interest, when collected, be paid to the Contractor, in addition to the sum or sums specified in his contract.

Which was confirmed and the Resolutions adopted.

The same Committee on the Petition of the Heirs of Daniel Smith Deceased Reported as follows:

"The Finance Committee to whom was referred the Petition of the Heirs of Daniel Smith Deceased, praying for the return of a portion

of the money paid by them as expences incurred on a Lot of ground sold for arrears of Taxes, and not disbursed by the Corporation:

Report, That the lot alluded to, was sold at a late sale of property for arrears of [18] taxes including expences. That the Collector in making up such expenses, not only includes those actually incurred, but those that will be incurred in the event of the non-redemption of the property at the expiration of the two years allowed by Law. That the Law directs a second advertizing previous to the expiration of said term, and the delivery of a lease to the purchaser of such property as shall not be redeemed agreeably to such advertizing. That the expense of such advertizing and lease is estimated at Eight Dollars, but the Street Commissioner having received the whole amount from the purchaser of the Lot alluded to, and paid the same into the Treasury, he was unable to return the amount prayed for by the Petitioner even if authorised to make such return. The Committee, conceiving it to be just, that the money so paid should be reimbursed, are of opinion, that in all cases where property is sold for Assessments, or arrears of Taxes, the sums charged for eventual disbursments ought to be returned to the owner of the property, on his paying the actual expenses incurred with the Interest allowed by Law; and that the Street Commissioner should be [19] authorised accordingly; and they therefore offer the following Resolution.

Resolved, that a warrant be issued in favor of the Heirs of Daniel Smith Deceased for Eight Dollars, being the amount charged for eventual expenses on a Lot of ground sold for arrears of Taxes, and not disbursed by the Corporation.

Resolved, that whenever any property sold for Assessments, or arrears of Taxes, shall be redeemed by the owner thereof within the legal term, the Street Commissioner be authorised to return to such owner, or his agent, the sums paid for the second advertising and drawing the Lease of the same, provided, such expense shall not be incurred.

The Street Committee to whom had been referred the Report of the City Inspector, re- [20] specting a Lot corner of Bowling-

Green and State Street owned by Mrs. Dale, Reported: That the memorandum of the City Inspector be adopted and that the proper officer be directed to carry the same into effect; which was approved, and it was Resolved, that the Superintendant of Repairs be directed to enclose the said Lot within fence, the expenses to remain a lien on the said Lot.

The same Committee to whom had been referred the Petition of Elizabeth Downey, reported as their opinion, that the prayer of the Petition be not granted; which was approved.

The same Committee on the Petition of the Inhabitants in the vicinity of Washington Market and others, Reported as follows.

"The Street Committee to whom was referred the Petition of the Inhabitants in the vicinity of Washington Market, and several other Petitions on the same subject, praying for an extension of the priviledge of using the platforms and sidewalks in front of their premises, for exposing their Goods, Wares and Merchandize for sale;

Report, That they sincerely regret the incon- [21] veniences which many of your Petitioners sustain under the present regulation, but that as a wholesome measure of Police, they cannot recommend a modification or repeal of the Ordinance on that subject.

[22] Whereupon Resolved, that the Houses be removed agreeably

to the Report of the Committee, that Public Notice be given of such order for removal, and that Morris De Camp be Collector of said Assessment.

The same Committee on the Petition of Charles Byrne;

Report, That in their opinion the prayer thereof should be granted, provided, the goods so exposed for sale be placed at least forty feet from the Curb Stone of the Street; for which purpose they offer the following Resolution,

Resolved, that Charles Byrne and other Auctioneers now residing in Chatham Square be permitted to sell at Public Auction in the said square, second-hand furniture, and such other articles as are allowed by Law to be exposed for sale in Vesey Street, provided, the goods be placed forty feet from the Curb-Stone of the Street.

While on the subject of Auctioneers, they recommend to the consideration of the Board the following Resolution.

Resolved, that no Auctioneer or person by him employed, be permitted hereafter to sell [23] at Public Sale, any peice goods, hardware, or other articles prohibited at out-door sales, unless to persons bidders, who at the time of such bidding, shall be within his Store or premises.

The Counsel presented the following, Viz^{t}

"The Counsel herewith respectfully submits for execution the draught of a grant to John Patten of a Water Lot between Dover and Roosevelt Streets, and Front and South Streets.

Also the Draught of a grant to Niobe Minturn of a Water Lot adjoining the above mentioned Lot. These grants have been drawn in pursuance of an order of the Board.

The Counsel also submits for execution an agreement with David Gardiner relative to so much of the property of James W. Dominick as will remain after straightening Oliver Street. The stipulations contained in this agreement are similar to those contained in the agreement with the Congregation Sheareth Israel, which was [36] entered into previous to the extending of Oliver Street, the object of this agreement is to diminish the expense of straightening that Street.

The Counsel also submits for execution agreements with Colonel Henry Rutgers and Robert Dodge relative to so much of Oliver Street as it is contemplated to close in front of their property. These agreements are similar to those entered into by them previous to the closing of Fayette Street.

Messrs Rutgers, Dodge and Gardiner have executed the counter part of their agreements.

Whereupon the said several instruments were directed to be executed.

He also. presented "a Law to amend the Law to regulate Sales at Auction in the City of New York," which was passed.

The Street Committee on the Petition of Noah Brown and others respecting the present regulation of North Street, presented a Report, which was read, and the further consideration thereof postponed.

The same Committee on the Remonstrance [37] against extending Hester Street to Green Street Reported in the following words:

"The Street Committee to whom was referred the Remonstrance of John Mahony and others owners of property in the neighborhood of Canal and Hester Streets against the extension of Hester Street to Green Street:

Report, That they have examined the property lying between Mercer and Green Streets, and are of opinion that the extension of Hester to Green Street would be productive of serious injury to the proprietors, and of no public utility. Therefore Resolved, that Hester Street be extended to Mercer Street and no further.

Which was approved and the Resolution adopted.

The same Committee on the Petition that Hester Street lying west of Rhynder Street may be called by some other name, Reported in [38] favor of the Petition; And it was Resolved, that it be named Howard Street.

The same Committee on the several representations respecting the state of the grounds between Peck Slip and Fulton Street, Reported in the following words:

"The Street Committee to whom was referred the Resolution of the Board and the communication of P. G. Hart and others, relative to the Nuisance existing between Fulton and Peck Slips South of Front Street,

Report, that they have examined the premises and find that many of the Lots require to be raised and fenced in, and that the lower end of the Street on Crane Wharf ought to be paved.

Therefore Resolved, That so much of the grounds on Crane Wharf and South Street, between Peck Slip and Fulton Street as in the opinion of the Street Commissioner shall require it, be raised so to carry off the water into the river, and that the Lots be fenced in; that the proprietors of the adjacent Lots be Ordinanced to fill up such of them as are sunken and to fence in such as are open, and that [39] the Street at the lower end of Crane Wharf be paved agreeably to the direction of the Street Commissioner.

Which was approved and the Resolution adopted, and the Street Commissioner directed to Report the Ordinances agreeably thereto.

The Committee on the Fire Department on the Petitions of Garrit Hyer and John R. Willis, Reported in the following words,

"The Committee on the Fire Department to whom was referred the Petitions of John R. Willis and Garrit Hyer, stating, that from some mistake of the former Clerk their names have not been entered on the Minutes of the Common Council, and praying that the Clerk may be authorised to give them the necessary Certificate;

Report, That your Committee have had the said Petitions under consideration, and are satisfied that the said Petitioners are entitled to the said Certificate; Your Committee beg leave further to state, from the number of applications [40] of the above description that have been presented and it is probable may occur; Your Committee recommend the adoption of the following Resolution:

Resolved, That the Clerk of this Board be and he is hereby authorised to give a Certificate to such Firemen as may apply and produce sufficient testimony that they the said Firemen have served the time required by Law.

The Road Committee on the Petition of the Proprietors of Land adjoining the Tenth Avenue presented a Report which was read, and the consideration postponed.

[43] The Committee on Public Lands and Places on the Petition of Sophia Usher Reported:

That the Petitioner prays leave to erect a small building on the west edge of the Park, opposite this Hall for the purpose of vending Soda water, she represents that her late husband was the first person who introduced the use of Soda water in this City or in the United States; that she is a widow with four small Children to support, and is without property. She further says, she is willing to pay a reasonable ground rent if required.

Your Committee are however of opinion, that the prayer of the Petitioner ought not to be granted, in as much as the proposed Building would be an improper incumbrance, and particularly so when the Iron fence is completed on that side of the Park. The Committee therefore recommend the adoption of the following Resolution.

Resolved, That Mrs. Usher have leave to withdraw her Petition.

[44] The same Committee on the Petition of Thomas Patrick, Reported:

That said Patrick asks leave to exhibit Fire Works on the fourth of July next in the Park, for the amusement of the public, and also for the benefit of some Charitable Institution.

The Committee beleive that the advantages to be obtained by such an exhibition will not be an equivalent for the damage likely to be done to the fences and public grounds. They are therefore of opinion, that the proposal ought not to be accepted.

Which was approved, and the Resolution adopted.

The same Committee on the Petition of Inhabitants residing near Potters Field, complaining of the interments at that place which was presented on 6th September last, presented a Report, recommending a reference of the subject to the Board of Health. Whereupon, it was Ordered, that the same be handed to the Board of Health when the same shall be organized.

[45] Alderman Tooker presented the following:

Resolved, That a Committee of five persons be appointed for the purpose of opening a correspondence with the Secretary at War, or other proper Officer of Government at Washington with the view of ascertaining on what terms a relinquishment of the ground and Fort called the West Battery may be obtained for the public use of this City; which was referred to, Alderman Tooker, Alderman Thorp, Alderman Swartwout, Mr Parker & Mr Bolton.

Mr Emmons presented a Resolution directing the Street Commissioner to enforce the Law respecting sweeping the Streets, which was directed to be referred together with a consideration of the whole subject to the Street Committee.

His Honor the Mayor informed the Board that he had received from Commodore Evans an invitation for the Members of the Board to assemble at his House at the Navy Yard on Long Island tomorrow at ½ past 10 °Clock and to view from thence the launching of the Line of Battle Ship lately built by the United States at that place.

[46] He also added, that in behalf of the Fulton Steam Boat Company, he had the pleasure to offer to them for their conveyance across the River, the use of the Steam Boat Connecticut, which would start precisely at 10 °Clock; Whereupon it was Resolved, That the Board accept the said Invitations.

The minutes of last meeting were read and approved.

A Petition of Solomon Seixas Auctioneer [50] praying to be permitted to sell goods at Auction in Wall Street as heretofore allowed; was read and referred to the Committee on Public Offices.

A letter was received from Edward McLaughlin Commissioner of Excise, stating, that several Tavern Keepers had refused to take out the Excise License from him, alledging that according to the Charter of the City, they having taken the Mayors License for retailing Exciseable Liquors by small measures to be drank in their Houses, no other License is necessary; and that the Law of 1801. directing and authorising such a License is unconstitutional. That the opposition to taking out such License is very general throughout the several Wards; that he has directed Suits to be brought against several of the delinquents, which he understands will be contested; that able Counsel have been employed by them, and as he understands a considerable sum raised to support the defence; that he submitted these facts to the Common Council for their consideration, that he might receive their advice and direction in the premises. Whereupon, the same was referred to the Counsel.

[51] A Petition of Elizabeth De Peyster remonstrating against the sum assessed upon her for the expenses of constructing the Minetto Sewer; was referred to the Committee on Assessments.

A Petition of John Evans for Stall No 14 Washington Market, was referred to the Market Committee.

A Petition of William S. Ross for purchase or lease of a small gore of ground belonging to the Corporation adjoining his Lot No 133 Anthony Street, was read and referred to the Finance Committee.

A Petition of Martin Wallin for remission of fine for firing a Squib in the Street, and a Petition of Patt Fitzpatrick for remission of

penalty for not complying with an Ordinance directing the filling in of a Lot, were referred to the Police Committee with authority to remit.

A Petition from John Charles for relief from an Assessment for opening Canal Street laid on a Lot formerly owned by him and taken to open Chamber Street with a Certificate of one of the [52] Special Jury that the sum awarded Mr Charles for his Lot was to extinguish all claims on either side; was referred to the Finance Committee with authority to grant relief.

A Petition of Thomas Pringle was received stating, that the Committee of Assessment in their Report on his Petition of the 27th March last for relief from a Tax Assessed on him, directed that the sum of $14 25/100 be remitted to Petitioner, whereas Petitioner had already paid the whole of the Tax to the Collector; He therefore prayed the Comptroller might be directed to report a Warrant in his favor for said sum; which was directed to be referred to the Committee on Assessments.

A Petition of James Gray praying further time for paying an Assessment laid on Lots owned by him corner of Canal and Chapple Streets, was read and referred to the Finance Committee, with authority to grant the request.

A Petition of Peter Young praying that the Sewer in Ferry Street may be repaired, was referred to the Street Committee.

[53] A Petition of Hallock and Farnham for permission to place building materials in the Street near Washington Market, was referred to the Street Commissioner with authority to comply with request of Petitioners.

A Petition of Gould and Banks offering to supply the Corporation with the Laws of the State at a discount of one third from the retail price was referred to the Committee on Public Offices.

A Petition that Broome Street between Varick and Sullivan Street may be paved, was referred to the Street Committee.

A Complaint of sundry Inhabitants against the present Deputy Clerk of the Fly Market (Peter Ammerman) for incompetency and neglect of duty; and a recommendation of Isaac C. Loper for an appointment to said Office, were referred to the Market Committee.

A Petition from J. Carrow for permission to construct a Vault in Courtlandt Street, was referred to the Street Commissioner to grant on the usual terms.

[54] A Petition of Samuel Evans Lessee of Ferry from foot of Walnut Street, praying that in the extension of the Lease of the Ferry at Catherine Slip to Rodman Bowne, he may be restricted to running

two Horse Boats and no more on said Ferry was referred to the Ferry Committee.

A Remonstrance against the Petition for regulating and paving Sullivan Street was read and referred to the Street Committee.

A Petition of Henry Hutchins for appointment as Deputy Clerk to Fly Market or some other appointment, was referred to the Committee on applications.

A Petition from sundry Inhabitants objecting to the assessment for the expenses of the Sewer in Minetto Street. Also objections on the part of Thomas W. Ludlow against said Assessment were severally read and directed to be referred to the Committee on Assessments.

The following Report from the Board of Supervisors was received. And the Comptroller was directed to report a warrant agreeably thereto.

The Committee to whom was referred the Ac- [55] counts of the Sheriff, and other Officers of Justice beg leave to make the further Report.

The Street Commissioner presented an Assessment for regulating and paving Provost Street, between Washington and West Street, which was confirmed and John G. Betts was appointed Collector;

Also for a Well and Pump in Roosevelt Street between Batavia and Cherry Street, which was confirmed and Morris De Camp appointed Collector.

The Street Commissioner on the Petition of [57] Richard Bell, Reported in the following words:

The Street Commissioner to whom was referred the Petition of Richard Bell praying to be permitted to remove a building from Harman Street to Orange Street,

Respectfully Reports, That on 23d day of June 1817. an Ordinance was passed prohibiting the removal of any frame building, along, or across any of the Streets of this City to the Southward of Grand Street, and a line continued from the West end of Grand Street through Sullivan and Canal Street to the Hudson River, under the penalty of $250. for each offence.

But as several persons have been permitted to remove Houses on trucks or Carriages by different Committees to whom their applications have been referred. The Street Commissioner offered the like priviledge to Mr Bell which he declined accepting; as his intention was to remove it on rollers, but which the undersigned did not think himself authorised to grant, especially when *their* [there] is an Ordinance to the contrary.

There are but few cases where the removal of those old Buildings,

produce any great saving to the Owners, while on the other hand, the incumbrance, hazard, and breaking up the pavements [58] is a serious injury to the public, and subjects the Owners of property to the expense of repairing the Street through which they pass.

All which is Respectfully Submitted

Which was approved and directed to be filed.

He also on the Petition for paving St Johns Alley Reported,

That in his opinion the statement of the petitioners is correct, and that granting their prayer will be of advantage to the adjoining property. He has therefore enclosed the Draft of an Ordinance for that purpose, if it should meet the pleasure of the Common Council.

The Ferry Committee to whom was referred the Petition of Samuel Evans Esq^{r} requesting that some place in the vicinity of Walnut Slip be assigned him to run his Horse Boat to, and that the Slip be extended;

Report, That the Memorialist holds a Lease from the Corporation, for a Ferry from Walnut Street New York to Little Street Long Island, and has now in operation a Horse Boat, running to the end of the wharf at Walnut Street (tho' at a considerable risk to his Boat) finding, upon examination that the state of the Slip at the foot of [63] Walnut Street is such, that his Boat cannot be run therein in its present condition, he requests that some place in the vicinity of Walnut Slip be assigned him, to run his Boat to for the present, by consent of the Owners of the property, and that the Slip at the foot of Walnut Street be extended so as to afford a safe entrance and harbor for a Horse Boat, and stating that for any expense chargeable to the Corporation in the performance of this request, he will be responsible, on condition that they will refund him the same, on taking possession of the property.

Your Committee having duly considered this subject, recommend that permission be granted the Memorialist, to run his Horse Boat to any place within 350 feet to the Eastward of Walnut Slip, provided he obtain the consent of the Owners of the property, and provided

also, that it shall not be attended with any expense to the Corporation.

Your Committee however, are of opinion that the request of the Memorialist, that the Slip at the foot of Walnut Slip be extended, ought not to be granted, for the following reasons.

An extension of the Slip would be attended with a very considerable expense; an expense by no [64] means Compensated by the very low terms, on which the Memorialist obtained the grant of the lease, Viz[t] Seven years free from Rent, and the last Eight years at only $100. per annum; and the Committee are further of opinion, that the obstruction in Walnut Slip is occasioned by a Deposit of Mud, which may be removed at a small expense by the Machine used for that purpose, so as to answer sufficiently well for the accommodation of a Horse-boat.

The Committee therefore propose the following Resolutions, Resolved, that permission be granted the Memorialist to run his Horse Boat for the present to any place within 350 feet to the Eastward of Walnut Slip, provided he obtain the consent of the Owners of the property, and provided, that it be attended with no expense to the Corporation.

Resolved, that it is inexpedient to grant the request of the Memorialist, for extending the Slip at the foot of Walnut Street.

Which was approved, and the Resolution adopted.

The same Committee to whom was referred [65] the Report of the Counsel respecting a lease to Rodman Bowne for the Ferry at Catherine Slip to Brooklyn,

Reported, That on the 5[th] day of January 1818. a Committee of this Board reported in favor of extending Rodman Bowne's lease of the Ferry above mentioned to the time at which the Lease of the Ferry from Beekman's Slip to Brooklyn will expire on condition that he would put on said Ferry another good and sufficient Horse Boat to be propelled by not less than Eight horses to be approved of by the Corporation on or before the expiration of one Year, and pay to the Corporation for the first six years of the said term the sum of Eighteen hundred Dollars, and for the last seven years the sum of Two Thousand Dollars per Annum.

That the time limited for putting the Boat upon said Ferry was subsequently extended one year, that within the time so appointed Mr Bowne did put an additional Team Boat on said Ferry which is propelled by Eight horses and which is approved of by your Committee; Your Committee is therefore of opinion that Mr Bowne is entitled to an extension of his Lease for the period above mentioned. Mr Bowne's Lease [66] expires on the first of May 1827. The Lease of the Ferry from Beekman Slip to Brooklyn expires on the first day of May 1839. twelve years after Mr Bowne's Lease. The report of the Committee above mentioned, provides that he shall pay $1800. for the first six years of the term during which his Lease is to be extended, and $2000. for the last seven years, making a period of thirteen years. This error renders it necessary that a new apportionment should be made of the rent: and the Committee are of opinion that he ought to pay $1800. Dollars for the first five years and $2000. for the last seven years of the term.

Your Committee further report that in the Lease which Mr Bowne now holds, there is a proviso, that it shall be lawful for the Corporation during the continuance of his Lease to establish a Ferry across the East River from the foot of Walnut Street or its vicinity to the Wallabout. That a Lease for a Ferry has been granted to Commodore Evans from the foot of Walnut Street to the foot of Little Street; as it is questioned whether Little Street is not to the westward of the Wallabout, and as it is desirable to prevent any litigation upon this [67] subject, the Committee recommend that the Lease to Mr Bowne should contain a proviso, that it shall be lawful for the Corporation to establish a Ferry from the foot of Walnut Street or from any point to the Westward of it not exceeding One hundred feet, or from any point to the Eastward of it to the Wallabout, and to any point to the Westward of the Wallabout not exceeding one hundred feet to the Westward of Little Street.

The present Lease to Mr Bowne contains a Covenant that the Team Boats and all other Boats and furniture of what description soever as shall be actually employed on said Ferry at the expiration of the term, shall be valued by two appraisors, one to be chosen by the Corporation and the other by Mr Bowne, and if the appraisors cannot agree, that then a third person shall be chosen by them (each naming one, and the choice to be by lot) and that the Corporation shall pay such sum for the Boats &c. as the appraisors or the umpire may award. This Covenant the Committee are of opinion is a very unsafe one, and they recommend that in lieu of it, there be inserted a Covenant

that the umpire shall be agreed upon by the appraisors [68] and before they proceed to value the property.

The Committee are also of opinion that it is expedient that the present lease be surrendered and that a New Lease be granted from the present time to the 1st May 1839.

The Committee are also of opinion that Mr Bowne should be required to keep two Team Boats to be propelled by not less than Eight Horses each, but that it is unnecessary to require Mr Bowne to keep more than three barges on the Ferry, the frames and bridges used at the Ferry on each side of the River should be kept in repair at his expence; but that the chain on the Easterly side of the Ferry at the foot of Catherine Street, should be kept in repair at the expence of the Corporation.

Mr Bowne has been consulted by the Committee, and has signified to them his approbation of the recommendations contained in this report.

The Committee also report that an arrangement has been made with Mr Bowne relative to the erection of a pier for the accommodation of his Ferry at Brooklyn, by which Mr Bowne stipulated to convey to the Corporation the end and Slip side of it, and also the Slip side [69] of a Pier previously erected by him, reserving to himself the use of the same for the accommodation of his Ferry during the continuance of his Lease, and that that pier had been accordingly made, but that the end and Slip side of it had not yet been ceded to the Corporation in pursuance of his agreement. Mr Bowne however is ready to make the cession;

The Committee therefore recommend the adoption of the following Resolution.

Resolved, that upon Rodman Bowne's ceding to the Corporation, the end and Slip side of the before mentioned pier in conformity to his agreement, and also surrendering the Lease he now holds for the Ferry from Catherine Slip to Brooklyn, that the Counsel be instructed to prepare a New Lease in conformity to the tenor of this Report.

The Special Committee to whom was refer- [70] red the subject of appointing Health Wardens under the Act of the 14th April last to

provide against Infectious and Pestilential Diseases Reported, That they have had the subject under consideration, and believe that the health of the City will greatly depend upon the appointment of a sufficient number of vigilant Citizens clothed with ample powers to execute the duties of Health Wardens, as contemplated by that Act; that great public utility would result from an immediate organization of Health Wardens to be placed under the direction and controul of the Board of Health; that your Committee have been informed and believe that the Fire Wardens of the City, in addition to their present duties, would most cheerfully undertake to discharge those of Health Wardens also, many of them having already volunteered their services,

Wherefore Resolved, That it is expedient to appoint Health Wardens.

Resolved, That the Fire Wardens of this City be clothed with authority to discharge the duties of Health Wardens under the Act of the 14th April last, and that they be placed for that purpose, under the direction and controul of the Board of Health.

The Finance Committee to whom was submitted the Lease to William Cutting for a peice of ground at Brooklyn Reported as follows:

"The Finance Committee have examined the Lease to William Cutting referred to them for that purpose, and find it to correspond with the Resolutions passed by the Board, and they therefore propose the following Resolution.

Resolved, that the Lease to William Cutting [79] be executed.

Respectfully Submitted

Which was approved and the Resolution adopted.

The same Committee to whom was referred the petition of Edward W. Laight, William Stilwell and John McKesson respecting their Account for services as Commissioners of Estimate for extending Beekman Street:

Report, that the petitioners was appointed by the Supreme Court to perform the duty above stated, and completed two successive re-

ports on the subject, both of which was set aside and the matter referred to other Commissioners.

That the Amount claimed by the petitioners for the said services, as per their Bill hereunto annexed is 906 Dollars, but the Committee conceiving some of the charges to be unusual, and not strictly authorised by the statute, have reduced the said amount to 746 Dollars, and recommend that this sum be paid the petitioners in full for the services alluded to [80] and they offer the following Resolution accordingly

Resolved, that a warrant pass in favor of the petitioners for 746 Dollars in full for duties performed by them as Commissioners to extend Beekman Street from Pearl to South Street.

Which was approved, and the Resolution adopted.

The same Committee on the Report of the Street Commissioner recommending the sale of a peice of ground assessed on the Corporation for widening Gold Street:

Report, that the peice of ground alluded to is situated between Beekman and Fulton Streets and is twenty five feet wide on Gold Street by about twenty four and one half feet in depth, as per the Diagram hereunto annexed, and was Assessed on the Corporation at One Thousand and forty four Dollars and twenty three Cents.

The Committee are of opinion, that the property alluded to ought to be sold for the purpose of [81] paying the Amount Assessed on the Corporation; and that the present time, while the property in its vicinity is in the act of improving is the most favourable for making such sale; and they recommend the following Resolution accordingly.

Resolved, that the Street Commissioner be authorised to sell at public auction on the premises, the peice of ground alluded to in the foregoing Report; and that such sale be made on Wednesday the 14th Instant, and be advertised in the papers employed by this Board accordingly.

Which was approved, and the Resolution adopted.

The same Committee on the petition of John Bailey for an advance on his contract for filling in North Street:

Report, that the situation of the property on that part of North Street contracted to be filled is such, that in all probability the [82] Assessment cannot be collected except by a sale of the Lots on which it has been laid, and the Committee having been informed, that the petitioner is a poor man, and in great distress for the want of this money, they think it will be proper to make him the advance prayed for, and therefore propose the following Resolution.

Resolved, that a Warrant pass in favor of John Bailey for Five hundred Dollars on account of his Contract for filling up and regulating North Street from Willet to Lewis Street.

Which was approved, and the Resolution adopted.

The same Committee on the petition of Samuel Tooker Reported in the following words

"The Finance Committee, to whom was referred a communication from Samuel Tooker Esq[r] stating that he had divided two Lots of ground held by him under Lease from the Corporation into three; and requesting permission to surrender the [83] Lease of said Lots, and in lieu thereof that three Leases may be executed, one to each person he has designated:

Report, that they have had under consideration the subject referred to them, and cannot perceive that any injury will arise to the public Interest by complying with the request of Alderman Tooker. The Committee are rather of the opinion, that the division of the Lots will have a tendency to enhance the value of the property, and consequently, at the expiration of the present term of Lease, that the rent will be increased accordingly; they therefore recommend the following Resolution.

Resolved, that the Comptroller be authorised to receive from Samuel Tooker Esq[r] a surrender of the Lease held by him for Lots N° 19 and 20 on Duane Street, and to issue in Lieu thereof three Leases agreeably to the division of said Lots as by the annexed Diagram; such Leases to be drawn in favor of the persons named, and the rent apportioned in the manner designated by the Diagram re-

ferred to; and that the terms of said Leases, be the same as that of the one surrendered.

Resolutions directing that North Street be regulated so as to form a regular descent from Willet Street to the present regulation of Lewis Street and that the Assessment made for regulating North Street from Willet to Lewis Street, be returned to the Assessors, were read and referred to the Street Committee.

The corrected Assessment for the Minetto Sewer, which was presented at the last meeting and laid for consideration, was called up and referred to the Committee on Assessments.

The Report of the Road Committee on the petition of the Inhabitants residing on the 10th Avenue, praying that said Avenue may be completed from 28th Street to its intersection with the Bloomingdale Road at 70th Street, was called up and being read was as follows;

"The Road Committee to whom was referred the Memorial of the proprietors of land adjoining the [85] 10th Avenue, beg leave to Report,

That in their opinion the arguments and reasons stated in that petition are just and appropriate It appears five years have elapsed since an order was issued by this Honorable Body to open said Avenue. That the Land holders have on their part conformed to the respective requisitions made by this Board, and that the Corporation has sold Land to certain individuals bounded on said Avenue, who cannot have access to the City without passing through private property. The Committee are therefore of the opinion that the prayers of the petitioners ought to be granted.

The Committee however considering the state of the Public funds, would be averse to any improvement which could have a tendency to increase the already heavy burthen of our City, but believing that this arrangement might be made by the Penitentiary men without additional expences, suggest the propriety of the following Resolution.

Resolved, that the Road Committee have power to cause the 10th Avenue to be worked from the 28th Street to its intersection with the Bloomingdale Road, provided, the same be done by the men belonging to the penitentiary establishment [86] it being understood that the

proprietors of Land adjoining said Avenue, shall pay one third part of the expence.

Resolved, that the same Committee be authorised to add two keepers to the present number now allowed by the Board, to be appointed in the usual way.

The Minutes of the last meeting were read and approved.

A Petition of Rueben Clark Captain of City Watch of 2d District was received stating that he was frequently prosecuted by individuals for acts done in the line of his duty and though the Plaintiffs in the suit were cast, yet that costs in the prosecution and defence of the suit were incurred from which he conceived he should be relieved and therefore prayed relief from the Board.

Whereupon the same was referred to the Watch Committee.

A Petition for a Well and Pump near corner of Charlton and Varick Streets was referred to the Alderman and Assistant of Ward and Street Commissioner to report an Ordinance therefor.

A Petition of Jacob Blackwell for a Reappointment to the Office of City Weigher, and of Philip Arnold for some employment under the [91] Board, were referred to the Committee on Applications.

A Petition of Robert Cheeseborough to be relieved from a demand for arrears of personal Tax in the Sixth Ward for the year 1817, he having paid the same, was referred to the Committee on Assessments.

A Petition of Sarah Lyng for compensation for supporting George Devon a Pauper was referred to the Commissioners of the Alms House.

A Petition of Lewis Lushing to be permitted to remove a frame building from Duane Street to First Street through the Streets and to employ a Truck for the purpose, was read and referred to the Alderman and Assistant of the Ward and Street Commissioner.

A Petition from Richard Bell to remove a House from Harman to Orange Street, was referred to the Alderman and Assistants of the 6 & 7th Wards and Street Commissioner with authority to grant the prayer of the Petitioner.

A Petition of George Richards was received [92] stating that he is interested in a Distillery at the corner of Broome and Green Street, that by the proposed regulation of Green Street his property will be materially injured, and praying that the regulation of the Street may be altered by crowning it in the centre of the Block between Broome and Grand Street so as to throw the water through Broome Street, which being read was referred to the Street Committee.

A Petition from Thomas & William H. Leggett to be permitted to construct a Vault in the Street at No 67 Murray Street was granted on the usual terms under the direction of the Street Commissioner.

A Petition of John Sidell First Marshall that the priviledge may be granted him of assigning places for Booths around the Park on the 4th of July next, was referred to the Committee on Public Lands and places, and authority was given by Resolution to said Committee to grant the request, and on such terms as they should judge adviseable.

A memorial was received from a number [93] of dealers in Domestic Spirits stating that the Law of the Corporation which prohibits a Deputy Inspector of Domestic Spirits from being a City Guager is attended with great inconvenience to them, and praying its repeal, was referred to the Committee on applications, to whom a similar petition had been referred.

A Petition of John B. Coles was received, stating that about two years ago he presented a petition for permission to reestablish a Ferry

from this City to Harsimus, lying between Powles Hook and Hoboken, that he and those concerned are willing to establish said Ferry and not charge a higher ferriage for persons than six pence, that he understands that a grant has been made of a Ferry to Mr Hone, in which there is a clause restraining the granting within a certain time of any Ferry to the Jersey Shore Southward of Hoboken and from any part of the City South of the North Battery, that he is informed Mr Hone is applying for an extension of his grant farther North, against such grant the Petitioner remonstrates, and prays a grant may be made to him of a right to establish a Ferry from his Dock at Harsimus, to any place between Spring Street [94] and the North Battery; Whereupon the same was referred to the Ferry Committee.

A Petition of John Cole was received stating that he had erected a Stairs on the outside of his Store corner of Washington and Albany Streets, which he had been ordered by the Street Commissioner to remove, and praying they may be permitted to remain was referred to the Committee on Public Offices.

A Petition was received from Haviland Wicks, praying that the money due to him on the Contract for building the Sewer in Collect Street may bear interest from the time the first notice for payment expired; and also that a small sum may be advanced to him, was referred to the Finance Committee.

A Petition was received from Stephen Price requesting that the Common Council would Lease to him a piece of ground for the Scite of a Theatre in Chamber Street adjoining the New York Rotunda. The ground required would be about seventy feet front and One hundred [95] and fifty feet deep; Whereupon, the same was referred to the Committee on Public Lands and Places.

A Petition of Abraham Passman for Stall No 10 Spring Street Market, was referred to the Market Committee.

A Petition of Noah Jarvis and others Collectors of Assessments under the Corporation complaining of the dampness of the Room assigned to them for an Office in the Basement Story of the City Hall, and requesting that another Room may be assigned to them, was read and referred to the Committee on Public Offices.

A Petition that Broome Street might be numbered, was referred to the Superintendant of Repairs to cause it to be done.

A Petition was received from several Fireman attached to No 2 stating, that some short time since Andrew Selleg was elected a Fireman to said Company, but that the Cheif Engineer supposing

him not to be a person of good moral character, had not returned him [96] for appointment to the Board: that the Petitioners think well of his character, and pray he may be appointed to said Company; Whereupon, the same was referred to the Committee on the Fire Department.

A Memorial was presented from the Inhabitants in the vicinity of Abingdon Road, complaining as a great and grievous nuisance the practise of racing Horses in said Road, and praying measures may be taken to prevent the same, was read and referred to the Alderman and Assistant of the 9th Ward.

A Petition from John A. Davenport to be appointed a City Weigher was received and granted, and he was appointed a City Weigher accordingly.

The Chief Engineer presented the following Return of persons for Fireman, with a Certificate of the Vacancies existing, and they were accordingly appointed, Vizt

He also presented the following Reports, Viz[t]

[102] The City Inspector respectfully Reports to the Board a vacant Lot, at the corner of Spring and Orange Streets, of which Silvanus Miller is Agent, or Executor to an Orphan Girl.

M[r] Miller has been Ordinanced to fill in the said Lot, so as to correct a very offensive Nuisance there, but refuses to comply; it is apprehended that M[r] Miller cannot be sued with success, as he is neither Owner nor Occupant: now, there are five Hog-pens on the said Lot, and it is in a most disgraceful state.

It is presumed that the Board should correct this nuisance in the first instance, and enclose it to prevent its recurrence, and hold a lien on the Lot, for the expences thereof, no loss can arise from this course, as the property is valuable, and will no doubt be redeemed by M[r] Miller.

He further Reports that a sunken Lot, into which filth and dead Animals are frequently cast, belonging as is said to Hector Scott, being N[o] 1110 Bayard's East Farm, and fronting on Orange Street, has been Ordinanced without effect. M[r] Scott resides in Baltimore, the same course is respectfully recommended in this instance, with the exception of the enclosing of it.

He also reports a Lot on Little Water Street [103] belonging to Matthew L. Davis; this Lot is filled with water and is very offensive.

M[r] Davis has, likewise been Ordinanced, and not complying, it was sent to the Attorney. He was Ordinanced a second time, which will expire the 20[th] Instant; in the event of his not complying (and it is apprehended that he will not comply) would it not be right that the Board should immediately after the 20[th], correct this Nuisance in like manner, particularly as the approaching warm weather justifies every exertion to prevent Disease.

(signed) George Cuming
City Inspector

The City Inspector respectfully reports to the Board, that at the corner of Washington and Warren Streets, there is a considerable Nuisance on a Lot belonging to the Children of Edmund C. Genet. M[r] Genet has been Ordinanced to correct the same, the time given for that purpose has expired, but no attention has been paid to the Ordinance.

As M[r] Genet is guardian to the Children, he, it is beleived, cannot

be sued, and no means [104] to correct this great Nuisance appear practicable, but by the Board's directing it to be done and disposing of the Lot for the expences arising therefrom.

Whereupon, they were referred to him to correct the Nuisances as advised, taking the instructions of the Counsel thereon.

The Counsel agreeably to order presented the Draught of a Law, entitled a Law for the appointment of Health Wardens, which was read by Paragraphs and passed.

The Street Committee to whom was referred the petition for regulating and paving Broome Street, Reported in the following words,

The Street Committee to whom was referred the petition of James Wadsworth and others Inhabitants of Broome Street, praying that Broome Street may be regulated and paved between Varick and Sullivan Streets, Report, that they have examined the situation of that part of the Street, and are of opinion, that it ought to be regulated [105] and paved. Therefore Resolved, that the Street Commissioner prepare an Ordinance to be submitted to the Board at their next meeting for that purpose.

Which was approved, and the Street Commissioner directed to Report an Ordinance agreeably thereto.

The same Committee to whom was referred the Resolution of the Board respecting regulating North Street Reported, in the following words:

"The Street Committee to whom was referred the Resolution of the Board, on the subject of regulating North Street, have had the same under consideration, and recommend their adoption.

Resolved, that North Street be regulated so as to form a regular descent from Willet Street to the present regulation of Lewis Street, and that the Street Commissioner cause the profile and calculation for filling the Street to be [106] altered accordingly.

Resolved, that the Assessment made for regulating North Street

from Willet to Lewis Street be returned to the Assessors, in order that it may be altered in conformity with the foregoing Resolution.

Which was approved, and the Resolutions adopted.

The Committee on Assessments to whom was referred the Assessment for building the Minetto Sewer, and sundry petitions containing objections thereto:

Report, that they have endeavored to bestow all the attention and consideration on the subject which its importance requires. That they have heard the petitioners, and obtained information and explanations from the Assessors, and have paid particular [attention] to the complaint of inequality and disproportion on Lots in the same, or similar situations, and are satisfied, after hearing the explanations and reasons assigned by the Assessors in every questionable case, that a more just dis- [107] crimination could not have been made.

With these impressions and views of the subject referred to them, your Committee do not hesitate to recommend the confirmation of the Assessment, they therefore respectfully submit the following Resolution:

Resolved, That the Assessment for building the Minetto Sewer, as reported by the Assessors be confirmed.

Whereupon the Resolution was adopted, the Assessment confirmed, and Morris De Camp was appointed the Collector of the same.

The same Committee to whom was referred the Petition of Thomas Pringle, complaining that the Report of the late Commitee of Assessments (of which M[r] Westervelt was Chairman) did not meet the case intended:

Report, that on examining the Report alluded to, it appears that the petitioner was Assessed in the 9[th] Ward for Two Houses and Lots, the [108] sum of $28 $^{5}/_{100}$, when in fact he was the owner of but one, and the Committee, satisfied that he was entitled to relief,

directed that $14 25/100 be remitted, and the remainder collected. The Tax having been paid, that Report afforded no relief, to effect which, Your Committee respectfully submit the following Resolution.

Resolved, That the Comptroller be directed to report a Warrant at the next meeting of the Board in favor of Thomas Pringle for $14 25/100 agreeably to a Report of the Committee of Assessments made 27th March last, to be paid on his exhibiting a receipt for the payment of the Taxes Assessed on him in the 9th ward in the Year 1818.

Which was approved, the Resolution adopted, and he was appointed accordingly.

The Finance Committee presented a communication of some length on the subject of the Finances of the Corporation, and of finding under the [110] authority of the Law passed at the last Session of the Legislature, the debts due by the Corporation on Bonds; and they

proposed Resolutions authorising the Comptroller to open Books at the Mechanics Bank to receive subscriptions to a Loan not exceeding Two hundred Thousand Dollars for which Certificates will be issued bearing an Interest of five per Cent payable quarterly and not redeemable until the first day of August 1850. Whereupon, the consideration thereof was postponed, and the Report directed to be printed for the use of the Members of the Board.

A Resolution was presented directing the Superintendant of Repairs to cause the Houses in Market Street to be numbered, which was adopted.

On Motion of Alderman Thorp, Resolved, that a Committee be appointed to make arrangements for the Celebration of the next Anniversary of American Independence, and a Committee was appointed consisting of, Alderman Thorp, Alderman Swartwout, Mr Hammond, Mr Bolton & Mr De Peyster.

[111] Alderman Allen presented the following;

Resolved, That the Resolution adopted at the last meeting of the Board directing the working of the 10th Avenue, be and the same is hereby rescinded.

The question being taken thereon, it was carried in the Affirmative.

Alderman Swartwout presented a Resolution for appointing three additional Street Inspectors, which was directed to lie for consideration.

Resolved, That the Street Commissioner be directed to cause the different Sewers in the City to be examined, and to Report their condition to the Board.

Resolved, that the Clerk cause the Law prohibiting the firing of Squibs and Crackers in the Streets to be printed and posted in the several parts of the City.

City Inspector.

He also presented a Report, stating that a considerable quantity of water from Collect Street by being obstructed in its passage to the Sewer, had emptied itself into the Arsenal Yard, and recommended filling in the Arsenal Yard as the only remedy, which was read and laid on the Table.

He also presented a Communication on the subject of the construction of certain Privies in William Street, which was referred to the Commissioners of the Board of Health.

He also presented the following, Viz^{t}

[131] The City Inspector respectfully states that a Nuisance exists on a surplus Gore of Land, fronting westerly on Laurens Street, between Spring and Broom Streets, being one among many others lying between the Estate of Anthony Lispenard and Bayard's west farm.

As the neighborhood are improving their Lots, and this surplus Gore of Land, about twenty feet in front, and forty in the rear, belongs to the Corporation, it is recommended that it be directed to be filled in with earth, to correct the Nuisance, more especially as the sunken Gore now receives water which filters through into the neighboring Cellars.

The Expence will probably not exceed Thirty Dollars.

Respectfully Submitted

(Signed) George Cuming
City Inspector

Which was referred to the Street Commissioner to correct the Nuisance complained of.

The Market Committee to whom the Petition of John Evans was referred, Praying to be licensed for Stall N^{o} 14 Washington Market, accompanyed with a Certificate of M^{r} Stephen Berdett, that [132] he is willing to give up his License to said Evans.

Your Committee are willing to accept of the resignation of said Stephen Berdett, but they at the same time, claiming the right of selection when their are a number of applications, as there are at present, Your Committee beg leave to offer the following Resolution.

Resolved, that the resignation of Stephen Berdett of his License for Stall N° 14 Washington Market, be and is hereby accepted, and that George Cammerdon be Licensed for the same.

(Signed) Harm^{s} Tallman
Stephen Allen

Which was approved, and the Stall was granted to said George Cammerdon.

The Committee on Assessments to whom was referred the Petition of Elizabeth De Peyster stating that in August 1810. her property in the Eighth Ward, was Assessed for opening Canal Street $221 $^{5}/_{100}$ Dollars which sum amounting together with the Interest to $307 $^{5}/_{100}$ Dollars she paid on the 5th of January 1818. The basis [133] of the Assessment was, that the water from that part of the City, should have an outlet through Canal Street: the plan was subsequently altered and the water from the petitioners property in that vicinity will now pass off thro' the Minetto Sewer, for which she has recently been assessed $280 Dollars, and that, as her property is not now benefitted by the opening of Canal Street, she prays that the sum paid by her for that improvement may be refunded.

Report, that on an examination of the case, it appears there are a number of persons in the Eighth Ward whose property in 1810. was Assessed for opening Canal Street and building the Canal, for the purpose of giving an outlet to the water collected on their grounds, and that by a recent regulation in that part of the City, it is now drained off through the Minetto Sewer, for the building of which, they have also been Assessed.

Your Committee consulting their feelings only as it respects the general benefit derived to the Community from those two Canals, are of opinion that it would be inexpedient to grant the prayer of the petitioner. the granting relief [134] in one case would open the door to a host of Applicants placed precisely in a similar situation;

They therefore Respectfully submit the following Resolution.

Resolved, that it is inexpedient to grant the prayer of the Petitioner.

Which was approved, and the Resolution adopted.

The Street Committee on the petition for paving Grand Street Reported as follows:

" The Street Committee to whom was referred the annexed petition of a number of the proprietors of property situate on Grand Street praying that it may be paved from Arundle Street to the East River:

Report, that they have carefully examined the situation of that and the adjoining Streets that are in an unregulated state, and are fully of opinion that the prayer of the petitioners ought to be granted.

They therefore beg leave to offer the follow- [135] ing Resolutions.

Resolved, that Grand Street be regulated with a regular ascent from Arundle Street to the present surface of the ground half way between Attorney and Ridge Street, and from thence in a direct line to the present surface at the Easterly side of Sheriff Street.

Resolved, that the Curb Stone be laid and the Carriage-way paved from Arundle Street to the Bulkhead, and that the Street Commissioner be instructed to prepare an Ordinance for that purpose.

The same Committee presented the following Communication made to them by the Street Commissioner, and a Report by them thereon;

The Street Committee,

Gentlemen,

As Harman Street will [136] require Repaving as soon as the buildings are removed from off the Street; the Street Commissioner submits for the consideration of the Committee whether an altera-

tion in the regulation may not be made, so as to improve the appearance of the Street, which he presumes may be done by reducing the summit points between Catherine & Rutgers Street. There are but a few buildings on the Northerly side but what will be improved by the alteration. the early attention of the Committee to this subject will much oblige a number of persons who are about building, or fixing their Houses on the Southerly side of the Street.

Very Respectfully
Your Obed[t] Serv[t]
(Signed) John M[c]Comb
Street Commissioner.

The Street Committee having received the annexed communication from the Street Commissioner relative to the improvement of Harman Street, immediately proceeded to examine its situation, and are decidedly of opinion that the alteration proposed will be [137] an improvement to the appearance of the Street.

They therefore offer the following Resolutions

Resolved, that Harman Street be regulated from Catherine Street to Rutgers Street and that the summit points of the present pavement between Catherine and Rutgers Street be reduced eighteen inches

Resolved, that the Carriage way and side walks in Harman Street be paved from Catherine to Rutgers Street, and that the Street Commissioner prepare an Ordinance accordingly.

Whereupon the Resolutions proposed by the Committee were adopted.

The Canal Committee to whom was referred the petition praying that the Sewer in Collect Street may be extended to Leonard Street Respectfully Report, That they have personally examined the situation of said Street, [138] and duly considered the request of the pe[ti]tioners, and are of opinion that the Sewer has been extended as far as the nature of the ground will permit at present, and as something requires to be done in order to abate a serious nuisance that now exists; Your Committee recommend that the Street be regulated and paved from Leonard Street to the mouth of the Sewer.

They therefore offer the following Resolutions,

Resolved, that Collect Street be regulated and paved from Leonard

Street to the mouth of the Sewer, in the same manner as it is done between Anthony and Leonard Street.

Resolved, that the Street Commissioner present an Ordinance forthwith for that purpose, and that he take immediate measures to have the same carried into effect.

Which was approved, the Resolutions adopted, and an Ordinance agreeably thereto was passed.

[139] The Committee on Public Lands and Places on the petition of Stephen Price for the Lease of ground for a Scite for a Theatre, presented a Report, which was read and the consideration thereof postponed.

The Finance Committee to whom was referred the petition of Haviland Wicks, praying that interest may be charged on the uncollected Assessment for the Sewer in Collect Street, and that the sum Assessed on the Arsenal and payable by the State may be advanced him by the Corporation

Report, that the petitioner was the Contractor for building said Sewer, and has compleated his contract several Months since; the Assessment for which was confirmed by the Common Council on the first day of May last. The Committee are of opinion that the request of the petitioner is reasonable and ought to be granted, inasmuch as strict justice requires, that a period should be fixed for the payment of all Assessments, after which interest ought to be charged; otherwise those who prolong the payment, until the moment of legal proceedings have an evident [140] advantage over others that pay on the demand of the Collector; and it is also the opinion of your Committee, that the Amount due by the State, ought to be advanced by the Corporation, because it is beleived no provision has been made by the Legislature for its payment, and that a Law must be passed for that purpose at their next Session; they therefore recommend the following Resolutions.

Resolved, that from and after the first day of July next, interest be charged on the money remaining unpaid on the Assessment for building the Sewer in Collect Street.

Resolved, that the Comptroller be instructed to Report a warrant at the first meeting of the Board in July in favor of Haviland Wicks,

for the sum assessed on the State for building the Sewer in Collect Street, provided, the same shall remain unpaid on that day.

Alderman Allen also introduced the following Resolution which was adopted.

Resolved, that from and after the tenth day of July next, interest be charged on the amount due and unpaid on the Assessments for regulating Canal Street.

The Committee of Applications to whom was referred the petition of Jacob Blackwell for to be appointed a City Weigher, are of the opinion, that the prayer of the petitioner ought to be granted, and offer the following Resolution

Resolved, that Jacob Blackwell be and he is hereby appointed a City Weigher.

(Signed) D. Board
Gerard De Peyster

Which was approved, the Resolution adopted, and he was appointed a City Weigher.

The same Committee on the petition of Lewis Smith Reported as follows;

"The Committee of Applications to whom was referred the petition of Lewis Smith, pray- [142] ing to be appointed a Measurer of Grain have made the necessary enquiry, and are of the opinion, that the prayer of the petitioner ought to be granted; and offer the following Resolution.

Resolved, that Lewis Smith be and he is hereby appointed a Measurer of Grain.

(Signed) D. Board
Gerard De Peyster

Which was approved, the Resolution adopted, and he was appointed a City Measurer.

A Resolution was presented for regulating the upper end of Division Street, so as to correspond with the regulation of Grand Street and the regulated part of Division Street, which was referred to the Street Committee to direct an Ordinance to be Reported.

Resolved, that the Market Committee enquire into the conduct of Hall, lately permitted to vend Butter in the Markets, and if in their judgment he has used the permit improperly that they revoke it.

The Communication (respecting creating [143] a further Stock) of the Finance Committee presented at the last meeting, was called up, and being read, was in the words following.

"The Finance Committee beg leave to remind the Board, that a Law was passed at the last Session of the Legislature of this State, authorising the Corporation to fund Four hundred Thousand Dollars in Stock bearing an Interest not exceeding six per Cent per annum.

One object with the Committee in recommending to the Board an application to the Legislature for the passage of said Law was the extinguishment of the present floating debt of the Corporation, and more particularly that part of it for which they are paying seven per Cent interest.

The Law authorising the now funded debt of the Corporation was passed in 1812. and the Stock created under that Law is not redeemable until the year 1826. By this Act the whole Revenue of the Corporation is pledged for the payment of the interest on the sum funded, and the Legislature have given the pledge of the State, that in the event of the said Revenue proving insufficient to pay such interest, Laws [144] shall be passed authorising the Corporation to raise by Tax the necessary sum, and the same provision is continued in force, and will apply to any future Law authorised by the Act of 1820.

The Sinking fund established for the redemption of the present Stock, has been in operation seven years; and in that period 184.611 Dollars 89 Cents has been paid to the Commissioners from the funds set apart for that purpose, averaging 26.373 Dollars per Annum. This fund however has been unusually increased for the two or three last years by the sale of public property to a large amount and it would be unfair therefore, in calculating the final extinguishment of the present debt, to take the average above stated as a basis.

The Committee have presumed that 25,000 Dollars per annum may be safely calculated on, as the future average receipts of the Sinking fund, and on this calculation the debt now funded may be extinguished in Twenty eight years from the present date, which will be in the year 1848.

The whole amount of Bonds at present [145] outstanding is

264,483 Dollars 17 Cents; of this Amount 25,080 Dollars is held by Richard Varick Esq[r] and bears no interest until the year 1823. and 70,129 Dollars was issued to pay the Contractors for building the Sewer in Canal Street, and are to be liquidated from the amount Assessed for that object: the remainder of the Bonds amount to 169,273 Dollars 35 Cents of which 121,531 Dollars 53 Cents bear an interest of seven per Cent, and 47,741 Dollars 82 Cents an interest of six per Cent per annum.

The Committee are of opinion that a Loan may be contracted at the present time for the payment of these Bonds on very favorable terms to the public, particularly if the period for the redemption of such Loan shall be extended for a number of years, and as it has been shown from the operation of the Sinking fund, that the present debt cannot be liquidated before the year 1848. no objection has occurred to the minds of your Committee, against taking a Loan, not redeemable before the year 1850. The Committee have sought for information on the probable result, should books be opened for a Loan at five per Cent interest on the foregoing conditions; and it is [146] the opinion of the best informed on these subjects that it would succeed; they therefore beg leave to propose, that a Loan be taken not to exceed 200,000 Dollars in Amount and at an interest of five per Cent per annum payable quarter yearly; the proceeds to be applied to the payment of the outstanding Bonds, except those issued to M[r] Varick and the Contractors for the Sewer in Canal Street.

There is no object cognizable by this Board, in which the public feel a greater interest than in that part of the City Finances, and on this occasion, when it becomes necessary to increase the funded debt to Eleven Hundred Thousand Dollars, it will not be deemed arrogance in the Committee to respectfully suggest to the Board, the propriety of using every means in their power, consistent with the convenience of the Citizens, to lessen the public expenditure, and prevent a further increase of the Public Debt.

The Committee beg leave to propose the following Resolutions.

Resolved, That the Comptroller be authorised to give public notice in the papers employed by the Corporation, that Books will be [147] opened, and kept open during business hours at the Mechanics Bank in this City, from the 10[th] to the 20[th] day of July, next, for the purpose of receiving subscriptions for a Loan to the Corporation of this City, of any sum not less than One hundred Dollars, and not exceeding Two hundred Thousand Dollars.

That on the closing of such Books, should the sum subscribed exceed in Amount Two hundred Thousand Dollars, the surplus will be deducted pro rata from the Amounts subscribed respectively. That on the 20th day of July, the subscribers to the Loan shall pay to the City Treasurer at the Mechanics Bank aforesaid, five per Cent on the Amount of Stock to which they shall be entitled by their subscription; and that on the 31st of July thereafter, the remainder of the sum subscribed shall be paid as aforesaid, when Certificates of Stock will be issued bearing an interest of five per Cent payable quarter-yearly, from and after the first day of August 1820. and not redeemable till the first day of August 1850. That in the event of a failure of the subscribers to pay the last instalment on the day designated, the previous sums paid, will be forfeited to the use [148] of the Corporation of this City.

Resolved, that the Comptroller be authorised under the instruction of the Finance Committee, to apply the proceeds of the proposed Loan to the payment of such of the outstanding Bonds of this Corporation as in their opinion will be most for the public interest.

The Minutes of last meeting were read and approved.

A communication dated Troy June 24th 1820 from Esaias Warren Mayor of the City of Troy stating that by a late extensive and destructive fire, a great portion of the City of Troy had been laid in ashes, and a number of the poor In- [153] habitants had been reduced to the greatest distress, and praying the aid of the Citizens of New York to releive the distresses of those unfortunate Inhabitants was read. Whereupon the following Resolutions were presented by his Honor the Recorder Mr Jay, which being read were unanimously adopted.

Resolved, that this Board deeply sympathize in the distress of their fellow Citizens of Troy occasioned by the late calamitous fire at that place.

Resolved, that his Honor the Deputy Mayor be requested to convene a general meeting of the Citizens of this City for the purpose of adopting measures for affording releif to the suffering Inhabitants of Troy.

A request from Peter H. Wendover Chairman of the Commissioners of the School Fund that the sum allowed by Law to that Fund be paid, was received and referred to the Finance Committee.

A Petition of Palmer & Hamilton owners of Brig Bourdeaux was received, stating that said Brig arrived on Saturday 24th June having [154] two Cabin passengers on board, that on Monday the 26th the Captain reported his passengers at the Mayors Office, signed the Bond and paid the expenses thereof, and stated that his secureities whom he named would on the next day complete the same; that unavoidable circumstances prevented the completion on the next day,

that on the 27th they received notice from the Attorney that the Bond was not executed, that on the 28th they attended at the Mayors Office, but they were not permitted to execute the same, until the fees of the Attorney were paid, that they called upon the Attorney who demanded $5 75/100 which they paid; that under the circumstances of this case they pray relief—Referred to Committee on Public Offices.

A Petition from Daniel D. Tompkins and Noah Brown was received, stating that in the Lease to them of a part of Whitehall Slip and peirs it was agreed on the part of the Corporation that Pier N° 1 and the short Pier should be put in compleat repair, and that the Lane between the Battery and Whitehall Slip should be widened; that neither of these parts of the Contract have been performed on [155] the part of the Corporation, whereby the petitioners have sustained considerable loss and injury and submitting whether on account of said failure in the Contract on the part of the Corporation and the losses sustained by Petitioners a deduction should not be made from the rent covenanted to be paid by Petitioners.—Whereupon the same was referred to the Ferry Committee.

A Petition of Thomas H. White occupier of Stall N° 30 and of Jonathan Skillman occupier of Stall N° 31 in Catherine Market praying to be permitted to exchange Stalls with each other; A petition of John Harriot for Stall N° 38 Catherine Market; & of Frazier Broadway for Stall N° 16 Fly-market, were read and referred to the Market Committee.

A Memorial was received from a number of Owners and Inhabitants in the vicinity of Exchange Slip and lower part of Broad Street, stating that they are informed that it is in contemplation to Assess upon them a portion of the expence for cleaning the Drain or Sewer in Broad Street, and also for building [156] the Bulkhead &c at Exchange Slip, against which for reasons in said Memorial stated at length they object and remonstrate, was referred to the Committee on Wharves, Piers & Slips.

A Remonstrance from a large number of Inhabitants against adopting the Report of the Committee on the petition of Stephen Price which recommended Leasing to him a Lot on Chamber Street, whereon to erect a Theatre, was presented and read. The Report of the Committee on the petition of Stephen Price presented at last meeting and laid for consideration, was called up, and being read was in the words following.

"The Committee on Public Lands & Places to whom was referred the petition of Stephen Price praying the Corporation to

grant him on lease a lot of land for the purpose of building a Theatre thereon,

Report, That they have had this subject under consideration, and have examined Mr. Price's plans and had his views and explanation thereon. He proposes to occupy the space of ground between the Rotunda and the Old Alms-House, fronting 70 feet on Chamber [157] Street, and running 150 feet deep, which will extend about 50 feet farther back than the South line of the Alms House.

The plan of the Building is neat and ornamental, it is intended to be of White Marble front and rear, completely fire proof and to be finished in a style of taste and elegance. Mr Price offers a rent of Fifteen hundred Dollars per annum for Forty two Years reserving the priviledge of removing the Building at the expiration of that period, the payments to be secured to the satisfaction of the Corporation.

Your Committee are doubtful of this being the most eligible spot for a Theatre, yet in as much as the ground is now producing comparitively nothing, and as the rent offered by Mr. Price they beleive to be a fair one, and especially as the state of our finances require the most rigid economy, they are in favor of granting the prayer of the petitioner, and in order to bring the question fairly before the Board, they beg leave to offer the following Resolution.

Resolved, that a Lease be granted to Stephen Price for Forty two years of a Lot of [158] ground 70 by 150 feet adjoining the Rotunda in Chamber Street for the purpose of erecting a Theatre thereon under the direction and Superintendance of a special Committee of this Board to be appointed for that purpose.

It was moved that the remonstrance be referred to the Committee on the petition.

The Question being taken thereon it passed in the Negative.

The Question was then taken on agreeing to the Report of the Committee, which passed in the Negative. The Ayes and Noes having been called by Mr Brittan were as follows;

Negative. Mr Recorder, Aldn Tooker, Aldn Townsend, Anthony, Mann, Board, Allen, Messrs Bolton, Tallman, Crane, Town, Parker, Brittan, Emmons, Hammond. 15.

Affirmative. Aldn McQueen, Aldn Thorp, Mr Depeyster. 3.

A Memorial was received from David [159] Dunham stating that he is owner of certain ground at the termination of Allen corner of North Street and commencement of First Avenue that agreeably to an Act of the Legislature passed 3d of April 1807. a part of said ground agreeably to the plan of the Commissioners for laying out Streets and Roads on the Island is to be taken for public property; that petitioner has thereby been prevented from making any improvement of the same, though he has paid large sums laid thereon in Taxes and Assessments. That there is now a demand on him for $108. for his proportion for a Well and Pump at the commencement of the First Avenue, which he considers excessive and unjust.

He therefore prayed relief therefrom, and also that the Corporation would carry into effect the Law relative to said property, or releive it from the restrictions respecting improvements, wherewith it is at present incumbered; Whereupon, the same was referred to the Committee on Assessments.

A Petition from a number of Owners and Inhabitants in Collect Street, praying that as the extending of the Sewer to Leonard [160] Street, is as they are informed to be deferred that the paving of said Street may be also delayed, and the same only gravelled; which on being read, was referred to the Street Committee with powers to comply with the request of the petitioners.

A Memorial was received from the Measurers of Grain, remonstrating against the proposed reduction of the fees for measuring, which was referred to the Committee on Public Offices.

A Petition of James OBrien for remission of penalty for not complying with an Ordinance respecting a Nuisance, was read, and the penalty remitted on payment of Costs.

A Petition of Mary McCann praying remission of fine incurred by her husband James McCann by throwing articles in the Street contrary to Law, was read, and referred to the Police Committee with powers to remit.

A Petition from Edward Nowland, praying remission of penalty incurred for noncompliance [161] with an Ordinance respecting a Nuisance for which he was now imprisoned, was read and referred to the Police Committee, with authority to remit the penalty.

A Representation from the Vestry of St Mark's Church that the two pumps in Stuyvesant Street are both out of order, and praying the same may be repaired, was read, and referred to the Superintendant of Repairs, to make the necessary repairs.

A Petition of John De Hart for remission of fine for selling Poultry

in the Market without License, was referred to the Police Committee with powers to remit.

A Petition of Benjamin Van Cleef for an advance of a part of the sum awarded him on opening Harman Street, to enable him to remove his house standing thereon, agreeably to the order of the Board, was referred to the Finance Committee.

A Petition of Benjamin Bull for an appointment as City Surveyor, was read, and [162] referred to the Street Commissioner.

A Petition was received from John Smith stating that he is Owner of a Lot on Bleecker Street corner of Wooster Street, that he has received an order to fill up the same, but as he intends immediately to build on the Lot, he prays he may be exempted from a compliance with said order, which was referred to the Street Commissioner, with authority to grant the prayer of the petitioner.

A Petition was received from the Inhabitants residing in the vicinity of the Basin at the foot of Canal Street, stating that a great quantity of filth having accumulated in the Basin from the discharge of the Sewer, the same had become extremely offensive, and praying the same may be remedied, which was read, and referred to the Committee on Wharves, Piers and Slips.

A Petition of Richard Lyon to be permitted to remove two small frame Houses from Harman Street to Rutgers Street, and a similar Petition from Abraham Stagg were granted [163] under the direction of the Street Commissioner.

Petitions for Appointments to the Office of Street Inspectors were received from Isaac L. Tompkins, Ebenezer Cole, Abraham S. Moore and Henry Mead and were referred to the Committee on Applications.

A Petition of Isaac Brown to hire the Slip at the foot of Marketfield Street, was referred to the Ferry Committee.

A Petition of Dennis Doyle in behalf of the New York Literary Institution, whose Agent he is, stating, that the said Institution are owners of a House and about twenty acres of land in the 9th Ward near the Botanic Garden; that in 1818. he paid agreeably to the demand of the Collector of arrearages of Taxes $65 $^{75}/_{100}$ Dollars, arrearages as he stated, due for the years 1811, 1812, 1813, 1815, and 1816, that upon examination he finds that the property upon which he paid said arrearages did not belong to the said Institution; that a claim is now made by the Collector for arrearages due upon the property above mentioned for the year 1815. and praying relief; which petition [164] was directed to be referred to the Finance Committee.

A Petition from the Inhabitants, Owners of Houses and Lots in Thompson Street between Canal and Spring Street was received, stating that part of said Street is on a dead level and consequently overflowed by each rain, and as the only remedy therefor, they pray that the Sewer that was proposed to be constructed in said Street be now built; which was referred to the Canal Committee.

A Petition from Jesse L. Hinds for relief from a Judgment obtained against him by default for selling liquors without a License, he being only a Clerk in the Store where it was sold, was referred to the police Committee.

A Petition that Bedford Street from Burton to Christopher Street may be regulated was referred to the Street Committee, and the Alderman and Assistant of the 9th Ward.

An Account of William B. Cozzens for Dinner furnished on the 4th of July, was refer- [165] red to the Committee of Arrangements.

A Petition of sundry Hay Cartmen, remonstrating against reducing the Rates of Cartage of Hay, was read and laid on the Table.

The Committee to whom had been referred the Resolution respecting the rates of Cartage presented a Report, the consideration of which was postponed, and the same directed to be printed for the use of the Members.

He also presented a communication, stating that a House belonging to John R. Livingston Easterly corner of Cross and Little Water Street and two Houses belonging to Jacob Halsey on the Northerly side of Broome Street near Sheriff Street have been erected several feet upon the Street and to prevent a right being obtained by possession he thought it proper to make a Report of the same which was referred to the Street Committee.

He also presented the following Ordinances which were passed, Viz[t]

For Regulating and paving Eldridge Street, from Broome to Delancey Street and Abraham [169] Bloodgood, John Targee & John Bedient were appointed Assessors.

For Regulating and paving Washington Street from between Liberty to Courtlandt Street, and Abraham Baudouine, John Bedient and Alexander Clark were appointed Assessors.

For Regulating Division Street from Arundle to Grand Street, with so much of Gouveneur Street as may make it necessary to conform to the regulation of Grand Street and Division Street, and Abraham Baudouine, John Bedient and Benjamin Prince were appointed Assessors.

The Attorney reported Complaints against A. C. Zabriskie for not sweeping the Street in front of his premises; and against James Byrnes for noncompliance with an Ordinance respecting a Nuisance; also suggesting the propriety of suspending proceedings on complaints, where the cause of complaint has been removed; which were referred to the Committee on Public Offices.

The Counsel presented for Execution a Lease to John Vreeland which was directed to be duly executed.

He also on the petition of Clement Moore and John Jacob Astor Reported as follows;

[171] "The Counsel to whom was referred the petition of Clement C. Moore and John Jacob Astor, praying that the Board would consent to some arrangement by which a judicial decision might be expeditiously obtained as to the right of the Corporation to Assess the expence of working the Avenues upon those whose property is benefitted thereby.

Respectfully Reports,

That the Board long since after a full investigation of this subject, were satisfied of their right to impose such Assessments, and accordingly ordered them to be made; That the petitioners have not stated any facts, nor is the Counsel aware that any thing has since transpired, which would tend to show the opinion of the Board is incorrect. The circumstance of certain individuals wishing to obtain a judicial opinion upon this subject cannot be a sufficient reason for deviating from the ordinary course of proceeding. The Courts of Justice are open to the petitioners in common with all others, and it is not therefore necessary in order to enable them to obtain justice, that their request should be complied with, and it is much to be feared, that such a compliance would essentially interfere with the collection [172] of other Assessments, by making an impression that this Board entertained doubts as to their right to levy such Assessments.

The Counsel is therefore of opinion that it is inexpedient to grant the prayer of the Petitioners.

Which Report was directed to be filed, and the Street Commissioner ordered to proceed to Advertise the property for sale.

The Street Committee on the petition for paving Eldridge Street Reported:

That in their opinion the prayer of the Petitioners ought to be granted; They therefore offer the following Resolution.

The Committee of Assessments on the petition of Robert Cheeseborough Reported as follows.

"The Committee on Assessments to whom was referred the Petition of Robert Cheeseborough, complaining that in the Year 1817. he had been Assessed for personal Tax in two wards of this City, that he had paid the Tax in the 9[th] Ward amounting to $3 6/100 and praying to be relieved from paying $90. assessed on him in the 6[th] Ward.

Report, That on an examination of the case, it appears the petitioner resided the first five months of the Year 1817. in the 9[th] Ward, that on or about the 1[st] of June in the same year, he moved into the 6[th] Ward, and was a resident there at the time he was assessed.

The fact having been clearly ascertained, that the petitioner did reside in the 6[th] Ward in 1817. and was regularly Assessed there, Your Committee are of opinion, that he is [174] bound to pay the Tax in that ward, deducting however, the $3 6/100 paid in the 9[th] Ward, to effect which, the following Resolution is respectfully. submitted.

Resolved, that the Collector of Arrearages of Taxes be instructed to receive from Robert Cheeseborough, Eighty six Dollars and Forty Cents and the Interest thereon in full of all demands against him for personal Tax in the 6[th] Ward for the Year 1817.

The same Committee on the petition of John Griscom Reported in the following words;

"The Committee on Assessments to whom was referred the Memorial of John Griscom, stating, that he had for several years past been called upon for taxes Assessed on his Academy in Green Street, and which, he has hitherto paid; but it appears very clearly in his opinion, [175] that this property is by the existing law exempt from taxation, and prays an immunity from the Taxes now Assessed, and a remuneration for the sums already paid.

Report, that on examining the Case, it appears that the Academy in question, is the private property of the petitioner, therefore not exempt from taxation; the Law exempting only those belonging to the public, Incorporated Societies or any Religious Society. In the list of exemptions the words "nor any Schoolhouse" are used, but in the opinion of the Committee only intended to apply to such as are erected at the expence of the Inhabitants of Villages. Corporations or Societies, in which a Schoolmaster is employed to teach; and not where an Academy or Schoolhouse is the private property of an individual, and who, of course is receiving the emoluments arising from the establishment, as is the case in the present instance.

With these views of the subject. Your Committee are of opinion, that the petitioner is not entitled to relief; and respectfully recommend the adoption of the following Resolution.

Resolved, that the prayer of the petitioner ought not to be granted.

Reported, that they have examined the subject, and are of opinion, that the Sewer in Canal, Collect and Chapel Streets ought to be cleared out; for which purpose, they submit the following Resolution.

The Committee on Wharves Piers and Slips, on the petition of William Allen, Inspector of Firewood for appointment to some other District;

Reported, That the petitioner is one of the oldest Inspectors of wood in this City, and it is beleived has performed the duties of that Office with fidelity and correctness; that his present income has been nearly nominal for some time past, owing to the removal of the Vessels that formerly frequented his District; that he has a family to support and is now too old to engage in any laborious occupation that the District he prays for is the ninth, which has lately been added to the one held by John Smith, and produces an income together of only $441. This sum is nearly the average income of each Inspector if we except those to the 1[st] and 7[th] District, which brings less than $100. and those to the 4[th] and 11[th] which brings exceeding $700. each. To the 4[th] and 11[th] there are two Inspectors appointed, and their income for the last year, was between [178] Eight and Nine Hundred Dollars each, twice the Amount of the general average.

The Committee are of opinion, that an additional Inspector may be appointed to the fourth District, without injustice to the persons on that station; as their income would still be greater than the general average of the other Districts, and as the petitioner is an old and respectable Citizen, and for more than Twenty Years has performed the duties of Inspector of this City, they beg leave to recommend to the Board his appointment to the aforesaid 4[th] District, and therefore propose the following Resolution.

Resolved, That William Allen be and he hereby is appointed Inspector of Firewood to the fourth Inspection District, and that he, together with the Inspectors now on that station, perform the necessary duties of that office jointly, and receive and equally divide the income derived from the performance of said duties.

[179] The same Committee on the petition of the Importers of Hay for further accommodation for Hay Boats at Duane Slip, Reported,

That the present accommodation of the Hay Boats comprises one birth at the Bulkhead, and the whole of the North side of the pier N^{o} at the foot of Duane Street; that in the opinion of your Committee, additional accommodations are necessary for these Boats, but owing to the rights secured the Lessee of Public Wharves, Piers and Slips, they have not felt themselves authorised to recommend an extension of the present accommodation without his concurrence; that they have applied to him for that purpose, and have now obtained his consent to appropriate, in addition to their present priviledge the west side of the pier they now occupy, which will give them the exclusive right to the whole of said pier; the Committee therefore propose the following Resolution.

Resolved, that the Boats bringing Hay to this City for sale, shall have the priviledge in preference to all other Vessels, to occupy the whole of the Pier at the foot of Duane Street, forming the west side of that Basin.

The Minutes of last meeting were read and approved.

A Petition of William Bruce for remission of fine incurred by the Sale of Fire works called Crackers, was read and referred to the Committee of Charity, with authority to grant relief.

[186] A Petition of Henry Cochrane stating that he is Contractor for regulating and paving sundry Streets, which Contracts he has complied with, and as there is delay in collecting the Assessments for the expences of the same, he prayed that some advance may be made to him on Account of said Contracts; which being read was referred to the Finance Committee.

A Petition that Division Street between Arundle and Grand Street may be regulated and paved, was read and referred to the Street Committee.

A Petition for a Well and Pump in Eldridge Street between Broome and Delancey Street;

For one at intersection of Prince and Mulbery Street;

For one on corner Pike and Henry Street, were referred to the Alderman and Assistant of the respective wards and Street Commissioner to report Ordinances therefor.

A Petition of sundry Inhabitants of the 9th Ward near the intersection of the Bowery and 3d Avenue complaining of the want of water, [187] and suggesting the deepening of a Well in Nicholas William Street, which would remedy the inconvenience they suffer, was referred to the Alderman and Assistant of the 9th Ward to report thereon.

A Petition of Henry Dickers, stating that he has been Taxed for fifty six Acres of Land in the 9th Ward as the property of the late Hugh Gain, whereas he does not own more than twenty acres and praying relief, was read and referred to the Committee on Assessments.

A further Petition from Collectors of Corporation Assessments, praying that as another room cannot be furnished to them in the Hall for an Office, that the floor of the one they now occupy may be raised, which will in some measure correct its dampness, which was referred to the Committee of Repairs, with authority to grant the request.

A Petition of John Rathbone for permission to construct a Vault at N° 25 Cliff Street; and of Patrick Phelan to construct a Cistern in the Street in front of his House in De Peyster Street were severally read, and referred to the Street [188] Commissioner, to grant the same on the usual terms.

A Petition of Morris Ackerman for appointment as Street Inspector;

of William Briant for appointment as City Measurer,

and of David Hartwell for appointment also of City Measurer, were severally read and referred to the Committee on Applications.

A Petition of John Smock for a Stall in Catherine Market; and of John D. Crawbuck for a Stall in the lower Fly Market, were read and referred to the Market Committee.

A further Petition of Abraham L. Smith for relief from the payment of personal Taxes Assessed on him, was referred to the Committee of Charity with authority to grant relief.

A Petition of William Winterton for relief from an under Assessment for personal Tax laid on him, was read and referred to the Committee on Assessments.

A Petition of Andrew Allen to be appoint- [189] ed one of the lighters of the public Lamps, was referred to the Lamp Committee.

A Petition from a number of Inhabitants and proprietors of property in and near Dover Street, praying the same may be opened and widened as formerly contemplated, was read and referred to the Committee on Assessments, and Alderman and Assistant of the 4th Ward.

A Communication was received from John Stevens Esqr on the subject of an improvement in the construction of Water Closets &c., which was referred to the Committee on Arts and Sciences.

A Petition of Reuben Snow Master of Brig Onslo, praying return of Costs charged him by the Attorney for not reporting three American passengers, which he was prevented from doing by being detained at Quarantine, was referred to the Committee on Public Offices.

A Petition of John De Hart for relief from fine incurred by forestalling in the Market, and for which he is now in the Debtors prison, was [190] referred to the Police Committee, with authority to remit the penalty.

A Petition from the Owners and Inhabitants of Lots in Cornelia Street, praying that that part between the junction of Herring Street, and the junction at the 6th Avenue may be regulated, was read and referred to the Street Committee.

A Petition of Peter Smidt was received, stating that he is a Lessee of the Corporation and indebted to them for rent, that he has been prosecuted therefor and is in prison; that he is utterly unable to pay or to procure Bail, and praying to be discharged, which was referred to the Finance Committee, with authority to grant the prayer of the petitioner.

A Petition of John Ireland was received, stating that on the 16th August 1817, he paid the sum of $391 $^{43}/_{100}$ Assessed on Twenty six Lots belonging to him near Potters field; that this Assessment was laid on the supposition that the waters from those Lots, would on the

future regulation of the City, flow into Canal Street [191] and thence to the North River; that by subsequent regulation those waters ran a different course and fall into the Sewer in Carmine Street for which he is now Assessed $1140. that as the intention of the former Assessment has been made null by the regulations of the Corporation and no benefit derived by the Petitioner therefrom, he prays the Amount of former Assessment and Interest may be deducted from the present Assessment for the Sewer in Carmine Street; which being read was referred to the Committee on Assessments.

A Petition of sundry Owners of the Wharves and Piers between the Exchange and White Hall Slips, praying to be permitted at their own expence to extend Pier N° 3 further into the East River for the accommodation of the North River Sloops; was received and referred to the Committee on Wharves, Piers and Slips.

A Petition of Samuel Ratcliff to be permitted to erect a Shed over the door of his Grocery store corner of Hudson and Charlton Streets, was referred to the Street Commissioner.

A Petition of sundry Owners and Occupants [192] of Lots in Hudson Street, praying that the side walks may be laid from Beach to Charlton Street, and the Carriage way paved from Canal to Spring Street, was read and referred to the Street Committee.

A Petition that the side walks in Crosby Street between Spring and Prince Streets may be paved, was referred to the Street Commissioner to grant the request of the Petitioners.

A Petition of Levi Hart for an advance of part of the sum awarded for damages on opening Harman Street, to enable him to remove a House directed to be removed from said Street was referred to the Finance Committee, with authority to comply with the request of the Petitioner.

A Memorial from the Trustees of the Free School Society in the City of New York was presented stating, that from the liberality of the State and of the Corporation they have been enabled to extend their sphere of usefulness and have established five Schools in which are gratuitously educated upwards of Twenty one hundred Children of the poor, and that notwithstanding the [193] Bounty of the State and the patronage of the Corporation, they are utterly unable to comply with the increasing calls for admission. That the Corporation on the 8th of August 1808. granted to the Society and their Successors forever the House and Lot in Chatham Street corner of Tryon Row to be occupied for the purposes of the Institution. That the Trustees are convinced that by the Sale of the said premises, they could erect

Buildings in other parts of the City, which would accommodate twice the number of Scholars at present accommodated in said Building; they for that purpose therefore solicit a grant in fee of said premises; whereupon the same was referred to the Finance Committee.

His Honor the Deputy Mayor stated that he had been served with a Certiorari issuing out of the Supreme Court to the Mayor Aldermen and Commonalty, directing them to certify to the Supreme Court all the proceedings had by them in relation to the building of the Sewer in Canal Street, and of the Assessment laid for the expences of the same, which was directed to be referred to the Counsel.

[194] A communication was received from Garrit Gilbert stating that the forming a General Index to the Records in the Registers office of the City and County of New York, which had been committed to him was in such a state of forwardness as to enable him to present for inspection the Index of Mortgages, and which he was prepared to present when convenient to the Board, or a Committee to examine and inspect; Whereupon the same was referred to the Committee on Public Offices.

A Petition of Joseph Chadwick to be permitted to remove a Frame House from the corner of Harman and Rutgers Street to the corner of Delancey and Essex Street, was referred to the Aldermen & Assistants of the 7th & 10th Wards with authority;

And a Petition from James G. Reynolds to remove a House from Harman Street to Orange Street, was referred to the Aldermen and Assistants of the 6th & 7th wards with like powers.

An Account from John Vanderbilt for services and fees as Coroner for the last Quarter was presented and referred to the Committee [195] on Public Offices, and upon the audit of the said Committee, it was Resolved, that a warrant should issue in favor of the Coroner for payment of the same in the recess of the Board.

The Comptroller presented the following Report Vizt

"The Comptroller respectfully Reports to the Board that he has examined the Accounts of George B. Smith, Collector of Arrearages of Taxes, from the commencement of the duties of his Office August 1st 1819. to 1st July 1820.

The Amount received by him in that time is.....		$12,913.22

The Street Commissioner presented a profile of Lispenard Street between Broadway and Church Street in order that the regulation might be determined on; which was referred to the Street Committee.

He also on the Petition of Robert Hobson and Benjamin Bull for appointment of City Surveyors, presented the following Report, which was directed to be filed.

"The Street Commissioner to whom was referred the Petitions of Robert Hobson and Benjamin Bull praying to be appointed City Surveyors,

Respectfully Report, that he has duly considered the subject, and also taken the opinion and advice of the Street Committee thereon,

there are now six acting Surveyors and as the [201] business is diminished in proportion to the improvements that are going on; he is satisfied that the public service does not require any more City Surveyors, and that in his opinion, it would be inexpedient to make any appointments at present.

He also presented the following Assessments which were confirmed, and John G. Betts appointed Collector on each, Viz^t

For a Well and Pump near Willet Street,
For regulating Bedford Street from Carmine Street to Low's line,
And for paving Beach Street between Hudson and Chapel Street,
And for paving Walker Street, between Chapel and Beach Street.

The Counsel presented the following Communication. Viz^t

"The Counsel herewith submits for execution the Draught of a Lease to Rodman Bowne and Samuel Bowne of the Ferry from Catherine Slip to the foot of Maine Street at Brooklyn for nine- [202] teen years from the first day of May last. This Lease has been prepared in pursuance of the Report of the Ferry Committee upon this subject and of subsequent directions given by them.

These directions were, first, that the Lease should be made to Samuel and Rodman Bowne, second, that the Ferry granted should be from Catherine Slip to the foot of Maine Street at Brooklyn, instead of from Catherine Slip to Brooklyn. To this alteration M^r Bowne has consented. Third, that the Lessees shall have the Ferry House and the Lot appertaining to the Ferry during the continuance of this Lease. This House and Lot M^r Rodman Bowne has considered as an appurtenance to the Ferry, although it is not expressly mentioned in his Lease, and has heretofore occupied it as such.

The Counsel also submits for the acceptance of the Board a release from Rodman and Samuel Bowne and wife of the westerly side and half part and Northerly or outer side of a certain pier on the Easterly side of the Ferry Slip at Brooklyn, now used by Mess^rs Bownes, and also a small block or pier at the outlet of the Slip. This release is made in pursuance of a former agreement with the Corporation,

[205] The Superintendant of Repairs on the petition of the Vestry of St Marks Church for the repairing of a Well in Stuyvesant Street, Reported, that in his opinion neither of the Wells were worth re-

pairing, and as they stood, the one in the centre of the 2d Avenue, and the other at the intersection of Stuyvesant and Eleventh Street, he recommended that a new one be sunk; which was referred to the Alderman and Assistant of the 9th Ward.

The Committee of Wharves, Piers and Slips to whom was referred the remonstrances of the Owners and Inhabitants at Exchange Slip against being assessed for expence of filling in and building Sewer in Exchange Slip, Reported as follows:

"The Committee on Wharves Piers and Slips to whom was referred the Memorial of James W. Lent and others, remonstrating against the propriety of Assessing their property for filling in, and building the Sewer in Exchange Slip,

Report, That the Slip alluded to was ordered to be filled in, and the Sewer extended, at the instance, and on the petition of some of the present Remonstrators. That the justness of Assessing the expence of extending said Sewer upon the property for which it is a Drain, can- [206] not in the opinion of your Committee be doubted for a moment.

That the expence of building or repairing Sewers, and the two thirds of that for filling Slips, has always been borne by the property in the vicinity of the improvement, and should the Corporation depart from this rule in the present instance, they would in justice be bound to refund a large amount of money paid for these objects by the owners of property in various parts of our City; Your Committee are of opinion therefore, that the request of the Memorialists cannot be complied with, and they propose the following resolution accordingly.

Resolved, that the complaints of the Memorialists are unfounded, and it is therefore inexpedient to comply with their request.

The same Committee on the Petition for [207] extending the Canal Street Sewer and filling in the Basin at the foot of said Street,

Reported, that the Basin alluded to is under Lease to Mr J. Lowerre at the annual rent of Five hundred Dollars, and is used for storing Timber, the water being too shoal for the accomodation of Vessels; that the condition of said Basin is similar to other Slips on the margin

of our Rivers, which at low water emits a smell, to some very disagreeable; but that no more danger is apprehended to the health of the Inhabitants in its vicinity, than to others who reside in the neighborhood of the Slips on the East River; that in addition to the loss of revenue which would be incurred, the expence of filling in this Basin and extending the Canal Street Sewer, would be great; and in the opinion of your Committee, neither the finances of the Owners of property, who have already been heavily assessed on that Street, nor that of the Corporation will warrant the measure prayed for. The Committee are of opinion therefore that the prayer of the Petitioners ought not to be granted, and they propose the following Resolution accordingly.

Resolved, that it is inexpedient to grant [208] the prayer of the Petitioners.

The Finance Committee on the Petition of Dennis Doyle in behalf of the Literary Institution Reported as follows.

"The Finance Committee to whom was referred the petition of Dennis Doyle, praying that an error may be corrected in payment of arrears of Taxes on property in the 9th Ward, belonging to the Literary Institution, Report,

That the property under the care of the petitioner was purchased and Leased of the Corporation by the late Robert Lilburn, the Taxes for which has been regularly paid except for the year 1815. That Thomas W. Gilbert the then Collector of Arrears, presented to M^{r} Doyle a bill for sixty five Dollars seventy five Cents for Taxes due on Lots N^{o} 56 & 59, designated by the Assessors of the 9th Ward as the property [209] of R. Lilburn or the Corporation; that M^{r} Doyle paid this bill beleiving it to be for the property late R. Lilburns, and now belonging to the Literary Institution, for which he was the Agent; that it appears however that Lots N^{o} 56 & 59 was then owned by the Corporation, and was not disposed of untill May 1817. at which time, they were Leased to George Strites for six years at an annual rent of Forty Dollars; that the taxes on the property under the care of M^{r}

Doyle for 1815. amounts to Sixty four Dollars & eighty Cents, and the Taxes he has wrongfully paid is Sixty five Dollars seventy five Cents, and he prays, that the error may be rectified by authorizing him to liquidate the said sum of Sixty four Dollars Eighty Cents, by the amount wrongfully paid as aforesaid.

The Committee are of opinion, that the request of the Petitioner is reasonable and ought to be granted, and they therefore propose the following Resolution.

Resolved, that the Collector of arrears of Taxes be authorised to credit the property owned by the Literary Institution under the care of D. Doyle with sixty five Dollars and seventy five Cents, being the Amount paid by said Doyle [210] to the late Collector, for Taxes on Lots N° 56 & 59.

The same Committee on the Petition of John Smith, praying further time for payment of Assessment for Sewer in Canal Street Reported, That in their opinion, the owners of property on Canal

Street, and its vicinity have no claim for indulgence on this Board, inasmuch as every means have been sought for, by a majority of them at least, to obstruct the collection of the monies expended in improving the property on that Street and its neighborhood, and the sums which ought to have been received in the Treasury a Year ago, is still withheld by them for the purpose of raising further objections to its payment,

Your Committee are of opinion also, that the petitioner will experience no difficulty in borrowing the Amount necessary to pay his As- [212] sessment on the security of his property; for it is notorious, that there never was a time in this City, when money could be easier obtained on Loan than the present, and they therefore propose the following Resolution.

Resolved, that it is inexpedient to grant the prayer of John Smith the Petitioner.

The Committee on Public Offices to whom was referred the Memorial of sundry Dealers in Grain praying a reduction of the fee for measuring, Reported in the following words.

" The Committee on Public Offices, to whom was referred the Petition of sundry Merchants of Albany, Troy, Lansinburgh and Waterford Dealers in Grain, praying a reduction in price of measuring from One Dollar per 100 Bushels to Fifty Cents,

Respectfully Report,

That they investigated the subject, and do [214] beleive that such a reduction would be inexpedient, inasmuch as it would be 33 per Cent less than the price was 25 Years ago, when double the business was done by half the number of Measurers.

In justice to the Measurers, Your Committee have to state that the price of Measuring had been voluntarily lowered by them, some time previous to the presentment of the aforesaid Petition from One Dollar to Seventy five Cents per 100 Bushels.

They would therefore offer the following Resolution.

Resolved, that the Counsellor of the Board have the Ordinance relative to the Measurers of Grain so amended, as that for every hundred Bushels, they shall be entitled to receive seventy five Cents instead of One Dollar.

The Committee to whom was referred the Remonstrance against the encroachment upon Dey Street by Richard Varick Reported;

That in the Month of March last Richard Varick petitioned the Corporation to establish the permanent line or North Boundary of Dey Street from the South Easterly side of Greenwich Street to Washington Street.

That his petition was referred to the Street Committee who had an interview with him, and [219] agreed to report in favor of running the line of the North side of Dey Street, between Greenwich and Washington Streets, from the corner of Greenwich Street along the line of the new buildings below Washington Street It does not appear however that the Committee ever reported, or that the Board took any further order upon the subject.

Col. Varick without waiting for the Committee to report, and for the order of the Board upon their report, has commenced laying the foundation of a building at the North East corner of Dey and Washington Streets, upon the line which that Committee agreed to report in favor of.

The Owners of the property in the same block fronting on Dey Street, conceive that they will be aggreived by his doing so, and have remonstrated against it.

Col. Varick insists that the ground in question is his private prop-

erty. If such is the fact, he of course is entitled to the occupation of it without the consent of the Corporation.

It however appears satisfactorily to the Committee, that it has been used as a public highway for more than Thirty years. This use has given to the public an absolute indefeasible right of way over it. Of this right, the Corporation [220] does not possess the power of depriving them for neither the Charter nor the Acts of the Legislature authorise the closing of any Street, or any part of a Street in any other manner than through the intervention of Commissioners appointed by the Supreme Court in pursuance of the Act of 1818. under these circumstances, Your Committee recommend the adoption of the following Resolution.

Resolved, that it is inexpedient to alter the North line of Dey Street, between Greenwich and Washington Streets.

A Resolution was offered by Alderman Mann directing the Street Commissioner on Mʳ Varicks ceding the North side of Dey Street between Greenwich and Washington Street to fix the line for Mʳ Varick as requested by him.

The Question agreeably to the rules of order, being first taken on the Report of the Committee, the same was carried in the affirmative. The Ayes and Noes having been called by Alderman Mann were as follows;

[221] Affirmative. Alderman Anthony, Thorp, Mʳ Valentine, Tallman, Crane, Town, Brittan, Emmons, De Peyster, Hammond. 10.

Negative. Mʳ Recorder, Alderman Tooker, Townsend, McQueen, Mann, Board, Allen, Messʳˢ Bolton, Parker. 9.

The Street Committee to whom was referred the Petition that the 2ᵈ Avenue between North and First Street be regulated;

Reported, That they have examined the situation of this part of the Avenue, and are of opinion that the prayer of the petitioners ought to be granted.

Your Committee have also viewed the situation of Elnathan Underhills house standing on the 2ᵈ Avenue at the corner of North Street. They find that in the Year 1816. Mʳ Underhill received $1850. being the full Amoᵗ as awarded him for property taken to open the 2ᵈ Ave-

nue. They are therefore of opinion that the house should be removed from off the Avenue.

For which purpose they present the following Resolution.

[222] Resolved, That Elnathan Underhill be directed by the Street Commissioner to remove his house from off the 2d Avenue by the first day of May next.

Resolved, that the second Avenue between North and First Street be regulated, and the Curb and Gutter Stone laid down, Provided, that the proprietors of the Land do pay all expences.

The Minutes of last Meeting were read and approved.

The following letters from the Mayor of the City of Troy, and from the Chairman of the Committee of that City for soliciting Donations, were presented, read, ordered to be filed and published.

Dear Sir,

I have the pleasure to communicate to you a Copy of a Resolution this day passed by the Common Council of this City expressive of their grateful acknowledgments for the liberal Donation presented by the Citizens of New York for the releif of the sufferers by the late fire in this place, Charities of this description where the Donors must in almost all instances be strangers to the objects of their bounty, afford a striking exemplification of the benevolent principles of that Religion which teaches us to regard the whole human family as our brethren, and [230] seek to releive human wretchedness wherever found; while at the same time by evincing the predominancy of these principles over the more sordid and selfish passions of the heart and the prevalence of those refined feelings which are brightest and distinguishing ornament of civilized society they must be regarded by all as raising the City of New York to that pre-eminent rank in the moral, which she has long held in the Commercial world.

Be assured that the liberality and kindness of the Inhabitants of New York on this occasion are only appreciated and will long be held in grateful recollection by the Corporation and Inhabitants of Troy.

Permit me on their behalf for this liberality and kindness to tender to you, and through you to all those to whose benevolence and exer-

tions our distressed fellow Citizens are indebted for this extensive and necessary contribution for their relief the most cordial thanks.

With sentiments of great respect
I am Your Obed[t] Serv[t]

(signed) Esaias Warren Mayor

Troy August 4[th] 1820.

Hono[ble] Cadwallader D. Colden
May[or] of New York.

[231] Troy 4[th] August 1820.

Hon. Cadwallader D. Colden
Mayor of the City of New York,

Sir,

Yours of the 31[st] Ult[o] is received with Six Thousand two hundred and twenty seven Dollars 25/100 collected in the City of New York for the relief and benefit of the indigent sufferers by the late destructive fire in this City. This liberal donation from the Citizens of New York entitles them to our warmest gratitude, and permit us sir, to declare to you and to them that this kindness cannot be forgotten; and that our Citizens will give it in charge to their children to remember, that New-York sympathized with Troy in the day of her calamity and distress, and contributed liberally to releive her poor and unfortunate.

Have the goodness Sir, to request the honorable Corporation and the gentlemen who consented to serve on the different Ward Committees, to accept our unfeigned thanks for their prompt attention to the distressed situation of our City, and for all their benevolent exertions in our behalf. Be assured Sir, the Committee will to the best of their ability, apply all that [232] is received for the relief of the Indigent Sufferers, and we hope the kindness they experience from abroad, will stimulate them to that industry, enterprize and good conduct, without which they must be altogether unworthy to receive supplies from the hand of Charity.

With every sentiment of esteem and gratitude,
I am Sir Your Most Obed[t] and very
Humble Servant,

The Attorney Reported complaints made to him by the Deputy Clerk of the Washington Market against Martha Ireland for selling in the Market without a permit; and against Ann Story for refusing to leave the Market when ordered by the Deputy Clerk; which was referred to the Committee on Public Offices.

The Comptroller communicated the reply he had received from Aaron Ogden signifying his desire of continuing possession of his Lease at Market-Field Street, which together with [247] the Report of the Ferry Committee on the petition of Isaac Brown presented at last meeting and laid on the table, were referred to the Ferry Committee.

The Comptroller Reported he had examined the Account of B. Skaats with the Receipts, of fuel purchased, and finds there is a Balance due the Corporation on 28th July 1820. of $22 8/100 which was directed to be filed.

The Counsel presented the following Report: "The Counsel begs leave to inform the Board that Abraham Hart the Lessee of the Hay Scales at the foot of Duane Street, has neglected to pay his rent dur-

ing the last twelve Months and that he is as the Counsel has been informed insolvent, and that his security is dead and died insolvent. The Counsel therefore recommends that his Lease be annulled. He has prepared a resolution for this purpose, which is herewith submitted.

(Signed) Ogden Edwards

In Common Council August 7th 1820.

Whereas the Mayor Aldermen and Com- [248] monalty of the City of New York did on the first day of March A D. 1819. give and grant unto Abraham Hart, leave, license and permission to weigh Hay at the Hay Scales, situate and being at the lower end of Duane Street in the fifth ward of said City for the term of three years from the first day of May then next subject to an annual rent of One Thousand eight hundred and Thirty Dollars in quarterly payments, on the usual quarter-yearly days, subject nevertheless to a proviso that if the said rents or any part thereof should be behind and unpaid for the space of ten days after any day of payment on which the same ought to be paid as aforesaid, that then those presents and every thing therein contained should cease, determine, and be utterly null and void. And whereas the said Abraham Hart has neglected to pay the said rent, in pursuance of the said provision, therefore,

Resolved, that the said Lease or agreement, and every thing therein contained, shall cease, determine, and be utterly null and void.

Resolved, that the Clerk of this Board serve a Copy of the foregoing Resolution, and recital on said Hart.

[249] Whereupon the Resolutions proposed were adopted.

And it was Resolved, that the subject of again Leasing the Hay Scales be referred to the Finance Committee, with authority to act in the premises.

The Ferry Committee to whom was referred the petition of Philip Hone, praying that the Corporation would grant to him the exclusive right to establish a Ferry from the Northern boundary of his present grant to Charlton Street and from thence to Hoboken: Reported in the following words.

That on the 16th day of September 1819, the Corporation granted to Charles Watts the right of establishing a Ferry from that part of the City which extends from the Northern boundary of the limits of the grant of the Hoboken Ferry to Philip Hone to Christopher Street inclusive and from thence to the usual landing place at Wheehawk and to any other point not exceeding one Quarter of a Mile therefrom, for

the term of fifteen years subject to the payment of a nominal rent for the first five years, to the payment of Fifty Dollars annually for the [250] second Five years, and Two hundred Dollars for the last Five years of his term. Mr Watts covenanted to keep one Team Boat constantly on the said Ferry suitably provided for the transportation of passengers: In pursuance of his covenant he put a Team Boat on said Ferry and run it for about Five Months, but that he has not run any boat on the same for Five Months last past. His Lease provides, that if he fails to comply with any of his covenants, that then it shall be lawful for the Corporation to re-enter and to have and enjoy the said Ferry as fully as though no lease had ever been granted him.

As he has failed to comply with his covenants it is of course optional with the Corporation to re-enter upon the Ferry. The Lease also contained a proviso that it should at all times be lawful for the Corporation to establish so many ferries as they might deem expedient from the above mentioned limits on the New York shore, to any point on the Jersey shore not within one quarter of a mile of the landing at Wheehawk.

Under these circumstances the Committee are of opinion that there is no legal impediment in the way of granting Mr Hones petition.

The Ferry was granted to Mr Watts with a [251] view to the accommodation of the upper part of the City, and in consequence of the failure of Mr Watts to comply with his Covenants, the object of the Corporation has not been answered.

The Inhabitants in that part of the City are very solicitous for the establishment of a Ferry there, and a number of them have united in favor of Mr Hones application.

The Committee therefore recommend the adoption of the following Resolutions, to wit;

Resolved, that a Lease be granted to Philip Hone of the exclusive right of establishing a Ferry to New Jersey from the North boundary of his present Lease to the foot of Charlton Street, and the exclusive right of establishing a Ferry to Hoboken, from thence up to Christopher Street, for the term of fifteen Years at the same rent which was reserved in the Lease to Charles Watts, and also that his present lease be extended so as to expire at the same time at an annual rent of Eight hundred Dollars for the period of time it may be so extended, provided he will forthwith put two good sail Boats on the Ferry, and will put a Horse Boat on the same on or before the first day of May next, and also provided he procures landing for the same [252] on each side of the Ferry at his own expence, the landing place on the New

York Shore to be at any place within Two hundred feet of the foot of Spring Street, but not within the Slip.

Resolved, that the Counsel be instructed to prepare a Lease in conformity to the foregoing resolution, and embracing the usual covenants.

Resolved, that the Lease of the Ferry from the Mayor, Aldermen and Commonalty of the City of New York to Charles Watts dated the sixteenth day of September 1819, be and the same is hereby vacated and annulled, and further, that the Clerk of this Board be instructed to serve upon the said Charles a Copy of this Resolution

The Finance Committee on the Petition of Henry Cochran, stating that a considerable balance remained due to him for Contracts with this Board, and praying releif,

Reported: That there appears to be an uncollected balance due the Memorialist on Hudson Street of $1784 $^{7}/_{100}$ for which the property Assessed is liable, and has been advertised for sale by the Street Commissioner agreeably to Law; and also a further balance on Cedar Street of $39 $^{9}/_{100}$ and on Rhynder Street of $318 $^{2}/_{100}$, both of which, are still in the hands of the Collectors, and it is expected will be shortly paid.

The Committee are of opinion, that the Memorialist has no claim on this Board for the payment of these balances until they are received into the Treasury, inasmuch as the Contracts alluded to, as well as all others of a similar nature, are made with the express understanding of the parties, that the money is not to be paid them until it is collected and received into the Treasury.

The Committee find however, that the practise of the Board, has been in these cases [258] after the return of the Collector, and the advertising of the property, to grant such relief to the Contractors as the State of the Finances, and the circumstances of the case would warrant; and as the Memorialist is represented to be a poor man and is laboring under serious inconvenience for the want of this money, they beg leave to recommend that there be advanced him One Thousand Dollars in part of the balance of his contract for Hudson Street; and they propose the following Resolution accordingly.

Resolved, that whenever there shall be any unappropriated money in the Treasury, the Comptroller report a Warrant for One Thousand Dollars in favour of Henry Cockran, in part of his Contract for Hudson Street.

The Committee on Public Offices to whom [259] was referred the Invitation of Mr Gilbert to examine the general Index of Mortgages lately finished Reported in the words following.

"The Committee on Public Offices to whom was referred Mr Gilberts Invitation to examine the General Index of Mortgages just finished,

Respectfully Report,

That in addition to their previous Superintendance, they have examined said Index, and pronounce it a most valuable work, and one that has been much wanting, the execution of which exceeds the most sanguine expectations of your Committee and no doubt its benefits will be imparted to the latest posterity.

Your Committee, however are of an opinion that an application to the Legislature of this State ought to be made at their next Session to place the Registers Office under the Superintendance of the Corporation, that the index's may be kept up, else a considerable waste of money to this Board will have been made.

The Committee on Wharves, Piers and Slips to whom was referred the Memorial praying for the priviledge of extending further into the River the middle Pier (No 3) between Whitehall and Exchange Slip, Reported:

That the pier alluded to is known as Pier No 3 on the East River, and is sixty eight feet less in lenghth than the Piers on each side of it.

That the Petitioners propose to extend this pier to the prominent line of Two hundred and fifty feet from South Street, at their own expence, and to appropriate it to the accommodation of the North River Vessels usually resorting to that part of the City. The Committee are of opinion, that the improvement is a useful one, and as the expence is to be borne by the petitioners and others interested, that there cannot be an objection to granting the priviledge requested, and they therefore propose the following resolution.

Resolved, that the Middle Pier, between White Hall and Exchange Slip, known as pier N° 3 East River, be extended to the prominent [261] line at the expence of the proprietors of the Lots interested in said Pier, and that the Street Commissioner report an Ordinance accordingly.

The Committee on Assessments on the petition of William Winterton Reported in the words following:

"The Committee on Assessments to whom was referred the petition of William Winterton, complaining that in the year 1819. he was assessed in ward for $1000. Dollars personal property, which he considers excessive, as he is not worth more than one fourth of that Amount.

Report, that on examining the case, it appears that in 1818. he was not assessed at all, in 1819, he was assessed $1000, and this year $250. The Committee are satisfied that the petitioner is not worth the Amount assessed on him in 1819. [262] and are of opinion that he is entitled to relief and respectfully submit the following Resolution.

Resolved, that the Collector of arrears of Taxes be instructed to receive from William Winterton the Tax on $250. amounting to One Dollar and eight Cents, in full for personal Tax Assessed on him in the Ward for the Year 1819.

The same Committee on the petition of John Ireland, Reported in the following words.

"The Committee on Assessments to whom was referred the petition of John Ireland, praying that a sum of money paid by him for opening Canal Street may be remitted upon the ground that the same land upon which that money was Assessed is again Assessed on account of the Common Sewer in Carmine Street. Report:

That Canal Street was opened principally for the benfit of those who [263] owned property in that part of the City. That Commissioners were appointed by the Common Council in pursuance of the Act for the purpose of apportioning and Assessing the expence among the Owners of property according to their respective benefits. That it was a proceeding to which the Corporation was not a party, but merely actors in the first instance, for the benefit of those interested in the improvement, as in the ordinary cases of opening Streets; and judges upon the confirmation of the Reports, if there was any error in judgment it has not in any way inured to the benefit of the Corporation.

And the Committee can discover no more reason for taxing the City Treasury for errors of judgment committed by the Members of the Common Council, while acting in a judicial capacity for the benefit of the others, than for taxing the Treasury of the State with the consequences of errors in judgment, committed by the Judges of the Supreme Court.

The change which has taken place in the regulation of the Streets, by which the water from Mr Ireland's land is made to flow in a different direction, was made from a conviction, that it would be for his advantage in Common with [264] others, to have that alteration made, and not with any view to the benefit of the property of the Corporation.

The Commitee therefore recommend the adoption of the following Resolution.

Resolved, that it is inexpedient to grant the prayer of Mr Ireland's Petition.

The same Committee on the petition of Henry Dickers Reported in the following words.

"The Committee on Assessments to whom was referred the petition of Henry Dickers, praying to be releived from the payment of Taxes for the years 1817. 18 & 19. imposed upon property in the 9th Ward, in his name, on the ground of his being charged, in part, with property belonging to other persons.

Report, that having examined the As- [265] sessment books of the 9th Ward for the above years, they find in the year 1817. the Estate of Hugh Gaine is charged with Fifty six acres of Land on the Middle Road, of which, the petitioner, is stated to have been then the occupant, and that in the years 1818. and 19. the same property called Fifty six Acres is charged in the name of the petitioner.

By a reference to the Map of the 9th Ward, it appears, the ground covered by the above Assessment consists of Lots N° 92 & 86 containing Eleven Acres which are owned in Fee by the above named Henry Dickers. Lots N° 69, 70, 75. 76. 81. 89. & 95 containing Thirty seven Acres were originally under lease from this Board to Hugh Gaine and John Kemp, which leases have been transferred to the Petitioner. also Lots N°s 82, 87 & 88 containing sixteen and one half Acres owned by Samuel Thompson, Elbert Anderson and Robert Cheesebrough. That by the petitioners own admission, he is by right of fee simple in possession of N°s 86 & 92 and by right of Lease from this Board he is also in possession of seven other Lots containing together Forty eight Acres, and that for the Lots last mentioned, he is now paying rent to the Corporation, as by reference to the Accounts of the Collector of Quit Rents, [266] will fully appear. It also appears, that of the taxes of the years 1817. 18 & 19. assessed on the abovementioned Forty eight Acres, no part is paid either by the petitioner or any other person, excepting the sum of $11. Dollars paid by him to Thomas W. Gilbert, which is credited on the Books of arrears of Taxes.

The Committee are of opinion, that no good reason can be offered, why the land, either owned by, or under Lease to the petitioner should be exempt from its regular proportion of Taxes. The following Resolution is respectfully submitted.

Resolved, that the Collector of arrears of Taxes be instructed to receive from Henry Dickers the sum of $52 $^{8}/_{00}$ on Account of the Tax of 1817. $43 $^{68}/_{00}$ on Account of Tax in 1818. and $40 $^{8}/_{00}$ on Account of the Tax of 1819, together with the Interest thereon, being the proportion of Tax due on Forty eight Acres of Land occupied by

him in the 9th Ward, deducting therefrom, $11. the Amount paid by him on Account of the Tax in 1817.

The same Committee on the petition of David Dunham, Reported in the words following.

"The Committee on Assessments to whom was referred the petition of David Dunham, in which he states, that he is owner of certain property at the termination of Allen, corner of North Street and commencement of the first Avenue.

That part of said property agreeably to a Law of this State, passed the 3d day of April 1817. and agreeably to a plan and Map of the City and County of New York as proposed by the then acting Commissioners, will be taken as public property. that in consequence of that Law, the said property has been rendered of no value to the petitioner as it deprives him of the right of making any improvements, or of using it to advantage, and prays the Corporation to fulfil the intention of the Legislature by their Act above alluded to.

The petitioner also complains of having been unjustly Assessed for sinking a Well and the erecting of a Pump, at the commencement of the First Avenue, which cost $213. of which sum [268] he has been called on to pay one half, and praying to be releived from a part thereof.

Report, that as it respects the Pump, they have examined the Assessment and a Map of the premises, and find that the petitioner is owner of one half of the Lots on which the Assessment was laid. The Committee are of opinion that the Assessment is a correct one and that the petitioner is not entitled to relief. The following Resolution is respectfully submitted.

Resolved, that the prayer of the petitioner as it relates to the erection of a Pump at the commencement of the First Avenue, ought not to be granted.

Your Committee further Report, that as it respects the vacant ground first mentioned in the petition, which, when taken, is intended for a public square and the improvement of one of the Streets, that it is, in their opinion, a proper subject for the Street Committee and the Street Commissioner, and ought to be referred to them. to effect which, the following Resolution is respectfully submitted.

Resolved, that, that part of David Dunham's petition which relates to "certain property [269] at the termination of Allen, corner of "North Street and commencement of the First Avenue" be referred to the Street Committee and Street Commissioner.

The Minutes of last meeting were read and approved.

His Honor the Mayor presented the Return from the keeper of the Bridewell of the persons now confined therein, which was directed to be filed.

A Petition was presented from Philip Durnford for Release from a fine incurred by selling liquor without License upon which he was imprisoned, which on being read, it was Resolved that the prayer of the petitioner be granted.

A petition of Sarah Pell wife of Joseph Pell praying a delay of six Months in the collection of the Assessment on Lots corner of Washington and Courtlandt Streets, assessed for improvement of said Street; was read and referred to the Finance Committee with authority to grant the prayer of the Petitioner.

A representation was received from Garrit [278] Gilbert Register of Deeds for the City and County of New York, stating that the present room assigned for his office was not sufficiently spacious for keeping the Records, and praying another may be assigned to him, was read and referred to the Committee on Public Offices.

A Petition of Matthew Ochlmayer, praying for pecuniary aid to enable him to return with his family to Germany, from whence he had lately emigrated; was read and referred to the Commissioners of the Alms-House.

Which was approved, and the Resolution adopted.

The Finance Committee presented the following Report:

The Finance Committee beg leave to lay before the Board a valuation of the whole [294] real estate of the Corporation, together with

such of the personal Estate as in their opinion ought to be taken into the calculation.

This measure has been effected pursuant to a Resolution of the Common Council passed the tenth day of April last, and was recommended by the Committee on Finance for the purpose of opening the Books kept by the Comptroller on more correct principles than heretofore, and that the Members of the Board, as well as our fellow Citizens generally, may at one view, ascertain, the extent, value and situation of the public property.

The gentlemen who have been employed by the Committee in this arduous undertaking, possess a perfect knowledge of the public property as well as the value generally of Real Estate in this City, and the Committee have every reason to believe therefore, that the valuation in the aggregate at least, is conformable to the present low price of Real Estate, and that no event, which can be reasonably anticipated, will lessen the value at which it is stated.

The property is classed under appropriate heads, and every lot or parcel is seperately valued, according to its local situation and advantages.

[295] The following is a summary of the Amount of each Class, and will show, the several and grand total of the whole Amount.

		cts.
1st	Houses & Lots, productive	$405,280.00
2d	Lands and Buildings used for Public purposes	1,769,536.62
3d	Productive property at Brooklyn	62,150.
4th	Unproductive Do Do	1,950.
5th	Ferries, including the necessary Wharves and Piers	122,000.
6th	Common Lands, Productive	119,150.
7th	Do Do unproductive	37,800.
8th	Common Lands, Rent payable in wheat	2,650.
9th	Common Lands, perpetual leases, rent payable in Coin	1,260.
10th	Public Wharves, Piers and Slips	842,257.50
11th	City Lots, Rent payable in wheat	5,200.
12th	Personal Property	65,564.
	Grand Total	$3,434,718.12

The Committee herewith present the Bill of the Appraisers for the expenses incurred in making the foregoing valuation amounting to $635 $^{8}/_{100}$; and they recommend that it be [296] paid, and propose the following Resolution accordingly.

Resolved, that a warrant pass for six hundred and thirty five Dollars and eighty six Cents, in favor of John Targee, William S. Smith

and Jonathan Thompson, for services rendered and expence incurred in apprising the public property by order of the Corporation.

Whereupon it was ordered that the Report and the statement made by the Appraisers be printed for the use of the Members, the book filed in the Comptrollers Office, and that the warrant recommended be reported.

The same Committee on the petition of John Cornelison Reported in the following words.

"The Finance Committee to whom was referred the petition of John Cornelison, praying that the award for his lot of ground at the corner of Washington and Courtlandt Streets may be paid him; Report, That the Lot [297] alluded to was taken for straightening Washington Street, for which the petitioner was awarded by the Commissioners $2707. That the Assessment was confirmed, and the improvement directed to be carried into effect on the first day of June last, and that therefore the petitioner has no claim for the payment of his award until four months thereafter, which will be on the first day of September next: that in addition the collection of the Assessments are incomplete, there being a less sum collected, than the award to the petitioner. The Committee are of opinion therefore, that it is inexpedient to grant the prayer of the petitioner, and offer the following Resolution accordingly.

Resolved, that it is inexpedient to grant the prayer of the petitioner.

Which was approved, and the Resolution adopted.

The same Committee on the petition of [298] Isaac Russell Reported in the following words:

"The Finance Committee to whom was referred the petition of Isaac Russell, praying that he may be releived from the payment of several Assessments on a House and Lot of ground held under lease from the Corporation; Report,

That the premises alluded to is a gore lot fronting on Chaple, Walker, and Beach Streets, and is held by the petitioner under Lease from the Corporation for seven Years from the first day of May 1819. at the Annual Rent of 190 Dollars.

That the premises have been repaired by the petitioner and other buildings added, at an expence of nearly one Thousand Dollars; that in consequence of these expences and the lack of business, he is so impoverished as to be unable to pay the aforesaid Assessments.

The Committee are of opinion, that under all the circumstances of the petitioners case, he is entitled to some relief from the Board, and they therefore propose the following;

That the Assessment for building the Sewer in Chapple and Canal Streets, for repaving Chapple Street, and for the paving of [299] Beach Street be paid by the Corporation, and that the interest on the Amount of said Assessments be added to the Rent of the premises to be paid quarterly by the petitioner; and further, that the time for paying the Assessment for paving Walker Street be extended to the first day of November next, with interest till paid; and the following Resolution is proposed accordingly.

Resolved, that the Comptroller be instructed to arrange and carry into effect the subject of the foregoing report.

The *Committee on Wharves &c presented the following Report respecting the Mud Machine which was approved and the resolution adopted. Viz[t]

" The Committee on Wharves, Piers and Slips beg leave to inform the Board, that the [300] Mud Machine having performed the necessary cleansing of the Slips for the season, has been laid up in Dock; but owing to the situation of her bottom from the destructive operation of the worms, it becomes necessary to new sheath and caulk it, to prevent her filling with water and sinking.

The Committee have received proposals from several ship-wrights for the above repairs, the lowest of which amounts to Two hundred and fifty eight Dollars and seventy five Cents, and they now ask per-

The Committee on Public Lands and Places to whom was referred the Complaints against the African Burying ground; against the mode of Interment in Potters-field, and a memorial of [301] Sundry Inhabitants in the vicinity of Potters-field, Reported in the following words.

" The Committee on Public Lands and Places to whom was referred the memorial of sundry inhabitants of Chrystie Street in the vicinity of the African burying-ground as a Nuisance; also a representation of the Assistants of the Board of Health, stating objections to the keepers present manner of interments in Potters-Field; likewise a petition of sundry persons residing near Potters-Field, complaining of a Nuisance in that neighborhood, occasioned by a Manufactory for extracting the substance from Animal bones while in a state of putrifaction, carried on by M^r William Deacon.

Pray leave to Report;

That they have examined the African Burying-ground, as well as Lewis Francis the Sexton, who has it under care, and have reason to believe there has been some cause of complaint, in as much as said Sexton admits, that owing to his own illness, his son had conducted the business in a careless manner, sometimes leaving the Vault-door but partially covered; but which circumstance he promises most faithfully shall never again occur, and that other evils [302] complained of, shall be corrected.

The Committee however are of opinion, that the Stench complained of, may frequently have arisen from the filthy state of the neighbouring Slaughter Houses.

On the subject of Potters-Field, the Committee are happy to say they have found no cause of complaint against the keeper, having reason to beleive he had strictly adhered to the rules stipulated by the former Committee who had that subject under their care. The Committee however have thought proper to make some alterations in the former mode of interments. they have directed

That no Corpse shall be left at any time, without a covering of earth of at least two feet deep, and no grave shall be left from one day to another day, without being entirely filled up with earth.

No Corpse, shall be deposited nearer the surface of the ground than four feet.

Nor shall any person whose death was occasioned by any contagous or putrid fever be interred otherwise than in a single grave six feet deep.

These regulations will cause additional la- [303] bor, more than one man can perform, the Committee therefore recommend a small additional allowance to the keepers pay during the Summer Months.

In relation to the Manufactory complained of near Potters Field, the Committee have examined it, and found it in a very offensive state, owing to a large mass of Cattle's bones lying in a putrid state in the open air, Mr Deacon was examined on the subject, who seem'd not aware of the offensive nature of his factory, and manifested every disposition to remedy the evil; he is a poor man, an Englishman lately arrived in this Country, a Chymist by profession, and seems industriously striving to obtain a support for a large family from the offals of our Markets, hitherto of no use to any one.

To remedy the evil complained of, Mr Deacon proposes to erect an additional boiler, by which means he will be enabled to use up the bones as fast as he obtains them, and before they become putrid.

Under this regulation the Committee have consented to let him proceed for the present.

All which is Respectfully Submitted,

The Committee on Arts and Sciences to whom were referred a Communication from John Stevens Esquire respecting the construction of water Closets Reported in the following words.

"The Committee to whom was referred Dr Hosack's letter enclosing a Communication from John Stevens Esquire of Hoboken, respecting the construction of privies and water Closets, entirely concur in the sentiments expressed by the Resident Physician in his said letter,

viz. "that the subject in our City calls for a reform, as intimately connected with health and comfort.

They therefore respectfully recommend, that the following Resolution be adopted.

Resolved, that the Street Commissioner be requested to designate such position for placing one of Mr Stevens's water Closets, in that part of the Old Alms House, which is under the controul of the Corporation, as, in [305] his opinion may be deemed most eligible.

The Report on the subject of Rates of Cartage, which had been laid for consideration was called up amended and agreed to, and it was referred to the Counsel with directions to Report an Ordinance agreeably thereto.

A Petition from the Executors of the late Treasurer or Chamberlain Whitehead Fish Esqr was presented, stating that they had been furnished with a statement of differences said to exist in the Books of the late Chamberlain; that upon a careful comparison of that Account with original Vouchers in their possession, many errors have been detected, inasmuch as the warrants correspond in numerous instances with the entries on his Book, it was therefore fair to infer that most of the differences may be set aside in like manner: as therefore they are desirous to bring the business to a close, they propose that a Committee should be appointed to confer with them on the [306] subject with full powers to make an immediate and final settlement.

Whereupon it was Resolved. that it be referred to the Finance Committee with full powers to make an adjustment and final settlement of said Account with the Executors of the late Whitehead Fish Esquire late Chamberlain.

Upon the recommendation of the Street Commissioner the Ordinance passed at the last meeting for paving the Carriage way of Hudson Street from Canal to Spring Street, was amended so as to read from the Southerly side of Canal to [323] Spring Street.

The Street Commissioner presented a report stating that the Pier at the foot of Jay Street, and that on the South side of Pike Slip

were out of repair, which was directed to be referred to the Committee on Wharves, Piers and Slips.

He also presented a request from Noah Brown that Goerick Street might be opened, from Stanton to North Street, which was referred to the Street Committee.

He also presented returns of delinquents on Assessments for widening Gold Street, for widening Washington Street and for regulating Provoost Street from Washington to West Street, whereupon Warrants were ordered to issue to the Collectors for collecting the same.

He also presented Assessments for regulating and paving Sullivan Street from Canal to Watts Street, for regulating and paving Desbrosses Street from Sullivan to Varick Street, and for a Well and Pump in Watts Street near Canal [324] Street, which were confirmed, and John G. Betts appointed Collector in each.

He also presented the following Ordinances which were passed. Viz[t]

For regulating Willet Street from Grand to Broome Street; for regulating Pitt Street from Grand to Broome Street and Abraham Baudouine, John Bedient and Benjamin Prince were appointed Assessors; for regulating and paving Harman Street from Rutgers to Grand Street, and John Targee John Bedient and Abraham Bloodgood were appointed Assessors; for a Well and Pump in Essex Street near Delancey Street, and Abraham Baudouine, Abraham Dally and Alexander Clark were appointed Assessors; and for paving Canal Street from Broadway to Church Street, and John Targee John Brower, and Benjamin Prince were appointed Assessors.

[326] Which was approved, and the Street Commissioner immediately presented an Ordinance agreeably thereto which was passed.

The Committee on Public Offices to whom on the 5th of June last had been referred the Complaint of the Attorney against Messrs Tucker & Carter for erecting a pair of stairs at a Store corner of South Street and Pine Street, owned by J. G. Coster, Reported,

That they have made the necessary enquiry relative to the same, and are of an opinion that said stairs should be taken down.

Your Committee have been made acquainted with the fact that the said stairs were taken down and after undergoing repair, were erected in an entire new place which in the opinion of your Committee hath brought the parties compleatly within the meaning of the Law prohibiting the erection of stairs more than five feet in height.

Your Committee would therefore offer the following Resolution. Viz[t]

Resolved, that the Street Commissioner be instructed to notice Messrs Tucker & Carter as occupants and John G. Coster as owner of Store at the corner of South and Pine Streets, that said [327] stairs must be taken down immediately under the penalty of $250. the Amount prescribed by Law. All of which is Respectfully submitted,

The Finance Committee on the Communication from the Street Commissioner respecting a Map of the City by John Randel Jun^{r}

Reported, That they have examined the Map alluded to, and although the execution of the work does great credit to the talents and [330] ingenuity of M^{r} Randell, they are nevertheless of opinion, that the scale on which it is drawn is too small for the ordinary purposes of reference, or for which a Map of the City is generally required.

The Committee are of opinion however, that some encouragement should be afforded M^{r} Randell for his industry in this laborious undertaking; and they recommend therefore, that four Setts of his Map of the City of New York be subscribed for by the Corporation at $6 $^{75}/_{100}$ each Map, to be coloured and mounted on Rolers; which agreeably to his proposals to give one Map gratis for every five subscribed, will produce 24 Maps, sufficient to supply each member with a Copy and leave two for the use of the Offices.

The Committee beg leave to state, that it has been customary to present each person on his becoming a member of the Common Council, with a Map of the City; in order that he may possess the information required in the discharge of his public duties. This has been omitted for the last two years, in the expectation, that the Map of M^{r} Randell would be taken, when compleated for that purpose; but, for the reasons already stated the Map not answering the purposes required, it becomes expedient that others should be provided; [331] and the Committee beg leave to recommend, for that purpose the Map published by David Longworth, as containing all the usefull and necessary information required by the Members of this Board.

The ordinary store price of Longworth's Map coloured and

mounted is $3 25/100, but he offers to furnish the Corporation with twenty Copies or more at $2 50/100.

The Committee propose the following Resolutions.

Resolved, that the Clerk of the Common Council be authorised to subscribe for Twenty Maps of this City published by Randell on the conditions stated in the foregoing report.

Resolved, that he be further authorised to purchase Twenty Maps published by David Longworth, at two Dollars and fifty Cents each Map coloured and mounted.

Resolved, that each Member of the Board be presented with one of the Maps made by Mr Randell; and that such members as have not heretofore received Maps of the City, be also presented with one of Longworths Maps.

The same Committee to whom was referred the Communication of the Street Commissioner respecting the Assessment for regulating Dey Street, Reported, That an Ordinance was passed for regulating said Street in the fall of 1819. and the Assessment confirmed in the March following.

That a remonstrance was presented against said Assessment and referred to a Committee, but not reported on. That the object of the remonstrators was, as the Committee are informed, to obtain a revision of the Assessment, on the plea, that they were unjustly Assessed for more earth in regulating the front of their Lots than what was used.

Your Committee are assured however, by the Deputy Street Commissioner, that a careful survey of the regulation was made by two of the sworn City Surveyors, and that the quantity of earth charged is correct. The Committee are therefore of opinion, no other objection having been stated to them except the one alluded to, that the Assessment ought to be collected forthwith; and they offer the following Resolution accordingly.

Resolved, that the Collector appointed [333] to collect the Assess-

ment for regulating Dey Street between Washington and West Street, be instructed to proceed in collecting the same.

The Special Committee to whom was referred the Petition of David Dunham reported.

That Mr Dunham is the owner of a piece of land, which together with the other land belonging to the Hiers of Petrus Stuyvesant deceased, & to others, is contained in a public place laid out by the Commissioners appointed by the Act of the Legislature passed the 3rd of April 1807. And he prays that the Corporation will proceed to have this place opened, or else relinquish to him the right of ever opening it hereafter.

The Corporation cannot relinquish this right, & abolish the public place laid out by the Commissioners without an express law for that purpose. Nor are they obliged to open any street, square or public place until the public convenience may require it.

There may, however, be cases in which Justice would require that a street or place should be opened with as little delay as practicable; but in deciding whether the present case be one of that description, the interest of others must be considered [351] as well as that of the petitioner.

Whenever the place in question shall be opened the expence must be borne by the owners of the neighboring lots. None of these have expressed any desire to have the place opened.

In the present unimproved state of that part of the City, & during the present depression in the value of real estate, the Committee do not think that public convenience requires the opening of the place in question, or that it would be proper to impose the burden of opening it on the neighboring proprietors. They therefore recommend the following resolution.

Resolved, That it is not, at present, expedient to comply with the petition of the said David Dunham.

The Special Committee, to whom was referred the petition of Silvanus Miller, presented a report which was read, the consideration thereof postponed, & it was directed to be printed for the use of the members.

The Committee on Streets to whom was referred the petition of Thomas Jackson & others inhabitants of the Bowery praying that the keepers of houses of entertainment may be permitted to exhibit their signs in conspicuous positions for the direction of Travellers, presented a report in favor of the Petitioners. The question being taken [352] thereon it passed in the Negative.

The same Committee on the Petition that Herring street may be regulated

Reported. That altho' Herring Street has been used for many years, as a public street, it is not a ceded street; but is claimed by your petitioners as private property. Your Committee, therefore decline acting on the petition, & offer the following resolution,

Resolved, that the prayer of the petitioners ought not to be granted.

The Finance Committee on the petition of Pinkerton & Forgay [353] Reported,

That there appears to be a balance due the Petitioners for paving said Street; (Broadway) but, as a part of their contract was, that the money were to be paid them, when collected, & as the property is now advertised for the deficiency, & will be sold on the 26th Instant, & the money received into the Treasury, the Committee are of opinion, it is inexpedient to grant the prayer of the Petitioners, & they offer the following resolution, accordingly.

Resolved, that it is inexpedient to grant the prayer of the petitioners.

The same Committee to whom was referred the account of the second Commissioners appointed on the subject of widening Dover Street.

Report, that they have examined said account, & believe the charges to be correct, except that for room hire; which, in the opinion of your Committee ought to be deducted from the bill, as the allowance of four dollars per day appears a sufficient compensation to cover any expence for the use of a room during the investigation of the subject committed to them.

The Committee therefore propose the following resolution

Resolved, that a warrant pass for Six hundred and sixty nine dollars 72 Cents, in full for Commissioners fees & costs of proceedings in the Supreme Court, in the matter of Dover Street, whereof William [354] Torry, H Meigs & Thomas R Smith were Commissioners.

Respectfully submitted,

The same Committee on the subject of the settlement of the account of Whitehead Fish Esqr deceased, late Chamberlaine, reported,

that pursuant to authority granted them on the 21st of August last they have effected a settlement with the Executors of Whitehead Fish, late City Treasurer.

In concluding the settlement the Committee have been compelled to agree to a considerable deduction from the Balance shewn by the exhibit laid before the Board on the 27th of March last.

The Balance claimed by the Corporation, as pr the exhibit alluded to was $27.391..63 Cents; & the Balance admitted by the Books of the Treasurer was $17.963.49 Cents, making a difference of $9.428.14 Cts

The best terms that could be obtained from the Executors, in an amicable way, were, the payment of the Balance shewn by the books kept by Mr Fish, with the addition of the one half of the difference above stated, amounting together to the sum of $22.677.56 Cts

Your Committee was induced to this arrangement in consequence of the assurances given them by the Executors, that many of the differences exhibited as emanating from erroneous entries of Warrants by [355] Mr Fish, were, on a reference to the warrants themselves, found to be errors of the former Comptroller, & that, the amount discovered was nearly three thousand dollars.

On friday last the warrants & other vouchers of the late Treasurer were delivered to the Committee by the Executors. The quantity of these papers together with their confused situation, & the short time allowed the Committee before the meeting of the Board, has prevented a thorough investigation of the errors alluded to by the Executors: but your Committee have so far ascertained their existence as to be able to identify six of the warrants charged more than the amount on the face of them. Two warrants, each numbered 841 & issued for the same purpose, both paid by the Treasurer but only one of them credited his account—one receipt on streets, charged 250 dollars more than the true amount, as appears from the original receipt furnished by the Collector—& four orders on the Treasurer by the Court of Sessions, neither of which have been credited him by the Comptroller: these errors are in addition to those exhibited to the Board on the 27th of March last, & including them amount to the sum of $9.166.58 Cts.

This state of the accounts was a circumstance of which your Committee could have no knowledge during the investigation of the Books previous to their last report; as the Vouchers were in the possession of the Executors, & they had no other means of detecting an error,

but by comparing the entries in the two books, & crediting or debiting the apparent difference.

Another inducement with your Committee in agreeing to this settlement was, that they entertained strong doubts, whether in a Court of Justice it would not have been difficult to prove all the items charged to the late Treasurer; for the fact of so many wrong entries being made in our own books, & the omission to examine the accounts of your own officer for nearly ten years [356] must have had a tendency in some measure, to weaken the claims of the Corporation against the Executors.

Under these circumstances of the case, the Committee conceived it to be their duty, & the interest of the public to agree to a settlement without resorting to a suit at Law, & the amount above stated has been paid into the Treasury, & the bond of sureties cancelled accordingly.

Your Committee cannot close their Report on this subject without expressing to the Board the great obligations they feel to Mr Fleming the present City Chamberlain for his unremitted & laborious services rendered in the investigation, & final adjustment of this unpleasant business: The time & talents of that Gentleman have been voluntarily bestowed, & the only reward he looks for or expects is the approbation of the Common Council, which the Committee do not doubt will be freely awarded him by every member of this Board.

The Finance Committee were authorized by a resolution passed the first of May last to engage a suitable person to assi[s]t the Comptroller in opening & arranging a new sets of books for his office. They have accordingly engaged Mr T. J. Waters for that purpose, & have now the satisfaction of presenting the Board with the first trial balance of said book.

In opening these books the Committee have lessened the number of accounts, & have endeavored to have those that are necessary so arranged as to make it easy to detect any error that may occur in the entries, & at the same time to afford prompt & correct information to the Board, when required, on all subjects connected with the finances of the City: And in order that the books may be continued in the style of correctness with which they were commenced, & the Comptroller have more time to Superintend the matters committed to him in & out of his office the Committee recommend that a clerk to the [357] Comptroller be appointed with a reasonable Salary per annum—And they accordingly offer the following resolution.

Resolved, that Talman J. Waters be, & he hereby is, appointed

clerk to the Comptroller, at a salary of Eight hundred per annum, payable quarter yearly, & that such salary take date from the 24th day of May last past.

Respectfully submitted.

The same Committee on the petition of Abijah Hammond for water grant reported,

The Finance Committee to whom was referred the petition of Abijah Hammond, praying for a grant of the ground under water in front of his property near the State Prison

Report—That on the 24th May 1813, the Common Council established a rate of quit-rent for all grants to be taken out thereafter. That several grants have been made since that date at the aforesaid rates.

That Mr Hammond will have to pay according to the aforesaid rates, for every foot in width, calculating the average of his front & rear lines, & in length not exceeding 170 feet, from the year 1820 to 1827. seventy five cents: from 1827 to 1834. one dollar & 25 Cents, & after that period two dollars per foot. That your Committee are of opinion the aforesaid rates ought to be continued, & not departed from in this instance, except that Mr Hammond requires several feet more in length than the above rule allows, [358] & they therefore recommend, that a grant be executed to Abijah Hammond for the ground under water in front of his property, as laid down in the annexed map, at the rates established on the 24th May 1813. for the third district on the North river; but that no additional charge be made for the excess in the length of said grant, if any such excess should appear, & they propose the following resolution, accordingly.

Resolved, that the Comptroller be instructed to carry into effect the recommendations contained in the foregoing report.

The same Committee on the petition of Stephen Gorham, Reported.

The Finance Committee to whom was referred the petition of Stephen Gorham, praying that the time for his paying his assessment of 45 dollars for widening Washington Street, may be extended to the 1st day of May next.

Report, That the frequent calls on the Board for indulgence in the payment of assessments for improving streets, is a serious inconvenience to the finances of the City; & shews that so long as these improvements are *are* forced on the Inhabitants, there can be no calculation made of the amount necessary to cover the current & extraordinary drafts on the Treasury: for every improvement, of this nature, leaves a sum more or less large to be provided for by the Corporation; & altho' a part of it again [359] returns to the Treasury, years frequently elapse before its receipt.

The Committee conceive it to be their duty to impress on the members of the Board, the necessity of ascertaining whether the neighborhood of an improvement are able to bear the expence of regulating, paving or opening a Street, before they recommend its adoption by the Common Council, in order that these calls upon their generosity may be avoided.

The Committee have determined to recommend no indulgence of the kind petitioned for, except under peculiar circumstances; & as they do not conceive this to be one that calls for such recommendation, they propose the following resolution,

Resolved, that it is inexpedient to grant the prayer of the petition.

Respectfully Submitted.

The same Committee on the petition of Elizabeth Krapff, Report.

The Finance Committee to whom was referred the petition of Elizabeth Krapff complaining that the 6th Avenue when opened will run thro' her buildings which prevents her from selling or leasing the same, & praying that the Corporation will direct that such means should be taken as to cause her property to become available

[360] Report, that [they] have had the subject under consideration, but are unable to Suggest any remedy for the evil said to be experienced by the petitioner. The case of the petitioner is not singular, how-

ever, for all who own property in the unopened Avenues & squares, are similarly situated, & were the Corporation bound to remunerate for the imaginary damages of those owning property in the numerous reservations marked out on the Map of the Commissioners, there would be no calculating the extent of the demand, nor the amount necessary to satisfy it.

The Committee propose the following resolution.

Resolved, that the Petitioner have leave to withdraw her petition. Respectfully submitted.

The same Committee on the petition of Abraham Stagg reported.

The Finance Committee to whom was referred the petition of Abraham Stagg praying that he may be paid a balance due him for regulating & paving Grand Street,

Report, that *that* there appears to be a balance due the petitioner of $150.^{78}/_{100}$. This balance has been withheld, as the Committee have been informed, in consequence of the work being insufficiently finished. It has since been completed, & made satisfactory to the Street Commissioner; therefore no cause exists why the said balance should not be paid, & the Committee propose the following resolution.

The same Committee on the petition of John Vanderlyn, report as follows.

The Finance Committee to whom was referred the account of Mr Vanderlyn for painting a full length portrait of General Jackson requesting that the same may be paid, & that he may be permitted to retain the Portrait of the General at the Rotunda to the close of the

present month Report, That the amount charged by Mr Vanderlyn is 500 dollars, 200 of which were paid him some time since, leaving a balance of 300 due.

That the Committee have examined the painting alluded to, which was nearly completed. That it will require some days before the painting will be Sufficiently dry to permit its removal, & that there will be no impropriety in suffering it to remain at the Rotunda during that time as requested by Mr Vanderlyn. That the Committee have engaged a person to prepare a suitable frame for the picture, at the price of 70 dollars, & that the whole cost of the subject will be 570 dollars.

The Committee propose the following resolutions.

Resolved, that a warrant pass in favor of John Vanderlyn for 300 dollars, being the balance due him for painting a full length likeness of General Andrew Jackson, by order of the Corporation.

[362] Resolved, that Mr Vanderlyn be permitted to retain the said Portrait at the Rotunda until the 16th day of October next.

Resolved, that the Superintendent of Repairs be instructed that on the 16th day of October aforesaid, he remove the said portrait from the Rotunda to the room in this Hall appropriated to this purpose.

The Committee of Wharves, Piers & Slips to whom was refferred the communication of the Street Commissioner on the Situation of the Piers at the foot of Jay Street & Pike Slip report as follows.

The Committee on Wharves, Piers & Slips to whom was referred a communication from the Street Commissioner, calling the attention of the Board to the situation of the piers at the foot of Jay Street & Pike Slip,

Report, that they have examined the said Piers, & found them much out of repair, & requiring immediate attention.

That they have, also, examined the Southerly pier of the Albany bason, & the bulk-head forming the west side of Coenties slip, both of which require considerable repairs, the former immediately & the latter as soon as the business of the place will permit.

The Committee have engaged Mr Abraham Storms to perform [363] those repairs, most imperiously called for, & have estimated the whole expence at about $2900. & they offer the following resolutions.

Resolved that Abraham Storms be employed to perform the necessary repairs to that part of the Pier at the foot of Jay Street belonging to the Corporation; & also to the pier at the Albany Basin, & the pier at Pike Slip; & that such repairs be performed under the superintendence & direction of the Superintendent of repairs.

Resolved, that the Superintendent of repairs, be instructed to rebuild the bulkhead on the west side of Coenties slip, as early in the ensuing spring as the season will permit.

The same Committee on the petition of John Anderson report as follows:

The Committee on Wharves, Piers & Slips to whom was referred the petition of John Anderson, enclosing a claim on the Corporation of 1692 dollars 56 Cts for extraordinary work & materials in building the pier at the foot of Vesey street.

Report, that Mr Anderson entered into a contract on the second day of August 1819 to build the said Pier in a good, faithful & workmanlike manner, agreeably to a Diagram or Map attached to said contract, & the directions of the Street Commissioner, & your Committee. That immediately on his being informed that his estimate was the lowest, & before [364] he had executed the contract, he commenced building the blocks of said Pier, & as he alledges had laid the floor of said blocks 16 feet high—that he was informed, by order of the Street Commissioner that the Contract must be executed before he proceeded farther, & that the floors must be laid only 12 feet high—That he then proceeded under the inspection of Captn Barnum to build & sink the said blocks for which he now claims extra pay, tho', shortly after one of the blocks had been sunk, it turned & over, & other blocks were sunk to support the said displaced block. That the petitioner alledges the cause of the turning over of the block to be the laying of the floor 12 feet instead of 16 feet high as he first intended;

& that having obeyed the orders of the Street Commissioner in altering the said floor, he has a claim on the Board for the extra expence.

Your Comitee have had this subject under serious consideration, & from the best information they have been enabled to obtain, are of opinion that the cause of the block alluded to having turned over, was not the difference in the height of the floor, but more probably arose from the situation of the bottom of the river, or the careless manner of throwing in the stones at the time of sinking it: in either of which cases, the accident must have happened from Mr Anderson's own neglect, as he ought to have known the state of the bottom, & prepared his work accordingly, & the stone ought to have been regularly put in the block in order that it might sink & settle in a manner suitable to the state of the bottom.

The Committee are by no means satisfied with the building of this Pier, & in point of durability, do not believe it such as was contemplated by the Contract; & in this opinion they are joined by Mr Joshua Jones [365] who owns the north side of it, & has paid two thirds of the cost for the buil[d]ing. They are therefore of opinion that the amount already paid Mr Anderson, is the full value of the Pier alluded to, & they offer the following resolution accordingly,

Resolved, that it is inexpedient to grant the prayer of the petitioner.

The Committee on public Lands & Places on the petition for the removal of the Hack stand from the Park reported as follows.

Report.

The Committee on Public Lands and places to whom was referred the memorial of sundry inhabitants of Broadway, praying for a removal of *of* the Hackney Coaches from before their doors to the other side of the park,

Report, that they have duly considered the subject, & are of opinion that the prayer of the petitioners is reasonable & ought to be granted— they therefore beg leave to offer the following resolution.

Resolved that the present stand for Hack Carriages on the west side of the Park be vacated, and that hereafter their stand shall be on

the South East side of the Park between the Goal and the lower end of the Park fence, leaving Sufficient spaces for the convenience of foot passengers passing in & out of the Park at the different Gate ways.

Report.

The Committee on Public Lands & Places to whom was referred a petition purporting to be from the Trustees of the African Zion church (but without the signature or seal of any one) praying the Corporation to cause a fence to be rebuilt on one side of their burying ground situated within Potters field—Report

That as it appears this piece of ground was gratuitously granted to this Congregation for the purpose of burying their dead—the Committee think it unreasonable that the Corporation should also be called upon to keep their fences in repair, they, therefore offer the following resolution.

The same Committee to whom was referred the petition of Henry Smith complaing of the conduct of the Attorney of the Board, reported as follows.

Report.

The Committee on Public Offices to whom was referred the petition of Henry Smith protesting against the counduct of the Attorney for

continuing a suit against the said Smith contrary to the instruction of the Committee—Respectfully Report.

That they have examined into said remonstrance, & find that M^r^ Smith did not comply with certain conditions which were necessary for discontinuing the suit. viz.

The Committee on Public Offices to whom was referred a petition from the said Smith in October last, stating that he had disposed of the Lot, & begging that the suit might be discontinued, did instruct the Attorney to discontinue the same when it should appear to him the said Attorney that the Sale or transfer was a bona fide one, by giving up the name of the purchaser. It appears to your Committee that the name of the purchaser was given up, but there was no evidence shewn to Satisfy the Attorney that the transfer was a bona fide one. Your Committee are therefore of an opinion that the Attorney in the continuance of said suit has acted perfectly correct, & would, therefore, beg leave to offer the *the* following resolution.

[368] Resolved, that the Attorney be instructed to proceed in the suit instituted against Henry Smith in October last, for the penalty incurred by not complying with an Ordinance to fill in a certain Lot of ground situate at the corner of Bleeker & Greene Streets, unless he the said Smith shall shew to the satisfaction of the Attorney, agreeable to the instructions of the Committee in February last, that the aforesaid transfer was a bona fide one, & pay such costs as may have accrued in the progress of the aforesaid prosecution, & the suit in Marine Court.

The reading of the minutes of the last meeting was dispensed with.

The resignation of Moses Cunningham, who was at the last Election for Charter Officers, elected Collector for the 8th Ward, having been accepted—the Board agreeably to the directions of the Law in that case made & provided, proceeded to direct an Election to be held to fill the vacancy, & it was resolved that an Election be held for the purpose of chosing a Collector of the 8th Ward in the place of Moses Cunningham who had resigned the Office, & that it be held on the Second Tuesday of October next—that Samuel M. Thompson [373] Jacob Aimes, & Stuart F. Randolph be Inspectors of said Election, & that the Poll be holden at the House of Charles Rowe in the Broad Way in said 8th Ward.

A remonstrance from Samuel Webb & others against a permission granted to remove a frame building from the corner of Oliver St & Chatham Square through the streets to the North side of Grand St was read & referred to the Street Commissioner

A Petition of the Inhabitants of Greenwich stating the great want the Inhabitants experience in not having a public Slip in the vicinity for landing of wood, & other articles, there being none in that neighborhood, North of Spring Street—stating also that Abijah Hammond had offered to sink a Bulk-head there, which would sufficiently accommo-

date them, & recommending that a grant of the Water Lot may be given to Mr Hammond on reasonable terms, was read & referred to the Finance Committee.

A petition of Jacob Scheiffelin was read, stating that he is Lessee of the Corporation of certain Lots on Chatham Street, the term of which expires in May 1825. That by a fire on the 25th Instant the houses on said Lots were destroyed & he suffered h[e]avy losses thereby; in consequence of which losses, & as he is now compelled to erect new Buildings on the Lots, he prayed that the term of his Lease might be extended.

Which being read was referred to the Finance Committee.

A Motion was made by Alderman Tooker that the confirmation of the [374] Assessment for the Bulk head & sewer in Broad street be reconsidered—which was agreed to. He then moved that it be reffered back to the Assessors for reconsideration, which was also agreed to.

On motion of Alderman Allen,

Resolved, that the Superintendent of Repairs be authorised to repair forthwith the Pier forming the West side of Fulton Slip.

On motion, the Resolution passed at last meeting for the Common Council to meet this evening was rescinded, & the Board adjourned to meet on Monday next 5 O'Clock.

The minutes of the two last meetings were read & approved.

A petition from Silas Hicks for permission to construct a Vault at No 47 Cliff street was read & granted on the usual terms, under the directions of the Street Commissioner.

A Memorial from Cornelius Harsen was received, stating that he some time since conveyed to the Corporation as collateral security a Lot of ground extending from Washington to West Street, near Charleton Street, conditioned for the payment of such sum as might be expended in filling in said street—That said street is now filled in, & he requested permission to Sell [376] under the direction of the Comptroller, so much of said lot as would be sufficient to pay the amount owing by him to the Corporation

Whereupon, the same was referred to the Finance Committee.

A petition from the New York & Jersey Steam Boat Ferry Company was presented, stating that by the terms of the Lease from the Corporation they are bound to keep on said Ferry two Steam boats, in addition to sail & row boats—that they are satisfied that a Horse boat would now answer all the purposes of the Ferry, as well as a Steam boat, & could be employed at much less expence—That hitherto the Company have not made any profit upon their establishment—They therefore pray to be permitted to substitute a boat worked by horses in place of one of the Steam Boats.

Whereupon, the same was referred to the Ferry Committee.

A petition of William Butler complaining of an Assessment on him in relation to a Lot between 4th & Amity streets, & also for the Sewer in Clarkson & Carmine Street, was read, & referred to the Committee on Assessments.

A petition that White Street may be opened from Elm Street to Orange Street was read & referred to the Street Committee.

A petition of Patrick M[c]Donald for remission of fine, incurred by keeping a dog without registering the same, & for which he was imprisoned was referred to the Committee of Charity, with authority to grant the prayer of the petitioner.

[377] A request of Fire Engine Company N[o] 21 for permission to dispose of their present Engine, & to purchase in its stead one lately constructed by Abel Hardenbrook, upon a new & improved principle which might be effected by paying a difference of three hundred dollars, was read, & referred to the Committee on the fire department to make the purchase & exchange if they deem it proper.

A memorial was received from James W. Lent remonstrating against a report of the Committee of Wharves, Piers & Slips upon a petition of the Inhabitants residing in the vicinity of Broad Street & Exchange slip complaining of the Assessment laid for cleansing the Drain in Broad Street, & building the Bulk-head at Exchange slip—which having been read was directed to be laid on the table.

A petition of Henry Suydam of said City—Baker, praying to be releived from a Judgment recovered against him on account of his Son James Suydam, a minor, having trespassed against one of the ordinances of the Corporation by incumbering the side walk with a wheel-barrow in which he carried bread to his customers, was read & referred to the Police Committee.

A further petition of William Pearsall to be appointed a measurer of Grain was presented, & on motion the prayer thereof was granted, & he was appointed accordingly.

A petition of Hannah Dixon was received, stating that she had been assessed for regulating Washington Street, for regulating Dey Street [378] for filling up the lower end of Dey Street, & for widening Washington Street to the amount of $920.$^{4}/_{100}$ of which she has paid a part—that she is at present unable to pay the Balance, & praying further time therefor—was read & referred to the Finance Committee.

A petition from Albert Fisher for Stall N° 63 Fly Market was referred to the Market Committee.

A petition was received from William Hall & others stating that they have brought into complete operation a machine for sweeping chimnies called "Hall's patent sweeping machine"—that for the accommodation of the Inhabitants they have established offices in the several Wards to which application may be made for the sweeping of the Chimnies in the City—They therefore request that the masters of the climbing boys, or chimney sweepers, may be compelled to establish offices in the different parts of the City, & that the boys may be prohibited from calling out in the Streets as is now practised by them.

Whereupon the same was referred to the Committee on Arts & Sciences.

A petition of George Hirst to be releived from a Judgment recovered against him for suffering a Dog, said to be owned by him to run at large—he not being the owner or proprietor of said Dog—was read, & referred to the Police Committee.

A petition of George Strite was received, stating that on the first of April 1817. he leased from the Corporation for the term of six years a Lot of Twenty, & a half Acres, situated in the 9th Ward—[379] that the land of the same is poor, & the shortness of his lease would not justify him in making those improvements on it which are necessary—he therefore solicited an extension of his lease for twenty one years, after the expiration of the present term

Whereupon, the same was referred to the Finance Committee.

The following persons were appointed Firemen, the Chief Engineer certifying the vacancies.

Fire Engine Company N° 4.

James Galaudet, Shoe-maker N° 131 Greenwich Street 3d Ward vice, Richard J. Thorne, resigned

N° 5.

Henry Lawrence, Accountant N° 84 Chatham Street 6th Ward vice. Samuel J. Hicks—Removed from the City.

The Counsel presented the following.

The Counsel herewith submits for execution a lease of a ferry to Philip Hone. This lease has been drawn in pursuance of an order of the Board.

The Counsel also submits for execution three leases to Joseph Place of lots at Brooklyn. These leases have been before submitted to the Board & are now re-submitted in consequence of a misapprehension as to the periods for which they were to be renewed, which has rendered it necessary that they should be altered.

Respectfully submitted

The Committee of Repairs to whom was referred so much of the Grand Jurors report as related to the repairs of the City Prison. Report that they have been through the building, & examined the same. They, however find nothing very important that is necessary to be done, except some little repairs about the roof, & also some glass to be replaced.

They, therefore offer the following resolution,

Resolved, that the Superintendent of repairs cause the roof to be mended & also to supply the place of the broken glass.

The Finance Committee to whom was referred the petition of Thomas Miller & others, praying that a public Slip may be established in the Vicinity of Greenwich Village, or that a grant may be made on moderate terms to Abijah Hammond Esq^{r} to build a Bulk-head in front of his property which will answer the purpose of a slip for that part of the City, Report,

That they have had a conference with M^{r} Hammond, since their report on the subject of his application for a grant of the ground under water in front of his property near the State Prison, & have ascertained that he declines taking out said Grant on the terms prescribed by said Report: but he is willing to take a Grant on the following conditions. To pay for the first seven [386] years 25 Cents p^{r} foot; for the second seven years 62½ Cents per foot; for the third seven years one dollar p^{r} foot, & forever, thereafter, two dollars p^{r} foot.

The inconvenience of the Inhabitants at Greenwich for want of a proper landing, & the expence that would be incurred in providing one at the public cost, together with the consideration that the property of M^{r} Hammond is at the extreme end of the last district on the North River included in the general regulation for water grants, & therefore, cannot be so productive to the owner as the property at the lower part of the district, have induced the Committee to recommend that a grant be given to M^{r} Hammond on the terms above stated, & they offer the following resolution.

Resolved, that the Comptroller prepare a grant to Abijah Hammond for the ground, under water, in front of his property near the State Prison, & that such grant be made on the terms specified in the foregoing Report.

Mr Crane, Chairman on Public Offices, reported, that agreeably to the direction of the Common Council, he had written to Chancellor Kent on the subject of using the room, at present occupied by the Court of Chancery [389] for the accommodation of the Register's Office, a copy of which letter he read in the words following.

New York Septr 19th 1820.

Sir,

The Register's Office, having undergone a considerable change by double Indexing the Records, Mr Gilbert the Register, some time since, petitioned the Corporation for a larger Room, which was referred to the Committee on Public Offices. The Common Council, at their meeting yesterday, pass'd a Resolution, instructing me as Chairman of that Committee to write to the Chancellor to know if it would be convenient for him to hold his Court, when in the City, in the Supreme Court room, thereby enabling them to comply, not only with the request of Mr Gilbert, but to accommodate the Gentlemen of the Bar, by fitting up the Room now occupied by the Chancellor for the reception of the Records.

I am happy, Sir, in having the honor of complying with the resolution of the Board, & hope no inconvenience would arise in the change, as the Register's Office is entirely too small for the reception of the additional Volumes.

I am, Sir,

Yours respectfully.

The Honorable James Kent
Albany.

(Signed) B. Crane, Chairman
of Committee.

To which he has received from Chancellor Kent the following reply

Sir, Albany, September 25th 1820.

I did not receive your letter of the 19th until this morning as I was last week out of Town.

The Supreme Court Room would be perfectly convenient & agreeable to me, & I see no objection from the public or the Bar that [390] the Court of Chancery should always be held in the Room where the Supreme Court sits. The attention paid to the Court in which I preside, by the resolution to which you refer, is very grateful to my feelings, & demand my respectful acknowledgment.

I have the honor to be
with great respect
Your Obdt Servt

The Report of the Committee on the Memorial of G. Gilbert which was presented at the Meeting on the 18th Ulto & was laid for consideration was now called up, was read & is as follows,

The Committee on Public Offices to whom was referred a communication, requesting that a larger room might be granted for the reception of the County Records

Respectfully report,

That they have examined the Room, now occupied by the Register, & are of opinion that a larger Room ought to be appropriated for that purpose.

Your Committee would recommend the fitting up of the Room usually occupied by the Chancellor, believing, as they do, that no inconvenience would arise from the change, as your Committee are informed the Supreme Court, agreeable to a new arrangement, sits but once a year in the City, & therefore the Chancellor may hold his Court in the same Room.

They would, therefore beg leave to offer the following Resolution.

Resolved, that the Committee, on Repairs, be instructed to have the Room, usually occupied by the Chancellor, & known as the South [391] East room in the first story of the Hall, fitted up in such a manner as may be necessary for the reception of the Records now in Register's Office.

The Committee of Public Offices on the petition of Benjamin H Hinds reported.

The Committee on public offices to whom was referred the petition of Captn B Hinds, praying to be liberated from prison,

Respectfully Report,

That they have duly considered the subject for which Captn Hinds is imprisoned. Viz for not reporting a passenger on his arrival at this port, & for landing passengers at Amboy, with an intent to proceed to (New York) the City contrary to a Law of this State, forbidding the landing of any such passengers within Fifty miles of the city.

Your Committee are of an opinion that the prayer of the Petition ought not to be granted, inasmuch as they believe the landing of the passengers, as aforesaid, was intended as an evasion of the Law.

They therefore beg leave to offer the following Resolution.

Resolved, that the prayer of the petitioner ought not to be granted, unless he shall enter into Bonds for the Passengers landed at Amboy, together with the one entered here, & pay such costs as may have accrued.

Report,

That they have thoroughly considered the subject referred to them, & are of opinion, that it is inexpedient to improve that Street in the manner contemplated. They therefore recommend the adoption of the following resolutions.

M^{r} Bolton moved to strike out from the 1st Resolution all the words after Resolved, for the purpose of introducing a Resolution direct- [393] ing the Counsel to take legal measures for opening said street—the question being taken thereon it passed in the Negative. The questions were then taken on the several Resolutions, & carried in the affirmative.

The same Committee on the petition of Harman Westervelt reported,

The Committee on Assessments to whom was referred the petition of Harman Westervelt, stating that a sum of money has been assessed for making a Common Sewer in Carmine Street on four lots of ground, two of which he contracted to sell in the month of July 1819, & that he did convey the same, in pursuance of his contract in the month of May last, & praying that his property may be discharged from liability for said Assessment, on paying one half of the same.

Report.

That there is no law authorising any apportionment of an Assessment. That the remedy which the Statute has provided for persons aggreived in such cases is by a suit against the person who by agreement, or by Law, ought to have paid it—and that the Corporation cannot grant the prayer of the Petitioner, without relinquishing one half of the Assessment.

As cases of real hardship frequently occur, in consequence of property being taxed or assessed as belonging to [a] single Individual, when in fact it belongs to several. The Committee are of opinion that it is expedient that a law should be passed authorising the Comptroller to apportion the Taxes, & the Street Commissioner the Assessments in such cases.

There is a law which invests the Comptroller of the State with this power in cases in which taxes are returned to his Office as unpaid.

[394] The Committee, therefore recommend the adoption of the following Resolution, towit.

Resolved, that the Counsel be instructed to prepare a Law in pursuance of this Report, & a Memorial to the Legislature praying for the passage of the same.

Resolved, the collection of the Assessment on Harman Westervelt's property be suspended until the first day of May next.

The same Committee on the petition of Abijah Arden, Report.

The Committee on Assessments to whom was referred the petition of Miss Abijah Arden, praying to be relieved from paying personal tax, assessed on her in the 6th Ward, giving as a reason therefor, that at the time the assessment was laid, she was a resident of New Jersey & that she still continues to reside in that state.

Report, that they have given the petitioner's case a careful examination, & find that the Ass[ess]ors were in possession of all the objections raised on this occasion by Miss Arden, they were convinced that she did, at that time, reside in the 6th Ward, & assessed her accordingly, & that they have had no reason since to think that they have acted incorrectly.

Your Committee are therefore of opinion that the petitioner is not entitled to relief, & respectfully submit the following resolution.

Resolved, that the prayer of the petitioner ought [395] not to be granted.

The same Committee on the petition of Richard Byrd, reported

The Committee on Assessments to whom was referred the petition of Richard Byrd, stating that he had been called on by the Collector of arrears of taxes for $21.50 & praying to be relieved from the same.

Report, that on examining the petitioner's case, & from the testimony of two respectable merchants, they are satisfied that, at the time the assessment was laid he had been in the City but a few months, was a Clerk in a mercantile house, and being possessed of no personal property, had not the most distant idea that he had been assessed, until he received a notice from M[r] George B Smith demanding payment.

Your Committee are, therefore, of opinion that the prayer of the petitioner ought to be granted, & respectfully recommend the adoption of the following resolution.

Resolved, that the Collector of arrears of taxes be instructed to

The Committee on Assessments to whom was referred the petition of Jacob B. Clark, praying to be relieved from paying 14 per Cent Interest charges on $21.50 personal tax, assessed on him in the 3d Ward in 1819.

Report, that on examination of the case they are satisfied that the first intimation the petitioner ever had of the tax, was the notice sent him by the Collector of arrears of taxes—that he was absent from the City 4 months in 1819. & had no knowledge of his having been assessed.

Your Committee are of opinion that the prayer of the petitioner ought to be granted, & for that purpose respectfully submit the following resolution.

Resolved, That the Collector of Arrears of taxes be instructed to receive from Jacob B Clarke $21.50 in full for personal tax assessed on him in the 3d Ward, in 1819.

The Report of the Special Committee on the petition of Silvanus Miller, respecting taking the ground for the site of a Public Market at Fulton Slip which was laid for consideration, was now called up, & being read was in the words following,

To the Common Council of the City of New York.

The Committee to whom was referred the Memorial of Silvanus Miller, Report,

That M[r] Miller in the said Memorial represents that he is seised in fee simple of two Lots of Land situate between Fulton Slip & the Crane Wharf, & being part of the land on which it has been intended to erect a public Market.

That the measures which have been taken by this Corporation to obtain possession of that property have, for a long time past prevented him from selling or improving it to advantage by reason of which he has sustained great loss.

And he prays that the Corporation will forthwith take the premises at the appraised value, & will also afford him a fair [400] compensation for the damages he has suffered.

It is obvious that M[r] Miller's situation & rights are the same with those of all the other proprietors owning lands which form part of the site of the intended Market; and that whatever relief may be afforded to him must, in Justice be also extended to them.

The decision which may be made of this Memorial, therefore, involves the determination of the important question, whether this Corporation will persevere in the proceedings which are now pending for the purpose of obtaining possession of the land in question.

If it were now to be decided for the first time whether that land

should be purchased, & a Market erected upon it the Commᵉ apprehend there would be little difference of opinion. The expence of paying for the land, & erecting the Market was estimated in 1815 at $220,000.

In the present state of affairs it does not appear to the Committee either necessary or expedient to add so large a sum, for such a purpose to the City debt.

The Committee who made the above mentioned estimate in 1815. proposed to defray the expence as follows. 1ˢᵗ by appropriating to that purpose $140,000 due to the City from the United States, & 2ⁿˡʸ by a loan of $80,000. of which they proposed to discharge the Interest, & ultimately pay off the principal by the Revenue to be derived from the Market itself. This Revenue they estimated as follows.

The Rent of 32 Counting Rooms proposed to be built over the Market at $150	$4.800.
The Rent of 32 Cellars under the Market @ $200	6.400.
The Rent of 76 Stalls	11.400.
Total.....Dollars	22.600.

[401] The money from the United States has since been received & applied to other purposes, & there is little probability that Counting houses & Cellars would at this time produce the Revenue upon which the above calculation is founded.

Presuming then that the project of erecting the Market is to be abandoned, the Committee proceed to enquire how far the Corporation is pledged to the proprietors, either to purchase their lands, or to make them compensation for any injury they may have sustained.

To enable the Common Council to decide this question, with a full knowledge of the subject, the Committee think it will be useful to lay before them a summary of the proceedings of the Board relating to it

After several preliminary reports & Discussions, on the 8ᵗʰ June 1816. the Common Council finally resolved to erect a new Market near Beekman Slip, & directed legal measures to be taken to obtain the ground necessary for that purpose.

On the 29ᵗʰ January 1816 a Memorial to the Legislature was agreed to, praying that a Law might be passed, authorising the Corporation to take possession of the ground, & to pay for it out of the City Treasury.

On the 29ᵗʰ March 1816. a law pursuant to the prayer of the Memorial was passed by the Legislature.

On the 7th October 1816. a Memorial to the Legislature was ordered to be prepared, praying for an additional law authorising the Corporation to take the Land under Water, adjoining the land already intended for the scite of the Market.

[402] On the 5th November 1816. It was resolved so to amend the Memorial, as to pray that the Commissioners to be appointed to value the property, might be authorised to assess part of the expence on persons whose property might be enhanced in Value by reason of the proposed establishment of the Market.

On the 14th March 1817. the Legislature passed an Act as prayed for by the Corporation.

By this Act the Common Council were authorised to direct the Commissioners to make an estimate of the benefit to the Owners of the Lands to be benefitted by the erecting of the new Market, & the removal of the Fly Market.

On the 24th March 1817 the Council was directed to apply to the Supreme Court for the appointment of Commissioners.

On the 7th April 1817 a petition to the Court for that purpose was agreed to & ordered to be authenticated.

On the 5th October 1817. A Resolution was passed, directing the Commissioners to estimate the benefit of persons to be benefitted by the intended & improvement.

On the 12th October 1818. A Resolution was passed requesting the Commissioners to suspend their proceedings till the further order of the Board.

On the 15th March 1819 The Board resolved that their former Resolution requesting the Commissioners to suspend their proceedings be repealed, & that the Clerk so inform them.

On the 28th June 1819. It was resolved that the Counsel prepare the report of the Commissioners, & present the same at [403] the next August Term of the Supreme Court.

On the 30th November 1818 the Counsel informed the Board that the Commissioners had completed their estimate, but had not made any Assessment on persons benefitted by the intended improvement; Whereupon the Counsel was ordered to suspend preparing a Report to the Supreme Court, til the further order of the Board.

On the 26th July 1819. It was referred to the Finance Committee to devise ways & means for paying the Amount at which the ground between Beekman Slip & Crane Wharf may be valued by the Commissioners.

On the same day it was resolved, that the Counsel take such meas-

ures as may appear to him adviseable to prevent further improvements in the premises, if there is any probability of their being assessed to the Corporation.

There have been other resolutions on this subject proposed & negatived, & several Reports made which have not been acted upon, but the foregoing are believed to be only acts sanctioned by the Common Council.

From them it appears that the Board did at one time suspend the proceedings yet that they shortly after repeated their resolution & in June 1819. directed their Counsel to present the Report at the next term of the Supreme Court for confirmation: & that with this exception, the Board has ever since January 1816. persisted in the determination to take the ground in question.

They have applied for, & obtained two Acts of the Legislature for this purpose. They have proceeded under those acts, & procured Commissioners to be appointed to value the property. The Commissioners have performed that duty—The Board have ordered their report [404] to be presented for confirmation. They have directed their Counsel to take measures to prevent improvements being made in the mean time by the Proprietors; & they have directed their Finance Committee to devise means for paying for the ground.

Under these circumstances the Committee think that the Corporation is committed. That after having for four years & upwards resolved to take the property, & during so long a period prevented or retarded its Improvement: after having procured it to be valued, & when the valuation is in the hands of their officer, it is too late to retract, & to tell the proprietors that its amount is more than we are willing to pay.

The Committee therefore are of opinion that one of two alternatives should be adopted. Either to take the Land & afterwards sell it —Or to obtain permission from the Legislature to discontinue all proceedings on making compensation to the proprietors.

The first of these will, in their opinion be most advantageous. In estimating the damages which Individuals have sustained, the data must necessarily be extremely uncertain. The testimony to be adduced must be mere matter of opinion, & in doubtful cases there is always a leaning in favor of Individuals & against the Corporation. So that the total amount of damages cannot be estimated before hand, & will probably be very considerable.

In the other mode no loss can be incurred except the difference between the Valuation, & the price at which the land may be sold.

The Committee therefore recommend the following resolutions,

Resolved, that the Counsel of the Board take measures to complete the proceedings already commenced for the purpose of vesting in [405] this Corporation the title to the lands mentioned in the Act entitled an Act authorising the Mayor, Aldermen & Commonalty of the City of New York to take possession of certain lands—passed March 14th 1817.

Resolved, that the Counsel of the Board prepare a petition to the Legislature, praying that a Law may be passed authorising this Corporation to sell & convey the Lands mentioned in the afore said Act.

Mr Emmons presented the following resolution,

Resolved, that the Counsel of the Board prepare a petition to the Legislature, praying that the Act entitled an Act authorising the Mayor, Aldermen & Commonalty of the City of New York to take possession of certain lands for a Market, passed March 14th 1817. that the same be repealed, & that all other proceedings to obtain the above mentioned lands be discontinued.

It being in order to take the question first on the resolution proposed in the report of the Committee, the same was accordingly taken, & it was carried in the affirmative, when the Ayes & Noes having been requested by Alderman Mann to be taken they were as follows,

Ayes. Mr Recorder, Aldermen, Tooker, Townsend, Thorp, Allen. Messrs Bolton, Valentine, Tallman, Crane, Town, Brittain, Hammond.

Noes. Aldermen, Mann, Board. Messrs Parker, Emmons, Depeyster.

[406] Alderman Allen then presented the following resolution which was adopted.

Resolved that the Comptroller be authorised on the Commissioners having completed their Report, & the same having been confirmed by the Supreme Court to borrow on the credit of this Corporation such sum as may be necessary to pay the amount at which the ground alluded to in the foregoing resolution shall be valued by the Commissioners, & that the money thus borrowed be repaid from the Sale of the said property.

Mr Recorder then proposed the following, which was agreed to,

Resolved that the Resolution of this Board of the 5th October 1817, directing the Commissioners appointed by virtue of the aforesaid Act to estimate the benefit of persons to be benefited by the then intended Improvement be & the same is hereby rescinded.

Resolved, that the Superintendent of Repairs be directed to cause the Well in Pike Street, near Henry Street to be filled up.

The Special Committee, consisting of the Committee of Wharves, Piers & Slips, & the Aldermen & Assistants of the 5th & 8th Wards,

to whom was referred the subject of filling up the Basin at the foot of Canal Street reported as follows.

The Committee on Wharves, Piers & Slips, together with the Alderman & Assistant Aldermen of the 5th & 8th Wards, to whom was referred the subject of filling up the Basin at the foot of Canal street. Report.

That the Committee on Wharves, Piers & slips, as far as respects their former Report on this subject, have seen no occasion to alter their opinion: they still think that it would be more for the interest of the Public that the slip alluded to should remain as it is for a time, in order that the revenue derived from the rent might continue & the expence of filling be diminished. They have, however, in consideration of the solicitude evinced by the Inhabitants in the vicinity of said Slip, together with that of the Gentlemen from the 5th & 8th Wards, who are their collagues on this subject, concluded to wave their former objections, & join in a Report favorable to filling up said Slip; only however, on the following conditions.

1st That a temporary sewer be added to the present, by driving three tier of piles, one on each side, & one in the centre, & that the same be covered with plank.

2nd That the Street Commissioner be authorised to enter into [421] contracts for building said sewer, & for filling the slip at the foot of the Canal Street with good & wholesome earth, & also for the necessary bulk head at the mouth of said slip; & that the Contractors be bound to complete the said work, on or before the first day of May next.

3rd That the Comptroller be authorised, under the direction of the Finance Committee, to borrow on the credit of this Corporation, at an Interest not exceeding six per Cent, such sum as may be necessary to defray the expence of the aforesaid work.

4th That the lots to be made by the filling up of said slip, be & they are hereby pledged for the payment of the debt to be incurred as aforesaid.

5th That the Comptroller, under the direction of the Finance Committee, be, & they are hereby authorised, on the said Slip being filled & completed to Sell at public auction, the land thus made, or so much of it as may be necessary; & with the proceeds of said sale to cancel the debt created for completing the aforesaid work.

The estimated cost of the above described work, as near as the Committee have been able to ascertain the amount is $

The Special Committee, consisting of the Committee of Wharves, Piers & Slips & Ferry Committee, on the petition of David Dunham, & the remonstrance of Marinus Willett presented a report which was read, & laid for consideration.

The Committee on Wharves, Piers & Slips to whom was referred the petition of Samuel Evans, praying to be relieved from payment of a bill for the use of the Mud machine at Wallnut Street slip, reported as follows.

The Committee on Wharves, Piers & Slips to whom was referred the petition of Samuel Evans, praying to be relieved from the payment of a bill for the use of the Mud Machine at Walnut Street slip, Report,

That, Commodore Evans applied to the Chairman of your Committee for the use of the Machine to clear out the Slip at the foot of Walnut Street—That he was informed the Committee did not possess the power (authority) to put the Machine in operation at that Slip, except at his own cost, but that if he thought it ought to be done at the public expence he might apply to the Board for a remission of the Bill, & be governed by their decision. That he agreed to employ the Machine on those terms, & the Captain was accordingly directed to proceed to the said Slip, & work the Machine under the directions of the Commodore.

The Committee have duly considered the circumstances of the case before them, & are of opinion that, inasmuch as there is no

present revenue derived from the Ferry granted to Commodore Evans, & as [423] the leading object in establishing said ferry was the accommodation of the workmen at the United States Navy yard, & not considered as called for by the public, that the expence alluded to ought not to be drawn from the public Treasury. And they offer the following resolution accordingly.

Resolved, that it is inexpedient to grant the prayer of the petitioner.

The Finance Committee to whom was referred the petition of Cornelius Harsen reported as follows.

The Finance Committee to whom was referred the petition of Cornelius Harsen praying that he may be permitted to sell so much of the property mortgaged to the Corporation as will discharge the debt incurred by filling & regulating said property. Report,

That the property alluded to was mortgaged to the Corporation by the petitioner as security for the expence that would be incurred by them in filling & regulating the same, including the one half of Charleton Street, in front of said property. That the filling is now completed, & the amount expended, & which is to be refunded by the sale of the Lots is about $2600. That the object of the petitioner is to sell so many of the [424] said Lots as will discharge the debt due the Corporation, & to pay the proceeds of such sale into the City Treasury, & by that means save the expence of a foreclosure of the Mortgage.

Your Committee can perceive no objection to granting the request of the petitioner, under proper restrictions, & they accordingly offer the following resolution.

Resolved, that Cornelius Harsen, under the direction of the Comptroller, be authorised to sell at public auction the property mortgaged to this Corporation; & on his paying into the Treasury such amount of the proceeds as will liquidate the debt incurred for filling in & regulating the same with Interest, & necessary expences, that the Counsel

be authorised to cancel the Bond & Mortgage executed, by said Harsen as a security for the payment of said debt

The Special Committee appointed on the 29[th] May last to ascertain on what terms the Fort called Castle Clinton could be obtained for the Public use of the Inhabitants of the City of New York, reported,

The Committee appointed on the 29[th] May last for the purpose of applying to the Secretary of War at Washington to ascertain on what terms the Fort called Castle Clinton, & the ground on which it stands might be obtained for the public use of the Inhabitants of this City. Report,

That they have attempted a discharge of the duty assigned them & have had communications with M[r] Calhoun Secretary of War, both

[426] verbal, & in writing. The following is an extract of a Letter received from that Gentleman 7th August last.

"Your communication of 10th June relative to Castle Clinton has been laid before the President for his consideration & direction & I am directed by him to state in reply, that as far as the Executive power extends, he readily accedes to the wishes of the Corporation of the City.

Under the Act of Congress the Executive is invested with power to dispose of useless military sites, & as the Board of Engineers have reported that the Position will be useless after the erection of the contemplated works at the Narrows, the President may under the provisions of the Act of Congress dispose of the same: but it is believed the desire of the Corporation cannot be effected to their full extent without the sanction of Congress, the right to sell, it is conceived, does not comprehend that of gratuitously ceding; even tho' it was acquired from the State of New York, & the Corporation in that manner. The President proposes (if the Corporation should prefer it to waiting the meeting of Congress) to make a sale to them of the site, the price to be fixed by persons mutually appointed for that purpose, & the payment to be fixed at such a period as to give the Corporation an opportunity to apply to Congress for the remission of the purchase money."

Since that period, some of your Committee have had an interview with the Secretary, while on his late visit to this city, when he still held the same friendly language, and advised us to make application to Congress direct for a gratuitous transfer, & promised us his best services in support of our application, expressing [427] at same time, his belief that our wishes will be fully gratified. The Committee, therefore recommend the adoption of the following resolution. Resolved,

That a memorial to Congress be prepared, expressive of the wishes of this Board on the subject of Castle Clinton, & that a Committee be appointed to attend to its presentation, & to its progress in Congress.

The Special Committee to whom was referred the petition of Caleb Crane, complaining of the conduct of Benjamin Westervelt, one of the Measurers of lime, and of the inefficiency of the law relative to Inspectors of Lime presented a Report, and recommended the adoption of two resolutions, the first of which was in the words following."

"Resolved that Daniel Fash be removed from his office of Lime Inspector, and that the Clerk of this Board serve a copy of this resolution upon him without delay.

The question being taken thereon, it was carried in the affirmative. The further consideration of the Report and of the other resolution proposed [428] was postponed until the next meeting of the Board.

Mr Hammond presented the following resolution.

Resolved that the Counsel of this Board be requested to examine the statutes on the subject of the ground near Fulton slip heretofore intended to have been taken for a Market and to report to the Board his opinion whether this Board will or not have power to sell the said Lands in fee simple, as soon as the title thereof shall have been obtained in order to reimburse the expence of acquiring the same title by virtue of the Statutes now in force on this subject, and that he be authorised to call to his assistance such other Counsellor at Law, in making up his opinion as he shall think fit.

Which resolution was agreed to.

Alderman Swartwout presented the following resolution which was adopted

Resolved, that the Street Commissioner be authorised to cause a stone flagging to be laid down across Chatham Street from the corner of Frankfort Street to the Park.

The Street Commissioner presented an Ordinance for a Well & pump in Vestry Street near Hudson Street which was passed, & Abraham Baudouine, John Brown[er] & John Bedient were appointed Assessors.

He also presented the following communication.

The Street Commissioner respectfully represents that certain [439] property belonging to Hyder Somerindyke, situate at Bloomingdale was sold on 3rd November 1818 for the Assessment for opening the 10th Avenue to John M Irving, subject to the tax of 1817, amounting to the sum $131.42, the amount for tax was $3.25 and was paid to Mr Gilbert.

On 13th June last the property was redeemed by the mutual Insurance Company, who also paid all back taxes that appeared on the books, including the $3.25 paid by Mr Irving, but which had not been credited by Mr Gilbert. The Insurance Co of course refuse to repay Mr Irving.

It being but just that Mr Irving should have his money returned with Interest, the Street Commissioner would recommend that a Warrant be passed in favor of John M Irving for $3.25 with the Interest thereon from 3d November 1818.

Which is respectfully submitted

John McComb, Street Commr

Which was approved and a Warrant directed to be reported.

The Committee on Assessments on the petition of James W. Lent and others—reported.

The Committee on Assessments to whom was referred the petition of James W Lent and others, who were assessed for building the Bulkhead, extending the public sewer, and cleansing the same at the lower end of Broad Street, praying that a new assessment may be ordered, on the ground that the present one was unjustly and unequally laid, as but a small number of those who are equally benefitted, are included in said Assessment.

Report,

That on examination of the case, your Committee are of opinion that the objections raised by the petitioners are reasonable and just, and they are induced to believe that the Assessors would, if they had been in possession of all the facts since disclosed, have made their Assessment somewhat different from that which was confirmed by the Board on the 18[th] September last.

But inasmuch as the assessment has been confirmed, and some part thereof already collected, they are decidedly of opinion that the Corporation do not possess the power of annulling it. In this they are confirmed [442] by the written opinion of the Counsel, annexed to a Report made to the Board by the Committee of Assessments in the case of Colonel Fish on the 26th July 1819. which was accepted and ordered to *to* be filed—of which the following is an extract.

"I have examined the law relative to the case you stated to me, to wit, "Whether the Corporation possess the power of annulling an Ass[ess]ment for regulating a Street after it has been confirmed by the Common Council, and the sums assessed partly collected." and am of opinion, that they do not posses the power.

The whole of the power which they possess upon this subject is derived from the 175 Section of the Act relative to New York.

By this it is provided that it shall be lawful for the Corporation to order and direct that the Streets shall be regulated and to appoint Assessors to assess the benefit upon the neighboring property, and that they after having made such estimate and assessment shall certify the same in writing to the Common Council and being ratified by them shall be binding and conclusive, upon the Owners of the Lots assessed, and shall be a lien or charge on such Lots.

The Act, therefore, so far from investing the Corporation with any power to set the Assessment aside after they have confirmed it, declares expressly that the Assessment shall then be conclusive.

The Committee of arrangement on the petition of John M. Lester reported,

The Committee of arrangement to whom was referred the within petition of John M Lester praying a further compensation for services *for services* as peace officers on the Fourth day of July last, respectfully report that the compensation allowed Mr Lester for himself and the other officers who attended with him on that day is the same as

has been paid by this Board for five years last past for like services: The Committee are, therefore, of opinion that the prayer of the petitioner ought not to be granted. They, therefore, respectfully recommend the following resolution,

Resolved, that the prayer of the petitioner ought not to be granted.

[444] The Street Committee to whom was referred the petition of Noah Brown and others praying that Goerck Street may be opened reported,

The Street Committee to whom was referred the Memorial of Noah Brown representing the injury which he sustains by reason of Goerck Street being fenced in from North to Stanton Street, and requesting to have the same thrown open for his relief, report,

That they have examined by personal inspection, the grievance complained of—That there are two important ship yards thro the center of which Goerck Street runs from Stanton to North Street—That if the Street is now thrown open, it will be a serious inconvenience, if not injury to the proprietors, who are also the sole Owners of the property on both sides of Goerck Street, between Stanton and North Street; neither of whom joins in this request to open the Street—That there is but one house in Goerck Street above Stanton St and that stands on the corner of said street and North Street, the approach to which as well as to the respective Ship yards is thro Lewis Street;

Your Committee are therefore of the opinion expressed in the resolution below.

Resolved, that it is inexpedient at present to *to* open Goerck street from Stanton to North street.

The Street Committee to whom was referred the petition of Isaac Vreedenburgh and others, owners of property on Jones' Street, Greenwich, praying that the said Street may be regulated at the expence

of the owners of property fronting on the Street, and soliciting the surplus ground in the Street to defray the expence of regulating the same. Report,

That they have had the subject matter of the said petition under consideration, but without discovering the propriety of deviating in this case from the usual mode heretofore adopted in regulating the Streets of the City; and that as Jones' Street is not a ceded Street, it is inexpedient, at present, to regulate the same.

Therefore, Resolved, that it is inexpedient to grant the prayer of the petitioners.

The Canal Committee to whom was referred the petition of Messrs Richards & Taylor, requesting permission to run a drain from their Distillery into the Minetto sewer, presented a report granting the privelege solicited, on the petitioners paying a yearly sum for the privelege; Whereupon the report was referred back to the same Commit- [446] tee, with a request that they would consider and report a general Tariff for granting similar priveleges.

The Ferry Committee to whom was referred the petition of the York and Jersey Steam Boat Ferry Company reported,

The Committee on Ferries to whom was referred the petition of the York and Jersey Steam boat Ferry Company, Report, that the said Company received from the Corporation a lease of the Ferry from Cortlandt Street basin to the City of Jersey. dated 16th April 1811 for 18 years from 1st day of May 1812. and that by the terms of the lease, they are required to keep upon the said Ferry two steam ferry boats, in addition to sail and row boats. Their present request is that they may be allowed to substitute a horse-boat in place of one of the Steam ferry boats.

This request your Committee think it adviseable to grant, for the reasons suggested in the petition. They believe that the public accommodation will not only not be injured, but will be considerably benefitted, by the proposed change, since it will clearly diminish the frequent necessity of repairs, and since when accident renders it necessary, a horse boat is capable of much more prompt and easy repair than a Steam Boat.

For these reasons, and in consideration of the reduction of *of* expense which the Company will be enabled to make, your Committee are of opinion that the request of the petitioners should be granted, with the proviso, however, that the boat intended to be substituted shall be of suitable size, construction and management.

Your Committee propose the following resolution,

[447] Resolved, that the York and Jersey Steam boat ferry company be allowed to put on the Ferry from Cortlandt Street basin to the City of Jersey, in the place of one of their present Steam Boats, a Horse-boat not less than 70 feet on deck and 45 feet beam, and which shall be propelled by a sufficient number of good horses.

Alderman Allen presented a Law to regulate the appointment of Officers, which was read and the consideration thereof postponed.

The following resolution was presented by Alderman Allen and adopted.

The Finance Committee beg leave to bring before [448] the Board the subject of the debt due the Corporation by the United States Government.

It will be recollected that application was made, during the last Session of Congress to the Secretary of War for the liquidation of this claim, the justice of which was acknowledged, both by the Secretary of War, and the President of the United States, and a promise made, that so soon as the necessary vouchers were produced, and appropriations obtained the amount should be paid.

Your Committee conceive it to be necessary, in order that a speedy settlement may be had, to send an authorised agent to Washington with such vouchers and explanations as the case may require; and they,

therefore request of the Board the necessary powers by proposing the following resolution.

Resolved that the Committee on Finance be authorised to appoint a person to repair to the seat of the General Government with such Vouchers and explanations, as may be deemed necessary to obtain a liquidation of the debt due the Corporation by the United States.

Provided, that the expence of such mission shall not exceed the sum of two hundred dollars.

An account rendered by J. L Bell Sheriff for services rendered by Officers attending Court was referred to the Finance Committee.

The Committee on the petition of Cornelius J Bogert presented the following report and resolution, which were approved.

The Committee to whom was referred the petition of Cornelius J Bogert and others. Report,

That the petitioners state that they are proprietors of Lots between Peck's Slip and Crane Wharf and fronting on South street and front Street, which Lots were conveyed by the Corporation in 1792 to Ann Byvank.

That the locations made by Ann Byvank, and the other [463] Grantees of the Corporation, were directly in front of their respective properties on the North side of Front street.

That upon the representations of the Street Commissioner, that there was land enough to satisfy all the grants if the Grantees would consent to alter their locations, and if Beekman Street should be continued to the river, the petitioners had removed their locations further west, but that the persons holding land adjoining had refused to follow their example, unless Beekman Street should be extended as above mentioned: by reason of which the petitioners had lost three feet of ground.

That two plans for extending Beekman Street had been before the Corporation, according to one of which the continuation of the Street would be crooked; but according to the other nearly in a straight line with the old part of the Street.

And the petitioners pray that the latter plan may be carried into effect, or that such other relief may be afforded them as the nature of their case may require.

The Committee find that the Corporation had a perfect title to all the land conveyed to the above mentioned Grantees, and that those grantees or those holding under them are now in the actual occupation of more land than is contained in their grants, but that some of them have encroached upon others, so that the lines of several of the lots as now possessed, are not conformable to the grants.

If the petitioners have voluntarily relinquished any land belonging to them, or have lost it by lapse of time and adverse possession, the Corporation are certainly not bound to compensate them for their loss.

The advice of the Street Commissioner that all the Grantees, or those claiming under them should so alter their locations, as that each [464] should have possession of his own quantity could have no compulsory operation, and the complaint of the petitioner, that tho' they have complied with this advice others have not, should be addressed

to the persons who refused compliance, and not to the Common Council, who have no power to compel it.

The Committee cannot perceive that the Corporation by any act of their own, or of their officers have incurred any obligation to prevent or to remedy the incroachments made by the Grantees upon each other.

The extending of Beekman Street, and the manner of doing so, are subject to be acted upon as public convenience, and not as private interest may require.

When it was determined to erect a new Market at Crane Wharf, it became very properly a part of the plan to extend Beekman Street, in order that a convenient Avenue to that Market might be opened.

But it now becomes proper to enquire whether, since the design of erecting a Market has been abandoned, the advantages of extending the Street will ballance the expence.

From an estimate prepared, at the request of the Committee, by the Assistant Street Commissioner, it appears that the expence of extending the Street on the crooked plan will be about $36.000. and on the straight plan $66.000.

That one third of the value of the buildings which will probably be assessed on the Corporation will amount on the crooked plan to $4000, and on the straight plan to $10.000.

The Committee are averse to the crooked plan.

[465] It, indeed, affords an additional opening to the river, but affords no other advantage to the public. It will add nothing to the beauty of the City, and very little to the value of the property, which must bear the burthen of paying for it. If the Street is to be extended they prefer the straight plan, and such, they believe, is also the opinion of most of the proprietors interested in the measure.

But since the abandonment of the Market, the Committee think the measure no longer necessary, and that it is more costly than useful. They, therefore, recommend the following resolution.

Resolved, that it is not expedient to comply with the prayer of the Petitioners.

The Finance Comittee on the communication of the Street Commissioner on the subject of certain Lots sold for taxes and Assessments, presented the following Report and resolutions,

The Finance Committee to whom was referred a *a* communication from the Street Commissioner on the subject of certain lots sold for the payment of sundry taxes and assessments Report, that in order that the subject may be properly understood by the Board, it appears necessary to state, that at the solicitation of the Common Council, the Legislature passed an Act on the 26th March 1819, authorising the Corporation to take possession [466] for the benefit of the owner, of any lands sold by them for the payment of taxes or assessments, after the term for which they were sold should have expired; provided, after due notice being given, the said lands should not be claimed by the rightful owner thereof. In pursuance of this law the Street Commissioner advertised, on the second of December 1819. The lots in the annexed Schedule, notifying the owners that the time for which they were sold had expired, and requesting them to appear and take possession of their respective premises.

Several of these lots have been claimed by the persons in possession; but the Committee are not informed whether any sufficient title has been produced. Others have been sold by the persons holding the lease of the Corporation, and others, it is believed are in the possession of the original purchasers at the Corporation Sale. In order that this subject may be duly attended to by the proper officers of the Board, and that the measures necessary to be pursued may be pointed out and enforced, the Committee beg leave to propose the following resolutions.

Resolved, that after the expiration of the term for which any lots of land have been or may be sold for taxes or assessments, the Street Commissioner shall cause public notice to be given to the owners of the same to appear and take possession.

Resolved that upon any person producing a certificate to the Street Commissioner, from the Counsel of the Board, that it satisfactorily appears to him, that such person is the Owner of any such lot, he shall, thereupon, be permitted to take possession of the same.

[467] Resolved, that the Counsel be authorised, if any person claiming, or having possession of any such Lots, shall refuse to surrender, or exhibit a good and sufficient title to the same, to adopt legal measures for the purpose of ejecting such person from the premises.

Resolved, that after the expiration of the term during which the

law requires that such notice shall be published, the Street Commissioner shall report to the Board all the lots which then remain unclaimed.

Resolved, that the Comptroller, under the direction of the Committee of Finance, shall, thereupon, proceed to make such disposition of said lots as is authorised by the Act, and is deemed for the best interest of the owner.

Resolved, that the Comptroller shall keep a regular account of all taxes, assessments and expenditures on such lots, and also all monies received on account of the same.

Resolved, that the Street Commissioner be instructed to inform the persons occupying any of the lots designated in the annexed schedule, that they must forthwith produce to the Counsel their title to the same: otherwise that legal measures will be pursued to eject them from the premises.

Respectfully Submitted.

[468] The same Committee on the account of G Sickels, Reported

The Finance Committee to whom was referred the account of Garrit Sickels keeper of the City Prison report,

That they have had under consideration the aforesaid accounts. have been unable to ascertain by what authority the charges are made against the Corporation, as there is no Statute within the research of your Committee authorising any fees to be charged by the said officer, and the ordinance of the Common Council on the subject of the City prison and Bridewell, only provides for the appointment of a keeper, the fixing of his salary, and the duties he is bound to perform.

By the Act regulating the fees of the several officers of justice, thee fees of the Sheriffs for persons committed to their custody, are designated, and are in amount the same as those charged to the Corporation by the Keeper of the City Prison: but it does not appear to your Committee that any warrant is given said Keeper for making any such charges; as he is not a fee, but a salary officer: And by the Act concerning Sheriffs, a distinction is made between the duties and priveleges of the Sheriff of New York, and those of the other

Counties; evidently for the purpose of preventing any misunderstanding, as to the custody of those committed for crime, between the Sheriff and the Corporation, under whose controll by a subsequent Act, the City Prison is placed.

By an Act relative to Jails, the Bridewell or City prison, is placed under the charge of the Corporation, with authority to appoint a Keeper; and pursuant to such authority an Ordinance has been passed by the Common Council on that subject.

By an Act relative to the Alms-House, Bridewell, and [469] City Prison, the Penitentiary and Bridewell are placed under the charge of the Corporation, and the same provisions are made to operate on the Keepers of both establishments; if therefore, the Keeper of the City Prison has any authority for the charge of fees, the Keeper of the Penitentiary has it also: but your Committee are of opinion, that neither of these Officers possess this authority, and that the Legislature intended, when they gave the Corporation the controul of these establishments, and authorised them to appoint the Keepers, that they should also fix and determine their compensation.

Your Committee beg leave further to state that, as far as they have been able to ascertain the fact, the commencement of these charges against the Corporation, by the Keeper of the City prison, was on the first day of May 1818. for by a recurrence to the Minutes of the Board of Supervisors for 1819. it appears, that the accounts of Garrit Sickels were referred to a Committee, of whom Alderman King was chairman, who reported to the Common Council, in January 1820. that there was due Garrit Sickels up to the first of November 1819. the sum of 858 Dollars, and a Warrant was ordered to be issued, accordingly: and that a like Committee of the present Board, of whom Alderman Tooker is Chairman, reported that there was due him up to May 1820 the sum of $237.^{75}/_{100}$ for which a warrant was issued, and the Bill now before your Committee amounts to $336 making a total of $1467.^{75}/_{100}$, avaraging nearly six hundred dollars per annum, exclusive of his salary. Your Committee are informed also, that in addition to these sums, the Keeper receives in Cash, on the discharge of some of the prisoners 75 Cents from each of them; but they have not been able to ascertain the amount of his receipts from this source [470] nor whether any other emoluments are derived from his office as Keeper of the City Prison.

Your Committee presume that the Committee of the Supervisors who reported on the former Bills of M^r^ Sickels were governed in their decisions altogether by precedent, as they have quoted no authority for

justifying said charges; and, as in two instances, at least, the Common Council have sanctioned the legality of the Bills presented to them, it is the opinion of your Committee that the Board cannot with propriety refuse the payment of the one now before them; but they are decidedly of opinion, that hereafter no charge of the kind alluded to, ought to be allowed.

The Committee would recommend, however, that the salary of the Keeper of the City Prison be raised to the same amount as that of the Keeper of the Penitentiary, and they, accordingly offer the following resolution. Resolved,

That the Keeper of the City Prison and Bridewell, be allowed an annual salary of $800 payable quarterly, from and after the first Instant, and that hereafter he be allowed no fees for the prisoners put under his charge.

Resolved that the said Keeper shall render to the Comptroller a quarterly report of all money received by him as keeper of the City Prison and Bridewell, whether as fees or other emoluments derived from his said Office, and shall pay the said monies into the City Treasury.

Resolved, that the Counsel prepare an Ordinance conformable to the aforegoing resolutions.

Resolved, that a Warrant pass in favor of the Keeper of [471] the City Prison for Three hundred and thirty six dollars.

[474] The Street Committee on the petitions of Dominick Lynch and others to have White Street opened—of the Inhabitants of Desbrosses Street that Watts Street be raised—of Judah Hammond for altering pavement at the intersection of Bayard and Orange Streets—of Samuel Ackerly and others respecting Higgins and Parks contract for Lombardy Street—presented the following reports and resolutions.

The Street Committee on the petition of Dominick Lynch, reported.

That M[r] Lynch is the proprietor of all the property on each side of the contemplated Street, from Collect Street to Orange Street, with the exception of Lots, fronting on Orange Street, upon two of which last mentioned Lots dwelling houses have been recently erected, both of which must be removed if the improvement prevails. These buildings, it is true, are not built of very costly materials, but their removal would very considerably enhance the expence of opening the Street.

Orange Street is not now considered a great thoroughfare, nor is it believed that intersecting it with another street, nearly equidistant from Pump and Bayard Streets, would make it more so; hence the owners of property on that Street could not be much benefited; in-

deed it is evident to your Committee, by inspection, that individual emolument would greatly overb[al]ance the public convenience which this measure would accomplish.

But Mr Lynch having offer'd to convey to the Board, for this purpose, the ground thro his premises, gratis, your Committee think he may be indulged in his views, provided he will, in addition to [475] the gratuitous cession, also consent to bear his proportion of the assessment for opening the Street—They accordingly offer the following resolutions,

Resolved, that this Board will accept from Dominick Lynch, a cession of so much ground through his premises, as may be required for opening and extending White Street from Elm Street to Orange Street.

Resolved, that when such session shall have been made by Mr Lynch and he agrees to accept the conditions embraced in the above report, the Counsel of the Board be authorised and directed to apply to the Supreme Court in the usual manner for the appointment of Commissioners to open and extend White Street from Elm to Orange Street.

The same Committee on the petition of Samuel Ackerly and others reported,

But in order to ensure attention to the business, they propose the *the* following resolution.

The Committee on Public lands and places on the petition of sundry owners of Hackney Carriages for abolishing the public Hack Stands, presented a Report which was not agreed to.

The Police Committee on the petition of Benjamin Watson reported,

That Mr Watson states in his petition that he has this season performed the whole of the duties required of him by said ordinance

without the assistance hitherto allowed him. That in doing this there has been a great saving to this Corporation. That the amount received by him for dogs register'd this season is $576. and his Commissions out of that sum is $172.80. That he does not think his Commissions are a a compensation for his services, and he prays that he may be allowed to retain for his own use the balance of $403.$^{20}/_{100}$ now in his hands.

Your Committee are satisfied that the course pursued by Mr Watson in discharging the duties required of him by this ordinance has been judicious. Hitherto the Board have found it necessary to employ Peace officers at a considerable expence to aid and assist the Register in the discharge of his duty, and in some instances the [478] Corporation have found it necessary to apply to the Chief Magistrate to interfere. This season every thing has been done by the Register himself, without assistance and without expence to this board and as your Committee believe in a manner much more satisfactory to the public, and yet without any neglect of duty.

In the estimate for this year laid before this board by the Finance Committee, the probable expence of carrying this ordinance into operation was estimated at $500 and this estimate was made on the expenditure of the preceeding years.

The amount received by Mr Watson does not appear to your Committee more than a reasonable compensation for his trouble, and they think the prayer of his petition ought to be granted. They beg leave to offer the following resolution

Resolved that Benjamin Watson the petitioner above mentioned be authorised to retain the balance in his hands, accordingly to the prayer of his said petition.

The same Committee on the subject of swine running at large in the City, presented the following report and resolution.

The Police Committee to whom the subject relative to swine running at large in this City was referred, Report,

That this subject has received their particular attention, and the Committee are induced to believe that no plan can be adopted so efficient, and yet at the same time so free from the objections hitherto raised against the laws passed by this Corporation on this [479] sub-

ject, as that of forfeiting the animals found running at large to the use of the poor of this City.

On consulting the Counsel of this Board the Committee find that the Corporation do not possess the power of passing and enforcing such an Ordinance, and that in order to effect this purpose Legislative assistance must be obtained. Under these circumstances your Committee beg leave to recommend that an application be made by this Board to the Legislature of this State, without unnecessary delay, for power to forfeit all Hogs or swine found running at large in any Street, Alley or Lane in this City. His Honor the Mayor stated that he had received a communication on the subject of lighting the City with Gas: whereupon he was requested to refer the same to the Committee on Arts & Sciences.

On Motion of Alderman Tooker the report and memorial to Congress on the subject of ceding to the City the Fort called Fort Clinton and the ground was called up, read and the consideration thereof postponed

On Motion of Alderman Allen, the report of the Comittee on Wharves, and Ferry Committee on petition of David Dunham and remonstrance of Marinus Willett, was called up and read.

The Committee on Wharves, piers and Slips, together with the Committee on Ferries to whom was referred the petition [of] David Dunham, and also the remonstrance of Marinus Willett against said Petition, report

That the object of M^{r} Dunham is to consolidate the Ferries now running from the foot of Delancy and Grand Streets to Long Island into one establishment, and as a consideration for the great expence he has [481] incurred in continuing said Ferries in operation, he asks an extension of his lease for seven years without rent; and Colonel Willett remonstrates against the removal of the Ferry from Delancy Street, because in his opinion it will injure the property he owns in that vicinity, and because to induce the establishment of said ferry he conveyed to the Corporation a lot of ground for its benefit.

In deciding on this subject it has been the object of your Committee to endeavour to promote the public convenience, and, at the same time, to avoid encroaching on the rights of individuals.

The public interest will be promoted in the opinion of your Committee, by consolidating the ferries alluded to at the foot of Grand Street; inasmuch as the slip at the foot of Delancy street may then be appropriated to the use of Market and Wood boats; an accommodation much wanted, and for which the Board has been more than once petitioned by the Inhabitants of that part of the city: and at the same [time] the convenience in crossing said Ferry will be much increased by both boats, starting from one point instead of two as at present.

The Committees are of opinion also, that by adopting this measure, the property in the vicinity of Delancy street will lose none of its value, as it is presumed a public slip in its neighbourhood will be equally as beneficial as a ferry: but should Colonel Willett think otherwise, they would respectfully recommend, that the Lot conveyed by him to the Corporation should be relinquished by the Board, in order that no

cause of complaint on his part may remain. By this arrangement, then, Mr Dunham will be released from the payment of the rent of one of the Ferries, and the Corporation will be relieved from the heavy expence of providing a public slip for that part [482] of the City, and at the same time the accommodation of the Inhabitants in that vicinity will be better in all respects than at present, and thus the interest of all the parties be promoted.

The following are the terms recommended by your Comittee for the adjustment of this matter with Mr Dunham.

First. That he be permitted to surrender the Lease for the Ferry at the foot of Delancy Street, retaining the right given to him during the term of said lease, to the Wharves and fixtures at Williamsburg.

Second. That the term of his lease for the ferry at the foot of Grand Street be extended to twenty one years from the first day of May next, and that the pay for the first seven years 75 dollars per annum, and for the second seven years 150 dollars per annum, and for the last seven years 250 dollars per annum in the usual quarterly payments.

Third. That the said Ferry shall be from Grand Street to Morril's point, so called, the place where the boat now lands on Long Island; but he be permitted to run one of the boats to Williamsburg, if public convenience, or his own Interest warrant the measure.

Fourth. That the Corporation will not establish any additional ferry, during the term of Mr Dunham's lease, between Grand Street and Twelfth street to the North, and between Grand street and the limits of Walnut street ferry to the West.

Fifth. That he be bound to keep both Team Boats in operation, always have in readiness two row boats to be used in any emergency.

Sixth. That the Slip at the foot of Delancy street be delivered over by Mr Dunham to the Lessee of Public Wharves and Slips, and [483] that it be appropriated to the use of Wood and Market boats.

The Committee beg leave to propose the following resolutions.

Resolved, That the Counsel be instructed to prepare a lease to David Dunham in conformity with the recommendations contained in the foregoing report; said lease to be in lieu of the Leases now held by said Dunham for the ferries at the foot of Delancy and Grand streets.

Resolved, That the Comptroller be authorised to direct a quit claim to be prepared in favor of Colonel Willet for the lot of ground con-

veyed by him to the Corporation at the foot of Delancy street, provided he shall require such re-conveyance.

The Attorney presented a report of complaints made to him of infringments of certain laws of the Corporation, which were directed to be referred to the Committee on Public Offices.

The Street Commissioner presented a communication relating to the assessment on the Harlaem Commons which was referred to the Finance Committee with powers.

He also presented an ordinance for a Well and pump in Walker Street, and an ordinance for paving side walks in Harman Street, which were passed, and Ab^m Baudowine, John Brower and John Bedient were appointed Assessors in the former, and John Targee, Abraham Bloodgood and John Brower in the latter.

He also presented an Assesment for paving Collect Street which was confirmed and Noah Jarvis appointed Collector, and an Assesment for regulating and paving the third Avenue, which was referred to the Committee on Assesments.

The Street Commissioner on the subject of the side walks in Harman Street presented the following communication, viz

[6] The Street Commissioner begs leave to state to the Hon^l the Common Council the paving the Carriage[way] of Harman Street is nearly completed, but that the street is almost impassible to foot passengers owing to the side walks being in an unregulated state, and altho' the owners and occupants have been duly noticed yet many of them neglect or refuse to regulate and pave their walks.

The undersigned would suggest the propriety of passing an ordinance directing the sidewalks in Harman Street to be regulated and paved.

Respectfully submitted,

(signed.) John M^cComb S^t Comm^r

Which was approved, and he was directed to report an Ordinance as suggested in his communication.

[7] The Street Committee on the subject of removing the fence in front of D^{r} Mitchell's church presented a report which was read and laid for consideration.

The Canal Committee on the complaint against Thompson's Distillery presented the following report and resolution which were agreed to.

The Canal Committee to whom the annexed petition was referred—stating that the Water from Thompson's distillery flows into their cellars, Report, that they have examined the subject, and are of opinion that there is no way to abate the nuisance complained of, but by conveying the water from the distillery into Cherry Street, which may be done at a small expence to the proprietors, as the wooden drains in James Street and Batavia Street thro' which the distillery water has hitherto run, is very much decayed and choaked up, so as to turn the course of the water into the adjoining cellars. To clear out and rebuild these drains at this season of the year would be attended with great inconvenience & expence as a sewer of durable materials ought to be built in those streets.

They, therefore, beg leave to offer the following resolution, Resolved, that the Street Commissioner be instructed to direct M^{r} Thompson to stop from running the waste water from his Distillery

into the drain in Batavia Street, and to convey said water into Cherry street that it may pass off on the Surface of that street.

[8] The Street Committee on the petition for paving first Street, Reported.

The Committee to whom was referred the petition of Samuel Martin and others, praying that first street may be paved, Report, That the scarcity of materials and the lateness of the season render it inexpedient to commence the work this fall, but that the same ought to be done as early in the ensuing Spring as practicable.

They therefore beg leave to offer the following resolution.

Resolved, that the Street Commissioner prepare and present an *an* Ordinance for paving first street from the Bowery to the first avenue the work to be completed on or before the first day of June next.

The same Committee on the petition of sundry Master Builders respecting the law regulating the building of stoops—reported.

The Street Committee to whom was referred the annexed pe[ti]tion from a number of master builders and others, praying an alteration in the law relating to Stoops so as to permit them to extend further into the Street, Report,

That they have given the Subject due consideration, and are fully of opinion that it would be inexpedient to make the alteration proposed by the petitioners. The present projection of stoops, cellar [9] doors and enclosures that are now allowed to be made on the Streets, are more than is consistent with public convenience; and though a quarter projection would accommodate some persons, it would prove a serious injury to many citizens, especially in the trading streets.

Therefore offer the following resolution,

Resolved, that it is inexpedient to grant the request of the petitioners.

Asa Mann.

The same Committee on the communication of the Street Commissioner respecting houses that encroach on the Streets presented the following report and resolutions,

The Street Committee to whom the annexed communication from the Street Commissioner was referred. Report,

That they have personally viewed the situation of these houses and are fully of opinion they ought to be removed.

For which purpose they offer the following resolutions.

Resolved that the Street Commissioner be instructed to notify John R Livingston to remove his house that now encroaches on little Water Street from off the same, on or before the first day of May next.

Resolved, that the Street Commissioner be instructed to notify Isaac Halsey to remove his buildings back to the line of Broome Street as soon as he shall receive notice to that effect from this Board.

[10] Which were agreed to. Second resolution amended, and the Clerk directed to serve a copy of resolution on Mr Halsey.

The Finance Committee on the subject of the accounts of James L Bell Sheriff reported,

The Finance Committee to whom was referred an account rendered by James L Bell, Sheriff of this County, for services rendered by the Constables and Marshalls in attending the Courts of Common Pleas and General Sessions of the Peace for the terms of August, September and October, Report,

That they have examined said account, and compared it with the Vouchers produced, and find the amount to agree, being 1239 dollars 50 Cents.

Your Committee in investigating this subject, have been lead to a careful examination of the several laws of the Legislature relative to these additional expences brought on our Citizens; and altho' the charges made by the District Attorney and the Clerk of the Sessions, are not now subjects before the Committee, they nevertheless beg leave to state that in their opinion, the receipts of these officers are exorbitant, and that the claims of the latter for any sum beyond the amount of the fines and forfeitures received, are not sanctioned by the Law. It appears from the accounts on file, that the amount of the Bill rendered by the District Attorney for one year is 5164 Dollars and 65 Cents, and the amount of that rendered by the Clerk is 5209 Dollars and 76 Cents; and the amount drawn from the Treasury from

May last to November Instant, as charged on the Comptroller's books under the head of Court of General Sessions of the [11] Peace, is 12,041 Dollars and 26 Cents.

This subject is viewed by your Committee as one of great importance to our City, and they hope it will not be lost sight of by the Board, but that measures will be adopted to lay it before the Legislature, and by that means obtain an alteration of the Law more favorable to the finances of the Corporation.

The law under which the present bill of the Constables and Marshalls is claimed, was passed on the 5th of March 1819, and authorises the Sheriff to summon so many Constables and Marshalls as the Court, or the presiding Judge thereof, shall direct: and that they shall be allowed One dollar and fifty cents p^{r} day, instead of the compensation now allowed: to be audited and paid in like manner, as by the existing laws relating to the City and County of New York.

The Committee have been unable to discover any Law authorising the audit and pay of these accounts, except the one passed the 10th day of April 1813, which is only so far repealed as to encrease the compensation of the officers. This law provides that the Sheriff of this City shall pay out of the surplus monies arising from fines and penalties by him collected, to each of the Constables and Marshalls of said City the sum of 75 Cents for each and every day they shall respectively attend any of the Courts of the said City or State to be holden in said City, upon the certificate of the Clerk of such Court that they have duly attended the same.

Although your Committee cannot perceive that the Corporation are bound by the foregoing laws to pay from the City Treasury the bills of these officers, they have nevertheless concluded, under the consideration that no provision is made for their compensation, and the precedent already [12] established by the payment of former similar bills to recommend that a Warrant pass for the amount, and they beg leave to propose the following resolution accordingly.

Resolved, that a Warrant be reported at the next meeting of the Board for Twelve hundred and thirty nine dollars and 50 Cents in favor of James L Bell Esquire for the payment of the annexed bill.

Respectfully submitted,

Report and Resolution agreed to.

The same Committee on the petition of George Strite and Right Carpenter presented the following.

The Finance Committee to whom was referred the petition of George Strite and Right Carpenter, praying for an extension of the term of their respective leases, Report,

That George Strite holds a Lease for five Lots of Common Land at the annual rent of 150 dollars, the term of which lease will expire on the first day of May 1823.

And Right Carpenter holds a lease for a house and lot fronting on Chatham Street at the rent of 150 dollars per annum, which will expire on the first day of May 1825.

The Committee find on examination, that a large proportion of the leases for common land lots will expire on the first day of May [13] 1823. and as they believe the precedent of renewing the lease of Mr. Strite, would induce numerous similar applications, and would tend to prevent any general arrangement in disposing of this property to advantage, when the leases shall have expired, they have concluded to report unfavorable to the prayer of the petition.

The same objections, in a measure, will apply to the application of Mr Carpenter, as several leases for lots in the City, will expire on the day with his: besides which the Committee consider it an unfavorable period for extending the leases of the public property, particularly, such as have become valuable from their situation in the centre of the City, and when there is no just claim whatever on the Corporation for such indulgence.

They, therefore propose the following resolution.

Resolved, that it is inexpedient to grant the prayer of the respective petitioners.

Respectfully submitted,

The Finance Committee on the petition of George Janeway presented the following report and resolutions,

The Finance Committee to whom was referred the remonstrance of George Janeway Esquire, Report.

That Mr Janeway states, that the rear of several lots fronting on Pearl, late Magazine Street, and leased by the Corporation to sundry [14] persons, is his property, and that he is ready to prove his title,

and proposes that the matter in dispute be adjusted by a refference to arbitrators.

The Committee have learned that this subject has been a matter of difference between M^r^ Janeway and the Corporation for several years past, owing, as they are lead to believe, to the diversity in the several surveys which have from time to time been made of the property in question; and in their opinion no settlement can be had, satisfactory to the parties, except by Arbitrators, mutually appointed and duly authorised, and whose decisions shall be binding and conclusive on the parties concerned.

The Committee, therefore, propose the following resolutions.

Resolved, that the matter of difference between George Janeway Esquire and this Corporation be referred to Arbitrators, with power to appoint an umpire.

Resolved, that a mutual Bond be executed by the parties, binding them severally under a penalty to abide the decision of the persons appointed as Arbitrators.

Resolved, that Ogden Edwards Esquire be, and he is hereby appointed on the part of this Corporation one of the said Arbitrators, with authority, in conjunction with the person appointed on the part of M^r^ Janeway to adjust and equitably settle the matter in dispute as aforesaid; and also to arrange and direct such preliminary measures and surveys, as may be deemed necessary to insure a speedy settlement.

[15] The Ferry Committee on the petition of Abel Sammis, reported

The Committee on Ferries to whom was referred the petition of Abel Sammis, praying a lease for *Hurgate* [Hell Gate] ferry, Report, that the petitioner received a Lease from the Corporation on the 1^st^ April 1819. for one year which expired on the 1^st^ April 1820, during which time he ran, on said Ferry, two row boats, and part of the time a Scow, and still continues to run the two row boats, having abandoned the Scow, which has become totally unfit for use.

The petitioner will engage to put on said Ferry a Horse Boat, to be propelled by four horses, on a lease of fifteen years at the average

rent of One hundred and fifty dollars per year; provided the Corporation will be at the expense of erecting convenient piers, on both sides of the Ferry, so as to accommodate a Horse boat—build a new stable on the *on the* Long Island side—build an addition to the stable on the New York side, and repair the buildings belonging to said Ferry, on both sides.

Your Committee having duly considered the business, are of opinion that the expense of erecting the Piers, building the stable, and making the repairs necessary to accommodate a Horse boat, will be so great (probably not less than from three to four thousand dollars) that the Interest on the cost of improvement will exceed the amount of rent offered by the Petitioner.

Your Committee are, therefore, of opinion, that it is not expedient to grant the petitioner a lease on the terms offered by him for running a Horse boat. Your Committee would therefore recommend the adoption of the following resolution, Resolved.

that a Lease be granted to the petitioner for three years, from the 1st April last at seventy five dollars p^{r} year, to be expended by him on the Wharves and buildings belonging to said Ferry, on both sides [16] of the river, under the direction of the Street Commissioner, provided that he shall, at all times, keep on said Ferry two good row boats, sufficiently manned to carry passengers &^{c} across said Ferry.

Resolved that the Counsel of the Board be instructed to prepare a lease, in conformity to the tenor of the above resolution.

Respectfully submitted,

The Committee on public Offices on the petition of Alexander Frazer, for relief from penalty incurred under law regulating weights and Measures, reported,

The Committee on Public Offices,

To whom was referred the petition of Alexander Frazer, praying to be releived from a suit now pending for a violation of an Ordinance, regulating Weights and Measures, respectfully report that they have had the same under consideration, and are of opinion that the prayer of the petitioner ought to be granted, inasmuch as M^{r} Fraser has confess'd the violation, and since complied by having his Measures sealed.

Your Committee are of an opinion that the intention of the Board in adopting their Ordinances was not for the purpose of speculating

but on the contrary for the protection of the Citizens; and when a willingness is observed by them to comply, your Committee do believe that a corresponding disposition ought to be manifested, and would therefore offer the following resolution,

[17] Resolved, that the Attorney of the Board be authorised to discontinue the proceedings against Alexander Fraser on payment of costs.

The Committee on public Offices, to whom was referred the petition of Joseph Moore, Grocer, Respectfully Report,

That they have investigated the subject, and find that M[r] Moore did obstruct M[r] Simpson while doing his duty as sealer of weights and measures. But, as your Committee believe, the hostility shewn to M[r] *shewn to M[r]* Simpson arose from a mistaken idea that there was no other Inspector but the one appointed by the State: as soon however as M[r] Moore found out his mistake, he immediately went in pursuit of M[r] Simpson, and soliceted him to return, and inspect his weights and measures, which M[r] S declined. Your Committee would not wish to be understood that they believe M[r] Simpson acted improperly in not returning, but on the contrary, when they contrast the Reports made to the Attorney by M[r] S. with those of his predecessor, all doubts are dispelled as to the want of discretion.

Your Committee believe M[r] Moore to have violated the Ordinance unintentionally, and would, therefore, beg leave to offer the following resolution,

Resolved, that the fine incurred by Joseph Moore, in [18] refusing to exhibit his weights and measures be remitted on payment of costs

Respectfully submitted,

The Police Committee to whom the petition of Richard Shields was referred, Report,

That Mr Shields states in his petition that he is a licenced Cartman, and has been unjustly fined for purchasing fire wood without authority, and hawking the same through the City.

Your Committee have heard, and examined the case, and from the general character of the petitioner, as well as from circumstances attending this transaction they are of opinion the petitioner ought to be releived on payment of costs, and they offer the following resolution.

Resolved, that a Warrant issue in favor of the petitioner Richard Shields for Twenty dollars, being the balance of the penalty paid by him, after the payment of the Costs above mentioned.

The following Resolution on the subject of enlarging the Park was presented by Alderman Swartwout.

Resolved, that a Committee be appointed to consider the propriety of enlarging the Park, by adding to it the triangular block, between Beekman and Ann Streets, Chatham Row and Nassau Street; to estimate the value of the buildings thereon, and the probable amount which the improvement would cost. What part of the expense thereof, could with propriety be assessed on property to be benefited thereby, on and contiguous to the square, and the probable amount that would be assessed on this Board, should the improvement be adopted.

Agreed to, and the following were appointed a Committee to carry into effect the object of the resolution. Alderman Swartwout, Mr Recorder, Alderman Tooker, Mr Town, Mr Depeyster.

[20] The following Resolution presented by Alderman Allen was agreed to. Resolved that the Comptroller, under the direction of the

Committee on Finance be authorised to borrow on the credit of this Corporation, a sum not exceeding Forty thousand dollars, and at an Interest not exceeding Six per Cent per Annum.

The Board then proceeded to enact the Laws revised by the Counsel, and, after passing and amending a certain portion of them, ordering the law regulating the ringing of Bells in this city to lie over, the consideration of the remainder was postponed, for the present.

Mr Hammond presented the following resolution, on the subject of altering the Charter, as respects the duties of first Judge &c

Resolved, that notice be given in the Newspapers, employed by this Board, as by law in such case is required, that this Board will apply to the *the* Legislature at their next session, so to amend the Charter of this City, and the Statutes relating thereto, that the Mayor of the said City may be relieved from the performance of Judicial duties as first Judge of the several Courts of law in this city, and so as that a first Judge be appointed in and for the Court of Common Pleas in the said City, and that the Recorder may preside in the Court of Sessions therein. Which was carried.

Resolved, that it be referred to the Committee on Laws to report, from time to time, to this Board such laws and ordinances of the Common Council, as they may think proper to be published.

His Honor the Mayor informed the Board that he had convened them in consequence of the Counsel having submitted the draft of a return to the Certiorari, directed to the Corporation by the Supreme Court, upon the application of Herman LeRoy and others, requiring a return of all the proceedings which have taken place, relating to the Common Sewer thro' Canal Street, & to taking the ground for making

Canal St it being necessary that the return should be signed by the Mayor, and that the Common Seal should be affixed to it,

[25] Whereupon, resolved, that a return in due form be made, by the signature of the Mayor, and annexing the Common seal of the City.

A petition of Catharine Lawson to be appointed Matron of the Alms House in the place of Mrs Drake, deceased, was referred to the Commissioners of the Alms House.

The following communication was received from William Slosson and the Counsel of the Board, on the subject of the ground near Fulton Slip, heretofore intended to have been taken for a market, and whether the Board have power to sell the (ground intended for the erection of a Market, near Fulton Slip) lands in fee simple when the Title thereto shall have been obtained.

Opinion.

It having been referred to Counsel, by an Order of the Common Council "to examine the Statutes on the subject of the ground near Fulton Slip, heretofore intended to have been taken for a market, and to report to the Board his opinion, whether the Board will or not have power to sell the said lands in fee simple, as soon as the title thereof shall have been obtained, in order to reimburse the expense of acquiring the same title, by virtue of the Statutes now in force on this subject:" We have the honor to submit to the Board our opinion in the premises.

It appears that two successive acts of the Legislature have been passed on this subject, the first on the 29th March 1816. and the second on the 14th March 1817. The preamble to the first act recites that the Corporation were desirous to become possessed of the premises, for the purpose of erecting thereon, an extensive and commodious [26] public Market and with the right of converting and disposing of the said Lands and premises for other public purposes, or otherwise whenever they or their Successors may deem the continuance of the market there unnecessary. This Act then prescribes the mode of assessing the damages to the proprietors by Commissioners, upon the confirmation of whose report, the Mayor, Aldermen & Commonalty of the City of New York, were to become and to be seized in fee simple absolute of the Premises, and might take possession without suit. This Act contains no provision for the Assessment of benefit to the Owners of adjacent property.

The first Act being found inadequate to the purposes contemplated,

a new application was made by the Common Council, upon which the Act of the 14th March 1817 was passed.

The preamble to the Act simply recites, that the convenience of the City requires that the Corporation should become possessed of the premises in fee simple, without specifying any of the purposes to which the property is to be applied. It provides like the former for the Assessment of damages by Commissioners, on the confirmation of whose report the Mayor, Aldermen and Commonalty of the City of New York shall become and be seized in fee simple absolute of the premises. The eighth section provides, that the Common Council in their discretion, may direct the Commissioners to assess the value of the benefit to the proprietors of other property, by and in consequence of erecting upon the premises a public Market, and of removing Fly Market. The Assessment of damages, it is understood, has been made, but that of benefit has not been directed.

The question arising under those acts is, whether the Corpora- [27] tion by taking the property, without assesing on, and requiring from the proprietors of other property the payment of the benefit, take the same subject to a trust to apply the same to the purposes of a Market, or other public use, or are at liberty to sell the same to reimburse the expence of obtaining the title.

As both of these Acts relate to the same subject, and the last embraces the whole matter of the first and superadds additional provisions, we are of opinion that the first Act is thereby repealed; the rule being, as we take it, that Statutes introductive of a new law penned in the affirmative always repeal former Statutes, as implying a negative, (1 Show. 528.) If the first Act be then laid out of view, we conceive that there is nothing in the preamble of the second Act, which imposes on the Corporation the obligation to appropriate the property when acquired to any particular public uses. And even if the first Act may be resorted to to aid in the construction of the second, it can be of little importance, as the continuance of the Market is made to depend on the pleasure of the Corporation, and it would be idle to attempt to enforce a trust against *against* a party who may determine it at his pleasure.

Nor do we think that any obligation to appropriate the property to the use of a Market arises from the provisions of the eighth section of the second Act, unless the Assesment for benefit is actually made upon the proprietors of adjacent property. It is obvious that those proprietors acquire no interest in the property taken, or the uses to which it is applied, distinct from the citizens at large, unless they have

been assessed and paid a distinct consideration. And it is left discretionary with the Corporation to direct or omit such assesment.

These observations lead to the consideration of what estate is [28] by the terms of the Act vested in the Corporation; upon which there appears no room for doubt. It is declared upon confirmation of the report, the Mayor, Aldermen and Commonalty of the City of New York, shall become and be seized in fee simple absolute of the premises. A fee simple absolute is used in contradistinction from a conditional, or qualified fee, and is intended only of an estate which is a pure inheritance free from all conditions or qualifications. The absolute power of alienation is necessarily incident to such an estate, and any restriction of this power annexed to the creation of such an estate would be absolutely void.

We are therefore of opinion, that the Legislature by declaring in express terms the nature of the Estate, intended to vest in the Corporation the absolute power of disposing of the property: and that the Corporation when they shall have acquired the title to the lands, will have the power to sell the same, or any part thereof, as the entire and absolute owners, for any purposes the Common Council may see proper.

(signed.) Wm Slosson,
Ogden Edwards.

Which was read and ordered to be filed

A resolution formerly adopted, directing the Counsel to prepare the draft of a law to be presented to the Legislature, authorising the Board to sell the ground intended for the erection of a market near Fulton slip, was ordered to be rescinded in consequence of the before mentioned communication.

The Counsel informed the Board that the Commissioners [29] appointed by the Supreme Court for the purpose of estimating the value of the ground between Fulton Street and Crane Wharf and between Front and South street and the Wharves and Piers in front thereof, have completed their estimate; And he recommended that a Committee be appointed to examine the same, with power, if in their opinion the estimate exceeds the true value of the premises, to authorise him to oppose the confirmation of the Report of the Commissioners.

Which was referred to the Finance Committee.

The Board proceeded to revise the Laws and Ordinances of the Common Council, and after having made progress therein postponed the same.

Resolved, that his Honor the Mayor be authorised to sign the notice of an application to the Legislature of the State relative to the appointment of a first Judge of the Court of Common Pleas called the Mayor's Court, and that the same be published in the papers employed by the Board, and in the State paper at Albany for six weeks successively.

Lot N° 59. said Street, and praying the same may remain on interest, was read and referred to the Finance Committee with power.

A petition of Ephraim Ludlum, praying the appointment of a Wood Inspector, was referred to the Committee on Wharves, Piers and Slips.

[32] A petition of William King, stating that in 1819. he had been employed by Jacob Warner to build a tenement on Lot N° 265, William Street leased from this Board, that Warner being unable to pay for said building, petitioner had taken the lease, but did not wish to retain the same, and praying relief was referred to the Finance Committee.

A petition of Thomas H Smith for permission to copper his ship the Beaver at the Pier at the foot of Roosevelt Street, was referred to the Committee on Wharves Piers and Slips with power.

A petition of Charles M^cEvers in behalf of the Estate of Elizabeth M^cEvers deceased, praying that the personal Tax assessed on said Estate may be remitted was read and referred to the Committee on Assessments.

A petition of George Lorrillard and others, praying that walks may be laid across Chatham Street from Tryon Row to opposite side Chatham Street, and another across Tryon row between the two corners of said Street was read and referred to the Street Committee.

A petition of Henry Mead, that a Committee be appointed to confer with him, on the practicability of employing the paupers in the Alms House, and criminals in the Penitentiary, in the manufacture of porcelain, was read, whereupon the following were appointed a Committee for the above purpose. viz^t [33] Alderman M^cQueen. Anthony. Townsend. M^r Crane. Emmons.

A petition of Rachel Reed relict of George Reed, a Watchman, praying releif, was read and referred to the Committee of Charity with powers.

A petition of Henry Smith, stating that he is confined in the City prison for a fine incurred for employing a boy under age as a Chimney sweeper; that he has a large family dependent on his exertions for support and praying relief, was referred to the Committee of Charity.

A petition of Joseph N Lord, stating that his lots on Amity Street, in conjunction with another lot on M^cDougal and Amity Streets, owned by some other person, have been assessed for the Common Sewer in Carmine Street, and praying that said Assesment may be apportioned, that it may be determined what petitioner ought to pay, was read and referred to the Committee on Assessments.

A memorial of Samuel R Birch, complaining of the assessment on his property in Leonard Street for paving the intersection of Collect and Leonard Streets. was read and referred to the Committee on Streets.

A petition of John Hitchcock and Lewis Hartman for widening the side walks in Rose Street, was read and referred [34] to the Street Commissioner to carry the same into effect.

A petition of Lewis and Joseph Webb, stating that they had, at their own expense, made Clarkson and West Street—that the erection of the sewer in *in* Clarkson Street has for twelve months past deprived them of the use of said Street, and prevented them from having access to their property to their damage, and praying relief, was read and referred to the Street Committee.

A petition of Peter Wright and others, members of Fire Engine Company N° 24 on the subject of the dismissal from said Company of William Earl, and praying information on what charges Firemen may be dismissed, was referred to the Committee on the fire department and the Chief Engineer with power.

A petition of Leonard Seaman & Co, stating that they have been complained of for selling furniture opposite their store in Vesey street —that several years back they had obtained permission from the Corporation so to do, and praying the Board would grant them the like privelege, was referred to the street Committee.

A petition of Thomas Bridges and others complaining of obstructions in the drain in James' Street, which causes the water to run into their Cellars, and praying the same may be remidied was read and referred to the Canal Committee.

[35] A petition of Abraham K Smedes and others, owners and occupants of property in first Street and first Avenue, praying that part of first Avenue between North Street and the first hollow be lower'd so as to lead off the water from the lower end of First Street, was read and referred to the Street Committee, with power.

A petition of John J D Toiler praying for appointment of a Toll gatherer, was referred to the Committee on Assessments.

A petition of J B Clark and George Hicks in behalf of the Steam Boat ferry Company to Brooklyn, praying a renewal of the law preventing vessels lying at Anchor in a line between Fulton slip and the old Ferry slip at Brooklyn, was read and referred to the Ferry Committee.

A communication from the Vestry of S^{t} Luke's church, returning the thanks of that body to the Common Council for the use of the

room, corner of Hudson and Christopher Streets for the purpose of Public worship, was read and ordered to be filed.

The Street Commissioner on the petition of Thomas Allen reported,

The Street Commissioner to whom the above petition was referred respectfully reports, that the facts as stated are true, Mr Allen having asked for permission to build a Vault of greater projection into the Street than is allowed by the Ordinance, he was restricted to twelve feet, so that he has overpaid $11.70 which the un- [36] dersigned would recommend to be repaid

(signed.) John McComb St Commr

Which was approved, and a Warrant for $11.70 ordered to pass being amount overpaid by said Allen, for his Vault in Duane Street.

The Street Commissioner presented Ordinances for paving first Street, and for regulating Arden Street which were confirmed and Abraham Bloodgood, Abraham Dally and Benjamin Prince were appointed Assessors in the former, and Abraham Baudoine, John Brower and John Bedient in the latter.

He also presented an Assesment for regulating Bedford Street from Carmine to Christopher Street which was confirmed and Noah Jarvis appointed Collector.

He also presented returns of delinquents on the following assessments—for straightening Oliver Street—for extending sewer in Burling slip and paving the street—For well and pump in Prince Street—Whereupon, Ordered that Warrants pass to Noah Jarvis to collect the same.

He further presented return of delinquents on Assessments one for paving Sullivan Street—for paving St John's lane—for paving Desbrosses Street—for paving Beach Street—for paving Walker Street—for paving Hubert Street—for regulating Dey Street—for regulating Bedford Street—for filling up Dey Street—Whereupon Warrants were ordered to pass to John G Betts for collecting the same.

The Committee on Public Lands and Places on the petition of David Marsh and M Wall reported,

The Committee on Public Lands and places, to whom was referred the petition of David Marsh and Matthias Wall, praying for relief from a suit commenced against them by J. C Simpson City Sealer of Weights and Measures, Report,

that they have had the parties before them, and have made full enquiries into the circumstances attending the complaint for which the suit was brought, from which it appears that during the absence of Mr Marsh and Wall from their Store, Mr Simpson called to make the usual examination of weights and measures, in doing which he was opposed by the Clerk, thro his ignorance of the propriety of such examination. From this circumstance as well as the neglect of Messrs Marsh and Wall after this to send their weights and Measures to the store of the Sealer for the purpose of having them adjusted, as had been directed, the suit was brought by Mr Simpson. Your Committee are of opinion that in the latter circumstance Messrs Marsh and Wall were culpably negligent, and ought to Suffer; but from the frequency of these complaints, and the general plea of uncourteous conduct on the part of the City Sealer, the Committee are inclined to believe it has not always been without foundation, they are therefore on the whole inclined to remit the [38] penalty in this case on the payment of costs, and therefore recommend the following resolution, Resolved,

that David Marsh and Matthias Wall be discharged from the above named suit, on the payment of all costs thereon.

The Committee on Assessments on the petition of the Trustees of the Presbyterian Church in Rutgers Street presented the following Report and Resolution.

The Committee on Assessments to whom was referred the petition of the Trustees of the Presbyterian Church in Rutgers Street, complaining that they are required to pay an Assessment of $261 for benefits accruing to a Lot of ground in widening Harman Street the Fee of which is owned by the petitioners, when, at the same time the damages amounting to more than six hundred dollars are awarded to

the Lessee of said Lot, who is bound by the conditions of his Lease, to pay all Taxes, charges and impositions whatever, that may be imposed and laid on the premises, during the term of said lease.

And praying that their case be taken into consideration, and the Collector directed to retain the amount of the Assessment, and deduct it from the aforesaid award, Report,

that they find on examining into the particulars of the petitioners case that the Assessment and award above mentioned, was laid by Commis- [39] sioners appointed by the Supreme Court, and that the Assessment for widening and improving Harman Street, having been confirmed by said Court, your Committee are of opinion that the Corporation do not possess the power of annulling it, and that the prayer of the petitioners cannot be granted.

The following Resolution is respectfully submitted,

Resolved, that the prayer of the petitioners cannot be granted

The same Committee on the petition of Joshua Dyett Reported.

The Committee of Assessments to whom was referred the petition of Joshua Dyett, stating that he had a short time since been applied to by the Collector of the 5th Ward for the sum of fifty dollars, Tax imposed on Ten thousand dollars, personal property which he the petitioner was supposed to be worth, when in fact, he was an open and avowed Insolvent, and had made an assignment of all his property for the benefit of his creditors, four months previous to the Assesment being made, and prays to be releived from paying said tax. He further states in an affidavit attached to the petition that his wife is possessed of personal property probably to the value, at first cost, of three thousand dollars, which was secured to her by the marriage settlement, and on which at a fair valuation [40] in the present depreciated value of property, he has no objection to pay tax.

Report, that they have given the petitioner's case a careful examination, and are satisfied of the correctness of the representation set forth in the petition, and are of opinion that he is entitled to relief to effect which the following resolution is respectfully submitted

Resolved, that the Collector of the 5th Ward be instructed to receive from Joshua Dyett, Ten dollars in full for personal tax for the present

year, and that he return the Balance, say forty dollars, in the list of errors and insolvencies of said Ward.

The same Committee on the petition of Elbert Anderson presented the following report and resolution.

The Committee of Assessments to whom was referred the petition of Elbert Anderson, complaining that certain property belonging to him had been advertised to be sold for a term of years to the highest bidder for arrears of Taxes, and the Interest thereon; that it had been assessed without designating farm or ward, number, and without describing any known metes or bounds—That the said property has been designated by the Collector of arrears of Taxes in his own hand writing in the official books of his office, and located, numbered, and arranged by ward and farm, [41] as appears in the aforesaid advertisement, without any affidavit of its identity from the Assessors. And further that the said Collector had located and fixed on the petitioner, as being the owner of six Acres of ground, out of 48 formerly belonging to the Estate of Hugh Gaine and which was originally assessed to Henry Dickers as being the owner of the whole. The petitioner further complaining of the Collector whom he designates as a young man without experience, who had presumed to affix numbers, metes and bounds to his property without the sanction of original documents, and for refusing (when he called at his office, and acknowledged himself the owner of said property) to receive the tax without Interest, which he demanded at the rate of 14 per Cent pr annum.

The petitioner therefore prays that penalties be inflicted on Assessors who neglect their duty in not designating property assessed as required by law—that in all cases of doubt, the original amount of taxes be received without Interest or charge, as in justice it ought to have been done by the Collector in this case, and that your petitioner's name be erased, as a supposed or intended defaulter.

Report, that after a patient investigation of the petitioner's case, and a careful examination of books of Assessments for several years past they do not find any grounds whatever, for the complaints contained in *in* the petition, of alterations having been made in the numbers, metes and bounds of the petitioner's property, by the Collector of arrears of Taxes: and that he has failed to establish the correctness of

any one charge against that officer, except that of his having refused to receive the tax assessed on petitioner's property without Interest, which in the opinion of your Committee was undoubtedly correct—and as the official character [42] of M[r] Smith has been called in question, on this occasion, the Committee with pleasure take this opportunity of expressing their decided approbation of the official conduct of that Gentlemen, in all his transactions, in which they have as a Committee had occasion to be made acquainted with.

And as it respects the request of the petitioner, for the relinquishment of the 14 per Cent Interest on his amount of Taxes, your Committee are decidedly of opinion that the prayer ought not to be granted, and that the petitioner have leave to withdraw his petition—The following resolution is respectfully submitted.

Resolved, that the prayer of the petitioner ought not to be granted, and that he has leave to withdraw his petition.

The Finance Committee on the remonstrance of [44] sundry inhabitants of Cornelia Street, presented the following report, and resolution.

The Finance Committee to whom was referred the remonstrance of Charles Oakley and others against the widening of Cornelia Street report,

That the most material facts connected with this subject are as follows. That Cornelia Street is situated in the village of Greenwich, about one and a half mile from the City Hall: that it is in length about 300 feet, and is by no means a public or leading avenue: that the petitioners for the improvement are owners of six lots of ground on said Street, while the remonstrators are the owners of the remaining 24 Lots; that the petition for widening said Street was referred to the Street Committee, who reported favorably to the prayer thereof, and that consequently application was made to the Supreme Court, and Commissioners appointed, but that said Commissioners have not been qualified to act according to Law.

Your Committee have endeavoured to give this subject due consideration, and for that purpose they have personally viewed the premises and conferred with the parties both for and against the improvement, and the result of their investigations is, that in their opinion, a measure that [is] opposed by more than three fourths of the owners of the property immediately interested, and which will be of such essential injury to said Owners, by reducing the depth of their Lots, already much reduced by the opening of the 6[th] Avenue, ought not to be carried into effect unless it can be Shown that some great public improvement would be [45] the result. But it is presumed by your Committee that this will not be insisted on, as the idea appeared to be abandoned, even by the petitioners for the alteration, and the Street is evidently so situated as to preclude the probability that it will ever

become a leading or public Street. The Committee are of opinion therefore, that the proceedings on the subject of widening Cornelia Street ought to be discontinued and they offer the following resolution accordingly.

Resolved that the Council be instructed to discontinue all proceedings on the subject of widening Cornelia Street.

Respectfully submitted.

His Honor the Mayor informed the Board that he had called this Meeting in pursuance of a request from the Committee of Finance.

Alderman Allen of the Finance Committee stated that a proposition having been made by Mr Lewis Moore respecting a Lot owned by him near Fulton Slip, part of the ground which had been heretofore proposed as a site for a Market, which proposal the Committee were of opinion it would be the Interest of the Corporation to accept, they had requested his Honor the [53] Mayor to call this meeting for the purpose of considering and determining upon said proposal; he added that the Committee had directed him to submit certain Resolutions which were in conformity with the proposals of Mr Moore, which Resolutions being read were as follows.

Resolved, that the Counsel be instructed to prepare an Indenture with covenants, that if the Supreme Court shall at their January term confirm the Report of the Commissioners appointed to estimate the value of the property between Front Street and the East River, and between Fulton Street and Crane Wharf, the Corporation will reinvest Lewis Moore in all the rights he now enjoys to the property owned by him, included in said Report, subject, however to the same conditions, and terms upon which he now holds said property, except a covenant to pay a quit rent for the same: Provided, however the said Lewis Moore will covenant on his part to release the Corporation from all demands on account of the sums of money which the said Commissioners have or may award him on account of said premises.

Resolved, that said Indenture be submitted to the Finance Committee for examination: And on their request, that his Honor the Mayor be authorised to affix thereto, during the recess of the Board the Seal of this incorporation.

A[f]ter some discussion the question was taken on agreeing to the several resolutions, and it was carried in the affirmative.

The Council presented for execution a certificate of Sale to A W Sanford for the southerly half part of Vestry Street between Lewis & Lawrence Sᵗ which was directed to be duly executed.

He also, in compliance with the directions of the Board to enquire into the liability of Joshua Jones on the contract with John Anderson reported,

The Council in compliance with the direction of the Board has examined the question as to the liability of Joshua Jones to contribute towards satisfying the demands of John Anderson for certain expences for making a pier, over and above what were specified in his contract with the Corporation. It appears from the contract that he covenanted to build the pier in question, in a certain specified manner, and "according to such directions as should from time to time be given by the Committee on Wharves, Piers and Slips, the Street Commissioner or such person as should be appointed by that Committee to Superintend it." and "also to uphold and keep it in repair for the term of six months after it should be completed." This being the Contract entered into by Mr Anderson, he of course was bound to execute it. The circumstance of the directions given to him being indiscreet, and his conforming to them being the cause of the upsetting of one of the blocks of the [71] pier (even if true) will not exonerate him from his responsibility. If those directions were such as the agent of the Corporation were not authorised by the contract to give he was not bound to regard them; and if by endeavoring to carry them into effect he has sustained damage, it is in consequence of his own voluntary act, and for which he has no legal claim on the Corporation for remuneration. If on the other hand those orders were within the scope of the contract, he of course was bound to carry them into effect, and to incur every expence necessary for that purpose.

The Contract, above alluded to, is the only one which was entered into in relation to the premises between the Corporation and Mr Anderson, and it does not appear that the Agents of the Corporation were ever authorised to enter into any other. Of course his claim must rest upon the original contract, And for the reasons above stated, I am of opinion it cannot be sustained.

The claims of the Corporation upon Mr Jones to contribute, can only be coextensive with their legal liabilities, and if I am correct in my opinion, that Mr Anderson has no legal claim upon the Corporation, it follows of course that if any money is paid to him, no recovery can be had for it against Mr Jones.

In the opinion which I have here given, I have proceed[ed] upon the assumption that all the representations of Mr Anderson are correct.

Respectfully submitted.

(Signed.) Ogden Edwards.

Which was directed to be filed.

I[t] was thereupon Resolved that the subject of Mr Anderson's claim to further compensation be referred to Arbitration, as heretofore directed.

[72] The Committee on Assessments on the petition of Marcus Wilbur reported,

The Committee on Assessments to whom was referred the petition of Marcus Wilbur, complaining of having been assessed twice this year, in the first Ward for personal Tax, to wit, at N° 3 Cedar Street where he resides, and at N° 141 Pearl Street where he does business, and praying to be relieved from paying the amount assessed at N° 141 Pearl Street. Report,

That on examining the Book of Assessment, they found the case to be, as is stated by the petitioner, and are of opinion that the prayer is just and reasonable and ought to be granted. And in order to effect it, the following resolution is respectfully submitted.

Resolved, That the Collector of the First Ward be instructed to decline collecting the personal Tax assessed on Marcus Wilbur at N° 141 Pearl Street, and that he return the same in the list of errors and Insolvencies in said ward.

The same Committee on the petition of Charles McEvers Executor of Gulian McEvers deceased reported.

The Committee on Assessments to whom was referred the *the* petition of Charles McEvers, Executor of the Estate of the late Gulian McEvers, in which he says he has been called on by [73] the Collector of the 3rd Ward for the payment of the personal tax on Nine thousand dollars, assessed on the late Mrs Elizabeth McEvers that since her death, he finds the personal property left by her, will not pay much more than half of the claims already exhibited, and prays that the Tax may be remitted.

Report, that on examining the Books of Assessments for several years past, it appears that Mrs McEvers was not assessed for personal Taxes in 1815. 16. 18. & 19 and that in 1817 and 1820. she was assessed $5000 personal. Your Comittee are of opinion that the prayer of the petitioner ought not to be granted, for the following reasons, in not applying for relief at the time the Book was left open by the Assessors for alteration, and the admission of Mr McEvers, that

the late Mrs McEvers, was in the yearly receipt of Interest on a much larger sum than that on which she has been assessed.

The Committee therefore recommend, respectfully, the adoption of the following resolution.

Resolved, that the prayer of the petitioner ought not to be granted

The same Committee on the petition of Joseph N. Lord reported

The Committee on Assessments to whom was referred the petition of Joseph N. Lord, in which he states that he is the owner of [74] four lots of ground fronting on the contemplated line of Amity Street That those lots have lately been assessed for building a sewer in Carmine Street, in conjunction with another lot of ground on the corner of McDougal and Amity Street, owner unknown to the petitioner, and the whole estimated together as five lots, and at $87.75/100

As this assessment blends his property with that of others more advantageously situated, and being willing to pay a fair proportion thereof, he prays that the subject be referred to a Committee, with power to apportion the said Assessment, and determine what amount he ought of right to pay.

Report, That on examination of the case your Committee are of opinion that the prayer of the petitioner cannot be granted, the Law does not authorise any person to alter or apportion an assessment after it has been confirmed, but expressly says that it shall be final and conclusive on the parties. It also points out the manner in which a person can obtain relief, who is compelled to pay an Assessment, on property which does not belong to him.

The following resolution is respectfully submitted.

Resolved, that the prayer of the petitioner cannot be granted.

The Street Committee on the petition of L. Seaman & Co reported,

The Committee to whom was referred the Memorial of Leonard

Seaman & Co praying permission to continue the sales of furniture &c [75] in front of their Auction Store in Vesey Street, Report,

That they have had the subject matter of the said petition under consideration, that the privelege solicited is not in the power of this Board to grant without repealing the 3rd Section of the Ordinance regulating Sales at Auction, or extending the provisions of the said Ordinance to meet this case, neither of which is deemed necessary or proper on the present occasion, in consequence of the narrowness of the Street, above Greenwich Street,

Therefore, Resolved that it is inexpedient to grant the prayer of the petitioners.

that they have attended to the subject, and are of opinion from the information which they have received, that the present drain is so far decayed, that it cannot be repaired, nor can a new one be laid down at this season of the year, without great inconvenience to those residing on the Street, as well as an additional expence.

But in order to relieve the petitioners they recommend that the drain be opened in two or three places, and a trial be made to clear it for the present: for which purpose they offer the following resolution. Resolved,

That the Superintendent of repairs be instructed to have the drain in James' Street opened, and a trial be made to clear it, so as to vent the water, until a new and permanent one can be built.

The Committee on Finance to whom was referred the petition of Benjamin Hinman, requesting a loan of money towards completing the Milford and Owego Turnpike, or to make an investment in the Stock thereof Report.

that there are doubts on the minds of your Committee, whether the Corporation possess the authority to appropriate money for improvement, of the nature alluded to; but under the present situation of the City finances, they deem it unnecessary to discuss that question, as the receipts into the Treasury are at present insufficient to pay the current expences of the City, and any extraordinary expence incurred, must be followed by an addition to our taxes, or an increase to our City debt: they therefore propose the following resolution.

Resolved, that it is inexpedient to comply with the request of the Directors of the Milford and Owego Turnpike Company.

The same Committee on the petition of A[l]bert J Terheune reported,

[78] The finance Committee to whom was referred the petition of Albert J Terhuen, praying that he may receive a lease for a Lot of ground, formerly sold by the Corporation for the payment of Taxes, the term of which sale had expired. Report, that the Lot alluded to is a part of Bayard's East farm, and is situated at N° 137 Mulberry Street. That it was sold for a term of years, agreeably to a Law of this State, for the payment of taxes and assessments. That previous to the expiration of said term M[r] Terheune purchased all the right of a man by the name of Henry Van Houten for $1000. but that said Van Houten had no title to the fee of said Lot. That Terheune has been called on by the Street Commissioner, in conformity to a resolution of this Board, to produce his title to said Lot; but being satisfied of the insufficiency of his present Title, he now proposes to take a lease of the premises, under the Act authorising the Mayor Aldermen and Commonalty of the City of New York to take possession of certain unclaimed lands passed the 26[th] of March 1819.

The Committee therefore propose the following resolution,

Resolved, that the Counsel be instructed to prepare a lease to Albert J. Terheune for Lot N° 517 Bayard's East farm, known as N° 137 Mulberry Street, for a term of twenty one years from the first of May 1820, or until the legal owner shall appear to claim the same, at the annual rent of fifty dollars payable quarterly, subject however to the conditions and provisions of the aforementioned Act.

The Committee on the petition of James Geery reported,

The Finance Committee to whom was referred the petition of James Geery, praying that a Warrant may pass in his favor for One hundred dollars in lieu of one of same amount lost or mislaid Report,

That they have no reason to doubt the facts stated by M[r] Geery that he has lost the warrant alluded to; that he advertised the same in the public papers, and that he requested the Treasurer, should it be offered for payment to stop it.

They, therefore propose the following resolution, Resolved, that the Comptroller be instructed, on James Geery's lodging with him an indemnifying Bond, conditioned, that the Corporation, shall be saved harmless from the payment of the Warrant N° 864 for one hundred dollars, to report a Warrant for the same in lieu of the said Warrant N° 864.

[80] The Committee on finance on the petition of William King Reported,

The finance Committee to whom was referred the petition of William King, stating that he had come in possession of the lease of the House and Lot N° 265 William Street, with the view of securing the payment of a sum expended in erecting a building on the premises for Jacob Warner, the person who had engaged to take the said Lease of the Corporation; and praying to be relieved as he does not wish to hold the premises Report.

That in their opinion the request of the petitioner for relief is entirely inadmissible, and they propose the following resolution, accordingly.

Resolved, that the prayer of the petitioner is inadmissible, and cannot be granted.

The same Committee presented the following report on the subject of the claim against the United States for monies paid for damages done to lands during the late War.

The finance Committee beg leave to inform the Board that pursuant to authority granted them they selected and instructed General Morton to proceed to the City of Washington with the Vouchers, necessary to establish the claim of the Corporation on [81] the United

States Government for *for* monies expended during the late war with Great Britain. That after some discouragement and much delay, he has succeeded in obtaining a settlement of all the items in the account, hereunto annexed, except that for pay to the arbitrators, against the allowance of which, it appears, there is a positive rule of the Treasury Department. The total amount of the claims is Thirty seven thousand and forty seven dollars, which after deducting the Item of Eight hundred dollars alluded to, leaves the amount received by the General, and paid into the City Treasury at Thirty six thousand two hundred and forty seven dollars.

The Committee feel themselves bound to confess, that the exertions of General Morton have been more successful than they had reason to anticipate; for after the frequent unsuccessfull attempts which have been made by Committees of the Common Council duly authorised, and seconded by the influence and exertions of the members of Congress from this City, they had reason to fear, that the obstacles thrown in the way of a settlement could not be entirely removed; but the perfect knowledge which General Morton had of all the transactions of the period, enabling him to supply any deficiency in the testimony, by personally vouching for such of the items that could not be supported by written documents, removed every doubt on the minds of the Government and resulted in a final settlement as above stated.

The Committee conceive it to be due to General Morton, that he should not only receive the approbation of the Common Council for the services he has rendered, but that he should be remunerated in a more substantial manner, and they therefore respectfully [82] recommend that a Warrant pass in his favour for One thousand dollars, exclusive of his expences, and they offer the following resolutions accordingly.

Resolved, that a Warrant pass in favor of Jacob Morton for One thousand dollars as a remuneration for extra services rendered the Corporation.

Resolved, that the Comptroller be instructed to report a Warrant at the next meeting of the Board for the amount of General Morton's bill for expences incurred in going and returning from Washington on public business.

Respectfully submitted,

[83] The Market Committee on the petition of Abraham Passman for Stall No 10 Spring St Market, reported a resolution that said Stall be granted to him, which was adopted.

Alderman Allen submitted a resolution requesting the Committee on applications to the Legislature to enquire into the propriety of making application for laws on certain subjects, which resolution was referred to said Committee.

Alderman Allen presented the following. Resolved that the revised Ordinances as they pass into Laws be handed by the Clerk to the Corporation printer with instructions to print them in manner and form similar to the Edition now in use.

Resolved that the Counsel be instructed to examine the proof sheets of said Ordinances as they shall be struck off, and to correct all errors of the press that may occur.

Which resolutions were adopted and it was ordered that One hundred and fifty copies of the laws should be printed.

Resolved, that the petitions for Inspectors of Firewood that are referred to the Committee on Applications, and not yet reported on, be transferred to the Committee on Wharves, Piers and Slips.

The Memorial and Bill relative to the establishment of a Court of Common Pleas in the City of New York, and for the appointment of a first Judge, which was presented on the 21st of February [84] last, and was laid for consideration, was now called and approved and the Counsel was requested to take measures to have the same laid before the Legislature at their approaching session.

On motion the Resolution for opening and extending White Street from Elm to Orange Street passed November 13th 1820. was reconsidered, and referred to the Street Committee.

Alderman Swa[r]twout presented the following resolution,

The Board of Common Council, feeling a lively interest in the success of the fine Arts, and understanding that the "Court of Death" now exhibiting at the Academy, from the pencil of Rembrant Peale, is an effort of uncommon genius, deserving the patronage of an enlightened public, Therefore, Resolved that this Board will visit the Academy for the said painting; and it be recommended to our fellow Citizens, generally, to embrace the present opportunity to improve their taste, and evince their liberality to a native Artist, by yielding to the exhibition a generous support, during its continuance in this City. Which was adopted.

The Board proceeded to take into consideration the laws and ordinances revised by the Counsel. The law for prevention of Fires was considered and passed, and One hundred copies were directed to be printed for the use of the Fire Wardens, and Foremen of Fire-Companies.

A petition of Samuel White, holding Stall No 28. [91] Washington

Market, and George Ryerson holding N° 4 Fly market, to be permitted to exchange Stalls with each other. A petition of Daniel Spader for Stall N° 45 Washington Market, and a petition of John D Crawbuck for a stall in Washington Market were severally read and referred to the Market Committee.

A Memorial of sundry Owners of Hackney Carriages, stating *the* [that] several persons, Inhabitants of Greenwich Village, Manhattan Ville, Brooklyn &c are in the habit of carrying persons for hire without taking out licence for the same, and praying an amendment to *to* the law to give them relief, was read and referred to the Committee on Public Lands and Places.

A petition of John Gregory Junior and Cornelius Fountaine was read stating that they were elected Firemen to Fire Engine Company N° 3, but upon the Foreman of said Company presenting the return to the Chief Engineer he declined returning them to the Board, as they wanted a few months of being twenty one years of age, and praying relief: Whereupon the same was referred to the Committee on the fire department.

A petition of Jacob Riviere praying appointment of Wood Inspector for White Hall and its vicinity, was referred to the Committee on Wharves, Piers and Slips.

A petition of Waters Furman and Charles Dobbs contractors for Street manure, praying in consequence of losses sustained as sta- [92] ted in their petition, that an abatement may be made on the sum to be paid by them on their Contract, was read and referred to the Street Committee.

A petition of Henry Gilford, praying further time may be granted to him for payment of an assesment laid upon his house and lot in Harman Street, was read and referred to the Finance Committee, with authority to grant the prayer of the petitioner.

A Memorial was received from sundry Inhabitants recommending that a law should be passed for the appointment of persons whose special duty it shall be to measure vegitables that are subject to be measured, and which are offered for Sale.

A petition was also received from Andrew Shonnard requesting the appointment of a measurer of vegitables: Whereupon the said Memorial and petition were refferred to the Market Committee.

An Invitation from Messrs J & N Haight to the Members of the Board, on Thursday next, to visit their manufactory for weaving of Ingrained Carpeting, was received and it was resolved that the Board will accept the said invitation.

A petition of Daniel M Cowdry for appointment of Clerk to the 4th and 6th Ward Justices Court was referred to the Committee on Applications.

[93] A petition of Owen Duffie for relief of fine under the law regulating Hackney Coaches. was referred to the Police Committee.

A Memorial from the Humane Society, requesting some pecuniary aid, was read and referred to the Finance Committee.

A Communication was received from George B Smith, Collector of arrearages of Taxes, stating that there are arrearages for the years 1811. 12. 13. and 14 due on certain Lots in the 10th Ward, owned by Morgan Lewis Esqr who declines payment of the same, on the principle that they are included in the square laid out for a Market place on the East River, and therefore not liable to Taxation, and praying the same may be referred to a Committee to instruct him thereon,

Whereupon, the same was referred to the Finance Committee.

A communication from the City Sealer recommending certain amendments to the Law of the State, respecting the appointment of Sealer of Weights and Measures. Whereupon the same was referred to the Committee on applications to the Legislature.

A Letter was received from John Campbell, stating that on the account of his health he was under the necessity of leaving the City, and therefore begged leave to resign the appointment of Clerk of the 4th and 6th Ward Assistant Justice's Court: he stated he should continue to act until the 13th Instant, which would complete two months since the last quarter payment was made to him, and for which he requested a Warrant might pass. He tendered to the Board his ac- [94] knowledgment for the confidence reposed in him by their appointment of him to the Office: Whereupon it was Resolved that his resignation be accepted, and that a Warrant issue for payment of two months Salary to him.

The Board proceeded to elect a person to fill the vacancy occasioned by Mr Campbell's resignation, when Ebenezer Burling was duly elected.

The following Firemen were appointed, the Chief Engineer certifying the vacancies.

Fire Engine Company No 9.

William H Valentine, Accountant No 69 South Street 2nd Ward, Vice John Sutherland. Resigned.

No 23.

The Comptroller presented a list of public property which in [95] his opinion might be disposed of this season, which was referred to the Finance Committee, with the exception of the Street manure. On that subject Alderman Allen presented the following. Resolved that the Comptroller be instructed to give public notice in the papers employed by this Board, that sealed proposals will be received at his Office 'till the 22nd Instant for a contract for the Street manure for one year from the 1st day of February next subject to the Ordinance of the Corporation on that subject, and that each proposal must designate the persons intended to be given as sureties.

Which resolution was adopted.

The City Inspector presented the Annual report of Deaths and Interments in the City during the past year, which was ordered to be filed, and the usual number of copies were directed to be printed

The City Inspector respectfully reports to the Board a Statement of the deaths in the City and County of New York for the year 1820. amounting to Three thousand five hundred and fifteen, being an exceeding of Three hundred and twenty nine over the preceeding year.

For the first six months of the year the *the* City was very healthy, so much so that the deaths during that time, were fewer than in the same months of the former year. In July, however, diseases of a more serious *charious* character considerably increased, and continued through the succeeding months, during which period, the complaints of children that ended fatally, were above sixty more than in the corresponding months of 1819.

In August also, fevers became prevalent, particularly in Bancker Street and its neighbourhood, and confined their ravages, chiefly to the people of colour, as the following statement will shew: of Two hundred and [96] ninety nine deaths of fevers throughout the City, during the last six months, one hundred and thirty eight were of those people: although it is presumed they were not a twentieth part of the population of the city at large: and of this one hundred and thirty

eight so stated, one half were reported from Bancker Street and its vicinity.

It will doubtless be felt as a happy and providential cause of congratulation to our fellow citizens, that amongst the visitations of the past year, we had not to experience the alarming apprehensions of malignant disease; and that while other cities were unhappily afflicted with its scourge, Providence had kindly protected us from an evil of so much magnitude.

An Account was presented from the New York Hospital for the Support of Maniacs &c therein, sent from the Alms House from 1st July to 31st December inclusive, being 15 in number of whom 13 now remain. Whereupon the same was referred to the [101] Finance Committee with authority to direct a Warrant to be reported therefor if found correct.

The Counsel presented the Memorial to the Legislature, on the subject of establishing a Court of Common Pleas, and for the appointment of a first Judge amended to conform to the Bill which was agreed to at the last meeting, which was directed to be duly authenticated, and transmitted to the Legislature now in Session at Albany.

He also agreeably to order presented a Memorial to the Legislature and corresponding Bill respecting swine which was in the words following,

A Law Respecting Swine.

Be it enacted by the people of the State of New York, represented in Senate and Assembly, That it shall be lawful for the Mayor, Aldermen and Commonalty of the City of New York in Common Council convened, or the major part of them to make and establish from time to time such laws and ordinances as they may deem necessary for the purpose of preventing swine from running at large in any of the Streets, alleys, lanes and public places in the said City, and for forfeiting all swine which shall be found running at large in said City, for such uses and purposes, as the said Mayor, Aldermen and Commonalty of the City of New York in Common Council convened may direct.

To the Honorable the Legislature of the State of New York in Senate and Assembly convened.

The Memorial of the Mayor, Aldermen and Commonalty of the City of New York.

Respectfully Sheweth,

That in order to put an effectual Stop to the running at large of Swine in the City of New York, it [102] is necessary that your Memorialists should be invested with further powers than they at present possess. That the law which authorises towns to establish such rules and regulations as they may deem meet for the restraining Cattle from running at large does not apply to the City of New York. And as their Charter does not authorise the enforcement of its laws otherwise than by imposing penalties upon offenders, and as it is impossible, in most cases to ascertain the owners of swine running at large *of swine* in said City: the laws which your Memoralists have passed from time

to time upon the subject have proved entirely inadequate for the correction of the evil.

Your Memorialists therefore pray that your Honorable body will be pleased to pass a Law, authorising your Memoralists to provide for the forfeiting of all swine which shall be found running at large in said City.

Respectfully submitted.

The question being taken on approving of the same it was carried in the affirmative. The Ayes and Noes having been called by Mr Hammond, all the members present voted in the affirmative, excepting Mr Hammond who voted in the negative.

He also presented a Memorial and Bill to the Legislature praying an alteration in the Act relative to the Alms House and Bridewell so the Superintendent of the same may hold his office at the pleasure of the Common Council, and not for the period of Seven years as at present enacted, which approved, and the said Memorials were directed to be duly authenticated and transmitted to the Legislature.

[103] The Street Committee presented an Ordinance for paving the side walks in Oliver Street, between Chatham Square and Bancker Street which was passed, and Abraham Baudouine, John Brower and John Bedient were appointed Assessors therein.

The Street Commissioner presented a return of delinquents on sundry Assessments: Whereupon it was resolved that he proceed to advertise and sell the Lots up[on] which the assessments are laid agreeably to the Act in such case made and provided.

He also stated that the report of the Commissioners of estimate for opening Mercer Street was confirmed, and he recommen[d]ed that three houses in said Street may be removed, in order that the Street may be regulated. Which was approved, and he was directed to proceed to sell the said Houses.

He also presented the following Assessments which were confirmed. viz. for paving the Intersection of Broad-Way and Canal street and Canal street to Church street—and Noah Jarvis was appointed the Collector—Also a well and pump in first street near first Avenue, and for regulating and curbing part of first street from the Bowery to first Avenue and part of second Avenue, from North Street to first Avenue and Morris De Camp was appointed Collector in each.

The Committee on Assessments on the petition of Elizabeth Krapff reported.

The Committee on Assessments to whom was referred the petition

of Elizabeth Krapff stating that she had be[en] called on to pay One hundred dollars as an assessment on her property, consisting of five lots [104] of ground for building a Sewer in Clarkson and Carmine Streets and Sixth Avenue, and complains of the many hardships and embarassments under which she labours, in consequence of the Ordinance directing the opening of said Avenue, by which the greater part of said Lots, together with the improvements thereon, will be taken away, but as there is no definite time fixed for said purpose, nor any assessment made of the value of the property to be taken she is thereby deprived of the ability of selling, leasing, loaning money thereon to pay the assessment, or disposing of the same in any manner whatever. she is rendered not only incapable of paying the Assessment but also of procuring out of said property the common necessaries of life, and that the property in question is now her sole and only reliance for support. She therefore prays that the payment of said Assessment be suspended untill the opening of said Avenue, or some final disposition is made of her property.

Report, that on an examination, they find the case to be as is set forth in the petition, and are of opinion that the prayer of the petitioner is just and reasonable, and ought to be granted, And respectfully recommend the adoption of the following resolution.

Resolved, that the Collector be instructed to suspend, until the further Order of the Board, the collection of the Assessments laid on five Lots of ground belonging to Elizabeth Krapff, assessed for building a sewer in Clarkson and Carmine Streets and Sixth avenue.

[105] Which was approved and the resolution adopted.

The Committee on Applications on the petition of Ahasuerus Turk for the appointment of City weigher reported in his favor, and he was appointed accordingly.

The Street Committee on the petition of Robert M Livingston reported,

The Street Committee to whom was referred the petition of Robert M Livingston stating that a suit had been commenced against him by the City Inspector for non-compliance with an Ordinance of this Board, and praying the same may be discontinued. Report,

That it appears by the statement of your petitioner, which your Committee think entitled to credit, that not only the Lot ordinanced, but many others adjacent were contracted by him to be filled in previous to the date of the Ordinance under which he is prosecuted.

That the time allowed for completing the same was inadequate, that he has used all due diligence in completing the job, and that the whole will be finished by the first day of March next.

Wherefore resolved, that the Attorney of this Board be instructed to discontinue the suit against Robert M Livingston by his paying costs.

Which was approved, and the Resolution adopted.

[106] The same Committee on the petition for opening White Street reported,

The Committee to whom was referred the resolution of the Board of Common Council of the 13th November last, relating to the opening and extending of White Street, from Elm to Orange Street

Report, that White Street from Elm to Collect Street being already a ceded Street, requiring only a Resolution of this Board to open it, It will be necessary to apply to the Supreme Court for the appointment of Commissioners to open White St from Collect to Orange Street only.

Wherefore, Resolved, that His Honor the Mayor, be authorised, during the recess of this Board to affix his signature, and the seal of the Mayoralty to such application.

Which was approved and the Resolution adopted, and the Counsel was directed to take legal measures agreeably thereto.

The same Committee on the petition of the Inspectors of Manure reported,

The Street Committee to whom was referred the petition of the Inspectors of Manure, praying that the Ordinance relating to that

subject may be so amended, that the seller of Manure may be held accountable for all the fees of Inspection. Report, that they have had the subject under consideration, and are of opinion that the [107] prayer of the petitioners in that respect, is reasonable and ought to be granted. Wherefore, Resolved, that the third Section of the Ordinance regulating the sale, and Inspection of Manure, be so amended as to make the seller of Manure accountable to the Inspectors for the whole Inspection fees; And that so much of the 4th Section of the Said Ordinance, as makes the purchaser thus accountable, be repealed.

(Signed.) Robt Swartwout.

Shivers Parker.

Whereupon, the Law relative to the Inspection of Manure was reconsidered, and amended agreeably to said report.

The Committee on Arts and Sciences to whom was referred the Communication of Messrs John and Nicholas Haight, reported,

The Committee on Arts and Sciences to whom was referred the Communication of Messrs John and Nicholas Haight of this City, asking the Board to inspect the first piece of Ingrained carpeting manufactured by them in this City, and which they believe to be the first perfectly made in the United States, beg leave to report.

That they have minutely examined said piece of carpeting, and feel pleasure in pronouncing it, in their opinion, equal if not superior in every respect to the best English Ingrained Carpeting, and that it is in fact a perfect imitation of that article in its best state. The Committee therefore recommend the following resolution. Resolved,

that this Board view with pride and satisfaction this specimen of [108] the Arts, and of the ingenuity and perseverance of our Countrymen in bringing this important branch of Manufactures to perfection in this Country, and they cordially unite in recommending the Messrs Haights to that patronage and remuneration to which their enterprize and industry so eminently entitle them.

(Signed.) Samuel Tooker,
Isaac Emmons.

Which was unanimously approved and the resolution adopted.

The Finance Committee to whom was referred the communication of John Randall Junior reported,

The Committee on applications to the Legislature presented the following report.

The Committee on applications to the Legislature to whom was referred the consideration of the Subjects herein mentioned beg leave to report, That the expences of the Court of Sessions are very great, upwards of twelve thousand dollars having been already paid out of the Treasury for about fourteen months, and after due consideration they have agreed to recommend the following Resolution, That the Counsel be instructed to prepare the draft of a law authorising the Mayor, Aldermen and Commonalty of the City of New York to pay the District Attorney a Salary of three thousand dollars a year, and the Clerk of the Sessions a Salary [111] of two thousand dollars a year in lieu of all other demands on the Public Treasury, and that all fines and forfeitures shall be collected by the Sheriff and paid to the City Chamberlain for the use of the said Mayor Aldermen and Commonalty without making any charge on them therefor, and that the pay of the Constables and Marshals legally attending any of the Courts shall be one dollar and twenty five cents p[r] day.

Resolved, that the Counsel be instructed to prepare the draft of a Law to repeal the first and second sections of the Act entitled "an Act to require Overseers of the poor to sue for penalties incurred under certain penal statutes passed February 18[th] 1820, so far as the same relates to the City and County of New York, and also to authorise the Excise Commissioner to prosecute for penalties in the Court of Common Pleas of the said City, or in the Supreme Court, with a proviso that the prevailing party shall be entitled to Common Pleas costs and no more.

Resolved, that the Counsel be instructed to prepare a Draft of a Law, whereby it shall not be lawful for the Coroner to hold any Inquest, or view on the body of any deceased Convict in the Penitentiary or Bridewell, unless upon the request of the Commissioners of one

of them, and making it the duty of the said Commissioners, & every of them to call the Coroner in all cases of death by casualty.

And also the draft of a Law authorising the said Mayor Aldermen and Commonalty to fix the Salary of the Assistant Justices in the four Districts of the City of New-York at the sum of Fifteen hundred Dollars each per Annum.

And also the draft of a Law to authorise the said Mayor [112] Aldermen and Commonalty in cases where any Lands and Tenements owned by more than one person is or are assessed as the property of an Individual to apportion the amount on the property thus assessed in a just and equitable ratio. And also to sell such part of any land or tenements assessed for such time as will be sufficient to discharge the Lien for taxes or Assessments on the whole.

All which is respectfully submitted.

The Minutes of the last Meeting were read and approved.

His Honor the Mayor stated to the Board that conceiving it would be useful at the present inclement Season to be informed of the quantity of Fuel with which the City was at present supplied he had directed the Assistants to the Board of Health to make enquiry on that subject and to report the same to him, that they had taken considerable pains to gain the necessary information and had reported the same to him, which report he presented, and it was directed to be filed with the Clerk of the Common Council for the information of the Members of the Board. The Mayor also [117] presented a communication he had received from the North River Steam Boat Company informing that they had in their Wood yard, five hundred Loads of dried Pine wood, which in the present distress of the poor for fuel they would place at the disposal of the Corporation to be returned to them when requested in the Spring. Whereupon it was resolved that the Clerk of the Common Council be directed to inform the Steam Boat Company that the Board duly appreciate their public spirited and liberal offer, and that in the event of its being necessary the Corporation will avail themselves of their offer.

His Honor the Mayor laid before the Board the Calendar returned by the keeper of the City prison and Bridewell of the persons confined therein on the 15th Instant, which was directed to be filed.

The Mayor als[o] agreeably to the request of the Board presented an Abstract of the passengers who had been reported in the years 1818. and 1819. with observations thereon which was directed to be filed, and to be printed for the use of the members of the Board.

The Special Committee on the petition of John Anderson Reported.

The Special Committee to whom was referred the petition of John Anderson praying to be compensated for the extra expences of building two extra Blocks in a wharf constructed by him at the foot of Vesey Street, in the summer of 1819 pray leave to report.

That the Committee have made a full and minute investigation of this subject, having heard the allegations of the petitioner and also of the Street Commissioner, together with all the testimony that could be obtained, both for and against the claims of the *pe-* [128] petitioner, and submit the following facts as the result of their enquiries.

That in the Summer of 1819. the petitioner contracted with this

Corporation to build a certain wharf or pier of specified dimensions at the foot of Vesey Street, under such directions as should from time to time be given him by said Corporation, or their Agents.

That in the progress of said work an accident occurred in one of the Blocks partially capsising. That Mr Anderson had previously predicated this very event, as the inevitable consequence of laying the floor of said Block but 12 feet from the bottom as directed by the Street Commissioner, while the petitioner contended it ought to be laid 16 feet (from the bottom) high, as the mud was from 25 to 27. feet deep; that the petitioner remonstrated at the time against this mode of procedure, but was over-ruled by the *the* Street Commissioner, to which circumstance alone, the petitioner attributes the misfortune.

That he then applied to the Corporation for direction, how to remedy the accident, and was referred to the then Committee on Wharves, piers and slips, and was by them instructed to build two extra Blocks as the only certain remedy for the evil, and was at same time told that the extra expences must be a subject of future consideration. That the petitioner then built the two extra blocks in question, at the expence of about 1700 dollars, for which he now claims remuneration. It has also been shewn to the Committee that, independent of the accident above named, the petitioner has had a losing bargain in said Contract, and also in having suffered in reputation, and, in almost total loss of employ since that period, all of which [129] he considers as growing out of the erroneous directions first given him by the Street Commissioner, and which he considered himself bound by his contract to obey. The Committee have taken great pains to ascertain the true cause of the misfortune, and have had the opinion of several dock builders who all (with one exception) concur in opinion that the floors should have been laid 16 to 18. feet high, which precaution they believe would have prevented the accident of capsising.

The Committee therefore, without expressing an opinion on their part of the subject, and without going into a more detailed account of the testimony, or expressing an opinion of the legality of the petitioner's claim, are of opinion under all circumstances of the case, that he ought to receive some remuneration for the losses which he has sustained in this unfortunate concern, but as the wharf has since considerably settled and will require an expence of 3 or 400 dollars to put it in complete order, it is recommended that 400 Dollars of whatever sum, may be agreed on to pay Mr Anderson, be retained 'till

the wharf is finished. The Committee therefore recommend the following resolution

Resolved, that a Warrant issue in favor of John Anderson for Seven hundred dollars, and that a further sum of four hundred dollars be paid him on the completion of the said Wharf to the satisfaction of the Street Commissioner, as a full compensation for his claims against this Corporation.

Which Report was ordered to be filed.

The Finance Committee to whom was referred the Memorial of the Humane Society reported,

The Finance Committee to whom was referred the petition of the Humane Society requesting a donation in aid of that Institution, Report, That the donation usually bestowed by the Corporation in aid of the Society alluded to is believed to be three hun- [131] dred dollars per annum. That the Committee have been informed that the funds of the society, have fallen short of its usual amount, in consequence of the pressure of the times, while the calls on them for relief are more numerous than usual. The Committee have pretty generally been opposed to the policy of permitting the public charities to be distributed in any other way, except thro' the Commissioners of the Alms House; but in the present instance, they have been induced

to yield to the arguments of the petitioners, that in proportion as they are enabled to continue the distributions of their Institution, the calls will be lessened on the Commissioners. The Committee therefore propose the following Resolution

Resolved, that the Comptroller report a Warrant for Three hundred dollars in favor of the Humane Society, as a donation from the Corporation to that Institution.

Respectfully submitted,

Stephen Allen.

Which was approved, the resolution adopted, and the Warrant directed to be reported accordingly.

The same Committee on the petition of Hart and Belden reported,

The Finance Committee to whom was referred the petition of Hart and Belden Teachers, praying for a Lease of the Room over the Watch House in Eldridge Street, on terms corresponding with the [132] depression of the times, Report,

That the rent now paid by the petitioners is One hundred and seventy five dollars per Annum, and as a reduction of Rent, since the commencement of their lease, is a matter of notoriety throughout this City, the Committee consider the request of the petition reasonable, and that a less sum ought to be demanded for the premises alluded to than heretofore, and they therefore propose the following resolution, Resolved,

That *that* the School room, over the Watch House in Eldridge Street be leased to Hart and Belden for a term of three years from the first day of May next, and at a rent of One hundred and Sixty dollars per Annum, payable quarterly.

Respectfully Submitted,

Stephen Allen.

Which was approved, and the Resolution adopted.

The same Committee presented a Report detailing at considerable

length the Fiscal concerns of the Corporation, which was directed to be printed for the use of the Members.

The Committee on applications to the Legislature to whom had been referred a communication from the City Sealer, presented [133] the following Report which was approved and the Resolution adopted.

The Committee on applications to whom was referred the annexed communication from the City Sealer, respectfully report that there is undoubtedly some degree of collision between the State and City Sealers, and difficulty in regulating the subject so as to produce that co-operation and harmony which ought always to exist between the different officers of the government: Your Committee have therefore concluded to recommend an application to the Legislature for the passage of a Law, whereby the Office of State Sealer in the City of New York, shall be abolished, and the Mayor Aldermen and Commonalty of the said City be authorised to make By Laws to regulate the subject of Beams, scales and weights in the said City, as well on board of Boats and Vessels as elsewhere in the said City. Provided such By Laws, so to be made, be consistent with the Laws of this State: And also providing that the said Mayor, Aldermen and Commonalty shall have power from time to time to appoint such Sealers and Inspectors of weights, measures, beams and Scales in the said City, as to them may seem meet.

The following Resolution is submitted.

Resolved, that the Counsel of the Board be instructed to prepare the draft of a Law in conformity with the foregoing Report.

J. Hammond.
(Signed.) Stephen Allen.
John. P. Anthony.

Alderman Allen stated that as this was the period at which the Treasurer or Chamberlain was usually elected, he moved that the Board go into an Election for Treasurer for the present year, [134] which having been agreed to, the Board proceeded to ballot for a Treasurer when John Fleming was re-elected to the said office.

A resolution was presented directing that on all applications for opening or regulating Streets three Weeks should be given, which was referred to the Committee on Streets.

The following Resolution was presented by Alderman Kip which was adopted. Resolved, that the Lamp Committee be and are hereby directed to instruct the Superintendent of Lamps to omit lighting the Public Lamps, or any part of the same, whenever in their opinion it may be done without subjecting the Inhabitants to any inconvenience.

Alderman Allen presented the following which was adopted. Resolved, that the Comptroller be instructed to demand of Thomas Dunning, formerly Collector of the 9th Ward, the Tax book, containing the Assessment for the year 1815, and in the event of his refusing to deliver said book, to report the same to the Board in order that the necessary measures may be adopted to enforce a compliance with this Order.

Alderman Tooker presented a resolution directing the Counsel to prepare a Memorial requesting the Legislature to take up the consideration of the Memorial presented at their last Session to authorise a Tax to be laid for repairs for the Battery, which was laid for consideration.

The Board [135] proceeded to the consideration of the Laws revised by the Counsel, when the Law for the regulation of a City Prison and Bridewell, and for the appointment of a keeper thereof, a "Law to regulate the landing and sale of Hay in the City of New York," and a "Law concerning dogs" were approved.

The "Law regulating Carts and Cartmen in the City of New York" being under consideration, Alderman Mann moved to strike out the 4th Section which directed the number of the licence to be painted on each side of the Cart, sled or sleigh, the words "sled or sleigh," the question being taken thereon it passed in the negative. The Ayes and Noes having been called by Alderman Mann, were as follows.

Noes. Aldermen. Tooker, Townsend, Kip, Anthony, Swartwout, McQueen. Messrs Crane, Town, Parker, Brittain, Emmons, De Peyster. 12.

A[y]es. Aldn Mann, Allen. Messrs Valentine. Hammond. 4.

The same was then referred to the Committee on Laws.

The Comptroller presented the sealed proposals which he had received for leasing the Street manure, when on motion the Gallery was cleared and the doors closed.

The sealed proposals were opened and examined, and it appearing that Benjamin Disbrow had offered the sum of Fourteen hundred dollars for One year for the Street Manure of the Eastern district, and offered as his sureties Clarkson Crolius and Son. Samuel W Disbrow. Joseph Moore and Peter Erben the said proposal was accepted, and the Counsel was directed to prepare the necessary [136] writings.

It also appearing that William M Hitchcock had offered for the Street Manure of the Western District for one year from 1st February next the sum of Eighteen hundred and Seventy five dollars and had

offered as his sureties Robert Bogardus and Stephen Hitchcock, the said proposal was accepted and the Counsel was directed to prepare the necessary papers.

His Honor the Mayor stated that he had called this meeting at the request of the Chairman of the Finance Committee understanding that *that* the late fire at Fulton slip made it necessary that some steps should be taken in relation to certain Policies of Insurance which were upon some of the property there distroyed.

The following communication from the Counsel of the Board was then read.

The Counsel begs leave to inform the Board that on the [140] twelfth day of January Instant the report of the Commissioners who were appointed to estimate the value of the property lying between Fulton Street and Crane Wharf and between Front Street and South Streets was finally confirmed by the Supreme Court.

The Act by virtue of which those Commissioners were appointed provides that on the " final confirmation of the report of the Commissioners by the Supreme Court, the Corporation shall become and be seized in fee simple absolute of all the Lands, tenements hereditaments and premises mentioned in that Act, and of the appurtenan[ces] priveleges and advantages to the same belonging or in any wise appertaining." The buildings of course which were situated upon that Block, were the property of the Corporation at the time they were destroyed by the late fire. It is ascertained that the buildings which belonging to the heirs of the late John Rogers Fronting on Fulton Street, and extending from Front to South Streets and also the Store which belonged to Townsend and Rogers were Insured.

In pursuance of instructions from the Finance Committee and from the Comptroller, the Washington and Eagle Insurance Companies have been notified of the Loss, and that the Corporation claim to be entitled to remuneration from them. By the conditions of the Insurance it is required that all persons sustaining loss or damage by fire, shall as soon after as possible deliver in a particular account of their loss or damage "signed with their own hands," and shall also make the necessary proof of Loss. This account in the case of a Corporate body must be under their Corporate Seal.

Under these circumstances the Counsel respectfully recommends that the Mayor be authorised to affix the Common Seal to such [141] documents or instruments as may be necessary to comply with the requisitions of the Policy of Insurance.

He also recommends that the Comptroller be instructed to make out an account of the loss or damage which the Corporation have sustained, and also to furnish the necessary proofs of the same.

As the Counsel has been given to understand by the Secretaries of the Insurance Companies that they will probably resist the payment of the losses, he respectfully submits to the Board the propriety of authorising him to retain Counsel to aid him in the prosecution of the claim.

Respectfully submitted.

(signed.) Ogden Edwards

Alderman Allen then presented the following Resolutions,

Resolved, that the Mayor be authorised to affix the Common seal to such documents as may be necessary to comply with the requisition of the Policies of Insurance upon the property belonging to the Corporation, between Fulton Street and Crane Wharf which has been recently destroyed by fire.

Resolved, that the Comptroller be instructed to make out an account of the loss or damage which the Corporation have sustained thereby, and also to furnish the necessary proof of the same.

Resolved that the Counsel be instructed to prosecute (if necessary) the claim of the Corporation against the Insurance Companies, for the loss and damage which the Corporation have sustained by the late fire, and to retain Counsel to aid him in the prosecution.

Alderman Kip stated that being interested in the Insurance [142] Offices in which the abovementioned property was insured, he begged to be excused from voting thereon. On motion Alderman Kip was excused from voting. The question was then taken on agreeing to the resolution, and it was carried in the affirmative.

Thirty one petitions, signed by a number of Inhabitants, were presented soliciting the Corporation (without thereby affecting any legal or equitable right) again to consider the propriety of building a Market on the ground near Fulton Slip, now made by the late conflagration entirely waste and unoccupied, which were directed to be referred to a special Committee.

On motion it was resolved that the Committee be appointed by the President, when the following gentlemen were appointed consisting of Seven. Aldermen. Mann. Tooker, Swartwout, Townsend, Allen, Mr Town and Mr Emmons.

The Street Commissioner presented a communication stating that *that* the Report of the Commissioners of Estimate and Assessment, for extending Lispenard Street having been lately confirmed by the Supreme Court, the proprietors of the property were anxious to know when it will be required for the improvement, in order to give suitable notice to their Tenants when they were to remove:

Whereupon, it was resolved that the improvement be carried into effect on the 1st of May next.

[143] In Common Council. February 5th 1821.

The Minutes of last meeting were read and approved.

A Committee consisting of Isaac Lawrence, Abraham Bloodgood, Grove Wright, William Bayard, and John Hone, appointed in pursuance of resolutions, passed at a Meeting of Freeholders, and Lessees of real Estate on the 30th of January last, attended and presented a Memorial, signed by a great number of Freeholders and Lease holders, representing that they had felt the heavy respo[n]sibilities to which they have, for many years, been subjected by Assessments for

laying out Streets and Roads, without any advantage Sufficient to compensate for their losses and expenditures—That under the [144] operation of the present system of Government of the City, owners and Lessees of real Estate are taxed at the discretion of persons over whom they have no control, and that the present Election franchise is of no practical use or benefit to them. The remedy for these evils they conceive to be a reform in the Constitution of the Common Council, and that reform they would recommend to be to provide for the Election of another Board of Common Council to act in concurrence with the present, and that this additional Board be elected by the Freeholders and Lessees of real Estate in the City.

The Committee added that a Committee was appointed at the Public Meeting on the 30th of January of which Colonel Few was Chairman. who were authorised to confer with any Committee appointed on the part of the Corporation. The several Communications having been read, it was resolved that the same be referred to *to* a special Committee. The Mayor accordingly, appointed on that Committee, The Recorder, Aldermen Tooker, Allen. Mr Brittain Mr Parker.

(Signed.) George Cuming.
City Inspector.

The Counsel presented the following communication.

The Counsel begs leave to inform the Board that the Supreme Court at their last Term ordered, that all the proceedings in the case of Dover Street be discontinued,

Als[o] that an argument was there had before the Court relative to the Common Sewer through Canal Street, which involved the merits of the controversy, and that the Court deferred giving their opinion until the May Term.

The Counsel begs leave to recommend that the Mayor be authorised, during the recess of the Board to sign and affix the Common Seal to the answer of the Corporation to the Bill in Chancery filed against them by Christian Bergh.

Respectfully Submitted.

(Signed.) Ogden Edwards.

The Counsel also informs the Board that the report of the [153] *report of the* Commissioners in the case of Lispenard Street was confirmed and he recommends that a Collector be appointed to collect the Assessments.

He also presented a Lease of the School room over Watch house in Eldrige Street to Hart and Belden—A Lease to Benjamin Smith for Lots N° 13 and 18 at Brooklyn—A Lease to Abel Sammis for Hornes' hook ferry—An assignment to Benjamin Disbrow of Street Manure of Eastern District, and to John M Hitchcock of Western District, which were directed to be duly executed.

He also presented draughts of Memorials to the Legislature and corresponding Bills as follows. viz. the article relative to the duties of the Coroner, and the Salaries of the Assistant Justices—Act relative to the Commissioner of Excise, and an Act to enable the Mayor, Aldermen and Commonalty to raise money by Tax, which were severally directed to be duly authenticated, and transmitted to the Legislature.

The Report of the Finance Committee on the Fiscal concerns of the Corporation, which was presented at the last meeting, was called up, read, the resolutions adopted, and were directed to be published in the papers employed by the Corporation.

The report was in the words following.

The
Annual Report of the Finance
Committee, for the year 1821.
In Common Council, January 22nd 1821.
and ordered to be printed.

[154] The Finance Committee beg leave to submit the following Report;

The Committee suggested it as their opinion, in a report of the 29th of December, 1819. that an annual examination into the City Finances would prove useful and salutary: and having no cause to alter that opinion, they have attempted a general review of the Financial concerns of the Corporation, from May 1816. to the present period, together with an estimate of the probable receipts and expenditures for the year commencing on the second Monday in May 1821. and ending on the second Monday in May 1822, with such elucidations of the subject as appeared to them proper and necessary.

The Committee make no pretensions to perfect correctness in their calculations, for in their opinion, the nature and novelty of the undertaking would not warrant the conclusion: and the limited time allowed them from their ordinary avocations, precluded the possibility of giving the subject that attention which its importance demands: but they nevertheless hope that the attempt may be of some utility to the Board, in conveying information not heretofore afforded, on a subject of increasing interest to the community.

The ordinary receipts of the Corporation are derived from the following sources: viz.

Rents of the public property, including the ferries and the public wharves and slips; street manure; mayoralty fees; tavern and excise licences; a portion of the duty on Sales at vendue; and the annual taxes on the real and personal property in this city.

The extraordinary or casual revenue accrues from the re- [155] ceipt of former advances made by the Corporation, together with some small items, too precarious to be calculated on; but principally from the sale of public property, and from loans, either permanent or temporary.

The ordinary disbursements comprise the following objects: Alms House, penitentiary and Bridewell; City Watch; Fire-department; lamps; Interest on City debt; Salaries; repairs of the Public property Police Office; repairing roads; common schools; wells and pumps;

and a large amount of contingencies, unavoidable in the transaction of public business.

The extraordinary disbursements comprise balances unpaid on former contracts; redeeming bills of credit; working the Avenues; building docks and slips; uncollected assessments on streets paid in advance from the Treasury; and a number of incidental expenses that cannot be anticipated.

That the Board may have a comparative view of the several items of receipts and expenditures, both ordinary and extraordinary, from May, 1816, to May, 1820, the Committee have arranged, from the annual reports of the Comptroller the following exhibits.

The Committee deem it necessary to observe, that many of the foregoing items are composed of balances of accounts; for whenever the receipts for the rent of docks and slips, or the assessments on Streets and Avenues, fell short of the expenditure, the balance only is put [162] down as the amount of payment; and the same rule has been observed throughout.

On reviewing the above statements, it appears that the ordinary payments exceeded the receipts of the same description.

To May 1817	86.628.
To May 1818	26.315.
To May 1819	48.564.
And to May 1820	49,138.
	$210.645.

Making a total excess above the ordinary receipts for four years, of $210.645, which, when added to the extra payments, amounting to $387.793. will make a total sum of $598.438 to be provided for from extraordinary sources. This deficiency has been met by the only means in the power of the Common Council namely, by disposing of such of their real estate as was deemed most for the public interest; funding the remainder of the Stock authorised by an act of the Legislature, passed in the year 1812, and by contracting temporary loans on the credit of the Corporation.

The Committee took occasion in their report of last year, before alluded to, [to] shew a large amount of arrearage in streets and avenues, and docks and slips; and they find by a reference to these items in the present exhibit, that the extraordinary payments made on them; for which there is no corresponding credit, amounts to rising $200.000, in the following proportions; viz. streets $70.000, avenues 47.000, docks and slips $83.000. It is evident, therefore, that these [163] subjects of improvement are a heavy expense on the public; and in order, to reduce the public expenditure, the first and second ought

to be suspended altogether, unless the owners *the owners* of the property requiring the improvement, shall consent to pay the whole expense, and also to advance the amount that may remain a lien on the land, until it can be legally collected by a sale of the property; and that the expence of additional piers, as well as the repairs of the docks and slips ought never be permitted to exceed the sum received for their rent.

The Committee entertained a strong hope, while preparing its foregoing exhibits, that it would be enjoined on future Committees to bring the subject annually before the Board, by which means it may be reduced to a system; and the Common Council by comparing the several data brought into view, will be fully apprised of the State of the city finances, and thus be induced to avoid any extraordinary expense, not previously provided for, and the so frequent recurrence to temporary loans, the expedient resorted to in cases of emergency.

The total amount in May, 1820, being.....		1.166.023.20
There is an Increase of debt to this period amounts to...Dollars		26.186.62

The Committee beg leave to present this subject to the Board in a view somewhat different from the above, by shewing the actual amount of funded debt purchased by the Commissioners; so much of the [166] floating debt as will be disbursed from special sources; and the Bonds held by the Corporation, that may be appropriated to the payment of the remainder of the debt.

The funded debt on the 8th day of January, instant, as above stated was			$1.100.000.

And the whole amot of debt, on this principle, on the 8th Instant, at			$921.115.75

Under this view of the public debt, it may be proper to observe, that, although the amount above stated has been purchased and placed to the credit of the Commissioners of the Sinking fund, the annual expenses are in no wise lessened by the operation, in as much as the Interest on the whole amount funded must be provided for annually, until every dollar shall be redeemed and paid off: and in estimating the disbursements for the ensuing year, it must be observed, that the Interest on the whole amount of debt is included in the calculation.

The Committee have been furnished by the Comptroller with a statement of the receipts and expenditures for eight months of the present year, commencing on the 8th day of May 1820, and ending on the 8th day of January 1821. The receipts into the Treasury, during the above period, amounted to $279.039.59, as follows:

Rents	$50.577.62	
Street Manure	3.603.14	
Mayoralty fees	446.25

And leaving a balance in favor of the Treasury, on the second Monday in May, 1821, of		$1.300.46

The estimates entered into as the foundation of the Report of December, 1819, were predicated on the avarage receipts and payments for the three preceding years. These were years of extraordinary expenditure, and although attempts were made to reduce particular items to a medium, by making such deductions as the best lights the Committee could obtain would warrant, they nevertheless find, that some of them were stated too high, and that the expenditures of the present year will amount to a much less sum than was anticipated by the Committee, and will leave unappropriated $200.000 of the sum authorised to be funded by an act of the Legislature passed on the 24th day of March, 1820. This result is, in a great measure, owing to the prudence of the [171] present board, in refusing their sanction to every extra expenditure not imperiously called for; to the receipt of a considerable sum from the United States' Treasury, a large reduction in the payment for salaries, and to the reduced price for labor and the articles of general consumption. The most mate-

* This is a new and extraordinary charge on the City, brought on it by an Act of the Legislature passed on the 21st day of April, 1818, which directs that the compensation allowed to the District Attorneys shall be paid by the respective counties for which they were appointed, to be assessed and collected as a part of the contingent expense of said County; and by a further act, passed on the 2nd of April, 1819, providing that the fines and forfeitures imposed by the Court of Sessions shall be applied to the payment of the fees allowed the Clerk of the Sessions. Previous to [170] the passage of these acts, the Sheriff collected the fines and forfeitures imposed by the Court of Sessions in this County, and from these proceeds paid the bills of the Attorney, the Clerk, and the Constables and Marshals who attended the several Courts, and annually drew on the State Treasury for the deficiency, which was very considerable. The delegates from the other Counties, observing that a considerable item of expenditure arose from the amount drawn by the Sheriff of this County for the above object, without considering that a large proportion of the pauperism and crime of the State necessarily center here, proposed the acts alluded to, by which an annual expense of about $12.000 was thrown upon the City; and although the Common Council have petitioned the Legislature for an act fixing the salary of the District Attorney and Clerk of the Sessions, and if the said act passes into a law, there will still be drawn from the City Treasury about $6.000 annually for this object.

rial savings have been on the following items: Alms House, Salaries, Repairs, Fire department, County Contingencies, Docks and Slips, and Bills of Credit. The item of Docks and Slips is a credit account for the first time in four years: and the expense on that item alone, is $70.000 less than it was estimated at by the Committee. The amount of Bills of credit unredeemed and still in circulation, being very considerable, it was calculated that at least $5.000 would be wanted for that object: but up to this date, only $62.32 has been offered for redemption.

The Committee have received from the several collectors a return of the amount of assessments, of all descriptions, remaining uncollected to the 9th Instant; from which it appears that there were uncollected,

by Noah Jarvis	$87.698.75
" John G Betts	26.217.46
" Morris De Camp	29.166.62
Making in the aggregate....Dollrs	143.082.83

A large proportion of this amount is for wells and pumps, and for paving and regulating streets, the proceeds of which are paid to the Contractors as soon as collected; and in many cases, the balances are advanced from the Treasury, on the property being advertised for the payment of the assessment, which will account for a part of the yearly debit on Streets. In the return made by Mr Jarvis is included the amount advanced to the Contrac- [172] tors for the sewer in Canal-street, already alluded to in this report, and an assessment for opening Howard and other streets, the awards of which amount to $9.189. and will be payable on the 28th day of February next, and will have to be advanced from the Treasury, as the owners of the property benefitted are said to have refused payment. The principal advances made by the Corporation, as far as can be ascertained from the aforesaid returns, are on the following streets:

Washington Street	1.250.
Hudson Street	2.250.
Oliver Street	12.159.
Harman Street	8.480.
North Street, regulating	3.861.
Howard, and other Streets	9.189.
Making a total of....Dllrs	37,154.

The method recommended to the Comptroller by your Committee, of opening seperate accounts for the improvement on every street respectively, if persevered in, will, in the course of another year, enable him to shew distinctly the amount advanced by the Corporation; what assessments they have paid for the improvement of their own property, what part of lots have been assessed to them; what was the loss or gain on the sale of such lots; and whether the assessment will cover the whole expense. This information which appears to be much wanted, in order to explain the cause of such large sums having been yearly drawn from the Treasury for this particular object.

The Committee have concluded, that, from the sum above [173] stated, a receipt may be anticipated of about $10.000 towards the disbursements of the ensuing year, presuming that so long as these improvements continue, the Corporation must be in advance, a sum more or less large. This is the only extraordinary receipt which the Committee have deemed it prudent to take into calculation, altho' there is a fair probability that receipts may be rea[l]ized from other sources; such as the Assessment for working the Avenues, the collection of which is at present suspended by the petition from the owners of the property in their vicinity.

There was referred to the Committees, some time since, a resolution on the subject of erecting an iron railing around the Park.

This subject, although admitted to be necessary by your Committee, has not been reported on, in consequence of want of information deemed proper to be laid before the Board; and an opinion that the expence would be better met from the receipts of the next year, than the present. It has now been ascertained, from an estimate entered into by the Street-Commissioner, that the cost of placing an iron railing around the Park, will be $15.622, and the Committee have added this amount to the estimated disbursements for the ensuing year.

The Board having determined to sell the block of ground between Fulton Street and the Crane Wharf, to disburse the amount at which it has been valued by the Commissioners, it is not improbable that a loss of some amount will be sustained by the operation, which will be a charge on the expense of the next year; but on the other hand, should the law pass for building the wall round the Battery, and a Tax be authorised [174] for that purpose, the Treasury will be in the receipt of a sum amounting to $17.330, expended by the Corpo-

ration for that object, which will be more than sufficient to meet any loss that may accrue in the sale of the ground alluded to.

The Committee would feel much pleasure, were they enabled to recommend a reduction of the taxes for the ensuing year; but from the best calculation they are capable of making, they find that the same amount of Taxes will be required for the next as for the present year. The estimates they have entered into, they are persuaded, if the present disposition to economise continues, will not vary materially from the following statements.

The payments into the Treasury, from the several sources of Revenue brought into view by this exhibit for the year ending in May, 1822, are estimated as follows, viz.

Rents	42.000.	
Street Manure	5.000.	
Mayoralty fees	1.200.	
Vendue Sales	10.000.	
Alien passengers	1.000.	
Docks and Slips	10.000.	
Arrearages on Streets	10.000.	
Taxes	244.000.	
Tavern and Excise licences	23.000.	
	346.200.	
To which add the estimated balance in the Treasury on the 14th May 1821	1.300.	
Making a total of		$347,500.

The expenditures for the same period, on the [175] several objects as stated below, are estimated as follows:

Alms House	80.000.
Watch	56.000.
Lamps	25.000.
Fire department	6.000.
Interest on funded and floating debt	68.000.
Salaries	28.000.
Repairs	10.000.
Board of Health	2.000.
Roads	2.000.
Common schools and Charities	10.000.
Police Office	5.500.
Streets	8.000.
Justices Courts	1.000.
Third Avenue	6.000.
Court of General Sessions	6.000.
Printing and Stationary	3.000.

Annual election	1.000.	
Coroner's fees	1.500.	
County Contingencies	12.000.	
Fence round the Park	15.622.	
Making a total of		$346.622.
And leaving a balance in the Treasury in May 1822, of		$878.

The calculations entered into by the Committee, are based on the expectation that a rigid economy will be observed in the pub- [176] lic expenditure; and with these impressions, they are not aware of any occurrence, except by some act of the Board, that will materially affect them; and they are fully sensible that the whole of their theories may be defeated and brought to nought, by a vote of the Common Council in favour of some expensive improvement, as yet in embryo. There is perhaps no circumstance which has a tendency to lead into the extraordinary expenditures of former years, so much, as the facility with which the Corporation are enabled to raise any amount of money that may be required, on their own bonds.

The Committee do not mean to be understood as asserting, that this authority has, at any time, been improperly used by the Corporation (Common Council); for they readily admit, from their own experience, that much inconvenience would be felt without it; particularly if the law on the subject of opening streets is continued in force, which makes it obligatory on the Corporation to pay, in four months after confirmation, the whole of the awards for damages, whether received into the Treasury or not. They are nevertheless of the opinion that, had the Corporation possessed no power to borrow money, except what might be derived from an Act of the Legislature, much of the present City debt would have been avoided, and improvements would have progressed only in proportion to the ability and disposition of the persons who had to pay for them. In accordance with this opinion, the Committee beg leave barely to suggest for *for* the consideration of the Board.

1st Whether the public concerns would not be better managed if our system of government was so changed as to restrain the expenditures within the annual amount estimated for each particular object.

[177] 2nd Whether the public would not be benefited, and the finances of the Corporation improved, if the opening of Streets was placed in the hands of Commissioners appointed by the Legislature, instead of being, as it now is, in the hands of Corporation.

3rd Whether the disposing of the public Docks and slips, either in fee, or subject to an annual quit rent, would not be a saving to the Corporation, and at the same time leave the public in the enjoyment of all the conveniences they now possess.

The Committee stated in their report of December, 1819, that there was due the State a large amount for arrears of State Tax; but the unsettled accounts of the late Treasurer has, 'til lately, precluded the possibility of ascertaining how much of this sum had been received; and it was therefore deemed expedient to omit the payment to the State until the Books were finally balanced.

This object has been effected by a compromise with the executors, and the balance of State Tax, which appeared from the Treasurer's books to have remained in his hands at the time of his resignation, amounting to $6,298.14 was directed by your Committee to be paid into the State Treasury. In an account transmitted by the Comptroller to Mr Fleming, the present Treasurer, a charge is made for Interest on arrears of State tax amounting to $7.030. 9. The Committee doubted the propriety of this charge, and was of opinion that some consideration [178] was due the Corporation, under the peculiar circumstances in which they were placed by the situation of their Treasurer's accounts, who was constituted the Agent of the State, in the receipt of the Tax imposed on this city. It appeared to your Committee, on examining the act passed the 24th of October, 1814. that the Comptroller had not done all he was bound to do in relation to these arrears; for he had omitted, for several years, to place the accounts of the Treasurer into the hands of the Attorney General, for collection; while the act alluded to, directs, that he shall forthwith deliver said account to the Attorney General to be prosecuted; and there is no part of the Act, within the research of your Committee, that authorises the charge of interest on any arrears that may be due the State for Taxes.

Under these impressions, the Committee instructed the Comptroller to write to the Comptroller of the State, and to urge on his consideration the above facts and opinions, together with the loss sustained by the City in the settlement of the Treasurer's accounts, incurred, in preference of the last resort, a suit at law; and at the same time to suggest, whether, under these circumstances, it would not be just, that the State should bear a proportion of the said loss; and particularly, whether the charge for interest ought not to be abandoned. To this letter, the Comptroller returned an answer, in which he states, that his not having *having* ordered a prosecution against the late Cham-

berlain, does not, under the circumstances of the case, vary the question [179] of the liability of New York for the balance of arrears. He admits that there is no direct authority, by statute, to charge interest: but thinks it must be admitted, on our part, that when a debt is due, it legally becomes chargeable with interest; and therefore presumes there can be no question as to any part of the balance.

The Committee cannot perceive the justice of the rule laid down by the Comptroller, as it respects the interest charged on the account of arrears of Taxes. The Corporation have no intrest in the Taxes levied by the State; more than any individual of the community The State appoints the City Treasurer as their Agent to receive the amount of Tax as collected, and to pay it over to a particular Bank, selected to receive their deposites. If the Treasurer omits to pay the money at a stipulated period, the Comptroller is directed to prosecute him, and his sureties, for the balance due. But the Comptroller neglects to comply with the duty imposed on him by law, of legally demanding payment of the Treasurer, and in its stead, commences the charge of an Interest account, and tells you, when you complain of this course, that his not having complied with the requirements of the statute does by no means diminish your liability; and that the debt being due, he had a right to charge Interest on the amount. The Committee, with due deference for the opinion of the Comptroller, must be permitted to doubt, both the propriety and justice of this charge for Interest: for they verily believe, had the demand for payment been made in a legal manner, there would now have been no cause for their complaint on this subject: and as there appears no reason to expect a more favorable result, from any further application to the Comptroller, they recommend to the Board, that a respectful [180] petition be presented to the Legislature, praying for relief in the premises.

The Committee have had under consideration the subject of the Commissions allowed the Collector of Taxes in this city; and while the Common Council have reduced the salaries of the officers under their immediate controul, to the situation of the times, there is no good reason why the compensation of the Collectors should not be reduced also. It appears, that the compensation as now received, was fixed at a time when the amount to be collected was sixty or eighty thousand dollars less, and when most articles of consumption were nearly fifty per cent higher than at present.

It is incumbent on the Board, therefore, as the guardians of the public interest, to ask the Legislature a reasonable deduction in the percentage allowed for the collection of the taxes in this City. The

Commissions now received by the Collectors are as follows: for the 1st 2nd and 3rd Wards, three per Cent; for the 4th 5th 6th 7th 8th and 10th Wards five per Cent; and for the 9th Ward 6 pr Cent; and the Total amount of Commission, agreeably, to the returns for 1819. was $13.560.21. The Committee propose that the Commissions be reduced to the following per Centage. For the 1st 2nd and 3rd Wards, two per cent, for the 5th 6th 7th 8th and 10th Wards four and a half per cent; and for the 9th Ward five and a half per Cent, which it is calculated will make at net saving of about $2000.

It is a subject worthy, the consideration of the Common Council, whether some method may not be adopted by which the City Tax can be collected with equal convenience to our citizens [181] and at a much less expense than that now incurred. The direct tax levied by the General Government, during the late war, was collected by a single person, and at an expence, nearly seventy five per cent. less than that paid for collecting the city-tax; and it is believed that several of our sister cities pursue a similar system to that pursued by the United States. The Common Council of the City of Charleston possess the authority of taxing every species of property within their jurisdiction, not exempted by the Legislature of the State.

The ordinance on that subject enjoins it on the owners or agents of all taxable property, which is designated by the ordinance, to deliver a true and faithful return of the same to the City Assessor, at his office, with a correct description of the lands and tenements, and the number, situation and dimensions thereof; such return must be made under oath, and subject to a penalty for neglect of ten per cent. on the amount of tax; and a further penalty of double the amount of tax, for making a false return. And the City Assessor is enjoined to prepare a faithful assessment on the property thus returned, and deliver the same into the hands of the Treasurer; when any person conceiving his property to be over assessed, may, by making oath to the same, within a limited time, have the assessment reduced; and the Treasurer shall report all such cases to the Common Council. The assessments are then to be paid to the Treasurer, on or before a fixed period; and if any person shall neglect to pay his assessment by the time limited, the Sheriff shall levy on his goods and chattles, but if the goods and chattles are insufficient, then on his real estate. The Committee have merely suggested the foregoing, in the hope that it will meet with a candid consideration by the Board, and eventually lead to an improvement [182] of the City finances.

In order that the subjects intended by the Committee to be laid

before the Legislature, may be prepared and presented to that honorable body, they propose the following resolutions:

Resolved, that the Counsel be instructed to prepare a bill to be presented to the Legislature at their present session, authorising the Corporation to assess on the real and personal estate in this city, the sum of two hundred and fifty thousand dollars: and such additional sum, as will be sufficient to pay the quota of this county for the support of common schools, together with the insolvent returns of the present year, and the expense of collecting the whole amount.

Resolved, that he prepare a clause to the aforesaid bill, authorising the Collectors of the several wards to retain in their hands the following per centage, and no more, as a full compensation to each of them respectively. viz. for the 1st 2nd and 3rd Wards, two per cent; for the 4th Ward four per cent; for the 5th 6th 7th 8th and 10th Wards four and a half per cent, and for the 9th Ward five and a half per cent.

Resolved that he be further instructed to prepare a respectful petition and memorial to the Legislature, praying that an act may be passed, authorising the Comptroller to relinquish the claim he has set up for interest on the arrears of tax for the years 1815. 1816. and 1817. on the Corporation paying into the State Treasury the balance of said arrears amounting to $22.362.95.

The Street Committee to whom the annexed petition was referred,

Resolved, that it is inexpedient to grant the prayer of the petitioners.

The same Committee on the petition of T R Birch reported.

The Street Committee to whom was referred the annexed petition, Respectfully report,
that they have carefully examined the subject, and are of opinion that the petitioner is not entitled to relief.

The owners of property on the Collect grounds must be aware that a settlement will continue to take place for some time to come, and that the pavements of those parts of the streets that cross that ground cannot retain [184] its position for any length (of time) before it must be relaid.

In the year 1818 the intersection *the intersection* of Collect and Leonard Street was paved, when the petitioner was charged $32.6 and which pavement was so sunk, that when the remainder of Collect street was paved last season, it was found necessary to repave this intersection, and the expense thereof in front of the petitioners property is $26.48.

Your Committee would also observe that whenever it becomes necessary to relay any intersection of a street that is connected with one that is paved by an ordinance of this Board the expence is included in the assessment, and is laid on the adjoining property. But in common repairs the expence of repairing the intersections do not amount to a sum worth the trouble and expence of laying an assessment, and is therefore paid by the Corporation.

They therefore submit the following resolution,

Resolved that it is inexpedient to grant the prayer of the petitioner.

Which was approved and the resolution adopted.

The Committee on assessments to whom was referred the petition of Edward P Livingston reported.

The Committee on Assessments to whom was referred the petition of Edward P. Livingston stating that he had been [185] called on by the Collector of the 1st Ward for the payment of personal Tax assessed on him, at N° 10 Greenwich Street, at which place he resides only a short time each year, that his usual place of residence is in Columbia County (Clermont,) where he has been uniformly assessed for his personal estate, and that he has paid the Tax for 1820. already in that County, and prays to be relieved from paying the amount assessed on his personal property in this City.

Report, that on examination of the case they find that the petitioner is owner of the House and Lot N° 10 Greenwich Street, that it is assessed to Robert L Livingston, as is the personal property also. The Collector conceiving that there had been an error made by the assessors in the name, and knowing the petitioner to be the owner and occupant called on him for payment. The Committee are satisfied that the usual place of residence of the petitioner, is in the County of Columbia, and that he is assessed and pays on personal property in that County, on a much larger amount, than that on which he is assessed in this city, and are therefore of opinion that the request of the petitioner ought to be granted and respectfully submit the following Resolution.

Resolved, that the Collector of the 1st Ward be instructed to decline collecting the Tax assessed on the personal property of Robert L. Livingston at N° 10 Greenwich street for the year 1820. and that he return the same in the List of errors and Insolvencies of said Ward.

The same Committee on the petition of Daniel Boardman reported,

The Committee of Assessments to whom was referred the petition of Daniel Boardman, stating that for four or five years last past, he had been rated by the Assessors and had regularly paid Tax on $15,000, personal property in the third Ward, and that for the year, 1820, they had increased the amount to $50.000, That he left the City in the early part of the summer, and did not return until the time for examining the book of Assessment had passed, consequently knew nothing of the increase until called on by the Collector for the payment of the Tax.

He applied to the assessors to know why they had rated him at that sum, they replied " they had been informed he had received a large sum of money from the General Government " which he says was true, but that it had been applied in building three large and expensive houses in the 3rd Ward, and the purchase of 16.000 Acres of land with the buildings &c on all of which he is rated and pays taxes, leaving his personal property not to exceed $20.000, on which he is willing to pay, and praying that it may be reduced to that sum.

Report, That they have given the case a careful examination, and being satisfied of the correctness of the particulars as set forth in the petition, are of opinion that the prayer of the petitioner ought to be

granted, and respectfully recommend the adoption of the following resolution;

[187] Resolved, that the Collector of the 3rd Ward be instructed to receive from Daniel Boardman One hundred dollars in full for personal tax for the year, 1820, and that he return the Balance in the list of errors and Insolvencies of said Ward.

The Special Committee to whom it was referred to enquire what would be the expence of enlarging the Park reported,

The Committee to whom it was referred to enquire what would be the expence of enlarging the Park, Report,

That according to the best estimate which they have been able to make, the whole amount of enlarging the Park, by adding to it all the ground between Ann Street, Nassau Street and the present Park, would be about Three hundred and thirty four thousand dollars.

That there might be assessed upon proprietors of land benefited by the improvement about the sum of Two hundred and eleven thousand dollars, leaving the sum of one hundred and twenty four thousand dollars to be paid by the Corporation.

That in the above estimate is included the sum of thirty four thousand dollars for widening Nassau Street and for Contingencies: so that if this sum be stricken out there will then remain ninety four thousand dollars to be paid by the Corporation.

[188] The Comittee being instructed only to report facts, have not thought it their duty to recommend any resolution upon the subject.

All which is respectfully submitted.

The Finance Committee to whom was referred the petition of the French Benevolent Society reported,

The Finance Committee to whom was referred the petition of the French Benevolent Society praying for a donation in support of that Institution, Report,

That the respectability of the applicants would induce the Committee to recommend a compliance with their petition, were they not perfectly satisfied, that the measure would be improper.

The Committee have on former occasions given their reasons why, in their opinion, the distribution of the public Charity should be solely made by the Commissioners of the Alms House, and they deem it unnecessary now to repeat them, and they therefore propose the following resolution.

Resolved, that it is inexpedient to grant the prayer of the petition.

The same Committee on the petition of Henry M Van Solingen and others reported.

The Finance Committee to whom was referred the Memorial of Henry M Van Solingen and others, requesting the privelege to commute the quit rent on a grant for land fronting on Cortlandt and West streets, Report,

That the grant alluded to is dated the 6[th] day of February 1804, and is subject to an annual rent of $80.42. That the quit rents on all grants issued prior to the year 1804, as well as the commutation for such grants, are reserved by law to the Commissioners of the sinking fund, and that the grant held by the Memorialists, being issued subsequent to the time limited, is not entitled to the privelege of commutation, except by a special law for that purpose.

That a good portion of the resources of the Corporation is derived from their rents, and the Committee are unwilling to recommend a depreciation of those resources by commutation, and they therefore propose the following resolution.

Resolved, that it is inexpedient to grant the request of the Memorialists.

[190] The same Committee presented the following communication on the subject of the fees allowed to the Peace Officers for taking vagrants to Bridewell.

The Finance Committee beg leave to inform this Board that on the 17th of November 1817, a resolution passed the Common Council, allowing to every officer 62½ Cents for bringing to the Police on process a prisoner that shall not be bailed, but who shall be committed, and afterwards discharged from Prison, or convicted.

The sum formerly allowed for these services was 31½ cents and it is presumed by your Committee that the sum was raised to 62½ Cents in conformity with the then price of living in this city; but as all the articles of consumption have fallen in price since the passage of the aforesaid resolution, and as the Corporation have reduced the pay of all the officers over whom they have controul, the Committee are of opinion that in this particular charge a reduction ought also to be made and they offer the following resolution accordingly,

Resolved that hereafter the sum of fifty cents and no more be allowed to every officer who shall bring to the Police Office, on process, a prisoner that shall not be bailed, but who shall be committed and afterwards discharged from prison, or convicted, and that this sum be charged in the Book of accounts kept in the Police Office between the officers of that Court and the Corporation

The same Committee on the subject of extending the Iron fence round the Park, reported,

The Finance Committee to whom was referred a resolution instructing to enquire into the expediency of extending the Iron fence from its present termination to the lower end of the Park, on Broad Way, and to report an estimate of its expense, Report,

That the resolution above recited was adopted by the Common Council on the 24th day of July last, and although the Committee was sensible that a fence of some description would soon be necessary in consequence of the decayed situation of that which now encloses the Park in front of this Hall they nevertheless knew that the situation of

the Finances would not permit the expenditure during the present year, and they therefore concluded to omit reporting until the estimate for the present year was completed.

The subject which was referred to the Committee, only included that part of the Park fronting on Broad Way; but the situation of the whole line of fence is in such a state of decay, that the Committee have concluded to recommend to the Board that an Iron railing be erected extending from the Bridewell fence to the intersection of Broad Way and Chatham Street, and to be continued from thence up Chatham Street to the Goal fence.

The Street Commissioner, at the request of the Committee has prepared a plan of the fence, together with a description of the base, columns and other matters relative to the undertaking, which is herewith presented. He also furnished an estimate of the expense [192] for completing the whole work amounting to $15.622, and which is also presented with this Report.

The Committee beg leave to propose the following resolutions:

Resolved, that the Street Commissioner be authorised to advertise for and receive proposals, for the Mason, stone and iron work, necessary to the erecting an iron railing, commencing at the Bridewell fence, and extending around the Park to the Goal fence on Chatham Street, with base, columns and gates, agreeably to the plan and designation accompanying this report.

Resolved, that he be further authorised, under the direction of this Committee, to enter [in]to contracts with such competent persons whose estimates shall be the lowest, for the completion of said work; and that the contractors be bound to complete the same by the 1st day of September next.

The Finance Committee on the petition of William King, reported,

The Finance Committee, to whom was referred the petition of William King, Report,

that in a late report made on this subject, the Committee [193] stated that William King held the lease of a House and Lot belonging

to the Corporation N° 265 William Street, for the term of 7 years from the first day of May 1819, at the annual rent of $320.

That he came in possession of said lease for the purpose of securing a debt due him by Jacob Warner, the original bidder for the lease, for building a small tenement on the premises. That as he had voluntarily taken said lease, there appeared no good reason to the minds of the Committee why the Corporation should release him from his engagements without an equivalent, any more than others of their lessees who may be similarly situated by reason of the fall of rents.

The petition now referred to your Committee, however, differs from the former, inasmuch as the petitioner now offers to relinquish all claim to the building he has erected on the premises, if the Corporation will release him from the conditions of the lease; and the Committee having been creditably informed that the petitioner will be utterly unable to sustain the payment of the rent without a reference to his sureties, they have agreed to receive his Notes, endorsed by his sureties for $280 payable on the first days of March, April, May and June, being the amount of rent due to the first day of November last: and they recommend that he be released from the conditions of the lease on his making an assignment of all his right to the building erected on the premises, and they therefore offer the following resolution,

Resolved, that the Comptroller be authorised to receive from William King an assignment of the lease for the House and Lot N° 265 William Street, together with all his rights the building erected on the premises; and, that he advertise the said premises to be let from the first day of May next, with the [194] other public property.

The Finance Committee to whom was referred a report from the Comptroller, covering a list of public property which in his opinion

may be disposed of by Lease, beg leave to report by offering the following resolutions.

Resolved, that the following property be rented to the persons herein after named, and for the terms and rents designated.

1st The room in the Engine house, Beaver Street to Maria Betts, for the term of one year, and at an annual rent of $100.

2nd The room in the Engine house in Rose Street, to R F Mott for the term of One year, from the 1st day of May next, and at a rent of $80.

3rd The Room in the Watch house Spring Street to John Requa, for the term of one year from the first day of May next and at a rent of $85.

[195] 4th The room in the Engine House Roosevelt Street to Catharine Killegrew, for the term of one year, from the 1st day of May next, and at a rent of $75.

5th The Lot of ground, corner of Wall and Nassau Street to Blackwell and McFarlain, for the term of one year from the first day of May next, and at *at* [a] rent of $100.

6th The Flagg Staff at the Battery to John DeClew for the term of one year, from the first day of April next, and at a rent of $350.

7th The House and Lot No 13 and the Lot No 18 on Water Street at Brooklyn, to Benjamin Smith for the term of 21 years from the 1st day of May next, at the annual rent of $300. with the privelege under the direction of the Comptroller and Street Commissioner, to remove the said house about 30 feet west, and with a condition, that he is to insure the said house from loss by fire, and to transfer the policy to the Corporation.

Resolved, that the Comptroller be authorised to advertise the following property to be rented from the first day of May next, and if the same shall not be rented by the 22nd Instant, that on that day it will be sold at Auction to the highest bidder on a lease of one or two years, as in the opinion of the Finance Committee will be most for the public interest.

1st 14 Cellars under the Washington Market,
2nd 9 Cellars under the Centre Market,

The Committee on Applications to the Legislature to whom was referred the project of a Law to regulate Inns and Taverns, communicated by the Society for prevention of Pauperism, reported,

The Committee on applications to the Legislature to whom was referred the project of a Law entitled " an Act to regulate the granting of licences, to keep Taverns, Inns, victualling houses, Ordinaries, &c &c to sell Wine, Brandy, rum, strong waters, Cider, beer, Ale, or other strong liquors in the City and County of New York, by retail, or by the

small measure, under the quantity of Five gallons, and for other purposes," communicated to the Common Council by the Society for the prevention of pauperism: Report, that the question of raising the minimum price of licences to retailers of Wines and spirituous liquors was before the Common Council in the early part of the last year, and was at that time referred to the Committee on Applications to the Legislature, and that Committee, after considering the subject, deemed it improper to raise the minimum price of the retail licence; and your Committee apprehend that the Act referred to them, as above mentioned, would not, if passed into a Law, have the effect of diminishing the pauperism of this City, for reasons which must be obvious to the Board. Your [198] Committee are therefore of opinion that it is not expedient to request the passage of the said law. They recommend the following resolution.

Resolved, that it is not expedient to desire the passage of the said law.

Alderman Allen presented the following resolution. Resolved that the Counsel be instructed to prepare a petition to the Legislature, together with a Law authorising the Corporation to assess on property in the several Wards in this City a sum not exceeding in the whole One hundred and fifty thousand dollars to be applied to the rebuilding and regulating of the Battery, said sum to be assessed and collected in Instalments of Twenty five thousand dollars each year, and to be appropriated by the Supervisors on the several Wards as follows.

On the first Ward	$6.666.
On the second Ward	5.000.
On the third Ward	5.000.
On the fourth Ward	2.334.
On the fifth Ward	1.666.
On the sixth Ward	1.334.
[199] On the seventh Ward	1.000.
On the Eighth Ward	1.000.
On the Tenth Ward	1.000.
Total	$25.000.

Resolved that the Corporation be authorised to borrow the whole or any part of the said sum of $150.000 for the paying of which, together with the Interest, the proceeds of said Tax to be pledged.

Resolved, that the Clerk be instructed to give the necessary notice agreeably to a Law of this State of the intention of the Corporation to make application for the aforesaid Tax, and the subject for which it is required.

Resolved, that on the passage of the aforesaid Laws the Street Committee be authorised, under the inspection of a Committee to enter into contract for building the wall agreeably to the plan and description submitted to the Board on the 13th December 1819, and also for filling the space between the contiguous ground and wall and for any other matter necessary to complete the whole plan.

The question being taken, on the above resolutions they were severally agreed to.

Alderman Allen presented the following resolution,

Resolved, that the Counsel be instructed to report at the next meeting of the Board whether Sylvanus Miller has complied with the conditions of certain Resolutions passed on 19th October 1818, relative to a grant for ground under water in front of the property of Margaret Miller his wife, and the payment of the assessment [200] on said ground; and also relative to the payment for a Gore of Land, in front of said property, the value of which was assessed on and paid by the Corporation.

[201 and 202 blank.]

The Minutes of the last Meeting were read and approved.

His Honor the Mayor laid before the Board the return received from the Keeper of the Bridewell or City Prison of the persons confined therein, which was directed to be filed.

A petition from T. W. Thorne to be permitted to construct a vault on Hudson Street next to the corner of Reade Street, was referred to the Street Commissioner to grant on the usual terms.

[204] His Honor the Mayor laid before the Board a letter from the Hon[r] John Williams a Senator of the United States, enclosing the draft of a Bill before the Senate for retroceding the land at the Battery to the Corporation and wishing to know if the Bill met the wishes of the Corporation.

The Bill authorises the President of the United States to retrocede to the Corporation the Lands at the Battery, either with or without the works erected thereon by the United States. The Mayor stated that agreeably to the opinion of the Chairman of the Committee of the Board on that subject, and of several of the Members whom he had consulted, he had replied to M[r] Williams that the Bill was in conformity with the wishes of the Corporation.

Whereupon the letter was directed to be filed.

An application of Sylvanus Miller for an advance on the award to him for land taken at Fulton Slip was read and referred to the Finance Committee.

A petition of William Cunningham of the town of Brooklyn on Long Island [205] was received stating that he is owner of certain Lots in Brooklyn formerly the property of Comfort and *and* Joshua Sands—that he understands an agreement was formerly made by the Corporation and said Sands, to grant to the said Sands for one cent a foot the land under water opposite said Lots on the East River, and praying said grant as Assignee of said Sands may be made to him, which being read was referred to the Finance Committee.

The Trustees of the Bank for Savings agreeably to the provisions of "an Act entitled an Act to Incorporate an Association by the name of the Bank for savings in the City of New York," presented their annual Report. By this it appeared that the Trustees had received from 5073 Depositors from the first of January to 31[st] December 1820 the sum of $342.085.23.

The Report was directed to be filed.

The petition of Abraham Frazee for relief from penalty incurred by driving his sled on the side walk in Liberty Street was referred to the Police Committee, with authority to remit the penalty.

A petition of Richard Burnham for pe- [206] cuniary aid, was referred to the Commissioners of the Alms House.

An account of James L Bell, Sheriff of the City of New York, for services rendered by certain peace officers in attending on Courts with the accompanying Documents was referred to the Finance Committee.

A letter from Joseph Warren Brackett and others enclosing an opinion of Richard Harrison and John Wells Esquires on the construction of the Acts of, 1816, and 1817, authorising the Corporation to take the block on Fulton Slip for a public Market was presented and referred to the Special Committee on that subject. It was also ordered that the opinion of the Counsel of the Board (Ogden Edwards,) and William Slosson Esquires be referred to the same Committee. It was further directed that the opinion of the last named Gentlemen be published in the papers employed by the Board.

A Petition from the Measurers of Grain recommending an amendment to the Law regulating the measuring of vegitables so as to make it compulsory to employ a measurer, and to reduce the *the* price of measuring to one cent per bushel: Also [207] remonstrating against the appointment of a Measurer for vegetables exclusively, was read and referred to the Market Committee.

A petition of Thomas Foote for an appointment as an Inspector of Lime, was referred to the Special Committee appointed on the petition of the Measurers of Lime (M^{r} Brittain Chairman.)

A number of petitions from Farmers residing in King's and Queen's County praying for the erection of a Market at Fulton Slip were read, and referred to the Special Committee appointed on that subject. (Alderman Mann Chairman.)

It was resolved that an additional member be added to that Committee, whereupon, Alderman Anthony was appointed by the Mayor on said Committee.

A petition of Peter H Waterbury, for appointment as Overseer of the Convicts who work on the roads was referred to the Commissioners of the Alms House.

A petition of sundry citizens, employed as Oystermen complaining of the garrison of United States Troops stationed on Bedlows Island, stating that they obstruct them in the pursuit of their occupation, by taking them out of their Boats, and even threatening [208] to fire upon them if they followed their occupation nigh to said Island, was read and referred to the Police Committee.

A petition of William Ponsforde, holding stall N° 8 in Fly Market, and of Cornelius Chiviss holding Stall N° 39 Washington Market

praying to be permitted to exchange Stalls with each other was referred to the Market Committee.

A request of the said Chiviss and of John Brewer of the 14th August 1819, to be permitted to exchange stalls N° 50 and 39 Washington Market were referred to the same Committee, with authority to act in the premises as they judge advisable.

A Petition of James Gedney for appointment of Inspector of Fire Wood, was referred to the Committee on wharves, piers and slips.

A Petition of Benjamin Williamson for remission of fine for selling liquor at a house to which he had removed, without procuring a transfer on his licence, was referred to the Police Committee.

A petition of the Butchers of Catharine and of Centre Market, complaining of Drovers and others slaughtering and selling Meat in the City without [209] paying fees therefor—was referred to the Market Committee.

A petition of George Mills stating that he had been prosecuted by Alfred P Edwards in an action of assault and Battery—That the cause arose from the opposition of Edwards to Petitioner while endeavouring to carry into effect the orders of the Board of Health, and the petitioner did no more than his duty; and praying that the Attorney of the Board may be instructed to defend the suit commenced against him: Whereupon it was resolved that the Attorney *to* be directed to defend said suit against said Mills.

A petition that the sewer contemplated to be made in Thompson Street be immediately completed, and that Thompson Street be regulated from Canal to Broome Street and Grand Street from Sullivan Street to Broad way was read and referred to the Street Committee.

A Petition from sundry Auctioneers who are in the practice of selling goods at Auction in the Street in Wall Street between Water and Front Streets, stating that they understand there is a remonstrance against their selling at that place, and praying for the reasons stated in their petition that they may be permitted to continue their sales at that place, was read and referred [210] to the Street Committee.

A petition of John Addington, and of the Members of Fire Company N° 15 was received, stating that said Addington was on 8th November 1814 elected a Member of said Company, and has served in said Company until this time—that by some mistake his appointment has not been entered on the minutes of the Common Council and praying that a certificate of service may be given to him by the

Clerk, was read and referred to the Committee on the Fire Department.

A Petition of Benjamin Disbrow and William M Hitchcock. contractors for Street Manure, praying that the fee for Inspecting a load of Manure may be reduced from three to two Cents per load, was read and referred to the Street Committee.

A petition of Daniel Fash, for appointment of Inspector of lime, was referred to the Committee on Applications.

A petition of Abraham Van Gassen complaining of an error in copying the Tax-Book of said Ward, by which his property was assessed as of the value of $12.000 instead of $1200. and praying relief, was referred to the Committee on Assessments.

[211] A petition of William Cooledge, a native of Portland but having settled with his family in this City, and praying licence as a Butcher, was referred to the Market Committee.

A petition of the Trustees of Asbury African Church praying the grant of a piece of ground, near the Potter's Field for a burying place. was referred to the Committee on public Lands and places.

George Cumming
City Inspector

He also on the case of John A Hardenbrook, referred to him, reported that the Nuisance has been corrected, and also on the complaint of Dennis Kenan against the Slaughter House of John Davenport that no cause of complaint existed. Which Report was directed to be filed.

The Counsel presented the draught of a Lease to David Dunham of the Ferry from the foot of Grand street to Morrells Point on Long Island; and a Quit claim Deed to Colonel Marinus Willett of a Lot of Ground formerly ceded by him to the Corporation in consideration of their establishing a ferry from the foot of Delancy Street to Williamsburgh, which Lease and Deed were directed to be duly executed.

He also presented the following *the following* Memorials to the Legislature, and correspondent Bills to be enacted into Laws, which were directed to be duly authenticated, and transmitted to the Legislature. Viz a Law regulating the compensation of the District Attorney. The Clerks of the Sessions and Oyer and Terminer—The *Offi-* [220] Officers attending those Courts, and the Cryer.

A Law relative to taxes and assessments—A Law to amend the Law to provide against infectious and pestilential diseases, and a Law respecting the Sealers and Inspectors of Weights and Measures in the City of New York.

He also agreeably to directions presented a report respecting the agreement with Silvanus Miller, which was read and referred to the Finance Committee.

The Special Committee to whom was referred the Memorial of the Freeholders and Lessees of real Estate in the City of New York presented a Report, which was read and laid for consideration. It was also directed to be printed for the use of the Members, and published in the papers employed by the Corporation.

The Committee on Wharves, Piers and Slips to whom was referred the Memorial of Masters and Owners of Vessels frequenting the public slips praying a reduction of the yearly Wharfage reported.

The Committee on Wharves, Piers and Slips to whom was referred the petition of the Masters and Owners of Vessels usually frequenting the public Slips praying for a reduction [221] of the yearly Wharfage. Report,

That in the year, 1818, in consequence of the addition given to Vessels at the Public Docks, the yearly wharfage was advanced 50 per Cent on the then established price. That the amount paid by the Lessee in 1817, was $26.500. in, 1818, the year in which the Wharfage was raised $39.750. in the year, 1819, $37.000. and in the year, 1820, $34.760; being an advance, in the year that the price was raised, of 50 per Cent; in the second year 40 per Cent, and in the third year 31 per Cent. This annual reduction in the Rent, as your Committee are lead to believe, is owing in a great measure to a less number of Vessels resorting to the Slips than formerly.

The advance in the rate of Wharfage and the depressed price of produce brought to this market by the Vessels alluded to, together with the consequent reduction of their freight and earnings, may have induced them to seek accommodations at a less rate at the private Docks, and must account for the variation in the annual offers for the the Lease. These considerations have induced the Committee to believe that a moderate reduction in the price of Wharfage will not materially affect the Revenue derived from that source and they recommend the following as the future price of Wharfage, to take effect from and after the [222] first day of May next. Vessels coming to the Public slips between the first day of May and the last day of July inclusive, to pay 50 Cents per ton, and if between the first day of August and last day of October inclusive 40 Cents per ton; and if between the first day of November and the last day of January inclusive 25 Cents per ton, and if between the 1st day of February and the last day of April inclusive 12½ Cents per ton; and all vessels

of not more than five tons burthen to pay two dollars on her first coming to lie at any of the said Wharves or slips. The Committee beg leave to propose the following resolution.

Resolved that the Counsel be instructed to report the Law on the foregoing subject, so amended as to conform to the rates of wharfage hereby recommended.

The Alderman and Assistant of 4th and 6th Wards on the communication of Noah Bartlett, reported:

The Committee to whom was referred the communication from Noah Bartlett, relative to the room lately occupied by him as a Court room situate in Tryon Row, and praying the same may be taken by the Corporation for a District Court,

Respectfully Report,

That they have had a conference with M^{r} Bartlett, and are of an opinion that the room ought to be taken at 100$ per annum, and would offer the following resolution.

Resolved that the Counsellor of the Board be instructed to draw leases with the following provisions [224] viz. That the said Bartlett is to build in addition to the present room, a good and sufficient room for a Jury-Room, in size not less than Eight feet wide and Ten feet in length immediately adjoining the above described, and the

Corporation on their part are to be bound to keep the same, provided it shall be necessary for the convenience of the Court, for Four years from May next.

The Committee on Assessments on the petition of Mary Ludlow reported.

The Committee on Assessments to whom was referred the petition of Mary Ludlow representing that she had been called on by the Collector of the 3rd Ward for Twenty five dollars personal tax for the year, 1820. that she had been assessed by mistake, has no personal property and prays to be relieved from paying said Tax.

Report, that they have given the case a careful investigation, and find that the petitioner is a [225] married woman whose husband lives in another Ward, where he is assessed and pays Taxes on his real and personal property, and that consequently she is not liable to be taxed. Your Committee are of opinion that the prayer of the petitioner is just and reasonable and ought to be granted, and respectfully recommend the adoption of the following resolution.

Resolved, that the Collector of the 3rd Ward be instructed to decline collecting the Tax assessed on the personal property of Mary Ludlow, and that he return the same in the list of Errors and Insolvencies of said Ward.

The same Committee on the petition of Edward McLaughlin, in behalf of the Revd Mr Perine reported:

The Committee on Assessments to whom was referred the petition of Edward McLaughlin, in which he states that the Collector of arrears of taxes has served him with a notice (as agent and attorney for the Revd Doctor Matthew La Rue Perine, late of this City) to pay a balance of between eight and [226] nine dollars, which stands

debited on his Tax Book including Interest and advertising) for the year, 1819.

The above amount originally, was abated by Mr Cunningham, late Collector for the 8th Ward, because the Law entitled Doctor Paine as a Minister of the Gospel to such abatement, but, as that Reverend gentleman was not known by the Assessors as a minister, and as he not knowing his privelege, never attempted to avail himself of it by calling upon the Assessors as the Law directs, the Collector of arrears of taxes denies the right of Mr Cunningham to make the deduction. The petitioner concludes with praying that the abatement made by Mr Cunningham be confirmed, and the Collector be directed to cancel the balance which now stands against the property of Doctor Perine.

Report, that on an examination of the case they find that the tax in question was assessed, as appears by the Tax book, on the real estate of the Reverend Doctor Perine, that the Assessors knew him to be a minister of the Gospel, and assessed the property accordingly. The Committee are of opinion that Mr Cunningham had no right to make the abatement, and that the prayer of the petitioner ought not to be granted.

The following resolution is respectfully submitted

[227] Resolved, that the prayer of the petitioner ought not to be granted.

The same Committee to whom was referred the Assessment for regulating and working the 3rd Avenue Reported,

The Committee on Assessments to whom was referred the Assessment for regulating and working the third Avenue, report,

That they have had the subject under consideration; that the persons assessed have been heard by Counsel in opposition to the report.

That among other objections to the confirmation of the report it was contended that the Corporation did not possess the power of imposing an assessment for working the Avenue.

That the Committee have procured the opinion of John Wells. Esqr upon this subject (which is herewith submitted) from which it appears to the satisfaction of the Committee that the Corporation do not possess (have not) the right of imposing such assessments. Your

Committee are there- [228] fore of opinion that it is inexpedient for the Board to make any further order upon the subject.

Opinion of John Wells Esqʳ

The third Avenue has been opened, I presume, under the sections of the "Act to reduce several laws relating particularly to the City of New York in to one Act" which one [is] entitled "opening and laying out Streets &ᶜ" beginning at the 177 Section. The questions submitted to me, do not, as I understand relate to any proceedings under those sections for the opening of the Avenue, but to the manner in which the expences of making the Street or Avenue fit to be travelled over, after it was opened, are to be borne. An estimate and assessment has been made, as I am informed, of those expences, under the 175 Section of the Act already referred to. The first enquiry therefore is whether the third Avenue is a Street within the meaning of that section, or whether it is to be considered a public road or highway, within the meaning of the 193 Section of the same Act. The subject is by no means [229] free from difficulty, tho' from the reflection I have been able to bestow upon it, I incline to consider the third Avenue rather in the latter than in the former light. It is now the direct and nearest road to and from Harlaem Bridge, and if not already, will no doubt soon be substituted almost wholly; for the purposes of travelling instead of the old road.

The expence of making and regulating this Avenue appears to me therefore to come, rather within the powers and duties of the Corporation as Commissioners of highways than within those given by the 175 section of the above act. It is true that this Avenue, is also a street, but so is every highway, indeed they are in some respects convertible terms; and yet it is manifest that in other respects they are not so, and that the Corporation are invested with different powers relative to Highways from what they are to Streets, merely as such. The Sections already alluded to shew this. What then is to distinguish one from the other so as to give operation to the different powers of the Corporation? I should think a fair practical rule was this; that a street is to be considered a highway and regulated accordingly— where it forms one of the great outlets and inlets of the City on the

Island, beyond the condensed occupation which is confined to City lots, properly so called. There may be some difficulty in always fixing on the proper boundary between streets [230] and highways in this sense, but it is apprehended that it may generally be done without much injustice

A rule of this kind might at all events, as it appears to me, be fixed on with more fairness than by going to the other extreme, and considering the Avenue at its termination at the Bridge as much a street as if [it] was in the heart of the City, and subjecting the adjacent proprietors to the same regulations.

The p[h]raseology too, of the 175 section favours this construction, as does that of the 194. The expences to be incurred under the first section are directed to be equitably assessed "among the owners or occupants of all the Houses and Lots intended to be benefited thereby." The expression of Houses and Lots is well understood when applied to the part of the City which is built upon, or laid out into building lots to be used for that purpose, and having no other use or value. It could not however apply to the great portion of the land through which the Third Avenue runs, which has been, and for a long time to come can only be valuable as lands for the purposes of agriculture or Country residences. The 194 section also provides for the erecting of Causeways and Bridges on the public roads or highways, and cuting ditches from them—Now it would seem that wherever Causeways, Bridges and Ditches [231] were required on a Street or Road, and it is believed they were all put on the third Avenue, it would be natural to consider it a public road or high way, in contradis[tinc]tion to a street bounded by houses, and Lots fit only for houses. I am constrained therefore to think that the expences of making the third Avenue fit for use, as it has been, must be provided for by the Corporation in their character of Commissioners of highways, and not under the powers given to them by the 175 Section.

I am also desired to state my opinion whether supposing the expences of regulating the third Avenue, are to be estimated and assessed under the 175 section, the labour of the Convicts imprisoned in the City of New York would form a proper charge in making such an estimate. The expense of supporting the Convicts is borne by the City at large, as a County charge. The Corporation are authorised by the 242 section of the Act already referred to [to] employ those Convicts "in and about public work, or otherwise." There is no power given, however to make any charge for their labour, and I cannot think the Corporation entitled to do so; They could not employ them

at all, except under the law referred to, which must therefore be strictly followed, and as that is silent about compensation I do not see how it can be asked. Their labour, it would seem, was intended for public benefit, and ought to be- [232] long to those at whose expense they are supported.

The value put upon the labour of the Convicts ought not therefore, in my opinion to have entered into the estimate of regulating the expense of the third Avenue.

(signed.) John Wells.

Which having been read, the same was ordered to be filed.

A Report was received from the Reverend John Stanford detailing his Ministerial services during the past year at the Establishment at Belle Vue, at the Bridewell and at the Debtors Prison—Which being read, it was ordered that the same be printed. Mr Sanford having in his report suggested the propriety of making an allowance of fuel, during the winter season for the use of the Chapple in the Debtors prison that subject was referred to the Committee of Charity, with authority to make such regulations on the subject as they should judge advisable.

It was also referred to the same Committee to report as to the compensation it would be proper to make to the Reverend Mr Sanford for his services, during the last year.

The Ferry Committee to whom was re- [233] ferred the petition of Isaac Chauncey reported;

The Committee to whom was referred the Communication of Commodore Chauncey, relating to the repairs done upon the road leading to Hell Gate ferry by Robert Lattimore and Co and requesting the Corporation to pay one half of the expense for such repairs, Report,

That they have had the subject under consideration, and that they have consulted E. W King and George Buckmaster Esquires two of the then Ferry Committee, who state that they were at Hell Gate Ferry for the purpose of examining the Ferry &c and that they then found the road in a very bad state, particularly, that part opposite to the Ferry House, which was so much gullied in consequence of heavy rains, that it was almost impassable with carriages—They further state that Commodore Chauncey enquired of them whether the Corporation would join him and his Neighbors in the expense of repairing said road, to which they replied that they had not authority to make an engagement to this effect, but that they had no doubt that the Cor-

poration would pay their proportion of such expense, They also express their belief that Commodore Chauncey employed Robert Lattimore and Co. in repairing the road

In consequence of this intimation; the whole amount of the Bill for repairing said road is $253.$^{87}/_{100}$ [234] one half of which has been paid by Commodore Chauncey and his Neighbors.

The Committee deem it sufficient to present to the Board this statement of facts in this case, leaving it to them to determine whether the petition shall be granted.

Respectfully submitted,

Thoˢ S Townsend.

Alderman Townsend presented a resolution directing the Comptroller to report a Warrant in favor of Robert Lattimore and Co for $126.28, being one half the Bill for the repair of the road leading to Hell Gate Ferry. The question being taken thereon it passed in the Negative.

Mʳ Brittain presented the following resolution, which was adopted.

Resolved, that all Ordinances hereafter reported to the Board by the City Inspector which appertain to the filling up of any Lot or Lots (when in his opinion the cost will exceed $100.) that all such ordinances take a reference to the Street Committee to report thereon.

A request of Mʳ Garrit Gilbert to be [235] permitted to use for a short time the room formerly occupied by him as Register for the purpose of writing up the Indices of the Conveyances and Mortgages yet unfinished, was referred to the Committee on public Offices, with authority to grant the request.

The Board proceeded to the consideration of the laws revised relative to removal of filth and dirt from the Streets, and the law regulating the lying of Vessels at the public slips, and to establish the rates of wharfage, were read and approved.

The reading of the Minutes of the former meeting was dispensed with.

The Mayor informed the Board that he had summoned this Meeting at the request of the special Committee on the subject of the proposed Market at Fulton Slip.

[239] The Special Committee on the subject of the proposed Market at Fulton Slip presented a report which was read, and on motion the same was laid for consideration, and was directed to be printed for the use of the Members, and published in the papers employed by the Board. It was also ordered that the opinion of Mr Slosson and the Counsel on the subject of said proposed Market be also printed for the use of the Members together with the said Report of the Committee.

A communication of Joseph Coppinger in relation to the construction of the proposed Market at Fulton Slip was read and laid on the table.

Alderman Tooker presented the following resolution. Resolved,

That the Evening Post be discontinued as an advertising paper for this Board, and that the American be substituted in its place. The question being taken thereon, it was carried in the affirmative

The Ayes and Noes having been called by the Recorder. were as follows.

Ayes. Tooker, Anthony, McQueen, Mann, Board, Allen Mr Crane, Town, Parker, Brittain, Emmons, Depeyster, Hammond. 13.

Noes. Mr Recorder. Aldn Townsend. Kip. Mr Bolton. Valentine. 5.

[240] The Board then resumed the consideration of the revised laws, when the following laws were adopted.

1st A law relative to the Park, Battery and Bowling Green.

2nd A law to regulate digging of Vaults, and the construction of Cisterns in the Streets, and for other purposes.

3rd A law to prevent the firing of guns, and discharging of Rockets, squibs, crackers. and other fire works, and for other purposes.

4th A law for removing snow and ice from the side walks and gutters.

5th A law to regulate the raising and lowering of Merchandize.

6th A law to prevent fraud in the sale of vegetables.

7th A law to prevent the blowing of Horns and other Instruments.

And a law to regulate pawn brokers, and dealers in the purchase and Sale of second hand furniture Metals or clothes.

The law to prevent the ringing and tolling of bells for funerals which was on 27th November last laid for consideration was called up. A clause being under consideration which prohibited the ringing a Bell of any church in the city on sunday more than one hour before the commencement of Divine [241] service in said church, Alderman Mann moved that the section do not extend to the 7th Ward, it passed in the Negative.

The Ayes and Noes being called by Mr Crane were as follows.

Negative. Mr Recorder. Aldn Tooker, Townsend Anthony, McQueen, Board, Mr Bolton, Valentine, Crane, Town. 10.

Affirmative. Aldn Kip Mann, Allen, Mr Parker, Brittain, Emmons, Depeyster, Hammond. 8. The Question was taken on the Clause— and it passed in the Negative

The question was taken then on agreeing to the law, and it was carried in the affirmative.

The Counsel agreeably to directions presented the draught of a law to provide for the expence of extending the Battery, which was read and after some discussion was referred to him for amendment.

He accordingly to the reference to him reported with the amendment that had been suggested a Memorial to the Legislature, and corresponding bill relative to raising a Tax for the improvement of the Battery, which being read was in the words following.

To the Honorable the Legislature of the State of New York, in Senate and Assembly convened.

The Memorial of the Mayor, Aldermen [242] and Commonalty of the City of New York,

Respectfully sheweth,

That within the two last years in consequence of a violent storm, the greater part of the Bulk-head of the West side of the Battery in said City gave way, and a large quantity of earth was washed into the River. That as your Memorialists must necessarily be subject to a heavy expense in repairing the injury they deem it proper, as well for the purpose of preventing the recurrence of a similar misfortune in future as of rendering the Battery more commodious as a place of recreation, that a reef of rock should be sunk in front of it, a stone wall erected thereon, and that the intermediate spaces between the wall and the Battery should be filled in with earth. That in order to carry their intentions into effect they must necessarily be subject to a very heavy expense, far beyond what the ordinary revenues of the City would enable them to meet.

Your Memorialists further shew that as by extending the Battery they must encroach upon the navigable waters of the State, they are unwilling so to do without first obtaining the sanction of your Honorable body.

Your Memorialists therefore pray that [243] your Honorable body would be pleased to pass a law authorising your Memorialists to [impose] an annual Tax of Twenty five thousand dollars upon all the Wards of the said City except the Ninth, and in the proportion stated in the bill herewith submitted until a sum not exceeding one hundred and fifty thousand dollars shall be raised. And to vest in your Memorialists the soil under water within six hundred feet of the Battery.

Your Memorialists have caused a Bill to be prepared for these purposes which will be herewith submitted, and which they pray may receive the sa[n]ction of your Honorable body.

All of which is respectfully submitted.

An Act to provide for the expense of extending the Battery in the City of New York, and for other purposes.

I. Be it enacted by the People of the State of New York represented in Senate and Assembly, That it shall be lawful for the Mayor Aldermen and Commonalty of the City of New York, to extend that part of the said City usually called the Battery into the Bay and North and East Rivers such distance as they may deem proper, not exceed-

ing six hundred feet: And further that all the title of the people of this [244] State in and to the land and the land under water in front of and adjoining to the said Battery and extending from thence into the Bay and North and East Rivers a distance not exceeding six hundred feet shall be and the same is hereby vested in the Mayor, Aldermen and Commonalty of the City of New York and their successors for ever to remain for the purpose of extending the said Battery for a public walk, and for erecting public buildings and works of defence thereon, but without any power to dispose of the same for any other use or purpose whatsoever, and without any power of selling it or any part thereof.

II. And be it further enacted, That the Mayor, Recorder and Aldermen of the said City or a Majority of them, of whom the Mayor or Recorder shall be one, shall be and are hereby authorised and required as soon as conveniently may be, after the passing of this Act. and once in each and every year thereafter, until a sum which will be sufficient to defray the expense of extending the Battery as hereinafter mentioned, not exceeding One hundred and fifty thousand dollars, shall be raised, to order and cause to be raised by tax on the estates real and personal of the freeholders and [245] Inhabitants of and situated within the Wards of the said City hereinafter mentioned, and to be collected the sum of Twenty five thousand dollars, which sum shall be assessed and taxed on the said Wards in the proportion herein after mentioned, to wit: On the first Ward of the said City the sum of six thousand six hundred and sixty six dollars: On the second Ward the sum of Five thousand dollars; on the Third Ward the sum of Five thousand dollars: On the Fourth Ward the sum of Two thousand three hundred and thirty four dollars: On the Fifth Ward the sum of One thousand six hundred and sixty six dollars: On the Sixth Ward the sum of One thousand three hundred and thirty four dollars: On the Seventh Ward the sum of One Thousand dollars: On the Eighth Ward the sum of One thousand Dollars, and on the Tenth Ward the sum of One thousand dollars.

III. And be it further enacted that the said tax shall be assessed, levied and collected in the manner directed by the Act entitled "An Act for the Assessment and collection of taxes."

IV. And be it further enacted, That the whole of the money which shall be so raised, shall be appropriated towards defraying the expenses which have or may be incurred by extending the Battery as aforesaid.

[246] The question being taken on approving the same was carried in the affirmative.

The Ayes and Noes having been called by Alderman Allen were as follows.

Ayes. Mr Recorder. Aldn Tooker, Townsend, Kip. Mann. Mr Bolton. Crane, Brittain. Town. Depeyster. 11.

Noes. Aldn Anthony. McQueen. Board, Allen. Mr Parker, Emmons, Hammond. 7.

It was then directed to be duly authenticated, and transmitted to the Legislature now in session.

The law to regulate and licence Chimney sweepers was read and referred to the Committee on Laws.

City Inspector.

The Attorney presented the following Report of complaints made to him which were referred to the Committee on Public Offices.
viz against Robert Wauchope for selling liquor without licence. Against Thomas Devoe, William Demarest, Elizabeth McCoy, James McKeever and Henriette Cochran for a similar offence.

[259] The Counsel presented a Memorial to the Legislature and corresponding Bill respecting Interest charged on the Arrears of certain Taxes which was directed to be duly authenticated and transmitted to the Legislature.

He also presented the Draught of a Lease from Noah Bartlett to the Corporation of a Room for the accommodation of the Assistant Justice for 4th and 6th Wards which was directed to be executed on the part of the Corporation.

The Comptroller presented the following communication.

The Comptroller respectfully informs the Board that Cornelius Harsin has paid to the Treasurer the amount due by him for filling the Block at Charlton Street, North River. His proportion of the Contract is Principal and Interest $2599.78.

It is respectfully recommended that the Counsel of the Board be instructed to prepare a satisfaction piece for cancelling the Mortgage on record, and that the Mayor be authorised to affix his signature thereto, with the seal of the Corporation, to be delivered with the Bond and Mortgage to Mr Harsin.

(signed.) G. N. Bleecker. Compr

which was referred to the Counsel to prepare the necessary satisfaction piece to be executed under the Corporate seal during the recess of the Board.

[260] The Committee on applications on the petition of Samuel Bleeker Junr reported,

The Committee of applications to whom was referred the an-

nexed petition of Samuel Bleeker Junior praying to be appointed a Measurer of Grain, Report, [they] are of opinion that the prayer of the petitioner ought to be granted, and offer the following Resolution,

Resolved that Samuel Bleeker Junior be, and he is hereby appointed a Measurer of Grain.

(Signed.) David Board.
Gerard DePeyster

Which was approved, and he was appointed a Measurer of Grain, accordingly.

The same Committee, on the petition of Daniel Fash for appointment of Measurer of Lime, presented a report in his favor, which was laid for further consideration.

The Committee of Charity on the subject of compensation to the Reverend John Stanford presented the following report,

The Committee to whom was referred the application of the Rev^{d} John Stanford, as to making him a suitable compensation for his services at the City Prison, Jail, Penitentiary and Alms House, Report, that they consider his services as very valuable [261] at those establishments, and that he should be suitably rewarded therefor. The services of this Gentleman being well known to the Members of this Board the Committee deem it unnecessary to say more—but beg leave to offer the following resolution.

Resolved, that a Warrant pass in favor of the Reverend John Stanford for the sum of Three hundred Dollars, for his past year's services.

respectfully,

(Signed.) Shivers Parker.

David Board.

Which was approved, and Warrant directed to be issued.

The Finance Committee on the petition of Right Carpenter presented the following Report.

The Finance Committee to whom was referred the petition of Right Carpenter praying for permission to erect a fire proof House on a Corporation Lot held by him under lease, and that the said Lease may be renewed at the expiration of the present term, Report,

that the Lot alluded to is situated at N^{o} 73, Chatham Street, and is 13 feet front and rear, and 65 feet deep. That the annual rent of said Lot is [262] $150. and that the present Lease will expire on the

1st day of May 1825. The Committee were of opinion it would be impolitic to grant a partial renewal of this Lease, as the precedent might occasion much perplexity, and induce numerous applications for a similar favor, and they therefore, on a former occasion, reported unfavorable to this petition; but on a further examination of this subject, and from a certificate of Samuel Howell, House Carpenter, and John Rogers Mason, attached to the petition under consideration, it appears that the building now on the Lot is so much injured by age, and the damage sustained by the late fire in Chatham Street, that it is not worth repairing; and that the petitioner will, therefore, be unable to derive a sufficient income from the premises, in its present state, to pay the rent reserved to the Corporation. Under these circumstances the Committee are induced to recommend that the prayer of the petitioner be conditionally granted, and they offer the following resolution, accordingly,

Resolved, that the Lease of the Lot held by Right Carpenter be renewed for 21 years, after the expiration of the present Lease, the rent to be fixed by appraisers in the usual way: and that such lease contain a condition for another re- [263] newal of 21 years, in addition to the last mentioned term, on payment for the improvements at their value, at the option of the Corporation

Provided, and on condition that the said Right Carpenter, shall, previous to the expiration of two years from this present date, erect on the said Lot a brick building with slate roof, the walls thereof to be of the best hard brick, and the gable ends one brick, or 8 Inches thick, and the front and rear one and a half bricks, or 12 Inches thick with party or fire walls as directed by the Law on that subject.

The Committee on Assessments on the petition of B. Fleury reported,

The Committee on Assessments to *whown* [whom] was referred the petition of B Fleury, stating that he has paid $22.40 to the Collector of the 4th Ward for personal Tax, as assessed for 1820. That he has little or no personal property, and prays that a part of the tax which he has paid, may be refunded.

[264] Report, that they have examined the Assessors of the 4th Ward on this subject, who said "That the assessment on the petitioner's property was in consequence of information received from his Neighbors, and on their own knowledge of his affairs; and that they have no reason to doubt its correctness." Your Committee are therefore of opinion that the prayer of the petitioner ought not to be granted. And respectfully recommend the adoption of the following resolution.

Resolved, that the prayer of the petitioner ought not to be granted.

The same Committee on the Petition of Garrit Sickels reported,

The Committee on Assessments to whom was referred the petition of Garrit Sickels, stating that he is the Owner of House and Lot No 7 Essex Street in the 10th Ward. That said property was assessed by the Assessors of the Ward for 1820 at $800. and that in transcribing, it is entered in the Tax book $1800. by which mistake he has paid tax on $1000. more than the Assessors intended he should and prays that the same may be refunded.

[265] Report, that they have examined the original book of Assessments of the 10th Ward for 1820, which with the certificate of the Assessors attached to the petition, has satisfied them that the prayer of the petitioner is just and reasonable and ought to be granted. The following resolution is respectfully submitted, Resolved,

That the Collector of the 10th Ward be instructed to refund to Garrit Sickels, the tax on $1000 overpaid by him on House and Lot No 7 Essex Street for the year 1820, and that he return the same in the list of errors and Insolvencies of said Ward.

The same Committee on the Petition of Frederick G Bull reported,

The Committee on Assessments to whom was referred the petition of Frederick G Bull, of the 3rd Ward, praying to be relieved from paying a tax of $25. on personal property, which he considers excessive and out of all proportion to what he is really worth

Report, that they have had the petitioners case under consideration, and are of opinion that he is not entitled [266] to relief. The Committee in this, as well as in former cases, have adopted one uniform rule, that of not granting relief where the petitioner acknowledges he was in the City at the time when the Book of Assessment was kept open for public inspection, and that he had neglected to examine it, which in the present instance appears clearly to have been the case.

The following resolution is respectfully submitted, Resolved, that the prayer of the Petitioner ought not to be granted.

Which was approved and the resolution adopted.

The same Committee on the petition of Abraham Van Gassen reported,

The Committee on Assessments to whom was referred the petition of Abraham Van Gassen, praying the correction of an error made in transcribing the original book of Assessment for the 9th Ward, in the Value of property assessed to him on the old Harlaem road and described as one house and 4½ Acres of Ground. The sum assessed on the property was $1200 but by the transcriber it is put down $12,000, in the Collector's book.

[267] Accompanying the petition is the Certificate of the Assessors of the Ward, in which they declare that the property above mentioned was assessed by them at $1,200.

Report, that on an examination of this case, they find the complaint of the petitioner correct, and that his request is just and reasonable, and ought to be granted, and respectfully recommend the adoption of the following resolution.

Resolved, that the Collector of the 9th Ward be instructed to receive from Abraham Van Gassen the Tax on $1,200 on his House and 4½ Acres of ground on the Old Harlaem Road, for 1820, in lieu of $1,2000 and that he return the Balance in the list of Errors and Insolvencies of said Ward.

Alderman Board informed the Board that Mr Robert Murden Collector of the 8th Ward had departed this life, and that it was therefore necessary that an Election should be held for the purpose of supplying the vacancy, occasioned by his discease.

Whereupon, it was resolved that an Election [268] be held in the 8th Ward, on Wednesday the 14th and Thursday the 15th of March Instant for the purpose of electing a Collector in the place of Robert Murden deceased, and that Samuel M Thompson, Jacob Aimes and Stewart F Randolph be the Inspectors of said Election.

Mr Hammond presented the following Resolutions.

Resolved, that it be referred to the Counsel to examine and report at the next meeting of the Board whether the Assistant Justices of the City of New York who receive salaries from this Board, are by law entitled to receive fees to their own use for any services to be by them performed in virtue of their offices, and if any, what services.

Resolved, that in order to enable the Clerks of the Assistant Justices Courts to balance up their books from time to time, they be instructed to retain in their hands the fees of the witnesses sworn in trials in the said Courts, but that the said Clerks at the time of receiving any such fees, immediately pay the same to such Witness or Witneses, if demanded by them, and if not so demanded, then that such Clerks pay such fees to the Constable or Marshall in such suit, to be paid by such Constable or Marshall to such Witnesses.

[269] And further that it shall be the duty of every such Clerk to receive the fees of such Constable or Marshall at the time he receives the fees of the Assistant Justice and Witnesses in every such suit; And that such Clerk pay such Constable, or Marshall the said undemanded Witnesses fees, together with his fees, as such Constable or Marshall, in every such suit as soon after the same shall be paid into Court as may be conveniently done.

And further that the Clerk of the Common Council cause a copy of this resolution to be served on each of the said Clerks of the said Courts.

Which resolutions were adopted.

On motion of Alderman Allen, Resolved, that the proprietors of the New York Gazettee News-paper be employed as publishers for the Corporation.

The Board then proceeded to consider the Laws revised by the Counsel. And the following Laws were approved. Viz[t]

A Law to prevent the exposure of certain Hand bills.

A Law further to regulate Surveyors and Buildings.

A Law to prevent damage to pumps.

A Law regulating the fees on making distress for rent.

The Law respecting Hackney Carriages was called up and after some consideration thereof, was laid on the table.

[270] The Law respecting the Markets was also laid for consideration.

The Law for the government of the Alms House was referred to the Commissioners of the Alms House for their consideration, with a request that they would report at the next meeting of the Board.

It was agreed that a Special Meeting of the Board should be called on Monday for the purpose of taking into consideration the proposed erection of a Market, at Fulton Street.

The reading the Minutes of the preceeding Meeting was dispensed with.

The Recorder stated that a Commission had been handed him under the great Seal of the State appointing Stephen Allen Esquire, Mayor of the City of New York; that Alderman Allen was present and ready to take the Oaths of office, and with their approbation he would proceed to administer the oaths to him

[274] Accordingly the Commission was read by the Clerk of the Common Council, and the oaths prescribed by the Charter and Laws were administered. After which, at the request of the Recorder, Alderman Allen was handed to the Chair by Alderman Tooker and Mr Depeyster, and took his seat as President of the Board.

The Counsel presented the following resolution.

The Counsel in compliance with a resolution of the Board requiring him to report whether the Assistant Justices of this City who

receive salaries are by Law entitled to receive fees to their own use for any services performed in virtue of their offices, and if for any what services,

Respectfully Reports,

That by the fourth section of the act for reorganizing the Assistant Justices Court in this City, it is provided that the Assistant Justices instead of "receiving for their own use the fees now allowed by law to the Assistant Justices shall be paid an annual salary, and further that all such fees as may accrue or become payable shall be received for the use of the Corporation in the manner therein after directed." By the sixth section of the same Act it is provided that the Clerk shall make proper entries of all proceedings before the [275] Assistant Justices, and shall collect and receive, for the use of the Corporation, all costs of suit and fines which may be imposed by the Assistant Justices and shall exhibit an Account of the same monthly to the Comptroller which account shall state the title of each suit in which any fees shall have been received, and the amount of monies so received shall be paid over to the Chamberlain." By the section first above mentioned it appears that the Assistant Justices, instead of receiving for their own use the fees now allowed by law to the Assistant Justices shall receive salaries. The question then presents itself, what fees are allowed by Law to the Assistant Justices? Those fees are particularly set forth in the Act, of which the above mentioned is an amendment, and are only such as accrue from suits commenced before them. If there was room for any doubt as to the intention of the Legislature as to the fees which the Corporation are entitled to receive it is put beyond question of the sixth section above set forth, which provides that the Clerk shall receive for the use of the Corporation all costs of suits and fines, and shall pay over the same to the Chamberlain. There is no provision that the Justices shall receive and pay over any of the fees which the Corporation are entitled to receive, but, on the contrary, the Act is express that the Clerk shall [276] receive and pay over. And the fees which he is directed to receive and pay over are costs of suit.

The Counsel is therefore of opinion that the Assistant Justices are entitled to receive for their own use all fees for services which they may render except costs of suit.

respectfully submitted.

An Invitation of the Committee of arrangement of the New York County Agricultural Society requesting the favor of the company of

the Members of the Common Council, at the Society's dinner on thursday the 12th Instant, was presented and accepted.

A petition of John W Hinton stating that he was appointed a Fireman on the 11th November 1805, but that through some mistake his name was not entered on the Common-Council minutes and praying the Clerk may be authorised to give him a certificate of service agreeably to the said appointment, was read and referred to the Committee on the Fire Department, with authority.

A petition of William Broady, for appointment of Measurer of Grain, was referred to the Committee on applications.

[277] A petition from a number of licenced Cartmen, stating that many persons came from the Country in the Spring and obtained licences as Cartmen, and then returned to the Country in the Fall, and praying that the Law may be amended so that no person shall be licenced as a Cartman until after one year's residence, was read and referred to his Honor the Mayor.

A Petition of William Hanson, stating he was about to erect a House on West Street, and wished to be informed of the regulation of West Street, was referred to the Street Commissioner.

A Memorial from the Lessees of Cellars under Washington Market, complaining of persons vending Coffee and other food at out door stands, was referred to the Market Committee.

A Petition from Fire Engine Company N° 25, stating the unweildy size of the Engine attached to their Company, and proposing that it be cut down and reduced, was referred to the Committee on the Fire Department.

A Petition of Moses Dodd, stating that there is due to him from Haviland Weeks Contractor for [278] Collect and Sewer $440, for timber furnished for said Sewer—That said Weeks has given a power of Attorney irrevocable to be placed in the hands of the Street Commissioner for payment of the same and prays the Balance yet unpaid to Weeks may be retained by the Corporation and paid to petitioner in part of his said demand.

A representation was received from a number of Inhabitants signifying their assent to Messrs Wadsworth's establishing a scale for weighing Hay, Merchandize &c at the foot of Canal Street, which was read and referred to the Committee on Arts and sciences.

The Street Committee, to whom was referred the petition for paving the Intersection of Varick Street, reported,

The Committee to whom was referred the annexed petition of sundry persons in Varick Street praying that the Intersection of

Canal and Varick Street may be paved, and that the side walks in Varick Street from Beach to Van Dam Street be paved.

Report, that they have examined the situation of said Street, and are of opinion that the request of the petitioners ought to be granted,

[279] Therefore, beg leave to offer the following resolutions,

Resolved, that the Intersection of Canal and Varick Street be regulated and paved, and that the side Walks in Varick Street, between Beach and Van Dam Street be paved.

Resolved, that the Street Commissioner be instructed to prepare an Ordinance, forthwith, for that purpose.

(Signed.) Isaac Emmons,
Asa Mann,

The Report of the Special Committee on the subject of the proposed Market at Fulton Street was called up, and being read was in the words following,

The Committee to whom was referred the petition to erect a Market upon the ground belonging to the Corporation, between Fulton Street and Crane Wharf, Report,

That they are of opinion that it is expedient that a Market should be erected upon the above mentioned premises, and that after it is completed, Fly-Market should be removed.

This subject has so frequently engaged the attention of the Corporation, and the arguments for and against the measure are so familiar to the members of the Board, that the Committe do not *not* conceive it to be necessary for them to make a particular statement of them.

They will therefore simply remark, that [281] Fly Market is extremely incommodious, and in the Summer season is so offensive as to be very prejudicial to health; that the site contemplated for a new Market is peculiarly well adapted for the purpose; and as all the buildings which were upon it, with but one exception, have been recently destroyed by fire, it can be so appropriated at a much less expense than any other convenient situation which can be obtained.

The Committee have bestowed their attention upon the means of paying for the ground, of defraying the expenses of erecting the Market, and also for regulating it after it is completed. Their views upon this subject are expressed in the following regulations, which they recommend should be adopted by the Board, to wit:

1. Resolved, that a Public Market shall be erected upon the ground belonging to the Corporation, between Fulton Street and Crane Wharf.

2. Resolved, that Fifteen thousand dollars be raised annually for Ten years by tax, which together with the income from the said Market, shall be appropriated to the sinking fund, for the extinguishment of the debt created by the purchase of the said ground, and the erection of suitable buildings for a Market on the same.

3. Resolved, that whenever the said buildings [282] shall have been completed, the Stalls for the Butchers and the Stands for the Fishermen, Country people and sellers of Vegetables, and fruit shall be rented at Auction for one or more years, the rent for one year always to be paid in advance.

4. Resolved, that the aforesaid regulations shall apply to all the Markets in the City, and shall go into operation, as it respects the Butchers Stalls in the present Markets on the first day of May next; and as soon thereafter as the Market Committee can complete the arrangement, as it respects the stands for the Fishermen, Country people, and sellers of Vegetables and fruit: Provided, however, that the Stalls in Fly Market shall be sold for a time not exceeding the time necessary to build and complete the Market at Fulton Slip.

5 Resolved, that the Two hundred thousand dollars authorised to be funded by the Act of one thousand eight hundred and twenty, be funded in such sums and at such times as the means may be required

to defray the aforesaid expense, and that the amount thus funded shall bear an Interest of not more than five per Cent per annum, and be redeemable at the pleasure of the Corporation after years.

[283] 6th Resolved, that the Counsel be instructed to prepare a Memorial to be presented to the Legislature at their next session, praying for an Act authorizing the aforesaid; and that the Clerk be instructed to give the necessary notice of the intention of the Corporation to apply for such authority.

7. Resolved, that so much of the foregoing resolutions as relates to the City Stock, be referred to the Comptroller and Finance Committee, with authority to adopt the necessary measures for carrying the same into effect.

8. Resolved, that so much of the foregoing resolutions as relates to the sale of the Butchers' Stalls, and Stands for the Fishermen, Country people and sellers of Vegetables and fruits, be referred to the Comptroller and Market Committee with authority to lease the same at Auction for one or more years, as they shall deem most for the Interest of the public.

9 Resolved, that a Committee consisting of five members be appointed to procure plans and estimates, and to superintend the building of the aforesaid Market, and that such plans be laid before the Board for their approbation.

[284] Alderman Board moved to lay the Report on the Table which passed in the Negative.

A motion was made to strike out the first Resolution, for the purpose of introducing a Resolution directing enquiry to be made respecting a site between the Fly Market and Fletcher's Street, this also was negatived. The question was then taken on the first resolution, and carried in the affirmative The Ayes and Noes being called by Alderman Board were as follows.

Ayes. Ald. Tooker, Townsend. Kip. Anthony, Mann. Messrs Bolton, Valentine, Crane, Town, DePeyster. 10.

Noes. Mr Recorder. Ald. McQueen. Board, Messrs Tallman. Parker, Emmons. Hammond. 7.

So the Resolution was carried.

The second Resolution being under consideration, Alderman Tooker moved to strike out $15.000 and insert $10.000. This was negatived.

The Resolution was then adopted.

The third Resolution being under consideration, Alderman Anthony moved to strike out the words one year and insert one quarter. This motion was negatived.

The question was then taken on the third Resolution, and carried in the Affirmative.

The fourth Resolution was also agreed to.

[285] The question was taken on the 5th Resolution, and agreed to.

The question was then taken severally on the sixth seventh, eighth and ninth Resolutions, and carried in the Affirmative.

The question was then taken on the whole Resolutions, and carried in the Affirmative.

Mr Hammond gave notice that he would, at the next meeting of the Board, move for a reconsideration of the question.

A Resolution was presented, directing the room in the Hall occupied by the Recorder to be assigned after the last day of this month to the use of the first Judge of the Court of Common Pleas, in and for the City of New York. Which was directed to be referred to the Committee on Public Offices.

[286] In Common Council, March 19th 1821.

Richard Riker Esquire, appointed, at the late meeting of the Council of Appointment, Recorder of the City of New York, appeared and took his seat as a Member of this Board.

The Minutes of the last regular Meeting, and of the Special Meeting were read, and approved.

His Honor the Mayor laid before the Board [287] a letter from the Honorable John C. Calhoun, Secretary of War, of the United States, stating that a retrocession of the site of Castle Clinton had not been authorised by Congress at the last session. He also stated that the specific application by Congress of the appropriation for fortifications for the current year had put it out of his power to contribute to the repairs of the Battery, and obliged him [to] rescind the conditional promise of cooperation with the Corporation on the execution of that work, communicated by his letter of the 31st January, 1820,

Which being read was referred to the Committee on that subject.

A Return was [received] from John L Broom Esquire Clerk of the City and County of the Election held in the 8th Ward on the 14th and 15th days of March Instant. for the election of a Collector of said Ward in the place of Robert Murden deceased, by which return it appeared that Samuel Y Clark was elected:

Whereupon, the Clerk of the Common Council was directed to give notice to Mr Clark of his Election.

A Petition of Horace Holden, complaining of an Assessment of a personal tax on him where the sum has been carried out in the Book [288] $50 instead of $5.

A Petition of Edward Arrowsmith and others praying relief from an Assessment imposed on them for turning the water from Bayard Street into Orange Street,

And

A Petition from Peter G Stuyvesant complaining of a mistake in a charge against him in the Assessor's Books in the 9th Ward, were severally read and referred to the Committee on Assessments.

A Petition was received from William Mooney stating that he had made an agreement with the General Society of Mechanics and Tradesmen for a proportion of the ground held under Lease from the Corporation, and requesting the assent of the *assent of the* Corporation thereto, and that they will consolidate the remainder of the ground in one Lease to him; which being read was referred to the Finance Committee with authority to make the requisite arrangement on the subject.

A Petition of the Inhabitants of Manhattan Ville for the establishment of a Fire Engine at that place was referred to the Committee on the Fire Department, and the Alderman and Assistant of the 9th Ward

[289] A Petition of Mary Taylor, complaining that the House No 560 Broad Way, belonging to the Estate of Thomas Ellison deceased,

projects three feet beyond the House of Petitioner adjoining, and subjects her to considerable inconvenience and praying relief, which being read was referred to the Street Committee.

A Petition of Samuel Winans, for appointment of Measurer of Lime, was referred to the Committee on Applications.

A Petition of Stephen McElroy for remission of fine for not having rates in his Hackney Carriage was read and referred to the Police Committee.

A Petition that Wooster Street may be paved from Bleecker Street to Spring Street was referred to the Street Committee, and Alderman and Assistant of the Ward.

A Petition of William Cornell for appointment as Measurer of Grain, was read and referred to the Committee on Applications.

A Petition of George P Rogers for himself and other Owners of Seven stores at Fulton Street [290] Wharf, stating that on 12th January 1821, the above property in pursuance of the confirmation by the Supreme Court of the report of the Commissioners of Estimate in relation to Lands at Fulton Slip intended as a site for a Market, became the property of Corporation. That he has been called upon by the Collector of 2nd Ward for the Tax for the whole year on said property—that he is willing to pay the Tax up to January 1821, but he considers a demand for the residue of the year unreasonable:

Whereupon the same was referred to the Finance Committee.

A Petition that Green Street may be paved between Spring Street and Broome Street, was referred to the Street Committee.

A petition of John Duffy for appointment of City Guager was referred to the Committee on Applications.

A remonstrance from a number of Inhabitants against the establishing of a Market at Fulton Slip was laid on the table until the proposed for reconsideration of that subject was under consideration. After the motion for reconsideration was lost, it was then [291] moved to refer this Memorial to the Committee on building said Market, but it passed in the Negative.

A remonstrance from the licenced Butchers of the City against the resolution for letting at Auction the Stalls in the several Markets in the City was read and laid on the table. It was afterwards called up and referred to the Market Committee.

A Petition of D S. Lyon, in behalf of Mrs Murden Widow of Robert Murden, late Collector of 8th Ward was presented, stating that said Robert Murden had died Intestate—That the Widow was at present sick, and that until some arrangement could be made of the

affairs of the Estate, she requested that the Tax-Books of the Ward might be placed in the hands of some person under the direction of the Corporation: Whereupon the subject was referred to the Finance Committee to give the necessary directions in the premises.

A Memorial from the Inhabitants in the vicinity of the corner of Division and Norfolk street praying that the Well at that place may be deepened, and that the Street around it may be paved was read— That part relating to the Well was referred to the Superintendent of Repairs, with authority to comply with the request of petitioners, and the part relating to the Street to the [292] Street Commissioner and Alderman and Assistant of the Ward with like authority.

A petition from Stephen Gould representing that he had purchased from the Publisher, Ingersoll's Digest of the Laws of the United States, and offering the same at $6.75, was referred to the Committee on Laws.

A Petition of Peter Parcells and Co for payment of a sum due to them on a Contract for regulating the Streets in the Village of Greenwich, was read and referred to the Street Committee.

The following were appointed Firemen, the Chief Engineer certifying the Vacancies.

The Street Commissioner presented an Assessment for paving Hudson Street from Canal Street to Spring Street, which was confirmed, and John G Betts was appointed Collector.

He also presented an Ordinance for regulating Herring Street from Carmine to Christopher Street, and that Jones, Burrowe and Commerce Streets be regulated throughout, which was passed, and Abraham Bloodgood, John Bedient and Benjamin Prince were appointed Assessors.

Also, an Ordinance for regulating and paving the Intersection of Canal Street and Varick Street and paving the side Walks in Varick Street, and Abraham Baudouine, John Brown[er] and Alexander Clark were appointed Assessors.

Also, upon the report of the Canal Committee; this evening he presented an Ordinance for building a sewer in Thompson Street from

the Sewer in Canal Street to about 100 feet above Broom Street, which was passed and Roger Strong John Targee and Abraham Baudouine were appointed Assessors.

[295] The City Inspector presented sundry Ordinances for correction of Nuisances: One of which for 8 Lots on Delancy Street, belonging to Peter Ogilvie, and One on Sheriff Street belonging to J. F Delaplaine; the cost of which it was supposed would exceed $100, were, under the late Rule of the Board, referred to the Street Committee, the residue were passed.

The Attorney presented the following which was referred to the Committee on Public Offices. viz. a complaint against J Samuel for selling liquor without Licence, a similar complaint against Mr Gibbs, also a petition of Daniel Stewart against whom a similar complaint had been made.

The Counsel presented a Contract with Gideon Tucker and Thomas T Woodruff for the Mason work of the fence around the Park, which was directed to be duly executed. Also a Contract with Benjamin Birdsall for the Iron work of said Fence, which was laid for consideration.

The Committee on Assessments on the Petition of Gilbert L Thompson reported.

The Committee on Assessments to whom was referred the petition of Gilbert Livingston Thompson, representing that his personal property in this City has been assessed for the year 1820, at a valuation [299] far exceeding its true amount. That during the period allowed by Law to make oath before the Assessors, in order to reduce the Valuation, he was absent from the City and that consequently it was not in his power to attend and reduce the same, and that he is ready and willing, at any time, to prove the valuation of his personal property in this City, and prays relief in the premises, Report,

That on examination of this case they are fully satisfied that the valuation of the petitioner's property by the Assessors of the 3rd Ward is excessive and far beyond its true Amount, and that, owing to his absence he was unable to attend to its reduction at the time allowed him by Law so to do. Your Committee are therefore of opinion that the petitioner is entitled to relief, and that his request ought to be granted, and respectfully recommend the adoption of the following resolution, Resolved, that the Collector of the 3rd Ward be instructed to receive from Gilbert Livingston Thompson the Tax on $2.500. personal property in lieu of $25.000. for the year 1820, and that he return the balance in the list of errors and insolvencies of said Ward.

The same Committee on the petition of Alfred S Pell reported,

The Committee on assessments to whom was referred the petition of Alfred S Pell of Dutchess County representing that he is assessed for personal tax in the 8th Ward for the year 1820, which he ought not to be required to pay, inasmuch as he has been assessed and has actually paid a personal tax for that year in the County of Dutchess, the proof whereof is in his possession, and praying relief.

Report, that they have examined this case, and are satisfied that the petitioner is a resident of the County of Dutchess, and that he has

been assessed and paid personal tax in that County, for the year 1820. on a much larger sum than that assessed on him in the 8th Ward.

The Committee are therefore of opinion that the prayer of the Petitioner ought to be granted and respectfully recommend the adoption of the following resolution,

Resolved, that the Collector of the 8th Ward be instructed to decline collecting the tax assessed on the personal property of Alfred S Pell, for the year 1820, and that he return the same in the List of Errors and [301] Insolvencies of said Ward.

The same Committee on the petition of William Moore reported,

The Committee on Assessments to whom was referred the petition of William Moore, stating that he is the owner of House and Lot of ground at the corner of Lispenard and Church Street which was valued by the Assessors at $1800, but that in transcribing the book of Assessment it appears in the Collector's Book $18.000. and praying that it may be altered to the original sum, Report,

That [they] have given this case an investigation, and find the statement made by the petitioner correct, and are of opinion that his request is just and reasonable and ought to be granted.

The following resolution is respectfully submitted,

Resolved that the Collector of the 5th Ward be instructed to receive from William Moore the tax on $1800, assessed on his house and Lot on the corner of Lispenard and Church Streets for the year 1820, in lieu of $1800,* and that he return the balance in the list of errors [302] and Insolvencies of said Ward.

property, which has been (in his opinion) improperly assessed at Ten thousand dollars, and prays that a part thereof may be refunded,

Report, that on an examination of this case they find that it comes within the rule adopted by them, of not granting relief in cases where the petitioner acknowledged he was in the city a[t] the time the Assessor's books were open for public inspection, and that he had neglected to examine them. Your Committee are therefore of opinion that the prayer of the petitioner ought not to be granted and respectfully submit the following resolution

Resolved, that the prayer of the petitioner ought not to be granted,

Which was approved, and the resolution adopted,

The same Committee on the Petition of George I Banks reported,

The Committee on Assessments to whom was referred the petition of George I Banks, praying the correction of an error, made in transcribing the original Book of Assessment for the 5th Ward, in an assessment made on his personal property, Report,

That on examination of the case, they find that the petitioner was originally assessed $1700. but that in transcribing it is set down in the Collector's book $17.000, accompanying the petition is the Assessor's Certificate, which states that $1700, was the amount at which they valued the personal property of the petitioner for the year 1820, The Committee are therefore of opinion that the prayer of the petitioner ought to be granted.

And respectfully submit the following resolution,

Resolved, that the Collector of the Fifth Ward be instructed to receive from George I Banks the Tax on $1,700, personal propy for 1820, in lieu of [304] $17.000 (personal property) and that he return the balance in the list of Errors and Insolvencies of said Ward.

The Committee on applications on the petition of William McKean for appointment of Measurer of Lime, presented a report which was read, and laid for consideration.

The Finance Committee to whom had been referred the report of the Counsel on the subject of a Gore of Land in front of the property owned by Silvanus Miller, Reported,

The Finance Committee to whom was referred a report by the Counsel on the subject of certain resolutions passed by the Board, relative to the Gore of Land in front of the property belonging to Silvanus Miller, Report, that they have directed an account to be prepared which is hereunto annexed shewing the amount paid by the Corporation for the Gore alluded to, for the assessment for ground under water for opening Roosevelt Street [305] and for the filling of said ground and making the Bulk head on the line of South Street, together with the Interest on the whole up to the 12th day of May next, amounting in the aggregate to $6.420.68.

The Committee have also furnished Mr Miller with a copy of said account, and have received from him a proposition in writing, which is also annexed, stating that he will pay $5.000, which he authorises to be deducted from the award in his favor for ground taken between Fulton Street and Crane Wharf; and as reasons why this sum should be accepted in lieu of the whole amount, he has urged to your Committee that the Gore alluded to was assessed much beyond its real value. That he has suffered materially from the circumstances of the case, and that he has received neither revenue nor emolument from the property since the opening of Roosevelt Street.

The Committee have had Mr Miller's proposition under consideration, and altho', in their opinion he has no just claim for a deduction in the amount exhibited, they nevertheless admit that his case is severe and that the amount he has offered to pay is the full value of the property he is to receive; and as the subject is one that has caused much perplexity to your Committee, and the aforesaid proposition is made in such manner as to insure a settlement of this long protracted business, they beg leave to recom- [306] mend to the concurrence of the Board, and propose the following resolution.

Resolved, that the Board accede to the proposition of Silvanus Miller, and that the Counsel be instructed to prepare the necessary papers, in order that the same may be carried into effect.

Respectfully submitted,

Which was approved, and the resolution adopted.

The same Commitee on the Petition of W^m^ Cunningham reported,

The Finance Committee to whom was referred the petition of William Cunningham, Report, that the Petitioner is the owner of a piece of Land at Brooklyn near the new Ferry, and is also in possession of a piece of land adjoining it which [was] reclaimed from the river. That [he] prays a grant may be given him for that part of said Land lying between high and low water mark, and that the rent may be fixed at some inconsiderable sum, in consideration of his having thrown into the Street a piece of ground about 25 feet by 120, as an accommodation to the Ferry. The Committee think there [307] is some consideration due for the accommodation afford^ed^ by the petitioner to the Ferry by widening the Street in its immediate vicinity and they accordingly recommend that a deduction be made from the ordinary rent charged for the Brooklyn water grants in favor of the petitioner. The grants already issued are at the following rates 6¼ Cents per foot til May 1845, and 12½ cents per foot for ever after, and the arrears of rent to be paid up from the time of improving the property until the date of the grant.

The Committee beg leave to propose the following resolution, Resolved,

that a grant be isssued to William Cunningham for the ground at Brooklyn, between high and low water mark at a rent of 4 Cents per foot til 1845, and 12½ Cents per foot for ever after: Provided he convey to the Corporation the piece of ground now forming a part of Main Street, as shewn by the annexed Map, and pay the arrears of rent from the date of improving the property.

Respectfully submitted,

Stephen Allen,
Sam^l^ Tooker,
J, Hammond,
B. Crane.

Which was approved, and the Resolution adopted.

[308] The Canal Committee to whom was referred the Petition to have a Sewer constructed in Thompson Street reported,

The Canal Committee to whom was referred the annexed petition, praying that a sewer be built in Thompson Street, respectfully report,

That, the[y] have carefully examined the situation of the said Street, and are decidedly of opinion that the prayer ought to be granted.

They therefore beg leave to offer the following resolutions.

Resolved, that a sewer of a sufficient capacity be built in Thompson Street from the main sewer in Canal Street to about One hundred feet above the North line in Broome Street.

Resolved, that the Street Commissioner be instructed to prepare an Ordinance for that purpose.

Which was approved, the Resolution adopted, and the Street Commissioner, immediately reported an Ordinance agreeably thereto, which was passed.

Mr Hammond agreeably to notice given at the last meeting moved that the Board reconsider the Vote given last Meeting on the subject of erecting [309] a Market at Fulton Street. After some debate, the question being taken thereon, it passed in the negative.

The Ayes and Noes having been called by 'Alderman Anthony were as follows,

Negative. Mr Recorder. Ald Kip, Townsend, Anthony, Mann. Messrs Bolton, Valentine, Crane, Town, Brittain. De Peyster. 11.

Affirmative. Ald. Tooker, McQueen, Board, Mr Tallman Parker, Emmons Hammond. 7.

Mr Hammond then moved that the remonstrance against the Market be referred to the Committee to be appointed agreeably to the Resolution. The question being taken thereon it passed in the Negative

The Ayes and Noes being required by Mr Hammond were as follows.

Negative. Mr Recorder. Ald Townsend, Kip Anthony Mann. Messrs Bolton, Valentine, Crane, Brittain, De Peyster. 11.

Affirmative. Ald. Tooker, McQueen, Board. Mr Parker, Emmons. Hammond. 6.

His Honor the Mayor then appointed the following the Committee to carry into effect the resolutions respecting the erection of the Market. viz.

Aldermen, Mann, Anthony, Townsend, Tooker. Mr Valentine.

[310] The Report of the Special Committee on the Memorial of B Crane, and respecting the inspection and measurement of Lime, which on the 30th October last was postponed, was now called up. Mr Brittain proposed a resolution as to the expediency of having all lime, brot down the North River, inspected.

Mr Brittain stated that being about to leave the City, he requested that some person be appointed in his place upon the Committee; Whereupon the Board appointed Alderman Thorp. The report of the Committee. The resolution proposed by Mr Brittain, together with the Report of the Committee on applications. The Petition of Daniel Fash, were then referred to the Special Committee.

The Committee now consists of Aldermen, Thorp, Mann, Tooker.

A Letter was received from John T Irving Esqr stating that as in consequence of a recent appointment on him by the State of First Judge of Common Pleas in the City of New York, the duties of Loan-Officer would be incompatable with that appointment. He therefore begged leave to resign the appointment of Loan-Officer, and tendered his acknowledgments to the Common Council for the confidence reposed in him;

Whereupon, the resignation was accepted. The appointment of a person to fill the vacancy was post[pon]ed.

[311] Resolved, that it be referred to the Committee on Laws to consider and report whether it is necessary on the part of the Common Council to pass any Law in relation to the Law lately enacted by the Legislature of this State for the appointment of a first Judge of the Court of Common Pleas in and for the City and County of New York.

The Board then proceeded to the reconsideration of the Laws revised by the Committee on Laws and the Counsel.

The Commissioners of the Alms House, agreeable to the reference to them, reported that they had revised the Law for the government of the Alms House and made a number of alterations in it, which they submitted. The Law was accordingly read by paragraphs and passed under the title of "a Law for the government of the Alms-House.

The Law to regulate Carts and Cartmen in the City of New York was called up amended and passed.

The Law to regulate Hackney Coaches and Carriages, was also called up amended and passed.

It was ordered that the Law respecting the Street Commissioner, lately passed, should be published in the papers employed by the Board.

[326] The Comptroller made a representation on the subject of mistakes made [in] the Assessor's books recommending that a List be made of such, and laid before the Supervisors for them to determine whether the sums paid in consequence thereof should as heretofore be assessed back upon the Ward.

He also presented a List of Bonds given by the several Officers of the Board that the sufficiency of the sureties may be judged of, and the Board know what Officers had given Bonds,

Which was referred to the Finance Committee.

He also presented a Deed from Leonard Bleecker, and one from Henry M Van Solingen for Lands ceded to the Corporation in Mercer, Green and Wooster Streets, which were directed to be accepted.

The Committee on Assessments on the Petition of Horace Holden reported,

The Committee on Assessments to whom was referred the Petition of Horace Holden, representing that he had, by mistake, been assessed to pay a personal tax of $50, instead of $5, and praying that

it may be reduced to the sum set down by the Assessors in their Certificate. Report,

that they have given this case a careful investigation [327] and find from the representations set forth by the Petitioner, and the Certificate of the Assessors of the 2nd Ward, that he has been, by mistake, assessed far beyond the real value of his personal property. Your Committee are of opinion that the prayer of the petitioner is reasonable and just, and ought to be granted, and respectfully recommend the adoption of the following resolution.

Resolved, that the Collector of the 2nd Ward be instructed to receive from Horace Holden, Five Dollars in full for personal tax for the year 1820, and that he return the Balance in the list of errors and Insolvencies of said Ward.

Which was approved, and the resolution adopted.

The same Committee on the Petition of Peter G Stuyvesant, reported,

The Committee of Assessments on the Petition of Peter G Stuyvesant representing an Error in the Assessment of 2 Houses and 81 Acres of Land in the 9th Ward, for the year 1820,

Report, that it appears from the Certificate of the Assessors of the Ward that the 2 [328] Houses and 77 Acres are North of the Lamp and Watch District, and ought to be assessed at $61.600, and that the four Acres ought to be assessed at $3.200, and charged with the rate within the Lamp and Watch District; whereas the 2 Houses and 81 Acres are returned by them as South of the Line, and the Tax calculated, accordingly. From an examination of the subject, it appears proper to rectify the error, and the Committee recommend to the Board the adoption of the following resolution, Resolved,
that the Collector of the 9th Ward be instructed to deduct from Mr Stuyvesant's Assessment the sum of $104.72 the difference of the tax as above stated, and return the same in the List of errors and Insolvencies of the Ward,

The Street Committee on the petition for paving Prince Street reported.

The Committee to whom was referred the annexed petitions from sundry Persons praying that a part of Prince, Green and Wooster Streets may be paved,

Respectfully Report, that they have examined the situation of the said Streets, and are of opinion that there are not a sufficient number of buildings erected to make it necessary to pave at present.

They therefore offer the following Resolution,

Resolved, that it is inexpedient to grant the prayer of the Petitioners.

Asa Mann,
Isaac Emmons,
Shivers Parker.

Which was approved, and the resolution adopted.

The street Committee on the Petition of Peter Parsels and Co reported,

The Street Committee to whom the within petition of Peter Parsels and Co was referred, Report, that they have examined this subject carefully, and find that a former Street Committee thoroughly investigated the claims of Messrs Parsels and Co, and could [330] not find more due than Two hundred and forty Dollars; and reported accordingly; but which sum they declined receiving at that time. They are now willing to accept it, and your Committee offer a resolution to that effect,

Resolved, that the sum of Two hundred and forty Dollars be paid to Messrs Peter Parsels and Co in full for all claims against this Corporation for regulating certain Streets at the Village of Greenwich, and that the Comptroller be instructed to prepare a Warrant for that

amount, without Interest, and to present the same at the next meeting of this Board.

Robert Swartwout,
(signed) Asa Mann,
Isaac Emmons,
Shivers Parker.

Which was approved, and the resolution adopted.

The same Committee on the Ordinances reported by the City Inspector for filling in the sunken Lots of Peter Ogilvie and John F. Delaplane reported.

The Street Committee to whom was referred the annexed Ordinances for filling the sunken Lots therein mentioned, Report,

that in their opinion it is inexpedient to have [331] the conditions of the same carried into effect, and they offer the following Resolution.

Resolved, that it is inexpedient to have the Ordinances requiring Peter Ogilvie and John F Delaplane to cause the sunken Lots therein set forth to be carried into effect

Robert Swartwout,
(signed.) Asa Mann,
Isaac Emmons,

Which was approved, and the resolution adopted.

The Finance Committee to whom was referred the Memorial of the General Society of Mechanics and Tradesmen, and the communication of William Mooney on the same subject (reported.) presented a report which was approved and the resolution adopted.

Alderman Thorp gave notice that he would at the next meeting move for a reconsideration of the same.

The Market Committee to whom was referred certain resolutions respecting the Markets, reported,

The Market Committee to whom was referred certain resolutions respecting the Markets, Report

that the Value of many of the Stalls has been much enhanced in consequence of the satisfaction [332] which the present incumbents have given to their Customers. That if all the Stalls are indiscriminately exposed for sale at Auction, the occupiers of those Stalls might be necessitated to abandon them, or to pay more than they would have been worth, had it not been for their good conduct.

The Committee are therefore of opinion that it ought to be left discretionary with them to lease the Stalls at Auction, or otherwise as they may deem it most expedient,

The Committee are also of opinion that the resolutions of the Board with respect to the stands for Country People and others should be modified.

By those resolutions the Committee are required to rent the whole of them as soon as the necessary arrangements are made for that purpose. The effect of this would be to exclude all Country people who might not make the necessary arrangements for being accommodated. The Committee are therefore of opinion that it is not expedient to rent any more of those than there may be suitable applications for.

The Committee have made the necessary enquiries to satisfy themselves as to the expediency of requiring a year's rent to be paid in advance, and they are [of] opinion that it would be an extremely inconvenient regulation for many of the [333] Butchers. They therefore recommend that only one Quarter's Rent be paid in advance, and that a condition should be attached to the Leases, that if the rents for the succeeding quarters are not paid in advance on the day on which they become due that the Leases be forfeited.

In the resolutions referred to the Committee it is not specified whether the rents are to be in lieu of Market fees. As the payment of a specified sum of Money at stated periods would be attended with less inconvenience to the Butchers, and could be collected at less expense to the Corporation, and as that mode of proceeding would answer the end which the Board has in view the Committee recommend that it be adopted.

For the purpose of keeping the Markets at all times subject to the controul of the Board, the Committee are of opinion that the Leases should be granted upon condition that the Lessees conform to the Laws and Regulations of the Corporation upon the subject of the Markets.

The Committee also recommend that all the rents for the Stalls be collected by the Collector for the Corporation revenues. For the purpose [of] carrying these views into effect the Committee recommend the adoption of the following resolutions, to wit:

Resolved that it shall be the duty of the Mar- [334] ket Committee on or before the first day of May next to rent at Public Auction or otherwise, as they may deem expedient, for One or more years all the Butcher's Stalls in the several Markets of this City.

Resolved, that the Market Committee be authorised to lease, from time to time, as they may deem expedient so many of the stands for fishermen, Country people and sellers of vegetables and fruit as they may have suitable applications for, for one or more years.

Resolved, that the rent of all stalls and stands shall be paid quarterly in advance, and shall be in lieu of Market fees, and that the Leases shall contain a provision that if the rent shall not be punctually paid, or if the Lessees shall not conform to the provisions of the Law to regulate the public Markets, and to such Ordinances and regulations as the Common Council may hereafter make, that their Leases shall be forfeited.

Resolved, that it shall be the duty of the Collector of the Corporation revenues to collect the rents for said stalls and stands.

(signed.) Charles Town,
Stephen Allen.

Which was approved, and the resolutions adopted.

[335] The Committee on the Fire Department on the petition for an Engine in the vicinity of S^{t} John's Church reported,

The Committee on the Fire Department to whom was referred the Petition of John Morss, and others Inhabitants of the Fifth Ward in the vicinity of S^{t} John's Church praying that a Fire Engine should be made, placed and established near said Church for the benefit and safety of that part of said City,

Respectfully Report, that they have had the said petition under consideration, and that it appears to your Committee that the present number of Fire Engines is sufficient for the extinguishing of fires.

That there are a number of Fire Engines in the vicinity of said Church that may be used to extinguish fires in that vicinity in less time than would be required in a number of other situations in this City, and therefore are of opinion that it is inexpedient to grant the prayer of the petitioners, and offer the following resolution.

Resolved, that it is inexpedient to grant the prayer of the petitioners.

John P. Anthony,
(signed.) Harm^{s} Tallman,
Robert M^{c}Queen.

Which was approved, and the resolution adopted.

[336] The same Committee, on the petition of John Addington, reported,

The Committee on the Fire Department to whom was referred the Petition of Fire Company N^{o} 15, stating that John Addington was duly admitted a member of said Company the 8th day of November 1804, and that from some mistake the time was not duly entered on

the public books, and praying the priveleges authorised by Law may be granted to the said John Addington as they are well satisfied that he is entitled to the same.

Report, that they had the same under consideration, and are satisfyed that the facts set forth in the petition are true, respectfully offer the following resolution.

Resolved, that the Clerk of the Common Council be, and he is hereby authorised to amend the Minutes in conformity to the prayer of the petitioners.

John P. Anthony,
(signed.) Harm^{s} Tallman,
Robert M^{c}Queen.

Which was approved, and the resolution adopted.

The same Committee on the Petition of John W. Hinton reported.

The Committee on the Fire Department to whom was referred the Petition of John W Hinton [337] stating that he was admitted a Fireman in Company N^{o} 20, the 11th November 1805, has faithfully served as such in said Company from that period, and is at present a Member of the said Company—That on application to the Clerk of the Board for a Certificate, he stated that, his name did not appear on the Minutes, and praying that his name may be placed on the Minutes, as a Fireman, appointed November 11th 1805.

Report, that your Committee have made the necessary enquiries, and are satisfyed that the statement made is correct, respectfully offer the following resolution. Resolved,

That the Clerk of the Common Council be, and he is hereby authorised to enter the name of John W Hinton on the Minutes in conformity to the prayer of the petitioner.

John P. Anthony,
(signed.) Harm^{s} Tallman,
Robert M^{c}Queen.

Which was approved and the resolution adopted.

The Street Committee on the petition of the Auctioneers in relation to Sales in the vicinity of the Coffee House reported,

The Street Committee to whom was referred the remonstrance of sundry persons against, and also [338] the petition of sundry Auctioneers in favor of continuing the Sales at Auction in Wall Street between Water and Front Street, Report, that in the opinion of the Committee the prayer of the Petitioners (for the reasons set forth in the remonstrance ought not to be granted, and offer the following resolution, Resolved that it is inexpedient to grant the prayer

of the petitioners to hold Sales at Auction in Wall Street between Water and Front Streets.

Robert Swartwout.
(Signed.) Asa Mann.
Isaac Emmons.

Which was approved, and the resolution adopted.

The Law regulating Sales at Auction was then taken up, and amended agreeably to said report of Committee,

A Letter was received from Alpheus Sherman Esquire, resigning his Office of Attorney to the Corporation, and tendering his acknowledgment for the kind attention which he had received from the Members of the Common Council, and for the confidence reposed in him: Whereupon it was resolved that his resignation be accepted. Mr Hammond presented the following Resolutions, which [339] were unanimously adopted,

Resolved, that Alpheus Sherman Esquire be authorised and requested to finish all business begun by him as the Attorney of this board, and now unfinished. And that he continue to act as Attorney for the Board until Mr Ulshoeffer shall be ready to take upon him the duties of the Office.

Resolved, that the thanks of this Corporation be given to Alpheus Sherman Esquire for the faithful manner in which he has executed the Duties of the Office of Attorney of this Board.

The Board then proceeded to ballot for a person to fill the vacancy, when Michael Ulshoeffer was elected.

The Board also proceeded to ballot for a person to fill the Office of Deputy Clerk of Greenwich, Spring Street, Centre, Essex and Gouverneur Markets in place of John Varick, when Ezra Frost was chosen.

The Board also proceeded to elect by Ballot a person to fill the place of Loan Officer for the City and County made vacant by the resignation of John T Irving Esquire, when Jacob Drake was chosen.

The Board proceeded agreeably to Law to elect persons to serve as Inspectors, in the several Wards, [340] of the ensuing annual State and Charter Elections, when the following persons were chosen.

Inspectors of Election.

lic Wharves and Slips be printed in the papers employed by the Corporation.

Resolved, that the Superintendent of repairs be instructed to prepare 10 Ballot Boxes for the reception of the Votes which may be given in at the ensuing election for or against a convention.

The agreement with B. Birdsall for the Iron work of the fence around the Park, which was [343] laid for consideration, was now called up, approved and directed to be executed.

Resolved, that it be referred to the Mayor and Recorder to procure copies of such laws relating to this City that have been passed at the late Session of the Legislature, as they shall judge advisable.

Resolved, that an Index to the Laws of the Corporation be made under the direction of the Counsel.

The Board then proceeded to consider the Laws revised by the Committee on Laws and the Counsel.

The Law respecting Weights and Measures was referred back to the Committee on Laws to make it conformable to the State Law passed on that subject.

The Law relative to Drains and Sewers was, after some discussion, directed to be postponed and printed for the use of the Members.

The following Laws were then considered and passed.

A Law for the appointment of an Overseer of the Public roads and Highways, and of a Road Committee.

A Law to prevent the firing of guns, and discharging [344] of Rockets, squibs, crackers and other fire works.

It was agreed that a special meeting of the Board should be held on Monday Evening next at 5 O'Clock.

A Petition from John Van Zandt and from Oliver Vanderbilt for appointment of Inspectors of Weights and Measures, were referred to the Committee on Public Offices.

A Report of the Keeper of the Bridewell of persons confined in that Prison on 19th March last was presented and ordered to be filed.

The Committee on Public Offices on the subject of providing a room for the First Judge reported,

The Committee to whom was referred the subject of providing a Room for the First Judge,

Respectfully Report,

That they have had several conferences, and after mature deliberation have concluded, that, in their opinion, the only proper place for the location would be the Office now occupied by the Sheriff, in as much as the First Judge receives no salary but in lieu thereof, gets the fees arising from first motions, together with a proportion of Chamber business.

[352] Your Committee would therefore recommend the adoption of the following resolutions, in order to put the First Judge and Recorder on an equal footing,

Resolved, that the Superintendent of repairs *of Repairs* be instructed to fit up the room lately occupied by the Register on the first floor of this building for the use of the Sheriff, and so soon as the same shall be completed, the first Judge to take possession of the room now occupied by the Sheriff.

Resolved, that the Clerk notify the Sheriff of the above arrangement.

Respectfully submitted by
B. Crane Ch[n]

Ab[m] Valentine.

Which was approved and the resolution adopted.

The Committee on Assessments on the Petition of David S Brooks reported,

The Committee on Assessments to whom was referred the petition of David S Brooks praying to be liberated from paying a Tax assessed on his personal property in the 10[th] Ward for the year 1820

He also states that he removed from the State of Connecticut to this City in the month of May last, that he was a stranger to our Laws, and had no [353] knowledge of the Assessment until called on by the Collector for payment. Report,

that on an examination of this case it appears from the evidence of the Assessors of the Ward in which he resides, that the Petitioner did know that he had been assessed. One of them says that he gave him a Notice stating the amount of the Assessment, and of the time and place of correcting errors, if any had been made, and that he had neglected to attend.

The Assessors further state, that at the time of making said Assessment they had good reason for believing it to be correct, and that they still adhere to that opinion.

Your Committee are therefore of opinion that the prayer of the petitioner ought not to be granted, and respectfully recommend the adoption of the following resolution,

Resolved, that the prayer of the Petitioner ought not be granted.

Which was approved, and the resolution adopted.

The same Committee on the petition of Stephen [354] Richard reported,

The Committee on Assessments to whom was referred the Petition of Stephen Richard praying to be relieved from paying the tax assessed on his personal property in the 9th Ward, for the year 1820, Report,

That on an examination of this case, it appears that the Petitioner resides at Manhattan-ville, and that he also occupies and does business at the House No 153 Broad Way at which place he has been rated and assessed to pay a personal Tax of $50, and has paid the same, as fully appears from the receipt of the Collector of the 3rd Ward; Your Committee are therefore of opinion that the prayer of the petitioner is just and reasonable and ought to be granted, and respectfully recommend the adoption of the following resolution,

Resolved—that the Collector of the 9th Ward be instructed to decline collecting the tax assessed on the personal property of Stephen Richard for the year 1820.

Which was approved and the resolution adopted.

[355] The same Committee on the Petition of Edward Pollock reported,

The Committee to whom was referred the Petition of Edward Pollock, praying to be relieved, in part, from paying the Tax assessed on his personal property in the 2nd Ward for the year 1820,

Report, that on an examination of this case, it appears from a

certificate of the Assessors of the 2nd Ward, that the Petitioner, residing at N° 304 Pearl Street, was rated by them as being worth Ten thousand Dollars, personal estate, and to pay a tax of Fifty Dollars, that upon examination they find, a mistake has been made in said assessment, the Petitioner's personal property should have been rated at Five hundred Dollars, and he taxed Two Dollars and fifty cents. The Committee are decidedly of opinion, that this is a case in which relief ought to be given, and in order to effect it respectfully offer the following resolution.

Resolved, that the Collector of the 2nd Ward be instructed to receive from Edward Pollock, Two Dollars and fifty cents, in full for tax assessed on his personal property in said Ward for the year 1820, and that he return the Balance Forty seven Dollars fifty cents in the list of Errors and Insolvencies of said Ward.

The Committee on Public Lands and Places on the Petition of the Trustees of the Asbury African Church reported,

The Committee on Public Lands and Places to whom was referred the Petition of the "Asbury African Church," praying for the use of a small piece of ground in Potter's Field to bury the poor members of their church in, Report,

That some of the Committee have examined Potter's field, and find that a convenient spot may be assigned them without injury to the general arrangement of the ground, and as a similar grant has been already made to another society under like circumstances, the Committee are of opinion that the prayer of the petitioners ought to be granted, and therefore recommend the adoption of the following resolution.

Resolved, that the Asbury African Society have the privelege of fencing in [357] fifty feet square of the South east corner of Potter's field, for the purpose of burying their dead therein, during the pleasure of the Corporation.

Which was approved, and the resolution adopted.

The Committee on Laws on the Petition of Stephen Gould reported,

The Committee on Laws to whom was referred the Petition of Stephen Gould, representing that he had and could sell Ingersolls Digest of all the Laws of the United States at Six Dollars and seventy five cents per copy.

The Committee are of opinion that one copy ought to be provided for the use of the Mayor's office,

J. Hammond.

Whereupon, on motion it was resolved that a copy be purchased for the use of the Mayor's office.

The Finance Committee on the communication of the Comptroller on the subject of errors committed by the Assessors of the several Wards in *copy* [358] copying the Tax Books, reported,

The Finance Committee to whom was referred a communication from the Comptroller on the subject of errors committed by the Assessors of the several Wards in copying the Tax books. Report,

That the petitions on this subject referred to the Committee on Assessments, and their several reports thereon to the Board, have shewn, that during the past year errors to a considerable amount have occurred, and that in some instances, where the assessment has been only hundreds of Dollars, it has been encreased to thousands by the addition of a cypher thro' the error of the transcriber. That is a question worthy of consideration whether it would accord with *with* strict justice, or a liberal construction of the Statute, to assess the remissions allowed for such errors on the respective Wards in which they have occurred.

This question the Committee consider to be the province of the Board of Supervisors to determine, and they therefore accord in opinion with the Comptroller, that the Collectors make a seperate return of all errors of the Assessors, for which a remission has been allowed, and that the same be laid before the Supervisors for their consideration, and they accordingly propose the following resolution,

Resolved, that the Comptroller instruct the several Ward Collectors that in making their returns [359] to the Treasurer, it will be required,

that they furnish a List, shewing the amount ordered to be deducted from the Taxes, in consequence of the errors of the Assessors.

Respectfully submitted,

Stephen Allen.
(signed.) B. Crane.
J. Hammond.

Which was approved, and the resolution adopted.

The same Committee on the Petition of Ebenezer Burling reported,

The Finance Committee to whom was referred the Petition of Ebenezer Burling, praying that a new Warrant may issue in lieu of one lost by him some time since, Report,

That the Warrant alluded to was numbered 1203, and was issued on the 19th February last for the payment of 62 Dollars and 50 Cents— That said Warrant has not been paid by the Treasurer, and the Committee have no reason to doubt that it is lost, as stated by the petitioner and they therefore recommend the adoption of the following resolution,

Resolved, that the Comptroller be instructed to report a Warrant for Sixty two Dollars 50 cents, in lieu of that lost by Ebenezer Burling; and that the said Burling be required to execute an indemnity [360] bond to the Corporation to save them harmless from the payment of the Warrant so lost by him

Respectfully submitted,

Stephen Allen,
(signed.) B. Crane,
J. Hammond.

Which was approved and the resolution adopted.

The same Committee, on the Petition of George P. Rogers, reported,

The Finance Committee to whom was referred the petition of George P Rogers praying to be released from a portion of the tax for 1820, on part of property lately assessed to the Corporation, between Fulton Street and Crane Wharf, Report,

That the Corporation was put in possession of the property alluded to on the 12th day of January 1821, on which day the report of the Commissioners, appointed to value the ground now appropriated for a Market was confirmed by the Supreme Court. That the Taxes for 1820, were due, according to the true construction of the Law in the view of your Committee, at the date on which the Supervisors con-

firmed the Assessment, and placd the books into the hands of the Ward Collectors; and as the property of the *pe* [361] petitioner was not in the possession of the Corporation, until after the expiration of the year 1820, the taxes then due and unpaid must be considered as an encumbrance on the premises, and ought to be provided for as other incumbrances are. The Committee are of opinion therefore, that it is inexpedient to grant the prayer of the petitioner, and that any taxes or other incumbrance on the property alluded to, or any part of the same, ought to be deducted from the amount at which it was valued by the Commissioners, and they accordingly offer the following resolutions.

Resolved, that it is inexpedient to grant the prayer of the Petitioner.

Resolved, that the Street Commissioner be instructed to retain from the valuation of any of the property between Fulton Street and Crane Wharf, and between Front Street and the East River, such amount as will satisfy any taxes or *or* other incumbrances due on the same, prior to the 12th of January 1821, and which shall remain unpaid on the 12th day of May there after.

Respectfully submitted,

Stephen Allen,
(signed.) B. Crane,
J. Hammond.

Which was approved, and the resolution adopted.

[362] The same Committee on the petition of Le Grand Jarvis reported,

The Finance Committee to whom was referred the petition of Le Grand Jarvis, one of the City Surveyors, praying that a reasonable compensation may be allowed him for his services in making a Map of the Sixth Ward, Report,

The Map, alluded to, was prepared by Mr Jarvis in order to assist the Assessors of said Ward in completing their Assessment, that the said Assessors have certified "that they found said Map quite useful and very accurate. That, about three years since, the Common Council directed Maps of the several Wards to be made, and the late Mr Ludlum prepared one for the Sixth Ward at an expense to the public of $180, but that this Map is said to contain many inaccuracies, not being founded on actual surveys. That the Map prepared by Mr Jarvis was without authority from the Board, and that therefore he has no just claim for compensation; but in consideration of the expense he has

incurred, in preparing said Map, and the public utility that may result from its accuracy, the Committee have concluded to recommend, that a moderate compensation be allowed him, and they propose the following resolution accordingly.

[363] Resolved, that the Comptroller report a warrant in favor of Le Grand Jarvis for Fifty Dollars as a compensation for preparing a Map of the 6th Ward said Map, *said Map* to be a public Map, and placed in the office of the Street Commissioner accordingly.

Respectfully submitted,

Stephen Allen,
(signed.) B. Crane,
J. Hammond.

Which was approved, and the resolution adopted.

The Counsel agreeably presented the draft of a Law, entitled a Law to establish the Salaries of the Mayor and Recorder which was read by paragraphs and passed.

The Law for the government of the Penitentiary and other purposes, passed on the 2nd Instant, was on motion reconsidered, and amended so as to give the Keeper a Salary of Eight hundred Dollars per annum instead of One thousand, as before contained in the Law.

The Law to regulate the public Markets which was on the 5th of March last, laid for consideration, was called up and passed.

[364] Alderman Thorp agreeably to notice moved that the Board reconsider the Vote given at the last meeting on the Report of the Committee on Finance upon the petition of the General Society of Mechanics and Tradesmen, and of William Mooney The question having been taken thereon, and the Ayes and Noes having been called, the Members voted as follows,

Ayes. Mr Recorder. Aldermen, McQueen, Man, Thorp. Mr Town, Parker, Emmons, DePeyster, 8.

Noes. Ald Tooker, Townsend, Anthony, Board. Mr Bolton, Valentine, Crane, Hammond.

The Board being equally divided; his Honor the Mayor gave his vote in the Affirmative.

So the motion for reconsideration was carried.

The report being read was in the words following.

The Finance Committee to whom was referred the Memorial of the General Society of Mechanics and Tradesmen on the subject of a piece of ground held by William Mooney, under Lease from the

Corporation, and a communication from Mr Mooney on the same subject, report,

that the society have entered into an arrangement with said Mooney for the purchase of an irregular piece of ground fronting on Chamber Street, being part of several Lots leased to him by the Corporation [365] and on which it is intended to erect a building appropriated for a Mechanics School and Apprentices Library.

That they are to pay $1.000 to Mr Mooney's order, to be applied towards the reduction of the arrears of rent due on said ground, and also to assume the payment of $300 of the annual rent reserved on the same. That they pray the Common Council to execute to them a seperate and perpetual Lease for the ground alluded to, as described on the annexed Map, and in consideration of the uses to which the said ground is to be applied, they ask a reduction on the annual rent to some small and moderate sum.

The Committee have ascertained that Mr Mooney will assent to the foregoing arrangement; and he prays on his part, that he may receive a new Lease for that part of the ground, not included in the above, which shall be in lieu of the three Leases he now holds, and which will expire on the first days of May in the years 1826. 1831. and 1832. That the whole amount of rent reserved to the Corporation by the aforesaid Leases is $685; which after deducting the $300 to be assumed by the Society, will leave the future rent to be paid by said Mooney at $385. That the arrears of rent, including interest, up to the first day of May next, will amount to $4.360.79. One thousand dollars of which to be paid by the Society, will leave the balance at $3.360.79. The Committee have con- [366] cluded to recommend to the Board that this Balance of arrears together with the Interest which will accrue be added to the future rent of the premises, and that a just proportion of said balance be made payable annually, and they have accordingly caused the necessary calculations to be entered into, a copy of which is hereunto annexed: the result of which is that on a Lease of Ten years, the annual rent including the present, will be $841.64, and they beg leave to recommend that a Lease be executed, to expire on the first day of May 1831, at the annual rent aforesaid, and that said lease contain the same conditions, except as to amount of rent, and length of time, as the leases now held by the said Mooney

The Committee beg leave respectfully to call the perticular attention of the board to the request made by the Mechanics Society. The improvement of this property by the Society, is an object of some

importance in a public point of view, as it will be an ornimental improvement of that part of the City; but the appropriation of the building as a School House and Library for apprentices, and the beneficial effects that will naturally result from such an establishment, are, in the opinion of your Committee of much greater consequence to the community, and demand the encouragement and appreciation of the Common [367] Council, who are not only the conservators of the public property. but also the guardians, and protectors of the public morals. This Society has been Incorporated by the Legislature about Twenty Years, and during that period, have supported a great number of indigent Members, widows, and orphan Children, without asking or receiving the least pecuniary aid from the public. They have at this moment, Thirty Widows, and seventeen children on their Pension list, and annually expend for their support about $2000. The support thus afforded by the Society, will have lessoned in some measure the public expenditure, for it is reasonable to suppose, that without this relief, a portion of these pensioners, would have become the Pensioners of the Commissioners of the Alms House, instead of being the pensioners of the Society.

The Society have also been at considerable expense incidental to the establishment of the School and Library, amounting to $2384, and the annual disbursement for its support is estimated at $1300. These facts and considerations have induced your Committee to recommend that a perpetual lease be given the Society at a moderate rent, provided the buildings to be erected shall continue to be used for the purpose of a Mechanics School and apprentices Library; and in order that the Board may determine what that rent [368] shall be, the Committee have reported in blank—and they offer the following accordingly

Resolved that a lease for Sixty Years be executed to the General Society of Mechanics and Tradesmen of the City of New York, for that part of the Lots now held by William Mooney, designated on the annexed Map, and at an annual rent of $150—conditioned, that a School House shall be erected on said ground, on or before the first day of May 1822; and that whenever the said School House shall Cease to be used as such, all the rights of the Society to the premises, shall revert to the Corporation

Rosolved, that a lease be executed in favor of William Mooney, for that part of the premises to be retained by him, also designated on the annexed Map, at the annual rent of 841 Dollars 64 Cents, and for the term of Ten Years from the first day of May next; said lease

to contain the same conditions, except as to the amount of rent, and length of term, as the Leases now held by him; provided he assigns to the Corporation the aforesaid leases

Respectfully submitted

Stephen Allen
J Hammond
B Crane

[369] Alderman Thorp then moved to strike out of the first Resolution the words $150 for the purpose of inserting a Smaller sum, the question being taken it passed in the negative.

Mr Emmons the[n] moved to strike out of the same resolution the words perpetual lease, in order to insert a lease for a term of years—this was agreed to—It was then moved to insert the words " One Hundred Years " this was lost,

It was then moved to insert " Ninety Nine Years " this was also lost.

It was then moved to insert Sixty Years which was agreed to.

The resolution as amended was then agreed to and is in the following words

Resolved that a lease for Sixty Years be executed to the General Society of Mechanics and Tradesmen of the City of New York. for that part of the lots now held by William Mooney designated on the annexed map, and at an annual rent of $150 Conditioned, that a School House be erected, on said ground, on or before the first day of May 1822: and that whenever the said School House shall cease to be used as such, all the rights of the Society to the premises, shall revert to the Corporation.

Resolved that a lease be executed in favour of William Mooney, for that part of the [370] Premises to be retained by him, also designated on the annexed map, at the annual rent of $841.64, and for the term of Ten Years from the first day of May next; said Lease to contain the same Conditions, except as to the amount of rent, and length of term, as the Leases now held by him; provided he assigns to the Corporation the aforesaid Leases

The Councel presented for execution a Grant for a Water Lot of Ground near Roosevelt St to Margaret Miller wife of Sylvanus Miller also Quit claim Deed to Sylvanus Miller for a gore of Land adjoining Lot of said Margaret near Roosevelt Street between Water & Front Streets which were directed to be executed

The Finance Committee on the Petition of John R Murray as attorney for Hannah Murray reported.

The Finance Committee to whom was referred a Communication from John R Murray attorney for Hannah Murray, complaining that an award due him in opening [383] Green and Wooster Streets is withheld, in consequence of the non payment of the assessment on his property for building the Sewer in Canal Street Report

That the assessment on Mr Murrays property for building the sewer and regulating Canal Street amounts to $7380.85, and was advanced by the Corporation to the Contractors in 1819; but that Mr Murray and others have deemed it proper to withhold the payment of said amount, and have instituted proceedings in the Supreme Court for the purpose of making void the assessment, That the Award due Mr Murray for property taken in opening Green & Wooster streets only amounts to $4756.57, which was payable on the 28th day of February last, and is withheld by the Street Commissioner, on the

advice of your Committee, untill the question respecting the validity of the assessment for Canal street shall be settled—The Committee cannot conceive, that the least injustice is done to Mr Murray by the withholding of this payment, as the sum due the Corporation is much the largest in amount, and as Interest will of course be mutually charged and allowed, on that due each party; and perticularly as the precedent has been established by himself in withholding the Money due the Corporation [384] and instituting proceedings which preclude a speedy settlement of the matter in controversey

The Committee therefore propose the following resolution

Resolved, that it is inexpedient to pay the award to Hannah Murray for opening Green and Wooster Streets, untill the proceedings in the Case of Canal Street sewer be adjusted

Resolved, that Interest be allowed on said award from and after the 28th day of February last

His Honor the Mayor stated that he had called this meeting at the request of the Committee on the proposed Market between Fulton Street and Crane Wharf

The Committee appointed to procure plans and estimates, and to superintend the building a Market House between Fulton Street & Crane Wharf reported

[389] The Committee appointed to procure plans and estimates for, and to superintend the building a Market House between Fulton Street & Crane Wharf Report

That in Conformity with the duties assigned them, they have had advertised for, and received plans for the proposed market buildings, and have given the subject that attention and deliberation which its magnitude and importance seemed to require

In making a selection from amoung the variety of plans which have been presented they have been actuated by the important considerations of combining Strength and Elegance with Utility and Economy, and have therefore made choice of the plan presented on the drawings made by James ODonnell Architect, as uniting more of the views of the Committee, than any other which have been presented, and which with some alterations that May suggest themselves to the Committee in the course of their having the Work executed, they recommend to the Board for their approbation and adoption, and accordingly offer the following Resolutions

[390] Resolved that the plan presented by James O'Donnell for a public Market on the grounds between Fulton Street & Crane Wharf be adopted, with the exception of substituting an open, instead of a close[d] market

Resolved that a Warrant be reported for $100 to pay James ODonnell the premium for the plans adopted for the Fulton Market

His Honor the Mayor laid before the Board Certified Copies of Laws, passed at the Late Session of the Legislature Viz

Act to enable the Mayor Aldermen and Commonalty of the City of New York to raise Money by a Tax

[408] An Act to amend an Act for the more effectual collection of Taxes and Assessments in the City of New York

An Act providing for the compensation of the District Atterney, of the County of New York, and for the Crier and Clerk of the Courts of Oyer and Terminer and General Gaol Delivery and General Ses-

sions of the Peace in the City and County of New York and for other purposes,

Whereupon the subject of the last Clause, of the last above mentioned Act which authorizes the Common Council to reduce the Salaries of the assistant Justices to $1500. per Annum in Case they should think proper, was referred to the Finance Committee

The Committee on Public Offices to whom was referred, the Act respecting Weights and Measures reported*

[409] The Police Committee agreeably to the reference to them Reported " a Law to prevent swine from running at large " which was read by Paragraphs and passed

The Special Committee to whom was referred a consideration of the Law respecting drains and sewers reported the same without amendment, and it was passed under the Title of " a Law relative to Drains and Sewers " and was directed to be published, in the Papers employed by the Board

The Canal Committee to whom was referred the Communication of the Street Commissioner respecting a Sewer in James, Oak & Batavia Streets reported

[410] The Canal Committee to whom was referred the annexed Communication from the Street Commissioner recommending that a Small sewer be built in James Street. Oak St and Batavia Streets and also the petition on that subject from a number of the proprietors who request that the size of the drain may not exceed 18 Inches square—Report

that they have personally examined the situation of the Property on those Streets, and are of Opinion that the drains are indispensable; due notice has been given that drains are proposed to be built in those Streets & no objections have been made except to the size proposed by the Street Commissioner

Your Committee therefore offer the following resolution,

Resolved that a stone drain be built in James Street from the Bulk head to about midway between Oak, and Banker Street, of 18 Inches square, covered with flagging, with a drain of the same size in Oak and Batavia Streets to communicate with the one in James Street and that the Street Commissioner present an [411] Ordinance forthwith for that purpose

which report was approved and the resolution adopted—The Street Commissioner presented an Ordinance agreeably therewith which was passed

The Same Committee on the Petition respecting a sewer in Grand Street reported

The Canal Committee to whom was referred the annexed petition of A Hammond and others praying that a Sewer may be built in Grand Street from the intersection of Wooster Street to the sewer about to be constructed in Thompson Street

Respectfully report, that they have examined the subject, and are of the opinion that to render that vicinity healthy it will be necessary, to raise the Ground so high as to convey the water on the surface to the sewer about to be built in Thompson Street, and that the sewer proposed will be unnecessary

Therefore beg leave to offer the following resolution

[412] Resolved that the prayer of the Petitioners Ought not to be granted

which report was approved and the Resolution adopted

The Street Committee on the Petition for extending Barrow Street reported

The Street Committee to whom the Petition of Sundry persons, praying that Barrow Street may be extended from the Church line to Bedford Street

Respectfully Report, that, they have given the subject due Consideration and are of Opinion, that it is inexpedient to grant the request, inasmuch as Commerce Street has not been ceded. By the extension of Barrow Street into Commerce Street a part of that street will become useless and ought to be closed, and whenever a cession is made of a quit claim given to the present proprietors, the proposed improvement may then with more propriety be taken into Consideration

They therefore submit the following. resolution

[413] Resolved that it is inexpedient to grant the prayer of the Petitioners at present

Robert Swartwout
Asa Mann
Isaac Emmons

which report was approved and the Resolution adopted

The same Committee on the Petition for Repaving Rose Street reported

The Street Committee to whom was refered the Petition of Thomas Bloodgood and others, praying that the Cartway in Rose Street may be repaved and the side Walks regulated Report, that they have carefully examined the Condition of said Street and are of Opinion that, that part of the Street lying between Duane and Pearl Street, ought to be taken up, and the side Walks extended to the deed width, and that, the repaving of that part lying between Duane and Frankfort Street be postponed to some future time

Therefore present the following resolution

Resolved that the Cartway in Rose Street, between Duane and Pearl Street be repaved, and the sidewalks extended [414] And that the Street Commissioner be instructed to prepare an ordinance to that effect

Robert Swartwout
Asa Mann
Isaac Emmons

which report was approved, and the Resolution adopted, and the Street Commissioner forthwith presented an Ordinance agreeably thereto which was passed

The Same Committee on the petition for Paving Side Walks in Broome Street reported

The Street Committee to whom was Refered the Petition of George Thompson and others, praying that the Side Walks in B[r]oome Street, from the Bowery to Allen Street may be paved,

Respectfully report, that they examined the situation of that part of Broome Street, and are of Opinion that the request of the Petitioners should be granted in part,

To effect which the[y] offer the following Resolution

[415] Resolved, that the Side Walks on the North side of Broome Street from the Bowery to Allen Street be paved, and that the Street Commissioner be instructed to prepare and ordinance for that purpose

Robt Swartwout
Asa Mann
Isaac Emmons

the above report was approved the Resolution adopted and the Street Commissioner presented forthwith an ordinance agreeably thereto, which was passed

The same Committee on the petition of Messrs Disbrow & Hitchcock Contractors for Street Manure reported

The Street Committee to whom was referred the Petition of Benjamin Disbrow praying that a deduction may be made from the sum, which he had stipulated to pay for the Street Manure

Respectfully report, that in their opinion it would be improper to make any deduction or to interfere with the Contract, as the petitioner must have had full knowledge of this business before entering into the agreement.

[416] They therefore offer the following Resolution

Resolved that it is inexpedient to grant the prayer of the Petitioner

Robt Swartwout
Asa Mann
Isaac Emmons

The above report was approved and the Resolution adopted

The same Committee on the Petition of John J Astor & John K Beekman respecting the front of the Theatre reported

The Street Committee to whom was refered the Petition of John Jacob Astor & Jno K Beekman, praying for the privilidge of erecting a Colonade in front of the Park Theatre, the columns of which to project as far as the Curb Stone

Report, that they examined the plan, and reflected on the nature of the request, and are decidedly of the opinion that it will be improper to grant it, therefore offer the following Resolution

[417] Resolved, that it is inexpedient to grant the prayer of the petitioners

Robert Swartwout
Asa Mann
Isaac Emmons

The above report was approved and the Resolution adopted

The Special Committee to whom was referred the Resolution presented by A[l]derman Mann on the 16th instant respecting the Jury list presented a report which was read and laid for future consideration

The Committee on Assessments to whom was referred the Petition of Edward Arrowsmith and others, remonstrating against the Assessment laid on them for turning the course of the water from Bayard to Orange Street reported

The Committee on Assessments to whom was referred the petition of Edward Arrowsmith and others, inhabitants of the Sixth Ward,

remonstrating against the confirmation of an assessment, made on their Property for turning the former course of [418] the Water from Bayard Street into Orange Street. That as it was done without their request, and is of no benefit to them, the[y] pray that so much of said assessment, as respects them may be set aside

Report, That they have had this case under Consideration, and have heard all the Objections, that could be urged, on the part of the Petitioners, and the principle on which the Assessors laid the assessment, and are of Opinion, that all the Petitioners are more or less benefited, by the alteration complained of. The heaviest assessment has been laid on those most benefited by the operation, and Several having already paid their assessment, the Committee are of Opinion that it ought to be Confirmed, and for that purpose, respectfully offer the following resolution

The same Committee on the Petition of Charles Hopper reported

The Committee on assessments, to whom was referred the Petition of Charles Hopper, praying to be relieved in part from paying the Tax assessed on his personal property *property* in the Eighth Ward

Report

That they have examined this case carefully, and find that the petitioners property has been assessed through mistake $5000, it ought to have been $500.

The Assessors acknowledge that they were Mistaken in the valuation of the petitioners personal property, and strongly recommend the favourable attention of the Committee to the request contained in the petition

The Committee are of opinion that they prayer of the petitioner is just and ought to be granted, and respectfully recommend the adoption of the following resolution

Resolved, That the Collector of the 8[th] Ward be instructed to receive from [420] Charles Hopper, Personal Tax on $500. for the

The Committee on Assessments to whom was referred the petition of Samuel Woodruff, in which he states that his personal property in the 3rd Ward has been valued $2000 and he assessed to pay a Tax of Ten Dollars, which he considers grievous and unjust, inasmuch as the whole amount of his personal Property does not exceed $200, on which sum he is willing to pay taxes and prays that it may be reduced to that amount

Report, That on an examination of this case, they are satisfied that the personal property of the petitioner has [421] *has* been valued incorrectly, and in consideration of his having been sick at the time of the assessment being made, and of course unable to attend to having it altered, they are of Opinion that his request ought to be granted, and respectfully recommend the adoption of the following resolution.

[423] The same Committee presented the following Communication

Report of the Finance Committee on Working Convicts

The Finance Committee conceiving it to be their duty, to recommend such retrenchment of the public Expenditures as may appear expedient and proper, and having observed the large disbursements annually made for working the Convicts at the Penitentiary, they have deemed it proper to take that subject under consideration, and report the result of their deliberations to the Board. The expense for tools and extra keepers in working the Convicts, has averaged from Six to Eight Thousand Dollars Annually; and if the additional expense of Clothing, more than would be necessary, were they continued in close Confinement, is taken into the calculation, the expense cannot be estimated at a less sum than Ten Thousand Dollars Annually. The Work performed by these Men for the last Three Years, has been principally on the Avenues, and particularly on the Third. The public utility of working this avenue to a certain [424] extent, is admitted by your Committee, but on the same principle as the paving, and regulating of the Several Streets in the City, particularly the Main or leading Streets, such as the Bowery and Broad Way, are admitted to be a public benefit and Convenience; but why the former should be regulated at the Public expense; while the latter is borne by the inhabitants owning the Lots fronting them, the Committee cannot conceive a good and sufficient reason; for it Cannot be urged that the Avenues are necessary as highways to the City, while all the ancient Roads are not only still open, but are kept in the best repair at the public Expense.

The advantages derived to the Public from the employment of the Convicts, appear therefore, to be much less than the cost incurred;

and it is a question with your Committee, whether as a punishment, the Working of these Men, has the effect expected to be derived from it; for if any conclusion may be drawn from the [425] fact, that a large proportion of the convictions at the Sessions Court, are Old Offenders, it is, that the System is wrong in some of its essential parts. The bad effects of the System, appears to your Committee, to grow out of the present construction of the prison, where of necessity a number of the Prisoners are confined in one apartment, and have free communication with each other during their retirement; by which means the convict who is for the first time brough[t] to a prison, is associated with old offenders, and compelled to listen to the recital of their adventures of hardihood and villany, and instead of reformation, the end and object of the whole Penatentiary system, he looses the remnant of moral sense remaining with him, and goes out after the term of his confinement worse in principle than when he entered the Prison. The only remedy, in the opinion of your Committee is, whenever the City finances will admit to erect an addition to the present building, so constructed as to contain such number of cells, as will be at least sufficient to place into solitary confinement those whose habits are so hardened as to require it.

That your committee might obtain a more practical view of the possibility of [426] working the convicts at a less expense, and greater benefit to the public, they have, together with the Commissioners of the Alms House, personally examined the state of the Third Avenue, and the adjacent lands belonging to the Corporation.

The clearing and grubbing of these lands, and bringing them into a state fit for cultivation, may be effected by the Convicts, in the opinion of your Committee, at a much less expense, and certainly much greater advantage to the public, than the working of the avenues, for which the owners of the property in their vicinity, have refused to contribute any portion of the cost. It appears to be necessary however, to work, in addition to that already completed, about a quarter of a mile of the Third Avenue, in order to for[m] a finish to the road; and the Committee have therefore entrusted the keeper of the Penitentiary, to employ the convicts on said Avenue: only so long however, as may be necessary to make the finish alluded to; and that such of the men as are not required to repair the old Roads, be employed in [427] clearing the Land belonging to the public, some of which, is now unoccupied, and apparently is in the state in which it originally was. This operation, in the opinion of your Committee, will materially increase the value of the public property, and will

bring it into immediate use for cultivation by the paupers of the Alms House establishment; and the money paid to the overseers of the convicts, and for working materials, will by this means, tend to lessen the general expense, instead of enhancing the value of individual property.

The sole object of the Committee, in proposing this arrangement, is, if possible, to lessen the public expenditure, and so to regulate the disbursements, that public and not private utility may be the result, and they hope therefore for the concurrence of the Board, and respectfully propose the following resolution

Resolved, that the foregoing report be accepted and entered on the minutes

The same Committee on the Petition of Messrs Dobbs & Furman Reported

[435] The Finance Committee, to whom was referred a communication from Waters Furman, and Charles Dobbs, Late Contractors for Street Manure, Report That *thave* [they] have had an interview with Mr Dobbs, who states that the contract was an unprofitable one, by which they lost several Hundred dollars.

That they spared neither pains nor expense in cleaning the Street, and complying with their contract; and that in their opinion, some deduction ought to be made from the amount of payment.

The Committee have considered the subject, and are of opinion, that the precedent of granting relief in Cases of Contract, ought never to be established by the Corporation; in as much as the Public Business is all done by estimate, and the offers for contract always made with a perfect knowledge of what is required to be done; and that the contracts entered into annually, being of Large amount, and very numerous, should the principle be once established, that on proof of loss, relief will be granted, there would be an end to all calculation on the public receips, or disbursements The Committee are therefore of opinion [436] that it is inexpedient to grant the prayer of the petitioners, and they offer the following resolution accordingly

The same committee presented the following report

The Finance Committee beg leave to state, that in their annual report to the Board, they brought before them, a statement of the arrears of Taxes due the State for the Years 1815-16 & 17, and commented particularly on a charge made by the late Comptroller of $7030.09 for Interest, on said arrears, and they at the same time recommended that [437] A petition, accompanied with a bill, should be presented to the Legislature, for an act authorising a remission of said Interest.

A Petition, accompanied with a bill, was accordingly laid before that Hon[l] Body, but as the Committee are informed, was not acted on. The arrears of Tax alluded to was paid on the 25[th] of January last, amounting to $22.362.95, but as the committee believed the charge for Interest unauth[or]ised, and as the Board had determined to petition for its remission, that amount was accordingly withheld. The Comptroller was informed however, through the Chamberlain, that the amount paid was the whole balance of arrears, and at the same time he was reminded of the reasons which induced the Corporation

to decline the payment of the charge for Interest, and that they would petition the Legislature for a remission.

The present Comptroller, M^r^ Savage, has recently transmitted to the City Chamberlain, an account of arrears of Taxes for 1820, and again brought forward the old charge of $7030.09, as one of the items of his account for arrears, on which he informs the chamberlain, interest will be charged from May 1820.

[438] The Committee are of opinion, that in equity, this charge for interest ought not to be made against the Corporation, neither can it be legally sustained, not being authorised by the statue; and in this opinion of the Committee, the Counsel of the Board has concurred, who was requested to examine the subject, and inform them the result of such examination. The Committee are therefore of opinion, that the Corporation ought to resist the payment of this charge brought against them by the State, and they propose the following resolution accordingly

Resolved, that the Treasurer be instructed to inform the Comptroller of this State, that as there is no Law authorising the charge of Interest on arrears of Tax, the Corporation do not acknowledge, neither will they pay any such charge, except by due course of Law

The same Committee on the Petition of Peter N Utt reported

The Finance Committee to whom was referred an account rendered by Peter N Utt, for fixtures and repairs to the Room over the Washington Market Report

That the Room alluded to, was rented to M^r^ Utt, at the annual rent of $170.00 without any authority *authority* to make any of the said fixtures, and repairs on account of the Corporation. That he is in arrears for rent in the sum of $184.23, and proposes that the annexed bill of $216.45 may be credited him, as payment of said arrears, The Committee have examined the subject, and are of opinion that the fixtures, alluded to are necessary for the accommodation of the Tenant, and therefore, that M^r^ Utt, ought to be allowed a fair compensation for the same, and they have accordingly instructed the Superintendant of repairs, to make a true valuation [440] of the prop-

erty, the report of which amounts to $125. The Committee therefore propose the following resolution

The same Committee on the Petition of Gilbert Coutant and others, Heirs of Isaac Varian deceased reported

The Finance Committee, to whom was referred the petition of Gilbert Coutant and others, heirs at Law of Isaac Varian deceased, praying to be allowed to commute the rent of a certain piece of Land in the Ninth Ward Report

That the Land alluded to is situated on Broad Way, near the junction of [441] that street with the Bowery—That the piece contains about Ten Acres, and was granted to Sir Peter Warren in the year 1745. free from rent for the first seven years, and at the annual sum of Ten Dollars forever thereafter—The Committee are averse to recommending Commutation ge[ne]rally of the Corporation rents; but as the sum reserved in this instance is of small amount, and as they have asscertained that the petitioners are willing to commute, at an Interest Corresponding with the present low value of Money, they recommend the adoption of the following resolution

Resolved that the Comptroller be authorised to commute with the petitioners for the rent on the Land alluded to, on their paying a sum the Interest of which, at four per cent per annum, will amount to the rent reserved

[442] The Ferry Committee on the Petition of Lozee Van Nostrand, Reported

The Committee on Ferries to whom was referred the memorial of Losee Van Nostrand (in behalf of Hunt & Van Nostrand formerly Lessees of the Fly Market Ferry)

Report. That from an examination of sundry papers, and a diligent investigation of all the circumstances, of this business, which has remained in the hands of former Ferry Committees a long time past; a balance remains on the Books of the Corporation against Hunt & Van Nostrand for Ferry Rent, of Eighteen Hundred Twenty Seven Dollars ninety Cents,

In the year 1814 the Ferry Committee appointed Robert Brown, and Hunt & Van Nostrand chose Salem Wines, referees to estimate the value of Six Horse Boats, and Six Barges, with Sails, Oars and boat hooks, which were to be returned to the Corporation, agreeably to the conditions of a Lease made the 4th March 1811. The above referees appointed as umpire Walter Mitchell, who with Mr Brown estimated the value of said Boats and Barges &c at [443] Eight Hundred and forty Dollars.

The Committee think that Hunt & Van Nostrand should be credited with that amount, and also for damages during the time the Steam Boat Company were preparing the wharves for their Boat.

They have accordingly agreed to the sum of Five Hundred dollars for that purpose.

The result will be as follows

Balance due by Hunt & Van Nostrand for ferry rent		$1827.90
Estimate of Boats &c	840	
Allowance for damage	500	1340.
Balance due the Corporation		$487.90

The Committee recommend the adoption of the following Resolution

[446] which was approved and the Resolution adopted

The same Committee presented the following Report on the subject of Leasing the Stalls in the several Markets in this City, which, was approved, and the Resolutions therein proposed adopted

The Market Committee beg leave to Report, That pursuant to a Resolution of the Common Council authorising them to Rent at Public Auction, or otherwise, the Butchers Stalls in the Several Markets in this City, for one or more Years, they have acted on the subject, and they hope conformably to the wishes and expectations of the Board

Presuming that the New Market will be compleated the ensuing Season, and that several of the Butchers occupying Stalls in the Present Markets calculate on obtaining stands in the One to be built, the Committee have deemed it expedient to rent the Stalls in the Fly Market for only Six Months, and in the other Markets for One Year. The plan of renting the Butchers Stalls, in lieu [447] of receiving the fees as formerly, being an experiment, the policy of which has been doubted by some, and the committee feeling a disposition to accomodate the change as nearly to the views of those concerned as practicable, it was thought proper, after due consideration, to fix a rent on the several stalls, graduated according to their situation and Local advantages, and to give the preference to the Occupant of each stall in the first instance, and on their neglecting to pay the quarters rent in advance, to Let to such applicants, being regular Butchers, as the Committee should approve. This plan has succeeded to the utmost expectation of your Committee, as the statement hereunto annexed, furnished by M^{r} Smith the collector of the Corporation Revenue, will shew. By this statement it will appear, that the stalls in the Ten Markets except 18. have all been taken at the rent fixed by the Committee, and that the amount received for the first Quarters Rent is $2351. of the stalls not rented 8 are in the Fly Market, one in the Washington Market, two in the Spring Street, One in the Essex 5 in the Grand Street [448] and one in the Duane Street Markets, and are generally so situated, as to be considered unfavourable places for business. The Labour and attention necessary to bring this plan into a due course of opperation has been considerable, and the Committee deem it but justice to state, the *the* facility with which it has been carried into effect, is owing, in a great measure, to the judicious arrangements of M^{r} Smith the collector of the Corporation revenue, who was instructed to receive the Quarters rent in advance, and to dispose of the vacant stands, subject to the decision of your Committee.

The additional labour which will [be] brought upon the Collector by this new arrangement in the receipts of the revenue from the Markets, requires, in the opinion of your Committee, that some addition should be made to his Compensation; and as some of the

clerks of the Markets receive a percentage and others a daily compensation, and as a percentage on the fees hereafter to be collected will not be an adequate compensation [449] to those who received it the Committee are of opinion that the compensation of all the clerks ought to be per day, and they offer the following Resolution accordingly

Resolved that the Clerks of the several markets be allowed One Dollar for every day they shall attend, and perform the duties required of them, by the Law to regulate the public Markets

Resolved, that One Hundred Dollars be added to the Salary of William S Smith Collector of the Corporation Revenue

He also presented the following Annual Report relating to the Finances of the City, which was directed to be referred to the Finance Committee with authority to cause the same to be printed.

Annual Report &c

The Annual Report of the Comptroller, is respectfully presented to the Common Council.

[17] Annexed, is an account of Cash received into the Treasury, and paid out by Warrants. from the 8th of May 1820. to the 15th May 1821.

Balance in the Treasury May 8. 1820.....	$.308.48

Balance in the Treasury May 15. 1821.....	$52.996.53

The account of the Commissioners of the Sinking Fund for the same period, is also presented.

The Amount redeemed of the Six per Cent Stock, is the same as reported last year; no purchases have been made in consequence of the advanced premium during that time.

A balance sheet for Six Months preceding, accompanies this report. Several accounts remain unpaid, which migh[t] properly be put in Suit, and they would have been handed over for this purpose.

had not the expense accruing to individuals concerned, and the very great delay attending legal proceedings, induced a desire of procuring a settlement if possible, without having recourse to the last resort

A List of such accounts as will unavoidably have to be presented to the Counsellor of the Corporation for adjustment, will be shortly prepared.

[18] Agreeably to a resolution of the Board, on the 10th of April 1820. The Comptroller was instructed "to insert in his Annual Report, the items composing the Public Debt. and the object for which the said debt was contracted, and also the whole amount thereof."

The Following is a statement of the Public Debt of the City.

Amount of 6 Per Cent Stock created July 9. 1812			$600.000
Decr 1. 1812			100.000
June 30. 1817			100.000
Septr 6. 1819			100.000
			900.000
Redeemed by Commissioners of the Sinking Fund			151.500
			748.500
Amount of Five Per Cent Stock created July 20 1820		$200.000	
Redeemed by the Commissioner of the Sinking Fund		45000	155000
Amount of 5 per Cent Stock May 9 1821		$200.000	
Redeemed by Commissioners of Sinking Fund		15.000	185000
Amount of City Stock			1.088.500
Bonds			
Richard Varick		23540	
Mechanics Bank		67.129.82	90.669.82
Total amount of Debt			$1.179.169.82

[19] The whole sum subscribed by the Commissioners of the Sinking Fund to the last loan, is deducted as redeemed, although the first Instalment of seventy five per Cent, has been paid, the remainder will be payable on the first of August next.

"The last Loan of $200.000, at five per cent. is for the payment of the Ground taken for Fulton Market, and for building the same.

The Bonds of Mr Varick will be due the 1st of May 1822, and are the remainder of the amount of purchase of the block between Fulton and Dey Streets, at the North River, in the year 1812.

Nine Bonds to Mechanics Bank, and for building a sewer in Canal

Street; the collection of the Money due from Individuals interested in this improvement has been suspended in consequence of legal proceedings which are still pending. A bond of $6000 is for a Loan of Mechanics Bank, authorised by a resolution of the Common Council 27th Novemb 1820, and was to supply a deficiency occasioned by an uncollected assessment in Harman Street as nearly the whole amount has since been Collected, the above mentioned Bond is reported amoung the accounts presented this day for payment

The Commencement of the present debt, was [20] in the year 1792, since which it has arisen to the above stated amount. The principal purposes for which it was contracted are the following

Ground Taken to open and improve Streets; building the City Hall, new Alms House and Penitentiary at Bellvue; Opening and improving Avenues and Roads; ground and buildings for Markets; ground purchased, and buildings erected for Fire Engines; filling Public Basins and forming Bulkheads, Docks and Piers, &c.

An appraisement of the property of the Corporation was made in August last, and is comprised under the following heads

Real Estate productive	$1.495.317.50
Do Unproductive	1.835.336.62
Personal Property	65.564.
	$3.396.218.12

A report of the Finance Committee, exhibiting a statement of all the Public property, having been published and presented to the Members of the Board, a detailed enumeration at present will be unnecessary.

The following is the annual Revenue from Corporation Property

Water Lot rent	$8078.20
Ground do	12955.71
[21] House do	3765.
Cellars under Markets	1705.
Brooklyn property	2684.
Common Lands Rent	1505.
33 Lots do wheat rent	107.65
22 do in the City do do	211.25
Ferries	10318.75
Street Manure	3275.
Docks & Slips	25370.
	$69.975.56

In addition to the above, there are receips from Vendue Sales, Excise and Tavern licenses, Fees of Justices' Courts, Commutation of Alien passengers, Mayoralty Fees, Penalties, Police Office. City Prison Fees, which amounted last year to $46.825.87

The above vary annually except the first, which is fixed by a Law of the State at $10.000.

It will be observed that the receipts for the past Year differ from the statement above made of "Annual Revenue." This arises from part of the Rents not being collected on some items, and balances of former years having been received on others, A variation also happens from a diminution or increase of Rent, in one year, from that of the preceding

The Revenue from Markets. Hack Licenses [22] Pawn Broker Licenses, Street Vaults, Water Lot rents on grants issued prior to 1804. quarterly dividends on City Stock; and twenty five per cent on sales of property; are appropriated according to Law, by the Commissioners of the Sinking Fund, to the redemption of the City Stock.

Total amount received from these s[o]urces, the Year past $22.857.57

There are no receips during the above period, from sales of property.

The Commissioners of the sinking Fund have, appropriated for redeeming City Stock, the sum of $302.92 more than has been received, which will be reimbursed, from the amount of Market Rents already collected.

The first Quarter produced $2380.50, and a few Stalls are yet to be disposed of

The substitution of rent in the several Markets instead of Fees has been effected with less difficulty than was anticipated. The change will doubtless be beneficial, and an equitable sum being apportioned on the several Stalls, will probably tend to produce general Satisfaction.

The expenses attending the Fire Department, will be considerably lessened, by the late [23] arrangement of transferring the repairs of Engines to the Superintendant of Repairs.

The expediency of placing the repairs of public Lamps under the management of the same Department, was recommended to the Board, in a report made the 22d January last, and which was referred to the Lamp Committee.

The Leases of Lands in the 9th Ward, will expire as follows

346½ Acres on the first of May.	1823
10½	1824
49	1825
26	1826
4	1849
436 Acres	

It is respectfully suggested, whether the public interest would not be promoted, by selling those Lots in Fee, when the Leases cease, and appropriate the amount to reducing the City Debt.

The owners no doubt would be induced to Cultivate the soil to greater advantage, and make permanent improvements, when possessed in this manner, than Lessees otherwise would.

Whether the public Docks and Slips could be disposed of to greater advantage, *as* [is] a subject which deserves consideration.

[24] The receipts from them at present, is but three per Cent on the value estimated a few months past, and the annual expense of repairs is very considerable

The[re] are portions of Real Estate unproductive, which could be advantageously sold and the proceeds applied to a further reduction of debt.

A new mode of proceedure appears necessary, relative to the assessments on Personal Estatates, The total amount returned last year. was only $17.446.425. Taking into calculation the sum invested in twenty-seven Monied institutions. The several kinds of Public Debt owned here. The large amount of foreign and domestic Merchandize. sent from different quarters to this Metropolis for sale, the diversified species of personal property possessed by inhabitants of this City, —it must be manifest that a great deficiency exists in the amount annually returned by the assessors of the respective Wards.

The result of complete valuation, would probably exhibit an increase of Eighteen Millions of Dollars, which would produce about Seventy Thousand, additional, and consequently lessen each individual [25] Tax more than a fourth part. the State would also derive a considerable accession to its revenue.

In a report m[a]de to the Board on the 24th January 1820, the subject was particularly explained, and a remedy proposed to obviate the defects at present existing.

The ample resources of the Corporation, and the promptitude, with which all their engagements are settled, are the best pledges of a con-

tinuation of Public Confidence; and it may reasonably be anticipated, that a judicious application of the various branches of revenue connected with a further reduction of expenses, would produce a diminution of the Public Debt, and a gradual Decrease of Taxes, so very desirable in the present situation of affairs

Respectfully Submitted

The Finance Committee to whom was referred the petitions of the Collectors of Taxes praying for the extension of the time allowed by Law for the settlement of their accounts with the City chamberlain. Report that by the Act for the Assessment and Collection of Taxes, it is provided that every Collector shall within One Week after the expiration of the time mentioned in his warrant for paying the amount of the Tax to the County Treasurer settle his account of the same Tax with the County Treasurer, and in case any of the Taxes mentioned in the assessment roll annexed to his warrant or any part of them shall remain unpaid, and he shall not have been able to levy the same, he shall deliver to the County Treasurer an account of the Taxes so remaining due and if such Collector, shall make oath before the County Treasurer, or in case of his absence before a justice of the Peace of such county, which oath such Treasurer or Justice of the Peace is authorised to administer, that the Sums mentioned in such account, remain unpaid, and [39] that he has not upon diligent enquiry been able to discover any goods or chattels belonging to, or in possession of either of the Persons charged with or liable to pay the said respective sums, whereupon he could levy the same and that such account is a true transcript of the original assessment roll, then and in either such case, the County Treasurer shall credit the account of such Collector with the amount thereof, and before the first day of April thereafter shall transmit to the Comptroller of this State the said account or return of arrears with the affidavit of the Collector written at the foot, or on the Back of said account: and that if any Collector shall refuse or neglect to pay to the County Treasurer the amount of the Taxes Mentioned in any such assessment roll delivered to him as aforesaid or to account for the same in manner aforesaid, in the time limited as aforesaid then the County Treasurer shall within Twenty days thereafter issue a warrant to the Sheriff of the County, commanding him to cause the same or so much thereof as shall remain unpaid, and not accounted for to be levied of the Goods and [40] Chattels, lands and tenements of such Collector—That the time mentioned in the warrant of the Collectors to account with the Treasurer is the second Monday of May and that one Week thereafter brings the time to the twenty first day of May instant and that the Treasurer has twenty days after that time in which to proceed—The Committee cannot perceive that the Common Council have any discretion under the statute to enlarge the time, and that it is not in

their power to do more than to express a recommendation or request to the Treasurer to grant such indulgence to the Collectors as is in his power to give They therefore offer the following resolution

Resolved, that the County Treasurer be requested to allow the Collectors of Taxes such time to settle their accounts as may be in his power to give

The Committee on the Fire Department on the Petition of Fire Engine Company N° 25 Reported

The Committee on the Fire Department to whom was referred the Petition of Fire Engine Company N° 25 stating that her great bulk and weight are such as to render her of little service to the Public, except the Fire should be in the vicinity of their station, and then the labour of working her is much more than that of other engines in proportion to the water she discharges, insomuch, that it is with extreme difficulty, as sufficient number of Men are kept attached to her, she is likewise much out of order.

Respectfully Report that they have had the said Petition under consideration, and believe the above statement to be correct, your Committee have made enquiry as to the value of N° 25, the highest value is $300. with the condition to build a new Engine for the Company,

[49] Your Committee are of opinion after mature reflection, that it would be advisable to authorize the chief Engineer, to procure One of the usual size, after selling N° 25, for the said Company; respectfully offer the following resolution

Resolved that the Chief Engineer be and is hereby authorised to dispose of Engine N° 25. and to purchase a new Engine of the usual size

The Same Committee on Petition for a Bill, at Centre Market reported

The Committee on the Fire Department to whom was referred the Petition of Philip C Ruckel, and Thirty others stating, that they are Firemen residing in a part of the City, which although thickly populated and quite extinsive, has no Bell, to sound an alarm of Fire, sufficiently near them to give an early call to their duty, respectfully represents that to have a [50] Bell, placed in the Steeple of the Centre Market in Grand Street, which is on very high ground, that a Watchman during the Night is generally near it if he is vigilant, many of your Petitioners would get an alarm of Fire, in the Lower part of the City, in two Minutes after goal Bell Struck and an extensive, neighborhood not well supplied with Water would have a Bell to give an alarm of Fire within its own prescints.

Report, that they have had the Petition under Consideration, and have ascertained the price of a suitable Bell to be $55. That for the reasons, set forth by the Petitioners, your Committee are of Opinion the prayer ought to be granted, and offer accordingly the following resolution

Resolved, that the Superintendant of repairs be and is hereby authorised to purchase a Bell for a sum not to exceed fifty five Dollars, and to cause the same to be properly place[d] in the Steeple of Centre Market in Grand Street

The Committee on the Fire Department to whom was referred the Petition of Fire Engine Company N° 39. stating that a member of their Company lately imported 52 feet of French Flax Hose, for the

purpose of giving it a trial, and finding it to answer the expectations of many belonging to the Fire Department, requests this Honourable Body, to purchase the same for the use of the Company.

Report that in their opinion it is desirable to make a trial of the French Flax Hose, it comes at half the price of good Leather Hose and should it prove as durable, a considerable saving could be made in the expenses of the Fire Department, they are of opinion the request of Company N° 39 ought to be granted, and respectfully offer the following Resolutions

Resolved that the Chief Engineer be [52] and he is hereby authorised, to purchase the 52 feet of French Flax Hose of Engine Company N° 39 for their use

The Committee on Public Offices, on the Petition of the Executors of J McKay reported

The Committee on Public Offices, to whom was referred the Petition of James Dobbins and Joseph Trulock as Executors to the Estate of John McKay.

Report, that from the Books of the City Inspector, it appears that the Executors and Tenants of certain Property belonging to the Estate of John M^cKay, situate in Tolbert Street, late (Moores Row) were duly served with notices on the 27^th day of December last, to have the [54] Nuisances abated, arising from several sinks, on or before the 10^th of January

It also appears, that on the 2^d day of May Instant. that a reexamination was made and that nothing had been done toward said abatement, whereupon M^r Dobbins was noticed by the attorney

The opinion of the Committee is that as a reasonable time was allowed and nothing done to abate the nuisance, and more so, as the approaching warm Weather was at hand, the Gentlemen can have no reasonable expectation of being relieved from the attorneys Costs, which bear but a small proportion to the Penalties, which had been incurred by them, but remitted by the City Inspector

Mr Crane presented a resolution, directing the Ordinance relative to laying a Stone Drain in Oak. James and Batavia Streets, to be carried into effect, which was referred to the Canal Committee.

[117] A Resolution was presented, for the appointment of a Committee, to make arrangements for the Celebration of the ensuing Anniversary of American Independence, which was adopted, and the Mayor appointed the following as the Committee Mr Town Crane Parker Alderman Gelston Townsend

A Resolution, that the Iron fence now erecting on Broadway be so extended as to connect it with that already erected, and that the Engine House on Broadway be removed, was presented, and referred to the Finance Committee

A Resolution to appoint a committee to take into consideration the propriety of immediately commencing the contemplated improvement at the Battery, was referred to the Finance Committee

Alderman Mann Agreeably to notice moved to reconsider the vote on the resolution appointing the Mayor ex Officio, a member of the standing, Committees, the Motion was [118] agreed to—The Recorder then presented the following resolution, which was adopted

Resolved. that his Honor the Mayor be a member of all standing Committees; Provided always, that it shall not be necessary for him to sign any report, and the majority of the members of any such Committee exclusive of the Mayor, shall be sufficient to pass a resolution.

Mr Valentine chairman of the Committee, on Public Lands and Places, stated that the Committee had a proposal before them in erecting the Iron rail fence, on the East Side of the Park to extend the line a few feet further into the Street, than the line of the present fence, but previous to taking any steps, they wished the direction of the Board on the subject. Whereupon it was referred to the Counsel to report, as to the authority of the Board to encroach upon the Street

A Petition of Hezekiah B Pierpont was received, stating that on the 4th December 1804, he obtained from the Corporation a Water Lot Grant in front of his Property on Long Island and for which he has paid the Quit Rent until this time, that he has not improved the same by docking out, finding the same unnecessary and will not probably for some time to come, That the said Grant is therefore wholly unproductive to him, and praying to be relieved from further payment of rent, until he shall improve the same—which being read, Was Referred to the Finance Committee

A Petition of Eliza Jobe, to be relieved from a Tax assessed, upon her in the [124] 5th Ward, was referred to the Committee on Assessments

A Petition of Daniel Berdan, to be permitted to construct a vault on south side of Broome Street, of Samuel Leggett for a Vault at Franklin Square. and of Edmund Seaman to build vaults in front of his two Houses, and stable in Beaver Lane were severally referred to the A[l]derman and Assistant and the Street Commissioner, to grant on the usual terms.

A Petition of Alexander Peacock, for one of the vacant Stalls in Fly Market, was referred to the Market Committee with authority to grant the prayer of Petitioner.

A Petition of Abraham Lawrence to be appointed a City Weigher, was referred to the Committee on Applications

A Petition of Philip Bowerhan to be relieved from a fine incurred by selling meat in Stanton Street, and not in the regular Market. Was referred to the Police Committee, with authority to remit the Penalty.

[125] A Petition from Sundry Inhabitants for the removal of Spring Street Market and for the establishment of a market at the foot of Canal Street. And a remonstrance for a number of Owners and Inhabitants in the vicinity of Spring Street, against the adoption of said measure were read, and referred to the Finance Committee

A Petition of Samuel G Colles for the appointment of Inspector of Lumber, was read and referred to the Committee on applications.

A Petition of Lewis and Joseph Webb was received, stating that they have expended large sums in improving the Water Grants taken out by them, That the Corporation by carrying a Public Sewer through Clarkson Street, have greatly damaged their property, and praying to be permitted to surrender their Grant and to be compensated for the expenses incurred by them in their improvements, or that they may be exonerated from the payment of quit rent. which being read was referred to the Finance Committee.

A Petition was received from a number [126] of the Inhabitants residing in the vicinity of the Catholic Cathedral, compla[in]ing of the situation of the ground in that neighborhood, requiring in their opinion to be filled up, and requesting a committee might be appointed to examine the same, was referred to the Street Committee.

A Petition of James Amory was received stating, that he is owner of two 5 acre Lots in fee and two on Lease, on the Commons fronting the 5th Avenue, and that he is desirous of purchasing, or exchanging the two leased Lots, which being read was referred to the Finance Committee

A Petition of John Stanley for relief from a fine incurred, by taking Earth from the Public Highway, and for which he is now imprisoned, was referred to the Police Committee.

A Petition of John Smith complaining of the Fence, belonging to the church of the Reverend Mr Mitchell, in Augustus Street, as encroaching on the Street, [127] was read and referred to the Street Committee

A Petition from Sundry Inhabitants residing in Cedar Street, complaining of the alley opening into Cedar Street, and communicating with Lots on Broad Way, and praying that the Owners of said alley may be Compelled to shut it up, by a close fence or gate, and to keep the same clean, which was referred to the Street Commissioner, to give the relief required.

A Petition of Isaac Noble to be relieved from a fine incurred by not [128] removing from the Street, a Dead Dog said to belong to Petitioner was read and referred to the Committee on Charity

Alderman Hammond Chairman of the Finance Committee, stated that application had been made to him by E & J Wilson for the Lease of the Block of ground between West Street and Washington Street, and Charlton and King Streets and he introduced a resolution to that effect, which was referred to the Finance Committee.

A Motion to give power to the Committee was negatived

On Motion of the Recorder the subject was reconsidered, and a Resolution to Lease One Half of the Block, and to refer it to the Finance Committee, with authority was agreed to.

It was afterwards agreed to refer the Leasing of the whole to the Finance Committee with authority.

[129] A Communication was received from Benj[a] Prince Public Administrator, on the subject of the Intestate Estate of William Jones upon which he had administered and to which a Nuncupation will had been set up by one Mercy Hudzletion—That the cause had been submitted to the Surrogate, who had decided that the said will was not entitled to administration from which an appeal had been made to the Judge of Probates who had reversed the decision of the Surrogate

The Public administrator therefore as an officer of the City and Corporation, requested the advice of the board, whether an appeal should be made from the Judgement of the Judge of Probates.

Whereupon it was referred to the counsel, to give to the Public Administrator such advice as he should judge correct and legal in the premises

A Letter was received from the Rev[d] John Stanford, on the subject

of establishing an asylum for Vagrant Youth, which was referred to his Honor the Mayor and the Commissioners of the Alms-House

[130] A Petition of James Lowerre Lessee of Slip or Basin at foot of Canal Street was received, stating—That said Slip having been filled in by order of the Common Council and a small portion left in Possession of Petitioner, he requested an apportionment might be made of the rent now to be paid by him, for the part in his possession, which being read, was referred to the Finance Committee.

The Street Commissioner presented an assessment for Regulating Lombardy Street from Clinton to Walnut Streets, which was confirmed and John G Betts, appointed Collector. and for a Well and Pump in First Street near the Bowery, which was confirmed and Noah Jarvis appointed Collector.

He also presented an Ordinance for a Well and Pump in Harman Street between Pike and Rutgers Street, which was passed, and John

Targee, James Bleecker and David Board were appointed [132] Assessors therein

He also presented the following communication

The Street Commissioner respectfully represents to the Common Council, that the new made Ground at the foot of Roosevelt Street, has now become so well settled, that in his opinion, the pavement in Roosevelt Street, ought to be extended to the bulkhead—in order to carry the Water on the surface to the River, and that so much of Front Street be raised and repaved as may be necessary, to make it conform to the Regulation of Roosevelt Street

Should the above meet the approbation of the Board, an ordinance is enclosed for the purpose

which is respectfully submitted

Geo Cuming Street Inspr

Whereupon the Ordinances proposed by him were passed and he was directed to abate the Nuisances agreeably to his recommendation

The Attorney made a Communication on the subject of the Market Law, which was referred to the Market Committee,

He also made a communication stating that the Superintendant of the Mud Machine claimed a proportion of the penalties under the Dock Laws

Also that by the Laws, the Street Inspectors were entitled to the penalty as Informer under the same—Upon which Case he requested the direction of the Board.

Whereupon it was referred to the Committee on Public Offices.

[135] The Comptroller reported that he had examined the account of Leonard Kip Esq, chairman of the Lamp Committee, and that the Balance $387 85/100 had been paid by him into the Treasury which was directed to be filed.

He also reported he had examined the account of B Skaats for fuel purchased, and that there was a balance on the 19th June 1821 of $4 81/100, due from him, which balance he had carried to a new account,
which was ordered to be filed.

The Counsel presented a Lease to William Civill for the cellar under Duane Market, And a Lease to James B Clarke of certain premises at Brooklyn, which had been agreed to be leased to Mr Cutting now Deceased in behalf of Brooklyn Steam Boat Company.

Which was directed to be duly executed.

He also agreeably to the reference to him at the last meeting, to enquire and report as to the right which the Corporation possess of extending the Eastern Line of the Park fence into the street reported.

The Counsel to whom it was referred to [136] Consider, and report as to the right which the Corporation possess of extending the Eastern line of the Park further upon the Street.

Respectfully Reports—That he has ascertained from Maps in the possession of the Street Commissioner (one of which is now more than Ninety Years Old) that there has been a public road or highway along

what is now called Chatham Street, during the whole of that period of time. As the Park was not enclosed 'till the year 1792 it is impossible to fix the width of that road prior to that time: But as the present fence around the Park has stood where it now does for more than twenty five years there can of course be no question as to the width of Chatham Street during that period. Under these circumstances the Counsel is of opinion that the premises in question have become a Public highway. Even in England where a title by possession cannot ordinarily be gained short of Sixty years, it has been decided that after a highway has been used Twenty Years that the Courts will presume that it was granted for that purpose.

[137] If the Ground in question is to be considered a public Highway, the Counsel is of opinion that the Corporation do not possess the power of encroaching upon it. The Charter and the Acts of the Legislature, which have vested in the Corporation the Streets and Highways in this City all concur in declaring that they are so granted for the free and common passage of its Inhabitants &c. and no authority is any where to be found vesting the Corporation with the power of closing them or of incroaching upon them, in any other manner than is pointed out by the Act of 1818, which is through the intervention of Commissioners appointed by the Supreme Court.

Respectfully submitted

Ogden Edwards,

which was directed to be filed.

It was moved that the Iron fence be erected agreeably to the present Line. The question being taken it was passed in the negative.

It was the[n] moved to extend the line Easterly agreeably to the Map proposed by the Committee, on Public Lands and Places, which was carried in the affirmative

[138] The Committee on Applications, on the Petitions of John G Farrington and Nathaniel Deyo for appointment of Weighers of Hay reported a resolution that the Prayers of the Petitioners be granted, which was adopted and they were appointed accordingly.

The Committee on Arts and Sciences to whom had been referred the Petition of Thomas Hayns proposing to establish a pin Manufactory, at the Alms House reported.

The Committee to whom was referred the Petition of Thomas Haynes Pin Manufacturer, respecting the establishing a manufactory of Pins in the Alms House.

Beg leave to Report—That they have had repeated conversations with him on the subject, and believe as he states, that he has all the

Machinery for Carrying on the said business, at present unemployed.

Mr Haynes makes two propositions viz

First, The Corporation to furnish a suitable building to erect his Machinery [139] and furnish materials (say about 2 Ton Brass Wire) to make the experiment he will employ a number of children and other persons on his own account at a fair price to be agreed on with the Commissioners of the Alms-House

To secure the payment of such materials and labour as may be furnished him, he will place his machinary in the hands of the Commissioners, and the sale of his manufactured Pins, be also made by them on his account.

Second. He will furnish the machinery and Conduct the manufactory on and for account of the Commissioners of the Alms-House for such Compensation as may be fair and Equitable.

The first of these offers, appears to your Committee to be preferable, as in that Case Mr Haynes assumes all the risk and responsibility of Sales &c on himself and the public will receive the Wages for those thus employed. should the Corporation at any future time wish to have this business themselves, he will sell them his machinery at a fair price.

Your Committee are therefore of opinion [140] that the experiment ought to be tried

They have been induced to come to this conclusion from a belief that Mr Haynes is a man of integrity, and well acquainted with his business, and instead of being a loss, they have reason to believe, that it might in a short time, be productive of some emolument to the Public. The Superintendant of the Alms House is perfectly satisfied that the necessary apartment for carrying it on can easily be furnished without subjecting the paupers in the House to any inconvenience.

That the old and infirm Paupers and Children in the Alms House should be employed in some light and easy work is obvious. That they should be engaged in such work as would be most compatable with their age and strength for a certain number of Hours daily, will undoubtedly be conducive to their health and Comfort, for your Committee are decidedly of Opinion, that no state can be more uncomfortable for either the aged or the Young, than a state of langour and [141] inactivity.

If work can be devised suitable to such persons as your Committee have mentioned, it may be the means of improving their morals preserving their health, and promoting their happiness, by rendering

them fit, at a future period to procure for themselves a suitable subsistence

Your Committee therefore recommend the following resolution

Resolved. That a sum not exceeding Eight Hundred Dollars be deposited in the hands of the Commissioners of the Alms-House in order to ascertain the practibility of the above project

The Market Committee on the Petition of Sundry Butchers of Catharine Market reported.

The Market Committee to whom was referred the Petition of John B Smith and others, Butchers in Catharine Market, praying that a suitable place may [142] be assigned to them for a public Scales and that the stall of Amos Wood a licensed Butcher in said Market be vacated for that purpose, charging him as being altogether unworthy to hold a stand in any market, alledging that he is an alien and a great Rogue.

Your Committee respectfully report that they have carefully examined into the several charges, and find that the said Amos Wood declared (according to Law) on the 15th June 1820 his intention to become a Citizen of the United States, and that the charges of roguery has not been made out to their satisfaction;

They therefore beg leave to offer the following Resolution

Resolved that it is inexpedient to grant the prayer of the Petitioners, and that Amos Wood be permitted to continue to occupancy of the Stall No 8 Catharine Market for which he has been licensed

The Committee on Wharves, Piers & Slips on the Petition of George Janeway, reported

The Committee on Wharves Piers & Slips to whom was referred the Pe[ti]tion of George Janeway—Report

That the Petitioner complains that he has not been able to comply

fully with the order of the Corporation that certain Water Lots formerly belonging to Peter *R*[P] Van Zandt deceased should be filled up " by reason that the proprietors of the adjoining Lots have neglected to build and construct the necessary bulkheads, and fill up the said Lots on their parts;

These Lots were granted by the Corporation to William Rhinelander in the year 1806. At the time the grant issued M^r^ Rhinelander was laid under covena[n]ts to make one half of the Streets, on each side of the premises granted him and also to make a good and sufficient firm wharf or street of thirty five feet in breadth along the westerly end of the said premises the whole breadth thereof [144] (the same being one half of West Street) in such manner as shall be directed by the Corporation. As the Corporation has directed the whole of West Street to be made in front of M^r^ Rhinelanders Lots, it is for his Interest as well as for the Interest of the Corporation, that the whole should be made at one time, as thereby the expense of making more than One Bulkhead will be saved, and M^r^ Rhinelander will also be saved the expense of making the bulkhead, around the intersections of said streets. The Committee therefore recommend that provided M^r^ Rhinelander will Covenant to pay as much towards making the Bulk-head on the westerly side of West Street, as it will cost to build a Bulkhead in front of that part of said street which he has covenanted to make, and will also Covenant to pay the expense of filling in that part of West Street which he has Covenanted to make, that then he shall be released from complying with the terms of his Covenants, so far as [145] relates to making one half of said street, otherwise that the Street Commissioner be instructed to serve an Ordinance upon him requiring him to make on or before the 10^th^ day of October next a good, and sufficient firm wharf or street thirty five feet in breadth along the westerly end of the said premises the whole breadth thereof in the manner specified in the grant to him.

The Committee therefore recommend the adoption of the following resolution to wit

Resolved that this Board do approve of the foregoing report and that the Street Commissioner be authorised and instructed to carry the same into effect

The Watch Committee to whom was referred the petition of John Ball [*] Complaining that he had been discharged as one of the City Watch, in consequence of having exerted himself at the last Election for charter Officers, to prevent the election of Alderman Mann—and praying to be reinstated

Report—That they have given the petitioners Case a careful examination, and are of opinion that he has totally failed in establishing, that he was discharged in consequence of his Conduct at the Election, on the contrary, it was satisfactorily proved to your Committee, that he was discharged for disobeying orders given by the Captain of the Watch, and for endeavoring to create uneasiness among his fellow watchmen, by asserting, what he knew, was not the fact—Under all the Circumstances of the case, your committee are decidedly of opinion that it would be inexpedient to grant the prayer of the petitioner, and respectfully recommend the adoption of the following resolution

The Same Committee on the Petition [155] of the Trustees of the German Reformed Church reported.

The Committee on assessments to whom was referred the petition of the Trustees of the German Reformed Church, praying to be relieved in part, from what the[y] Conceive an excessive Assessment on the House and Lot No 32 Nassau Street.

Report. That on an examination of this case, they are fully satisfied from the Certificate of the Assessors, that an error was made, in the valuation of the property above mentioned—That instead of $9000, it ought to have been put down $900. Your Committee are of Opinion that the prayer of the petitioners ought to be granted, and for that purpose, respectfully recommend the adoption of the following resolution

Resolved. That the Collector of the 2nd Ward be instructed to receive from the Trustees of the German Reformed Church 4^{50}/_{00}$ in full for Tax, for the year 1820, on House and Lot N° 32 Nassau Street in lieu of $45, and that he return the balance in the list of errors and insolvencies of Said Ward

[156] which was approved and the resolution adopted.

The same Committee on the Petition of James Farquhar reported

The Committee of Assessments to whom was referred the Petition of James Farquhar, representing an error or mistake in the amount of Tax paid by him in the 9th Ward for the year 1820. Report. That it appears from an examination of the collectors Book that the petitioner is assessed on real estate and Personal Property $28.000, which has been calculated at 51 Cents on a Hundred Dollars, for City and State Tax, the ratio for that part of the 9th Ward within the Lamp District; making $142.80. whereas he should have paid only 34 Cents on the hundred Dollars. the rate affixed on that part of the Ward north of the line aforesaid, amounting to $95.20, which makes a difference of $47.60

The following resolution is accordingly recommended,

Resolved, That the Collector of [157] the Ninth Ward be authorised, and instructed, to pay Mr Farquhar Forty Seven Dollars and Sixty Cents, and charge the same in his return for errors and insolvents

The Committee have reason to believe that errors have arisen in former years, from the Assessors of the 9th Ward not having Seperated the Columns of property North and South of the line dividing the Lamp District, so particularly as it should be; to remedy this inconvenience, they would propose the following resolution

Resolved that the assessors of the 9th Ward be instructed to place

in the Collectors Book, all the property personal and real to the southward of the line aforesaid together in columns seperated from that North of the line, leaving at least one vacant page between the same

[158] The Committee on Public Officers to whom had been referred a communication from the attorney of the Board reported

The Committee on Public Officers to whom was referred a Communication from the Attorney of the Board

Report—That they have carefully examined the same, and are of Opinion, that in most cases, it would be well to continue the discretion given to the attorney in and by a Resolution of the Board passed May 31st 1819. Relative to the commencement or the discontinuance of Suits, without a reference to the Board, inasmuch as it would relieve the minds of Citizens and Strangers, who are not unfrequently innocent tresspassers.

Your Committee have also had, under consideration a Resolution passed the 12th of April 1819 by which it appears, the attorney has been entitled to $2.50/100 in all Cases where the penalty did not exceed $15, and in all cases above $15. Five Dollars—Your Committee [159] Can see no good reason for the difference, as it appears the attorneys costs are exacted as well before as after Suits

They would therefore beg leave to offer the following resolutions

Resolved—That the Attorney exercise his own discretion, in commencing or discontinuing any Suit or Suits, where the penalty does not exceed $25, and on all Suits beyond that sum, *at* [it] shall be the duty of the Attorney to report the same to the Board, before the discontinuing of them

Resolved that the Attorney be entitled to receive $25 0/100 for noticing breaches of the Ordinances before the commencement of a suit, where the penalty is $5. or upwards; and under that sum one half the penalty, to be paid out of any monies in his hands, that may have accrued from Violations,

And in Cases where it is necessary that a suit should be brought, he shall be entitled to $25 0/100 in addition for Services in defending

the same, provided the penalty be sufficient to defray the expense but not otherwise

The Minutes of last Meeting were read and Approved

A Petition from the Trustees of Columbia College, was received, stating that by a Release to the Corporation of grounds for opening Murray Street, they are bound to have the side Walks of Murray Street [paved] [171] with good and Sufficient Flagging—That the Trustees have lately paved the side Walks in Church Street and as it has now become necessary that those in Murray Street should be also paved, they pray that it may be ordered to be done.

Whereupon the same was referred to the Street Committee

A Petition of David Lyner, was received stating that he had been indicted and fined for suffering Gambling in his House—that from the manner in which he was hurried from his House by the Peace Officers, the Drawer in his Store was left open and it was robbed of $135—That the various expense attending the trial and Conviction had amounted to near $500. That there was now a prosecution pending against him on his recognizance, that he was a poor man and unable to sustain these expenses and praying that the suit on the Recognizance may be discontinued.

Whereupon it was referred to the Police Committee

A Petition of Amos Rand to be [172] permitted to Continue to keep a Hucksters stand in the Washington Market.

Was referred to the Market Committee

A Petition of the Inhabitants residing in the vicinity of White Hall Slip stating that said Slip had not been cleaned for a number of years and that it had now become offensive and praying that orders may be given to have it cleaned

[173] Was referred to the Market Committee with Authority

A Petition of Jacob Rivier, and of Jacob Lobell for appointment of Inspectors of Fire Wood

Was referred to the Committee on wharves Piers and Slips

A Petition of B V De Russi Widow of Thomas De Russi, Dec[d], complaining of an undue assessment of Personal Tax on her late husband was read, and referred to the Committee on Assessments

A Petition of James Swan Lessee of Lots N° 453 and 455 near chatham Street in 4[th] Ward, praying in Consequence of the great depression of the value of Real Estate, that the rent he had covenanted to pay, may be lessened, was read and referred to the Finance Committee

A Petition of Isaac T Ludlam for the appointment of City Surveyor, was read and referred to the Street Committee

[174] A Petition of Sundry Farmers of the Counties of Kings Queens and Richmond was received stating that in Consequence of the losses they sustained in purchasing manure from the City which was always short of Measure they petitioned for and obtained, an act of the Legislature authorising the election of Measurers in the Counties of Kings Queens and Richmond—that they have agreeably to said Act elected Measurers in said Counties and assigned them their districts—that as they have to pay said Measurers for measuring, they consider the present Law of the Corporation, for the appointment of Inspectors of Manure a grievance to them and unnecessary and they therefore pray that said office may be abolished

A Petition from Dobbs & Winans Contractors for Street Manure stating that they considered the above petition just and necessary and praying that the request may be complied with

Were severally read and referred to the Street Committee

A Petition of John A Martin for [175] Butchers Licence, and to be assigned to a Stall in Greenwich Market was referred to the Market Committee

A Petition of Charles Cotter for appointment of a Weigher of Hay, was read and on Motion his prayer was granted, and the Petitioner appointed accordingly

A Petition from Alexander L Stewart was received stating that he was owner of certain Lots on the North River near the foot of Canal Street, and therefore had a right to the Water Lots in front thereof, that the Corporation some time since, set apart those Lots for the purposes of a public Basin—that he understands it is proposed to sell those Lots for private purposes, against which he remonstrates—That he understands there is a petition for applying that property to a Public Market, and he prays that such application of the Ground may be made.

Whereupon the Same was referred to the Finance Committee

A Petition of the Executors of Charles [176] M^cCarty deceased Lessee of two Lots of Ground corner of Cherry and Roosevelt Street praying permission to assign the same to Alexander H Mooney.

Was referred to the Finance Committee with authority

The assistant Street Commissioner presented an ordinance for a Well and a Pump in Banker Street between Pike and Rutgers Streets which was passed and David Board, Francis Peckwell and John Brower were appointed assessors.

[181] He also presented a Communication on the subject of a Bulk head on West Street which was referred to the Committee on Wharves Piers and Slips

He also presented an agreement entered into some years since amoung the proprietors on Columbia Street for widening the same, and with which one of the Lessees of a Lot refuses to comply, whereupon the same was referred to the Street Committee

He also presented an assessment for paving First Street from the Bowery to the First Avenue which was confirmed, and Noah Jarvis appointed collector

He also presented a communication stating that the assessment for a Well in First Street near the Bowery presented last meeting was incorrect, and he now presented a corrected assessment, whereupon the Confirmation of the former was resinded, and the one presented confirmed and the same Collector appointed Viz N Jarvis

[182] He also presented an Assessment for a Well in Augustus Street between Duane and Pearl Streets, which was confirmed and John G Betts appointed Collector.

He also presented a return of Delinquents on Assessment for Minetto Sewer, and for regulating and Curbing First Street from the Bowery to the first Avenue,

Wherefore Warrants were ordered to issue to the Collectors for Collecting the same.

The Counsel presented for execution a Lease to Ebenezer & Andrew Wilson of a Block of Ground between West and Washing-

ton Streets and King & Charlton Streets which was directed to be duly executed.

The Market Committee on the several Petitions of Edward Merritt, Alexander Peacock Henry Fegan and Aaron Woodruff to be licensed as Butchers reported in their favor and they were directed to be licensed accordingly

The Finance Committee to whom was [183] referred the Petition, for the removal of the Market at Spring Street and Establishing one at the foot of Canal Street, and the remonstrances against the same reported

The Finance Committee to whom was referred the memorial of Sundry Inhabitants praying that a new Market may be erected on the ground Called the Canal Street Basin, and that the Markets in Spring and Duane Streets may be discontinued, and also a remonstrance against it. Respectfully report, That the Common Council have lately been compelled to take measures for the removal of the Fly Market at the enormous expense of Two Hundred Thousand Dollars exclusive of the expenses which may arise out of that measure, other than the cost of the Market; the reason assigned for the removal of the Fly Market, was, that it stood over a sewer

Your Committee cannot perceive why the presence of the Mammoth Sewer of Canal Street should not be as valid an objection against building a market on the scite alluded to, as [184] the little sewer under the Fly Market was a good reason for removing it— with the recollection of that circumstance before them your Committee Cannot but think it would be the extremest folly to carry into effect the project of the memorialists,

Your Committee are also of opinion that Individual speculations ought not to be encouraged by misapplications of the public Money and the[y] cannot conceive that the building a market on the Canal Street Basin, would be under existing Circumstances, any other than a wanton waste of public Treasure,

They therefore recommend the following resolution.

Resolved, that it is inexpedient to comply with the prayer of the memorialists

[185] The Same Committee on the Petition of Francis Gariel reported

The Finance Committee to whom was referred the Petition of Francis Gariel, respectfully report, That the Lot of Ground in question was sold, on the 26th day of September in the year of our Lord One Thousand Eight Hundred and Twenty together with the adjoining Lot for default in not paying the assessment for paving in front thereof that the amount assessed on both Lots, and for which the property was sold, is One Hundred and sixty two dollars forty two Cents, that the proportion to be paid by the Lot in question being a Corner is ninety seven dollars and forty Cents, the Interest on which at Twenty per Cent is fifteen Dollars forty two Cents making together the sum of One Hundred and twelve dollars Eighty two Cents, to be paid by the Petitioner, on redeeming the said Corner lot; the time allowed by Law for that purpose not being expired, the following Resolution is proposed.

Resolved that Francis Gariel be permitted to redeem the Lot at the Corner of the Bowery and De Lancy Street [186] One the payment of One Hundred and twelve Dollars and Eighty two Cents

The same Committee on the Petition of Benjamin Disbrow reported

The Finance Committee to whom was referred the Petition of Benjamin Disbrow respectfully report, That on the 14th day of May last, by a resolution of the Common Council permission was given to Benjamin Disbrow to assign his contract for the manure of the Eastern District, to Charles Dobbs on their paying the sums respectively mentioned in the resolution. for that purpose made, or securing the same to be paid, which your Committee believe was done accordingly—That after the said arrangement was made [187] and before Mr Dobbs had actually signed his Contract, with the Common Council but after he had entered upon the District, and had taken up manure from the Streets, certain suits were commenced against the said Benjamin Disbrow in respect of some streets that were not cleaned

according to the Ordinance in such case made and provided But your Committee [think] that it [is] unreasonable that the fine should be exacted of him—They therefore recommend the following resolution, Mr Dobbs having now signed the Contract as your Committee are informed

Resolved, that the above mentioned Suits against Benjamin Disbrow be discontinued on his paying the costs thereof, and that the same be no further prosecuted

The Same Committee on the Petition of Isaac Russell reported.

The Finance Committee to [189] whom was referred the Petition of Isaac Russell respectfully report That from the facts set forth in his petition, he appears to have been somewhat imprudent in his disbursements in repairing the premises mentioned in his Petition, but your Committee dont think that a good reason for remitting to him the Seventy Nine Dollars and Sixty three Cents assessed upon the said premises, for paving and regulating Walker Street.

Your Committee further report that the upper part of the prem[i]sses alluded to were hired by the Common Council for the accomodation of the Justices Court of the Fifth and Eighth Wards, of

the said Isaac Russell in the spring of the year 1820 for Six years from the 1st Day of May 1820, at the yearly Rent of Seventy five Dollars by Deed under the Common Seal, with permission to the said Common Council to give up the said prem[i]sses, at the End of any One Year provided Three Months notice was previously given to the said Isaac Russell of such intention, and that the said Justices Court, was removed [190] from the said premises on the first day of May last past. without such notice being given by reason whereof the Common Council is liable to pay the Rent for the Current Year— The Committee therefore recommend the following resolution

Resolved, that the sum of Seventy five Dollars being the Rent of the Court Room above alluded to for the current year, be set off as far as it will go against the assessment of $79.68/100 for paving Walker Street, in respect of the above premises and that Isaac Russell be required only to pay the balance which may remain due on the said Assessment after deducting the said rent, on the said Isaac Russell surrendering the Lease of the said Court Room by which he devised the same to the Common Council, and releasing them from all the covenants in the said Lease contained

All which is respectfully submitted

The Same Committee on the Petition of Philip Milldollar reported

The Committee to whom was referred the Petition of Philip Milldoler respectfully report—That the Ground alluded to in the Petition, lies on both sides of the scite on which the Bridge heretofore called Wards Bridge was erected, and is a water Lot

Your Committee admit, that the Bridge which was only temporary, as might have been expected was long since swept away, and that the Water Lot in question is not so productive to the Petitioner as it would have been if the Bridge had been strong enough to have sustained itself. But your Committee, cannot perceive in that circumstance a sufficient reason for continueing the Lease, and at the same time releasing the Rent, They therefore submit the following resolution

[192] Resolved that it is inexd[p]edient to grant the Prayer of the Petitioner

The same Committee on the Balance Sheets and Accounts, stated by the Comptroller on the 13[th] November last, and which were referred to the Finance Committee, reported a Resolution that the same be filed, which resolution was adopted

The same Committee to whom had been referred the Resolution, for extending the Iron fence, now erecting around the Park so as to Connect it with that already erected Reported,

The Finance Committee to whom was referred the resolution for extending the Iron Fence, now erecting in Bro[a]d Way so as to connect it, with that already made and for removing the Engine House to the Public Ground on Chamber Street: Respectfully Report —That the building the New Market will cost about Two Hundred Thousand Dollars and the Building so much of the Iron Fence as has been already Contracted for and ordered, amounting to about [194] Fifteen Thousand Dollars, are sufficient undertakings for any one Year, and that some respect ought to be had to the amount of the Public Debt, and the manner and means of its payment, which must

be chiefly by direct Taxation—The Committee also think, that it would be improper to lay open the Bridewell Yard to the view, from the Public Street, and that it will be far better to wait until it may be determined, and seen, what ulterior measures will be most proper in respect of that part of the western line of the Park Grounds, They therefore recommend the following resolution

Resolved that said resolutions are inexpedient

before the question being taken on the first Resolution, it was moved to strike out the Words, that said resolutions are inexpedient, The question being taken thereon, it was carried in the affirmative,

It was then moved to insert the Words, [195] "It is expedient to Continue the Fence" which was agreed to. It was then Moved by M^{r} Parker that the Street Commissioner make the necessary agreement to have the Iron Fence on Broad Way connected with that on the upper Park, which was agreed to. Upon the question being taken on the Second Resolution, it was referred to the Committee on the Fire Department.

The Committee on Wharves Piers and Slips, on the Petition of William Van Wart and John Gaffit, for extension of 7th Wood Inspection District, reported.

The Committee on Wharves Piers and Slips to whom was referred the Petition of William Van Wart and John Gaffit—praying to add the 7th Wood Inspection District to the 6th begs leave most respectfully to report

That your Committee has had their subject under Consideration and are of the Opinion that they prayer of the Petitioners ought to be granted they therefore offer the following resolution,

Resolved that the prayer [196] of the Petitioners be granted

The Same Committee on the Petition of Peter Schermerhorn and others for Erecting a Pier on West side of Peck Slip reported

The Committee on Wharves, Piers and Slips, to whom was referred the Petition of Peter Schermerhorn and others proprietors of Water Lots between Crane Wharf Street and Peck Slip, requesting

that a pier may be built in the East River fronting Crane Wharf Street,

Report, That your Committee have bestowed upon the subject that attention, which its importance seems to merit, and are of Opinion, that the request of the Petitioners should be granted under the conditions of Simular Situations namely, that the Individuals, proprietors of the Water Lots aforesaid, bear and pay two third parts, and the Corporation [197] of this City One Third Part of the Expense of said Pier, and accordingly offer the following resolution

Resolved—that a Pier be built in the East River at the foot of Crane Wharf Street, of such dimensions, and in such manner as shall be directed by the Committee on Wharves, Piers and Slips, and the Street Commissioner. Provided the proprietors of Water Lots between Crane Wharf Street and Peck Slip, bear and pay two third parts of the expense thereof

The Street Committee on the Petition of John Bowden and Others respecting paving side Walks in Allen Street and a remonstrance against the same reported

The Street Committee to whom was referred the Petition of John Bowden and others relative to flagging the side [198] Walks in Allen Street from Broome to North Street, and the remonstrance of Thomas Gardner and others on the same subject, respectfully report.

That they have carefully examined the side Walks in Allen Street from Broome to North Streets, and find a great part of them flagged and in good order, excepting the West side from Delancy to Rivington Streets, and the greater part occupied by Gardens, and likewise some of the owners of Houses and Lots have represented to your Committee their inability at present to flagg their side Walks, but are willing to have them gravelled as is usual in the out parts of the City. They therefore are of opinion that the prayer of the Petitioners ought not to be granted, and offer the following resolution.

The Canal Committee to whom was referred the communication of the Street Commissioner in relation to the cleansing of the sewers in Canal Street, Chapel and Collect Streets,

Report, That they have had the subject under their particular consideration and have had them examined throughout,—there appears to be a considerable accumulation of sand and Mud, but not in such quantities in any one place, so as to obstruct the free passage of Water.

Your Committee are therefore of opinion that it is inexpedient, to have them cleansed at this season of the year, whereby a quantity of Mud will be exposed to the rays of the Sun, and the whole neighborhood of the Sewers impregnated with noxious vapours. and poisonous exhalations

They therefore submit the following Resolutions

[201] Resolved, that it is inexpedient and improper to have the sewers in Canal Collect and Chapel Streets cleansed at present

A Communication, which was made to the Board of Health this day, from his Honor the Mayor and Alderman Wyckoff on the subject of Nuisances existing in the Eighth Ward occasioned by the discharge of offensive and noisome Water from several Distilleries in the vicinity, and which had been directed by the Board of Health to be laid before the Common Council, was now presented and read,

Whereupon the same was referred to [202] a Special Committee Viz M^r Ireland Crane Town Ald Gelston M^r Bolton

A Communication was received from the Commissioners of the Alms-House stating that they had endeavoured to carry into effect the Law of the Corporation relating to Swine, but that the persons employed by them, had been resisted and opposed in the execution of their duty by a collection of Persons who exercised great violence towards them.

Whereupon the same was referred to the Police Committee

His Honor the Mayor and the Commissioners of the Alms House, to whom had been referred a communication from the Reverend John Stanford on the subject of establishing an Asylum for Vagrant Youth, presented the following report which was accepted and directed to be filed

[203] The Mayor and Commissioners of the Alms House to whom was referred the Communication of the Rev^d John Stanford of the 19^th June relative to the situation of the vagrant children in the Penitentiary Report,

That they have considered with attention the subject matter thereof: they concur fully in opinion with the writer that bad as these vagrants are, they may become still more depraved by associating with the Criminals of the Penitentiary: and indeed that the very fact of their being committed to this place of confinement attaches to them a disgrace which is not easily wiped away.

Under these impressions the Commissioners of the Alms House had, previous to the communication of M^r Stanford, transferred a

number of the vagrants, Boys, from the Penitentiary to the Alms House, placing them on an equal footing with the Paupers: it was not long however, before nearly half of them escaped during the Night by scaling the Walls of the enclosure.

They have notwithstanding, now [204] determined to make a further experiment: and have therefore directed the residue of these prisoners amounting to 17 between the ages of 12 and 16, to be placed in the Alms House, in a Comfortable Ward of the middle Building; there to be regularly kept at school, and at night dispersed in the other wards among the sober and orderly inhabitants of the House

A School Master will be obtained from among the Paupers, so that no additional expense, in any shape, will fall on the Public.

It may however, not be in the power of the Commissioners to continue this arrangement beyond the commencement of the ensuing Winter, as the number of poor, then greatly encreased will probably require that this Ward should, as heretofore be appropriated to their use

The whole number in this apartment will now be about 25. but will of course vary by additions from the Police: by expiration of [205] Sentences. and also by escapes, which it will be impossible to prevent.

Your Committee cannot unite with Mr Stanford in the proposition for erecting an "Asylum for Vagrant Youth" at the present time: however desirable such an establishment might be at some future period; at present in their opinion, neither the urgency of the case requires it, nor will the finances of the City admit of it.

Respectfully submitted

The Committee on Public Offices, on the Petition of Garret Gilbert reported,

The Committee on Public Offices to whom was referred, a communication from Mr Gilbert, stating that he had compleated the contract, entered into with the Corporation, in relation to the double indexing the volumes in the registers office, and also praying that a further Compensation be allowed him [206] in order to meet the necessary expenses incurred, over and above the prices allowed him by the Corporation, respectfully Report

That they have had the same under Consideration, and the following is the result, of their enquiry. Viz

It appears that in the summer of 1819. Mr Gilbert addressed a Letter to the Board, stating the office of Register to be in a very imperfect state, owing to the number of satisfaction pieces, that remained uncancelled, or standing open on the Books together with a recommendation to have the whole number of volumes overhauled, and a general Index made in conformity to the Statute, which he stated had never been complied with

whereupon the subject was referred to the Committee on Public Offices, Samuel Stevens Esq Chairman, several conferences were had with Mr Gilbert, as will appear by sundry Letters received from Mr Gilbert, who kept copies, the Committee regret that no part of the correspondence between the chairman and Mr Gilbert, was ever handed over by the Chairman of the Committee, [207] But from a recollection several of the Members have of the transaction, together with a reference to the Letters as aforesaid, it appears the Corporation were to pay Mr G. Eight Dollars per Volume for the Mortgages, and $5 for the Conveyances, and other volumes of a miscellanous kind, It also appears that Mr G. was to receive 12½ Cents a piece to write up the satisfaction pieces that were found in the office, on his coming into it

The Committee, endeavoured to ascertain the exact number of all the Books in the Registers office, but were not able to do so during the Administration of Mr Gilbert. It was variously stated to be about 50. of Mortgages, and about 200 of Conveyances &c, and from the above representations, your Committee, were induced to make advances, until, it appears the Corporation are in advance *e*[o]ver and above compleating the whole Ninety four Dollars

It appears, from a Statement received from Mr McMurray, one of the Clerks in the Registers office, formerly employed by Mr Gilbert, and since retained by [208] Mr Lent, that the number of Volumes fall short of the *verbar* [verbal] statement, 67. which in the opinion of Your Committee ought to be a sufficient excuse for their permitting Mr Gilbert to overdraw the number of volumes and as per statement

47 of Mortgages	at $8 each.....	376
136 " Conveyances & others	at $5 "	680
		1056
	Cash paid Mr Gilbert as per Comptrollers Books.....	1150

exclusive of 90^{88}/_{100}$ for writing up 723. Satisfaction pieces, an excess of $94.

Your Committee would beg leave further to state, that in the progress of their enquiry, they were led to believe that Mr G. could not have expended more monies, than was appropriated by the Corporation, As the enquiry was made in the presence of Mr Gilbert they presumed it must have been satisfactory to him

Mr McMurray. who as it has heretofore been stated, wrote in the office under Mr G. was examined before Mr Gilbert, by the Committee, and stated as follows—Viz. That he had been [209] employed by Mr Gilbert, to do a part of the writing, to the indexes, and from a memorandum, which he had, he seemed to speak with a good deal of certainty, as to what the *word* [work] had cost Viz For every volume of Mortgages Mr G Paid $3.77 and for every volume of conveyances $4.84, But that on the latter 75 cents were added for Mr G's services in the examination

From which it appears that Mr Gilbert retained in his hands, out of the Monies received from the Corporation $314 $^{57}/_{100}$ Including the $94 overdrawed add to that the amount received for Cancelling satisfaction pieces $90.38 and the amount will be $404.$^{95}/_{100}$

Your Committee having extended their report to an unusual length, for the purpose of being the more explicit, would therefore beg leave to offer the following Resolution, believing as they do that Mr Gilbert has completely failed in making out his statement

Resolved, that the prayer of the petitioner ought not to be granted.

Respectfully submitted by the Committee

His Honor the Mayor stated that he had summoned the Board at the request of the Committee to whom at the last meeting, had been referred a Communication from the Board of Health, on the subject of nuisances existing in the Eighth Ward, occasioned by [215] the discharge of Offensive Water from certain Distilleries

The following Report was presented by the Chairman of that Committee, Mr Ireland.

The Committee to whom was referred a Communication from the Board of Health relating to a nuisance originating from the Distillery of Mr Richards beg leave to report, That they have examined

said distillery and the grounds adjacent thereto, and regret to say, they found them in a filthy and very effensive situation, so much so, as to impress them with a belief that if suffered to continue it might endanger the health of the Citizens in that vicinity They are therefore of Opinion that immediate measures ought to be taken to remedy the evil, to effect which the[y] recommend as the most feasible mode, that an ordinance pass this board for filling up and regulating Broome Street, so as to take the Water off on the surface, from Mercer to Thompson Street, where it will intersect the Sewer now erecting in the latter Street, and from thence, be conveyed through the Canal to the River.

[216] This the Committee conceive the only speedy and effectual method of correcting the nuisance, except that of compelling Mr Richards to stop his works altogether, to do which would no doubt seriously injure him, and might be received as an act of Oppression, which the Board was not warranted in exercising while any other method of correcting the nuisance presented itself.

Mr Richards stated to the Committee that if Broome Street was filled and regulated, he would cause a drain to be made that should carry off (under ground) all the offensive matter arising from his Works. Believing that the Health of the City greatly depends (especially at this season of the Year) on giving prompt attention to complaints of this nature, and in order that measures may be adopted to remove those complaints without delay your Committee have thought it their duty to request a special meeting of the Board, to whom the[y] beg leave to submit the following resolution

Resolved that Broome Street [217] be filled up and regulated from Mercer to Thompson Streets, with so much of the intersecting streets, as may be necessary to convey the Water on the surface to the Sewer now building in Thompson Street and that the Street Commissioner present an ordinance forthwith for regulating the said Streets

Resolved that all the Lots lying within One Hundred feet of Broome Street on each side be filled up in such manner as to cast the Water into the adjoining Streets, and that the City Inspector be instructed to present an ordinance for that purpose

The Report being read the several Resolutions were adopted, and the Street Commissioner immediately presented an ordinance agreeably thereto, which was passed and Abraham Baudoine James Bleecker and John Brown[er] were appointed the assessors

[218] A Petition of Proprietors of Lots of Ground in Grand Street, between Sullivan and Varick Streets, complaining of the Sunken grounds in that neighborhood and praying that they may be filled up. and also that they may at their own cost put down a sewer from the cellar of the House corner of Sullivan street, and Grand Street, to the Sewer in Thompson Street, was read and referred to the Street Committee

A Presentation of the Grand Jury which had been presented to the Board of Health and by them directed to be laid before the Common Council was read. The Grand Jury State that they had visited the Bridewell and Gaol, both of which they found in a state of neatness and cleanliness—They recommended in Room No 1. that a Window or grating be made in the partition for the free circulation of air, and they stated that the lower room of the latter where they received the Manhattan Water required immediate repair

[219] Whereupn the same was referred to the Committee on repairs with authority

M[r] Cooper moved that a Committee be appointed, for the purpose of visiting the Alms House and Penitentiary from time to time and to make reports to the Board, of their situation, which was postponed until the next meeting of the Board, and made the order of the day at said meeting

The Superintendant of Repairs made a report that the Engine Houses in Beaver Fulton, Rose and Christopher Streets were Wanting Repairs, which was referred to the Committee on Repairs with Authority

The Comptroller presented two accounts for payment of Deputy Sheriff for Conveying Prisoners to the Penitentiary from the Court of General Sessions, from October 1817 to July 1821, amounting to $215. Also an account from Peace officers for serving Subpenas for Grand Jury and Court of Sessions for May. June and July 1821 amounting to $201 $^{7}/_{100}$, and he suggested whether [236] these expenses ought not to be abridged, which was referred to the Finance Committee.

He also presented the account of the late District Attorney P. C Van Wyck Esqr, which was referred to the Finance Committee

He also presented the following

The Comptroller respectfully presents to the Board for their approbation, a Release of Quit Rent on a piece of Land Containing about Ten Acres in the 9th Ward, granted to Peter Warren on the 3d of May 1745

The Indenture is to Jacobus Dyckman Andrew Corsa and James Varion—Commissioners appointed to make, partition of the Estate of Isaac Varian Decd for the Heirs.

It was commuted on the 13th Instant agreeably to a resolution of the Board of the 14th of May last, and is approved by the Counsellor

G N Bleecker
Comptroller

[237] Whereupon the Release was directed to be duly executed

The Counsel presented the following

The Counsel herewith respectfully submits for execution a Lease to Robert R Hunter for the term of Twenty five years, from the Sixth day of March 1819 of a certain Lot of ground situate in the tenth Ward, bounded northerly by north Street, eastely by Attorney Street, Southerly by a line drawn parallel to North Street and at the distance of One Hundred feet Southerly therefrom, Westerly by Arundel Street, Northwesterly by Land now or late belonging to Dirck Ten Broeck and Cornelia his Wife, which Lot was on the 6th of March 1817 sold to him by order of the Corporation for the purpose of satisfying a certain assessment thereon

Ogden Edwards

Whereupon the Lease was directed to be duly executed

He also presented the following

The Counsel herewith submits [238] for execution a Lease to Albert J Terheun of a Lot of Ground designated as No 517 in a Map of Bayards East Farm for the term of 21 years from the 1st of May 1820, at the annual rent of Fifty Dollars. This Lot was on the 25th Febry 1812 sold for the term of two years to satisfy an assessment and as the Owner has not since taken possession of it, the Corporation in pursuance of an Act of the Legislature have leased it to Mr Terheun

The Counsel also sibmits the draught of an Ordinance respecting Nuisances which he has *predared* [prepared] in pursuance of an order of the Board

Ogden Edwards

Whereupon the Lease was directed to be duly executed

He also presented agreeably to order a Law entitled a Law to amend the Law to prevent Nuisances and to provide for the Securety of the Public Health, which was passed, and directed to be published in the Papers employed by the Board

[239] The Committee on the Fire Department, to whom was referred the Resolution, respecting removing the Engine House on Broadway near the Bridewell reported

The Committee on the Fire Department to whom was referred the Resolution following "Resolved that the subject of removing the Engine House now standing on Broadway near the Bridewell *to* [be] referred to the Committee on the Fire Department

Report, that your Committee have had the subject under consideration and although they are fully impressed with the necessity of economy in the expenditures for the Fire Department and of the Expenses of the Corporation generally yet after having weighed these considerations maturely they are of Opinion, that it would be advisable to

remove the said House, The Expense of Cutting off 12 or 15 Feet and of repairing it, would be considerable, your Committee would have recommended this Course had the purchase of ground been necessary. They have examined the triangular piece of Ground, belonging [240] to this Board, opposite the Rotunda, and are of opinion, that it is a very suitable place for an Engine House, and if an Engine House was erected thereon it would remove the nuisance which is on that ground, and in the Opinion of your Committee improve that vicinity. The Expense of a Brick Building one story high suitable for Engine N° 25, and the Hose Cart which now are in the Building on Broad Way, as your Committee have ascertained will not exceed Four Hundred and Eighty five Dollars,

Respectfully offer the following Resolution

Resolved that the Engine and Hose Cart House on Broad Way be removed

Resolved that the Superintendant of Repairs be, and he is hereby authorised to contract for building a Brick House, one story high of a suitable size for Engine N° 25 and the Hose Cart on the piece of ground opposite the Rotunda

The same Committee, on the Petition for Fire Engine at Manhattan Village reported

The Committee on the Fire Department, to whom was referred the Petition of John Barrow and a number of others inhabitants of the village of Manhattanville represent that owing to the number of Houses chiefly built of Wood and contiguous to each other they consider themselves in great danger from Fires, That the Town appears encreasing, and already crouded with Inhabitants there being about 60 houses in and within a quarter of a mile of the village together with a valuable manufactury for Woolens. A number of Grocerry Stores and Several Mechanical Branches of Trade, respectfully solicit a Fire Engine to be placed in the Centre of said village,

Report That they have had the said Petition under consideration, and are of opinion, for the reasons set forth by the Petitioners their petition [242] ought to be granted. A Lease for a piece of Ground for 21 years to ereet an Engine House on in the village has been handed to your Committee. They beg leave further to state that they would recommend the sending Engine N° 28, (She is under the usual size, but a very excellent machine and not suitable to play in line at a fire)

to Manhattanville, and that an Engine of the usual size be built at the Public Yard for Engine Company N° 28.

Respectfully offer the following Resolutions

Resolved that Engine N° 28 be granted to the Petitioners, inhabitants of Manhattan Ville, and that the Superintendant of Repairs is hereby authorised to build an Engine House of Wood for said Engine in the said village

Resolved, that the Superintendant of Repairs is hereby autho[ri]sed to cause an Engine of the usual size to be built for Engine Company N° 28

The Canal Committee on the petition of Thomas L Ogden and others on the subject of Building a Sewer in Grand Street reported

The Canal Committee to whom was refered the Memorial and remonstrance of Thomas L Ogden and others against the Report of the Committee made on the 30th April last; and again praying that a sewer may be built in Grand Street from the intersection of Wooster Street to the Sewer now building in Thompson Street

Respectfully Report, that being sensible of the importance of this decision to the memorialists—they have given the subject due consideration and having received more information [247] than they formerly possessed respecting the situation of the Grounds intended to be bene-

fitted by the proposed sewer, they have been induced to report in favor thereof

Therefore beg leave to submit the following Resolution

Resolved that a sewer of Four feet diameter be built in Grand Street from the intersection of Wooster Street to the Sewer now building in Thompson Street, and that the Street Commissioner be instructed to prepare an Ordinance to that effect, and present it forthwith

The Street Committee on the Petition of the Corporation of Columbia College respecting paving Murray Street reported

The Street Committee to whom was referred the Petition of William [248] Harris and Others, a Committee appointed by the Trustees of Columbia College on the subject of the side Walk in Murray Street from Church to Chapel Streets, respectfully Report.

That they have examined the contract between Columbia College and the Corporation filed in the Comptrollers office, dated the third day of September 1810, and whereas by the aforesaid Covenant in Consequence of Columbia College ceeding a part of their ground to widen Murray Street, the Corporation had agreed to put up a Wall and have the side walks laid with hard Brick or flat Stone, but the Side Walks not having been compleated agreeably to covenant, they are of opinion that the prayer of the petitioners ought to be granted and offer the following resolution

The Street Committee to whom was referred the petition of William Langdon and Others, and the remonstrance of Andrew Jackson and Others, on the subject of filling up the hollow between Prince and Bleecker Street, and east side of Crosby Street. Respectfully report.

That they have carefully examined the hollow, contemplated to be filled up, and find neither Mott nor Mulberry Street yet ceeded to Bleecker Street, and therefore no permanent [251] Regulation, at present can be contemplated, and therefore are of opinion that it would [be] a Considerable injury to owners of Lots and particularly to those residing in the hollow, to comply with the prayer of the Petitioners, and therefore offer the following Resolution,

The Street Committee to whom was referred the Petition of John A Voorhees and others, said to be from the Counties of Kings Queens

and Richmond, and William M Hitchcock and Charles Dobbs, relative [252] to the Inspection of Manure

Respectfully Report That they had the same under consideration, and find the Legislature did pass a Law authorising the appointment of Inspectors for the Counties of Kings, Queens and Richmond, and wheras it appears that some Inspectors were appointed, but it has likewise been represented to your Committee that there are a number of places in the Countys of Kings and Queens, where there are no Inspectors, an[d] none in the County of Richmond, nor in Jersey, Westchester, and a number of other places, and no law authorising them to appoint any, and it is presumed that it is desirable for the Corporation to know the quantity collected and sold, it forming a part of the Revenue, and that information is received from the Inspectors only, who are under oath, make a return of the same, they are therefore of opinion that the prayer of the Petitioners ought not to be granted, and offer the following resolution

The Committee on assessments on the Petition of Mrs DeRussey reported

The Committee on assessments to whom was referred the petition of B V De Russy, Widow of Thomas De Russy deceased stating that on the 26th of April last the Collector of the 3rd Ward, demanded and received from the Petitioner $25, as the amount of Tax assessed for the year 1820, on the Personal property of her late Husband—That the distressed State of the petitioner, and her Family at that time, from the then recent death of Mr DeRussy prevented her from attending to the mistake made by the assessors, as will appear by their certificate hereunto annexed—The petitioner further states, that she is a foreigner, and totally unacquainted [254] with the English Language, and that her husband was absent at the time of, and knew nothing of the Assessment until the time for objections were passed, and prays the reimbursement of the difference between the sum actually paid, and the amount mentioned in the assessors Certificate

Report, That they have given the petitioners case a careful investigation, and are satisfied that the sum intended to have been assessed as

the value of Thomas DeRussy's personal property was $500 instead of $5000; and are therefore of opinion that the prayer of the petitioner is just and reasonable and ought to be granted, and for the *the* purpose respectfully recommend the adoption of the following resolution

Resolved, that a Warrant be reported in favor of Mrs B V De Russy for Twenty two dollars and fifty Cents, being the amount of relief which the petitioner is entitled to, for Tax overpaid in the Third Ward for the year 1820

The Police Committee to whom [256] was referred the Petition of the Inhabitants residing in the vicinity of Banker Street reported

The Police Committee to whom the Petition of the Inhabitants resident in the vicinity of Banker Street was referred

Respectfully Report. That the Petitioners in their said Petition, complain that they are greatly disturbed on the Sabbath by the disorderly and riotous conduct of drunken vagrants, who either live along said street (principally between Catharine and Pike Streets) or such as are in the habit of frequenting there in large numbers. They also complain of the great number of dram or Tipling shops in said Street kept open on that day, and of the disgusting and demoralizing scenes which often occur, and pray for the aid of the Corporation

Your Committee are satisfied that the complaint made by the petitioners is not without foundation, and they are of opinion, that it would

be proper to appoint two Officers to attend there on Sundays [257] to aid the constituted authority in keeping the peace, and to preserve order and the due observance of the Laws,

The Street Commissioner on the Petition of George B Smith for appointment of City Surveyor reported

The Street Commissioner to whom was referred the Petition of George B Smith, praying to be appointed a City Surveyor

Respectfully Reports, that there are now seven City Surveyors in practice, which is a number fully sufficient to do all the Business. But the Petitioner is one, who has accomplished himself for that profession, and has acquired much useful information, add[ed] to which his Industry, accuracy and Methodical manner of doing Business will enable him to become a valuable surveyor, and tend to keep up the

respectability of an office, which is becoming of more and more consequence to our City

[286] The Undersigned would therefore recommend Mr Smith as a very suitable person for that appointment.

which is respectfully submitted

The Special Committee, consisting of the Alderman and Assistant of the First Ward to whom had been referred the Petition of Joseph Girard reported

The Alderman and Assistant of the First Ward, to whom was referred the Petition of Joseph Giraud, having intimated to the Petitioner that he would not be permitted, to continue the Hoistings of his Buildings in Pine Street in the way they then were, he immediately had them altered, so as to make them in conformity to Law

From the declaration of the [291] Petitioner, and from his standing in Society, the Alderman and Assistant, have no doubt of his sincerity, when he says that he caused the erection of the Hoistings under an entire belief that he was not in the violation of any Law—In consideration of his having used only one of them for the purpose of hoisting a few Empty Barrels, and the promptness with which he has corrected the evil complained of the Alderman and Assistant recommend that the Penalty incurred by the Petitioner be remitted they therefore beg leave to offer the following Resolution

Resolved, That the Penalty incurred by Joseph Giraud for an infraction of the Law "To regulate the raising and lowering of Merchand[i]ze" be remitted on payment of Costs

The Committee on Public Offices on the Petition of John Edwards Reported

[292] The Committee on Public Offices to whom was referred the Petition of John Edwards Scale Beam Maker, praying to be relieved from the oppression of the City Sealer, in refusing to Seal his Beams and Weights, also threatening to impose a fine of $25 on all persons using them

Respectfully Report, that they have given the subject, that attention, which in the opinion of your Committee, it merited, and also a patient investigation, in the presence of the parties, they are decidedly of an opinion, that the only difference between them is no more than might have existed between M[r] Simpson and any other scale Beam Maker

Your Committee have found nothing in the course of their examination, to alter their opinion in relation to the duty of the Sealer, But on the contrary are more fully confirmed in the belief formerly entertained of the indispensible necessity, that such an officer should

exist Your Committee believe that no scale Beam Maker, has yet arrived to that degree of perfection as not to Err

"To Err is Human"

[293] They would beg leave therefore to offer the following Resolution Viz

Resolved, that in the Opinion of your Committee, the Sealer has acted in conformity to his Oath, as a Public Officer, and ought to be supported, Inasmuch as a Salutary check appears to be necessary

The Committee on assessments on the Petition of Joseph Wallis reported

The Committee on Assessments to whom was referred the Petition of Joseph Wallis, in which he states, that the Assessors for the 1[st] Ward, in making out their assessment of Personal Property for the year 1820, assessed him as being worth $2000. He Further states that he was out of Town, when the Books were open for alteration, and therefore, had not an opportunity of having the amount corrected, [294] that his personal property is not worth more than $500, which fact he has established to the satisfaction of the Assessors as their certificate will fully shew, and prays that relief may be granted agreeably to this Certificate

Report, that they have had this subject under examination, and are satisfield, that the petitioner has been assessed too much, and that owing to absence, at the time allowed by Law for the correction of errors, he was debarred the opportunity of having the mistake altered, they are therefore of opinion, that the p[r]ayer of the Petitioner ought to be granted, and for that purpose respectfully recommend the adoption of the following resolution

Resolved, that the Collector of the arrears of Taxes be instructed to receive from Joseph Wallis Tax on $500. in lieu of $2000. in full for personal Tax, in the first Ward for the year 1820 with Interest

[295] which was approved and the Resolution Adopted.

The same Committee on the Petition of Cornelius DuBois, reported

The Committee on Assessments to whom was referred the Petition of Cornelius DuBois, complaining that he had been assessed for personal Tax, in two Wards, Viz. in the 1st Ward where he did not reside, and in the 10th where he did actually reside, at the time the respective assessments were made, That from the written opinion of the Counsel of the Board, he is fully pursuaded that he is legally bound to pay personal Tax in the 10th Ward where he still resides, and not in the First Ward, and prays relief in the premises

Report, that on an examination of this case, they find that the Petitioner removed from the 1st to the 10th Ward on the 12th of May last, and that he usually resides in the latter Ward until the Month of October, and then returns to his house in the 1st Ward, which from his own Confession he considers his domicil. The assessors knowing [296] that the petitioner resided in the 1st Ward, at least 7 Months out of 12, did consider that, his permanent place of residence, and assessed him accordingly Their Construction of the Law is, that it was intended every person should be assessed and pay personal Tax at his domicil, and that a transient residence in an Other Ward would not exonerate him from paying personal Tax in that in which he usually resided. Your Committee's construction of the Law on this subject coincides, with that of the assessors, they are therefore of opinion that the Petitioner is bound to pay the Tax assessed on his personal property in the 1st Ward, and that he ought to be relieved from paying in the 10th and for that purpose respectfully recommend the adoption of the following resolution

Resolved—that the Collector of the 10th Ward be instructed to decline collecting the Tax assessed on the personal property of Cornelius DuBois for the present year, and that he return the same in the list of errors and Insolvencies of said ward

The same Committee on the petition of John Andariese reported

The Committee on assessments to whom was referred the petition of John Andariese, complaining that he had been assessed $16 25/100 for a Well and Pump in First Street, and that as his property was

more than half way to Second Street he did not conceive that according to the usual mode pursued in such cases, that he ought to pay any part of said assessment, and prays relief

Report that they have had the petitioner and the assessors before them, together with a plan of the assessment, and on a careful investigation of the subject are fully satisfied that the prayer of the petitioner ought not to be granted, and respectfully submit the following resolution

Resolved, that the prayer of the [298] Petitioner ought not to be granted

[336] The Ferry Committee to whom was referred the petition of Philip Hone John C Stevens and Robert L Stevens Reported

The Committee on Ferries to whom was referred the petition of Philip Hone John C Stevens and Robert L Stevens, stating that they had made a Conditional agreement for the transfer on the One Side and the purchase on the other of all the right of ferriage heretofore granted by the Corporation to Philip Hone, and requesting the Corporation to transfer the Leases of the Ferries from Barclay and Spring Streets to Hoboken to John C Stevens and Robert L Stevens,

Report That Philip Hone holds a lease from the Corporation of the Ferry from Barclay Street to Hoboken [337] dated August 10 1818 for 12 years from the first of May 1818, and which will consequently expire *of* [on] the 1st of May 1830. at an average Rent of $595 per Annum from the 1st May 1821. That by the conditions of this Lease Hone is to keep upon this Ferry a suitable number of good and substantial Boats, sufficiently large, and adapted as well to transport Horses and Carriages, as passengers, and in addition to these, Two good and substantial Team Boats each to be propelled by not less than 8 good Horses and also that the said Philip Hone holds another lease from the Corporation of the ferry from Spring Street (without the Slip. and within Two Hundred feet of the foot of said Street) to Hoboken, dated October 2d 1820 for 15 years from the 1st of May 1820. which will therefore expire on the 1st of May 1835 at the following Rent Viz. the First Five Years at One Cent per annum the next Five Years at $50 per annum and the last Five Years at $200 per annum, and the said lease contains an Extension of Five Years for the Ferry from the foot of Barclay Street to Hoboken at $800 per annum for the time extended (in consequence of [338] which extension both leases will expire at the same time) Provided Hone

* The report is not entered.—Ed.

puts in the Ferry from Spring Street to Hoboken Two good and substantial Sail Boats immediately, and also one good *good* and substantial Team Boat before 1st May 1821. That Hone has complied with the Conditions Except putting a Team Boat on the Ferry, he states that he was about contracting for the building of a Team Boat for this purpose, when to his surprise Mr John Stevens Proprietor of the Island of Hoboken, for reasons unknown to him (Hone) issued a Writ of Ejectment for the purpose of reentering on the Ferry, and that he being ignorant of the Cause of Mr Stevens proceedings, and aware of the uncertainty of the decisions of Juries. and of the time which it might take to settle the question, did not think it prudent to incur the expense of Building a Team Boat, and that he petitioned the Corporation on 26th February last to grant him a reasonable extension of time to put the Team Boat on said Ferry, after the result of Mr Stevens suit should be known [339] and whereas John C Stevens and Robert L Stevens agree to make very great improvements on said Ferries by putting on the ferry from Barclay Street to Hoboken in place of the Two Team Boats now running a very superior steam Boat from 90 to 100 feet on deck, and 42 feet beam, the boat to be built of the best Cedar and Oak, and the said John C Stevens and Robert L Stevens further agree, that if the Steam Boat does not accomodate the Public as well as the Two Team Boats now on said Ferry, they will at any time during the lease, when required by the Corporation, put on one Team Boat, in addition to the said Steam Boat, and the said Boats are to be approved by the Corporation.

And whereas also John C Stevens and Robert L Stevens agree to put on the Ferry, from Spring Street to Hoboken, in addition to the Two Sail Boats now in use, a good and substantial Team Boat to be propelled by not less than 8 Good Horses by the 1st of May 1822 (the said Boat to be approved by the Corporation)

Therefore your Committee, having duly examined the business, are decidedly of opinion that the Public will be much better accomodated by having a Steam Boat in the place of the Two Team Boats, now [340] running on the Ferry from Barclay Street to Hoboken since (among other advantages they believe that the Steam Boat will make the passage in less than half the time taken by the Team Boats,

Your Committee therefore recommend the adoption of the following Resolutions

Resolved, That upon John C Stevens and Robert L Stevens placing on the Ferry from Barclay Street to Hoboken a Steam Boat of the dimensions above stated and to be approved by the Corporation, in

addition to the sail Boats now on said Ferry, and Philip Hone surrendering to the Corporation, the Lease which he now holds of said Ferry, that the Counsel of the Board be instructed to prepare in Conformity to the tenor of this Report a new Lease to John C Stevens of the said ferry from Barclay Street to Hoboken for 9 years from the 1st of May 1821 at a Rent of $595 per year payable quarterly

And further Resolved that upon John C Stevens and Robert L Stevens placing on the Ferry from Spring Street [341] (without the Slip and within 200 feet of the foot of said Street) to Hoboken one Good and Substantial Team Boat in addition to the two Sail Boats now in use on said Ferry, on or before the 1st day of May 1822, and Philip Hone surrendering to the Corporation the Lease which he now holds of said ferry, that the Counsel of the Board be instructed to prepare in Conformity to the tenor of this Report, a new Lease to John C Stevens and Robert L Stevens of said Ferry from Spring Street to Hoboken for 14 years from the 1st of May 1821 at the following Rent, for the first 4 years at 1 Cent per year for the next 5 years at $50 per year and for the last 5 years at $200 dollars per year payable Quarterly—and that this Lease shall contain an extension of the lease of the ferry from Barclay Street to Hoboken for 5 years (which will cause bothe leases to expire on the 1st May 1835) at a Rent of $800 per year payable quarterly for the time so extended.

Resolved that the leases mentioned in the preceeding resolutions be so drawn as to comprehend all the conditions, restrictions &c which are contained in the corresponding leases to Philip Hone, and that the foregoing [342] Resolutions shall not be binding upon the Corporation until the leases which shall be prepared by the Counsel shall be ordered to be executed by them and the counterpart thereof shall be executed by the said John C Stevens and Robert L Stevens
